2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Purchases and sales of securities are recorded on a trade date basis and dividends are recorded on the ex-dividend date. Cash accounts are valued at cost, which equals current value.

Group annuity contracts held by a defined contribution plan are required to be reported at fair market value. However contract value is the relevant measurement attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The investment contracts held by the plan in guaranteed interest accounts are not fully benefit- responsive and accordingly no adjustment from fair value to contract value has been made in the accompanying financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan managers to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

3. INVESTMENTS

The plan's investments are held by an administered trust fund and are stated at fair value. All of the Plan's investments are separately identified and listed on Supplemental Schedule of Assets Held.

4. PLAN TERMINATION

Although it has not expressed any intent to do so, Vanguard Industries East, Inc. has the right under the plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
