REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator of the
Furniture Marketing Group 401(k)/Profit Sharing Plan

We were engaged to audit the financial statements of the Furniture Marketing Group 401(k)/Profit Sharing Plan as of December 31, 2009 and 2008, and for the years then ended, and the supplemental schedules as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information which was certified by Bank of America, N.A. (formerly known as Merrill Lynch Trust Company) and Transamerica Financial Life Insurance Company, the trustees of the Plan, except for comparing the investment information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that Bank of America, N.A. held the Plan's investment assets as of December 31, 2008 and executed investment transactions from January 1, 2008 to September 14, 2009, and that Transamerica Financial Life Insurance Company held the Plan's investment assets as of December 31, 2009 and executed investment transactions from September 15, 2009 to December 31, 2009. The Plan Administrator has obtained certifications from the trustees as of and for the years ended December 31, 2009 and 2008, and that the information provided to the Plan Administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustees has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

As discussed in Note B to the financial statements, Furniture Marketing Group, Inc. has incurred net losses prior to 2009, has an accumulated deficit, and has a working capital deficit. As a result, the continuation of the Plan is uncertain. Should the Plan be terminated, the terms discussed in Note H to the financial statements would be applicable. The financial statements and supplemental schedules do not include any adjustment that might result from this uncertainty.

The Company's corporate offices are located in Plano, Texas.

General

The Plan, which was established effective January 1, 1991, was amended and restated effective October 1, 2001, as a defined contribution plan covering all employees of the Company who have at least three months of service and are age 21 or older. All employees of the Company are eligible to participate in the Plan, except for those employees covered by a collective bargaining agreement. Entry into the Plan occurs on the first day of each calendar quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In conjunction with a change in trustee from Bank of America, N.A., (formerly known as Merrill Lynch Trust Company), effective July 1, 2009, the Plan was amended and restated through the adoption of the Transamerica Financial Life Insurance Company Volume Submitter 401(K) Profit Sharing Plan. However, the physical transfer of assets from Bank of America, N.A. to Transamerica Financial Life Insurance Company ("Transamerica") was not completed until September 15, 2009.

Contributions

Participants may elect to contribute up to 15% of their eligible compensation, as defined by the Plan, not to exceed the amount deductible for federal income tax purposes through June 30, 2009. Effective July 1, 2009, participants may elect to have compensation deferred up to the maximum allowed by the Internal Revenue Code (the "Code"). Eligible participants may make a rollover contribution to the Plan.

Prior to July 1, 2009, participants who are eligible to make salary deferral contributions under the Plan and who have attained age 50 before the close of the Plan year may make catch-up contributions in accordance with, and subject to the limitations imposed by the Code. Beginning July 1, 2009, catch-up contributions are not allowed in accordance with the Plan Document.

The Company may make a discretionary match not to exceed 50% of the participants' first 6% of their pretax eligible compensation through June 30, 2009. Effective, July 1, 2009, the Company may make a matching contribution equal to a discretionary percentage to be determined by the Company. The Company may also make profit sharing contributions at an amount determined by the board of directors. For the years ended December 31, 2009 and 2008, the Company did not authorize a profit-sharing contribution. For the year ended December 31, 2009, the board of directors did not authorize a discretionary matching contribution. For the year ended December 31, 2008, the board of directors approved a discretionary matching contribution of approximating $52,000.

A. Description of the Plan – continued

Participant Accounts

Under the Plan each participant's account is credited with the participant's contributions, allocations of the Company's contribution, if any, and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited Accounts

Forfeited balances of matching contributions are eligible to reduce the Company's contributions for the succeeding Plan year. Forfeited balances of profit sharing contributions are allocated to participants in the succeeding Plan year in the ratio that the compensation of each participant for the Plan year bears to the total compensation of all participants entitled to share in the contributions. Forfeiture account balances at December 31, 2009 and 2008 were approximately $10,500 and $9,600, respectively. No forfeitures were allocated in 2009 or 2008.

Vesting

Participants are immediately vested in their voluntary contributions to the Plan plus actual earnings thereon, and the participants' matching and profit sharing contributions and earnings thereon vest at 20% a year over a five-year period. Also, participants are fully vested in matching and profit sharing contributions in the event of retirement at age 65, disability, or death.

Number of Completed Years of Service	Vesting Percentage
Less than 1 year	0%
1 year, less than 2 years	20%
2 years, less than 3 years	40%
3 years, less than 4 years	60%
4 years, less than 5 years	80%
5 years or more	100%

Investment Options

Upon enrollment in the Plan, a participant may direct employer and employee contributions in 1% increments into a variety of investment options, which vary in degree of risk. Participants may change their investment options daily.

A. Description of the Plan – continued

Participant Loans

Participants are allowed to borrow from their accounts. The loans must be at least $1,000 and cannot exceed the lesser of 50% of the participants' vested balance or $50,000. Loans must be repaid through payroll deductions within five years, unless the funds are used for the purchase of a primary residence in which case the term may extend up to ten years. Interest rates on outstanding loans at December 31, 2009 and 2008, ranged from 4.25% to 9.25%.

Payment of Benefits

On termination of service due to death, disability, retirement, or termination of employment, a participant or designated beneficiary is entitled to receive the value of the participant's vested interest in his or her account as defined by the Plan. Payment shall be made as soon as practicable following the participant's actual retirement following the normal retirement date, disability, termination of employment, or death, as the case may be.

A participant may receive a hardship distribution from salary reduction contributions if the distribution is: (1) on account of uninsured medical expenses incurred by the participant, their spouse or dependents; (2) to purchase (excluding mortgage payments) a principal residence of the participant; (3) for the payment of post-secondary tuition expenses; (4) needed to prevent eviction of the participant from their principal residence or foreclosure upon the mortgage of the participant's principal residence; (5) funeral expenses for a participant's spouse, parents, children, or dependents; or, (6) certain repairs of damage to the participant's principal residence.

The mandatory distribution provisions of the Plan allow for an automatic rollover to an individual retirement account established for the benefit of the terminated participant's account if the vested account balance exceeds $1,000 but is less than $5,000. These automatic rollovers are completed only if the participant does not request a distribution from the Plan in a timely manner following their termination. Terminated participants with vested account balances of less than $1,000 are subject to an involuntary lump-sum distribution if they do not submit distribution instructions in a timely manner.

Plan Expenses

Employees of the Company perform certain administrative functions with no compensation from the Plan. Generally, most Plan expenses are paid by the Company and are not reflected in the accompanying financial statements. The Plan pays administrative expenses as reflected in the accompanying financial statements.

B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Basis of Presentation

The accompanying financial statements and supplemental schedules of the Plan have been prepared assuming that the Company will continue as a going concern. The Company's recurring losses, and accumulated deficit, and a working capital deficit resulting from debt covenant violations raise substantial doubt about the Company's ability to continue as a going concern. The uncertainty regarding the Company's ability to continue as a going concern raises substantial doubt about the Plan's continuation. Should the Plan be terminated, the terms discussed in Note H would be applicable. The financial statements and the supplemental schedules do not include any adjustments that might result from the outcome of this uncertainty.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates

Contributions

Contributions from the participants are accrued in the period in which they are deducted in accordance with salary deferral agreements and obligations of the Company, as determined by the Plan's Administrator. Contributions exceeding allowable limits in the Code are accrued and recorded as refundable amounts to participants in the year the contributions were originally received. During the year ended December 31, 2009 and 2008, excess contribution amounts totaled approximately $47,000 and $41,000, respectively, and are included in the accompanying statements of net assets available for benefits.

Investment Valuation and Income

The investments of the Plan are stated at fair value as of the end of the Plan year and are subject to market or credit risks customarily associated with equity investments. Fair value measurements are determined in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic No. 820, *Fair Value Measurements*, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about assets and liabilities measured at fair value. The Plan adopted FASB ASC Topic No. 820 effective January 1, 2008, and such adoption did not have material impact on the financial statements of the Plan. See Note D for information related to the Plan's valuation methodologies under FASB ASC Topic No. 820.

B. Summary of Significant Accounting Policies – continued

Investment Valuation and Income – continued

Investment gains and losses are accounted for using the average cost basis of the securities sold. The net realized and unrealized gains and losses on investments include realized gains and losses on sales of investments during the year and unrealized increases or decreases in the market value of investments held at year end. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Impact of Recently Issued Accounting Standards

In June 2009, the FASB issued a standard which established the ASC as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The ASC was effective for financial statements issued for annual periods ending after September 15, 2009, and was adopted by the Plan in the year ended December 31, 2009. Adoption of this standard did not impact the Plan's financial statements.

In October 2008, the FASB issued FASB ASC Topic No. 855, *Subsequent Events*, which requires management to evaluate subsequent events through the date the financial statements are issued, or are available to be issued as defined in the guidance. It also requires the Plan to disclose in the financial statements, the date through which subsequent events have been evaluated.

C. Investments

The following table presents the individual investment securities that exceed 5% of the Plan's net assets available for benefits at December 31:

	2009
Transamerica Stable Value Fund	$ 1,228,251
Blackrock Global Allocation Fund	768,952
American Funds Growth Fund of America	584,551
American Century Global Growth Fund	569,326
Transamerica Partners Stock Index Fund	460,202
Pioneer Bond Fund	376,323

C. Investments – continued

	2008
Merrill Lynch Retirement Reserves Fund	$ 832,248
Blackrock Fundamental Growth A Fund	422,065
Blackrock S&P 500 Index Cl l Fund	344,094
Oppenheimer Global Fund	326,705
MFS Core Equity A GM Fund	313,956
PIMCO Tot Return Cl A GM Fund	229,076
Participant Loans	259,726

During 2009 and 2008 the Plan's net realized and unrealized gains (losses) on investments in mutual funds were $650,598 and ($1,653,845), respectively

The Transamerica Stable Value Advantage Fund (the "Fund") is a fully benefit-responsive investment contract held by the Plan. The repayment of principal and interest credited to participants holding the Fund is a financial obligation of Transamerica Financial Life Insurance Company ("Transamerica"). However, if an event should occur such that realization of full contract value is no longer probable, the Fund may no longer be considered fully benefit-responsive. As the Fund is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value between Transamerica and a participant holding the Fund is not probable.

The Fund is invested in the general account of the insurance company issuing the contract and has no stated maturity. Interest rates are reset monthly as of the beginning of the month, during which a new interest rate is applied daily to the total outstanding balance of the investment. During 2009, the average rate of the Fund was 3.49%. The Fund is considered fairly valued at contract value by Transamerica and is reported as a stable value fund in the accompanying Statements of Net Assets Available for Benefits.

D. Fair Value Measurements

FASB ASC Topic No. 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The hierarchy focuses on the inputs used to measure fair value and requires that the lowest level input be used.

D. Fair Value Measurements – continued

The three levels defined in FASB ASC Topic No. 820 are as follows:

- Level 1 — observable inputs that are based upon quoted market prices for identical assets or liabilities within active markets.

- Level 2 — observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.

- Level 3 — inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability.

Following is a description of the Plan's valuation methodologies for assets and liabilities measured at fair value. Such valuation methodologies were applied to all of the assets and liabilities carried at fair value effective January 1, 2008. Fair value is based upon quoted market prices, where available. If listed prices or quotes are not available, fair value is based upon models that primarily use, as inputs, market-based or independently-sourced market parameters, including yield curves, interest rates, volatilities, and equity or debt prices.

In addition to market information, models also incorporate transaction details, such as maturity. Valuation adjustments, such as liquidity valuation adjustments, may be necessary when the Plan is unable to observe a recent market price for a financial instrument that trades in inactive (or less active) markets. Liquidity adjustments are not taken for positions classified within Level 1 (as defined above) of the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table presents the investments carried at fair value as of December 31, 2009 and 2008, by caption on the Statement of Net Assets Available for Benefits and by FASB ASC Topic No. 820 valuation hierarchy. The Plan has no assets classified within Level 3 of the valuation hierarchy**.**

- Mutual funds: Valued based on quoted market prices of the underlying assets provided by the trustee and are classified within Level 1 of the valuation hierarchy.

- Money market accounts: Valued based on the short-term cash component as of the measurement date and classified within Level 1 of the valuation hierarchy.

D. Fair Value Measurements – continued

- Participant-directed accounts: Self-directed brokerage accounts which allow participants to invest in mutual funds, fixed income instruments, or publicly traded stocks. The investments are valued based on the underlying assets provided by the trustee and are classified within Level 1 of the valuation hierarchy.

- Participant loans: Valued at the outstanding principal balance, which approximates fair value and are classified within Level 2 of the valuation hierarchy.

- Pooled separate accounts: Valued based on the quoted market prices of the underlying assets as the accounts are invested in underlying mutual funds traded on an established market and are classified within Level 2 of the valuation hierarchy.

- Stable value fund: Determined by values reported by the trustee of the Plan and is considered fairly valued at contract value (which approximates fair value) and is classified within Level 2 of the valuation hierarchy.

Assets and liabilities measured at fair value on a recurring basis:

December 31, 2009	**Quoted market prices in active markets (Level 1)**	**Models with significant observable market parameters (Level 2)**	**Total carrying value in the Statement of Net Assets Available for Benefits**

Total assets at fair value	$ 3,722,639	$ 259,726	$ 3,982,365

E. Tax Status

The Plan had received a determination letter from the Internal Revenue Service ("IRS") dated August 16, 1994, stating that the Plan was qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust was exempt from taxation. The Plan had been amended and restated through the adoption of the Merrill Lynch Prototype Non-standardized Profit Sharing Plan with CODA, which had received a favorable opinion letter from the IRS dated June 4, 2002, stating that the written form of the Plan is acceptable for use by employers.

Effective July 1, 2009, the Plan was amended and restated through the adoption of the Transamerica Financial Life Insurance Company Volume Submitter 401(K) Profit Sharing Plan, which received a favorable opinion letter from the IRS dated May 30, 2008.

Once qualified the Plan is required to operate in conformity with the Code to maintain its qualification. The Company believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, the Company believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

F. Parties-in-Interest Transactions

The Plan invests in pooled separate accounts and a stable value fund managed by Transamerica for the period September 15, 2009 through December 31, 2009 and in share of mutual funds managed by Merrill Lynch Trust Company ("Merrill Lynch") for the year ended December 31, 2008 and for the period January 1, 2009 to September 14, 2009. Because Transamerica and Merrill Lynch act as trustee for only those investments as defined by the Plan, transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

G. Information Certified by the Trustee

The Plan's Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan's Administrator limited auditing procedures with respect to the investment information certified by the trustees, which included total investments as of December 31, 2009 and 2008, the total investment income (loss) for the years ended December 31, 2009 and 2008, and all information included in the supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year).

H. Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their entire account balance. All of the assets of the Plan would be distributed to the participants at the discretion of the Company or continue to be held in a trust fund to be distributed to each participant upon retirement, death, permanent disability, or termination of employment.

I. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2009	2008
Net assets available for benefits per the financial statements	$ 5,003,855	$ 4,011,941
Participant contributions receivable per the financial statements	(11,697)	(18,870)
Employer contributions receivable per the financial statements	-	(51,593)
Excess contributions payable per the financial statements	46,752	40,887
Net assets available for benefits per the Form 5500	$ 5,038,910	$ 3,982,365

The following is a reconciliation of the increase (decrease) in net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2009	2008
Increase (decrease) in net assets available for benefits per the financial statements	$ 991,914	$ (1,202,116)
Prior year participant contributions receivable per the financial statements	18,870	40,869
Current year participant contributions receivable per the financial statements	(11,697)	(18,870)
Prior year employer contributions receivable per the financial statements	51,593	-
Current year employer contributions receivable per the financial statements	-	(51,593)
Prior year excess contributions payable per the financial statements	(40,887)	(49,065)
Current year excess contributions payable per the financial statements	46,752	40,887
Increase (decrease) in net assets available for benefits per the Form 5500	$ 1,056,545	$ (1,239,888)

The reconciling items noted above are due to the difference in the method of accounting used in preparing the Form 5500 as compared to the Plan's financial statements. The modified cash basis was used in 2009 and 2008 in preparing the Form 5500, whereas the Plan's financial statements have been prepared on the accrual basis of accounting as required by accounting principles generally accepted in the United States of America.

J. Subsequent Event

In preparing the Plan's financial statements, the Company has evaluated all subsequent events and transactions for potential recognition or disclosure through October 13, 2010, the date the financial statements were available for issuance.
