Report of Independent Auditors

The Plan Administrator
Mission Pharmacal Company
Retirement Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Mission Pharmacal Company Retirement Savings Plan as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by Hand Benefits & Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedule as a whole. The supplemental schedule is presented for the purposes of additional analysis and is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Mission Pharmacal Company
Retirement Savings Plan

Notes to Financial Statements

December 31, 2011

1. Significant Accounting Policies

The financial statements of Mission Pharmacal Company Retirement Savings Plan (the Plan) have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP). Benefit payments to participants are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investments in various investment securities, which in general are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits and participant account balances.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion on fair value measurements. Investments in mutual funds are stated at fair value based on quoted market prices. Investments in common/collective trust funds are stated at net asset value per share as determined by the issuer based on the fair value of the underlying assets.

1. Significant Accounting Policies (continued)

The Hand Benefits & Trust Short Term Income Fund (STIF) invests in fully benefit-responsive investment contracts. Financial statements prepared in accordance with GAAP require these types of investments to be reported at fair value; however, because these contracts are fully benefit-responsive, an adjustment is required in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. Due to the immateriality of the adjustment from fair value to contract value, the STIF is stated at contract value, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* to clarify certain existing fair value disclosures and require a number of additional disclosures. The requirement to present changes in Level 3 measurements on a gross basis is effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurement,* to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on its financial statements.

1. Significant Accounting Policies (continued)

Subsequent Events

Management evaluated subsequent events for the Plan through October 1, 2012, the date the financial statements were available to be issued.

2. Plan Description and Benefits

The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Mission Pharmacal Company (the Company or Employer) who are age 21 and have completed three months of service with the Company, as specified in the Plan. Effective October 1, 2011, the age and service requirements were removed and all employees are eligible for the plan immediately upon date of hire. The Plan is for the exclusive benefit of its eligible participants and their beneficiaries. The Plan is designed to meet the requirements of Internal Revenue Code (the Code) Section 401(a) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants can contribute up to the amounts permitted by the Internal Revenue Service (IRS). Also, the Company may make a discretionary matching contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company did not match participant contributions during the years ended December 31, 2011 or 2010.

All eligible participants are automatically enrolled in the Plan with a contribution rate of 1% of their paycheck each payroll period, unless the employee has elected an alternative deferral amount or elected not to defer under the Plan.

All contributions are participant-directed into various mutual funds and common collective trust funds offered by the Plan.

2. Plan Description and Benefits (continued)

Vesting and Benefit Provisions

Participants are at all times 100% vested in their contributions. Earnings on the amount that the participant elects to contribute are also 100% vested at all times. Vesting with respect to Company contributions occurs at the rate of 20% per year of service beginning after the first year of service. A participant is fully vested in Company contributions after completion of six years of service.

Upon the death, disability, or retirement of a participant, vested benefits are paid to the participant or his/her designated beneficiary. Benefits are payable in the form of cash or annuities, as outlined in the Plan.

In the event a participant dies or becomes totally and permanently disabled prior to the commencement of benefits, the participant's account balance becomes fully vested. Upon termination of employment with the Company, a participant is not eligible to make further contributions to the Plan. A terminated participant may share in Company discretionary contributions in the year of termination if the minimum service requirements for the participant as outlined in the Plan are met. A terminated participant may elect to withdraw the vested balance from his/her account or may leave the account intact to be distributed upon reaching the age of retirement.

The Plan incorporates a normal retirement age of 65. The Plan does not provide for an early retirement benefit. Participants who do retire early will be vested in accordance with the plan vesting schedule and will receive their benefits in the same manner as in termination of employment. Participants may elect to postpone retirement beyond the normal retirement age of 65 and continue to share in contributions to the Plan. Further, participants may elect to receive funds from their 100%-vested accounts at any time after attaining the age of 59 1/2.

Distributions of plan benefits are not permitted before the age of 59 1/2 except in the event of the following: (1) death, (2) disability, (3) termination of employment, or (4) reasons of proven financial hardship. In the case of financial hardship, distributions are limited to the participant's vested account.

2. Plan Description and Benefits (continued)

Forfeiture Provisions

Forfeitures represent amounts not vested at the date of a participant's retirement or withdrawal from the Plan.

Unallocated forfeitures of $52,977 and $48,674 at December 31, 2011 and 2010, respectively, are available to reduce future Company discretionary contributions. There were no forfeitures used to reduce the 2011 or 2010 Employer contributions.

Administration

The Plan is administered under a written agreement entered into by the plan trustee and the Company. The plan trustee is Hand Benefits & Trust Company, and the plan administrator is the Company. The plan trustee is responsible for investment of the plan assets, and all investments are held with Hand Benefits & Trust Company. The Company is responsible for all significant administrative costs that are not specifically related to participant investment election options.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

3. Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the form of the plan is qualified under Section 401(a) of the Code and, therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2011-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

3. Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

4. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments in mutual funds and common/collective trust funds held at December 31, 2011 and 2010, and net appreciation (depreciation) in fair value of investments and interest and dividend income from mutual funds and common/collective trust funds for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Hand Benefits & Trust Company, the trustee.

The Plan's investments (including investments bought and sold, as well as held during the year) (depreciated) appreciated in fair value as follows for the years ended December 31:

	2011	2010
Mutual funds	**$ (1,022,245)**	$ 1,183,991
Common/collective trust funds	**(34,867)**	420,389
	$ (1,057,112)	$ 1,604,380

4. Investments (continued)

Individual investments that represent 5% or more of the Plan's net assets at December 31 are as follows:

	2011	2010
American Growth Fund of America	**$ 2,147,785**	$ 2,640,263
American Capital World Growth and Income Fund	**1,986,165**	2,574,067
Fidelity Advisor Mid Cap Fund	–	1,859,701
JP Morgan Mid Cap Growth	**1,661,332**	–
Eaton Vance Large Cap Value Fund	**1,438,166**	1,748,668
Hand Benefits & Trust Short Term Income Fund	**1,967,147**	1,654,542
Invesco Van Kampen Equity and Income Fund	**1,472,923**	1,608,748
Fidelity Advisor Government Income Fund	**1,966,903**	1,463,856
Hand Benefits & Trust Equity Index 500 Fund	**1,063,337**	1,170,980
Royce Value Plus Fund	–	1,142,117
AITC SMART 2030 R2	**1,033,925**	1,014,887

5. Fair Value Measurements

ASC 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted market prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

5. Fair Value Measurements (continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation techniques and inputs described in Note 1 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different techniques and inputs or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the techniques or inputs used at December 31, 2011 or 2010.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010, respectively:

[a] This category includes the Hand Benefits & Trust Large Cap Core Index Fund, which is invested in a pooled collective fund managed by Barclays Global Investors and is structured to produce returns that are consistent with the S&P 500 Index. The Hand Benefits & Trust Large Cap Core Index Fund attempts to duplicate the investment performance of the S&P 500 by owning all of the 500 common stocks appropriately weighted and represented by the S&P 500 Index. There are currently no redemption restrictions on this investment. The fair value of the investment in this category has been estimated using daily market values.

[b] This category includes investments in highly diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances. These common/collective trust funds share the common goal of first growing and then later preserving principal and contain a mix of U.S. common stocks, U.S.-issued bonds, and cash. There are currently no redemption restrictions on these investments. The fair values of the investments in this category have been estimated using net asset value per share.

[c] This category includes a common/collective trust fund that is designed to protect capital with low-risk investments and includes cash, bank notes, corporate notes, government bills, and various short-term debt instruments. There are currently no redemption restrictions on this investment. The fair value of the investment in this category has been estimated using net asset value per share.

6. Related-Party Transactions

Certain investments of the Plan are managed by Hand Benefits & Trust Company. Hand Benefits & Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. All of these transactions are exempt from the prohibited transactions rules.
