Note 1 - **Description of Plan:**

The following description of the Employees' Profit Sharing Plan of Anesthesia Group of Albany, P.C. provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) ***General.*** The Plan is a defined contribution plan, which includes a qualified deferred arrangement as described in section 401(k) of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan is for the benefit of all full-time employees of the Company classified as shareholder or other employee and who has attained the age of 21.

(b) ***Effective date.*** The plan became effective on July 2, 1973, and was amended and restated effective as of January 1, 2009.

(c) ***Contributions – Employer.*** Each year, the Company may contribute a discretionary contribution for certain classes of employees at the option of the Company's board of directors. Discretionary contributions amounted to $1,814,056 for the year ended December 31, 2009.

(d) ***Contributions – Employees.*** Each year, participants may contribute up to the lesser of $16,500 or 100% of annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

(e) ***Participant's Accounts.*** Each participant's account is credited with the participant's salary reduction contribution, the Company's discretionary contributions, plan earnings, and realized and unrealized security gains and losses. The benefit to which a participant is entitled is that which can be provided from the participant's account.

(f) ***Vesting.*** Participants are immediately vested in their salary reduction and employer discretionary contributions plus actual earnings thereon.

Note 1 - **Description of Plan (Continued):**

(g) ***Investment Options.*** The Plan provides for self-directed investment programs as it allows participants to choose among various investment alternatives.

(h) ***Participant Notes Receivable.*** Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% (fifty percent) of their vested account balance, whichever is less. Loan terms range up to five years. Terms of loans for the purpose of purchasing a principal residence are determined by the Plan Administrator. The loans are secured by the balance in the participant's account and bear interest at the Wall Street Journal Prime rate plus 1%. The interest rate for the participant loans range between 6.75% and 9.25%. Principal and interest is paid ratably through payroll deduction.

(i) ***Payment of Benefits.*** The Trust shall make or begin distribution of the benefits payable on a participant's (a) retirement after attaining his retirement date, or (b) sustaining total and permanent disability, or (c) death, based upon the balance in such participant's account as of the valuation date coinciding with or immediately preceding the date on which such participant retires, dies or becomes disabled. If a participant terminates his service before retirement date, payment will be made in accord with the plan document based upon the elections available.

Note 2 - **Summary of Accounting Policies:**

(a) ***Basis of Accounting.*** The financial statements of the Plan are prepared under the accrual method.

(b) ***Investment Valuation and Income Recognition.*** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

(c) ***Payment of Benefits.*** Benefits are recorded when paid.

Note 2 - **Summary of Accounting Policies (Continued):**

(d) ***Use of Estimates.*** Management uses estimates and assumptions in preparing these financial statements in accordance with accounting principals generally accepted in the United States of America. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

(e) ***Subsequent Events.*** The Company has performed an evaluation of subsequent events through October 11, 2010, which is the date the financial statements were available to be issued, and noted no events occurring subsequent to December 31, 2009 and through the date of our evaluation requiring accrual or disclosure in these financial statements.

	2009
Mutual Funds	$3,923,991

Exchange Traded Funds	187,336
Collective Investment Trust	122,894
Corporate Bonds	46,398
Municipal Bonds	262
Net Appreciation in Fair Value of Investments	$4,567,329

Note 4 - **Fair Value Measurements:**

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under generally accepted accounted principles are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by the observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 - **Fair Value Measurements (Continued):**

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common stocks, exchanged traded funds, corporate bonds and municipal bonds: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Collective investment trust: Valued at the net asset value of the units held by the Plan at year end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - **Fair Value Measurements (Continued):**

The Organization's investments are reported at fair value in the accompanying statement of financial position on December 31, 2009 and 2008.
