FENWICK & WEST LLP
401(k) PLAN
(FORMERLY THE FENWICK & WEST LLP SAVINGS AND INVESTMENT PLAN II)

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

NOTE 1 - THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General - The following description of the Fenwick & West LLP 401(k) Plan (the Plan) provides only general information. The Plan's name was changed from the Fenwick & West LLP Savings and Investment Plan II effective January 1, 2009. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established in 1992 by Fenwick & West LLP (the Partnership) to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code), as amended, and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

In November 2008, the Partnership resolved to merge the Fenwick & West LLP Savings and Investment Plan (the Fenwick Savings Plan), another defined contribution plan sponsored by the Partnership, with the Plan effective December 31, 2008. As a result of the merger, assets of approximately $15,622,000 were transferred to the Plan.

Administration - The Partnership has appointed the Retirement Committee (the Committee) to manage the operation and administration of the Plan. The Partnership has contracted with Fidelity Management Trust Company (Fidelity) to act as the custodian and trustee, and an affiliate of Fidelity to process and maintain the records of participant data. Substantially all expenses incurred for administering the Plan are paid by the Partnership, except for certain recordkeeping fees which are paid by the Plan.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts - Forfeited nonvested accounts will be used to pay Plan expenses or reduce future employer contributions.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Transfers from the Plan - Transfers from the Plan during 2008 were to the Fenwick Savings Plan and were required periodically as a result of participants changing employment classifications.

Income taxes - The Plan has adopted a prototype plan that has received an opinion letter from the Internal Revenue Service. The Partnership believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Risks and uncertainties - The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Recent accounting pronouncements - In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update 2010-06 which expanded the required disclosures about fair value measurements. In particular, this guidance requires: 1) separate disclosure of the amounts of significant transfers in and out of level 1 and level 2 fair value measurements along with the reasons for such transfers, 2) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for level 3 fair value measurements, 3) fair value measurement disclosures for each class of assets and liabilities and 4) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either level 2 or level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for 2) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Subsequent events - The Plan has evaluated subsequent events through September 10, 2010, which is the date the financial statements were available to be issued.

NOTE 2 - FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;

- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds and money market fund: Valued at the net asset value (NAV) of shares held by the Plan at year end. It is not probable that the mutual or money market funds will be sold at amounts that differ materially from the NAV of shares held.

Participant loans: Valued at amortized cost, which approximates fair value.

Personal choice funds: This investment of the Plan is comprised of: 1) mutual funds, which are valued at the NAV of shares held by the Plan at year end, and 2) common stock, bonds and interest bearing cash, which are valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at fair value as of December 31, 2009

NOTE 3 - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by an affiliate of Fidelity, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 4 - PARTICIPATION AND BENEFITS

Participant contributions - Participants may elect to have the Partnership contribute their eligible pre-tax, Roth or other after-tax compensation to the Plan up to the amount allowable under the Plan document and current income tax regulations. An employee who meets Plan eligibility requirements will be automatically enrolled in the Plan at a rate of 3% of eligible compensation, with an automatic deferral increase of 1% each year, up to a maximum of 10%, unless the employee opts out on or after the 30th day following the employee entry date. The automatic enrollment feature defaults into a predetermined fund unless another fund is elected by the participant. Participants who elect to have the Partnership contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable or taxed compensation. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions - The Partnership is allowed to make discretionary matching and profit sharing contributions as defined in the Plan and as approved by the Board of Directors. No such contributions have been made for the years ended December 31, 2009 and 2008. During 2009, the Partnership made contributions on behalf of certain participants that did not have the requested withholdings primarily from their 2009 compensation.

Vesting - Participants are immediately vested in their contributions. Prior to December 1, 2009, participants were fully vested in the Partnership's discretionary matching and profit sharing contributions allocated to their account after six years of credited service. Effective December 1, 2009, participants are fully vested in the Partnership's discretionary matching and profit sharing contributions allocated to their account after three years of credited service

Participant accounts - Each participant's account is credited with the participant's contribution, Plan earnings or losses and an allocation of the Partnership's contributions, if any. Allocation of the Partnership's contributions is based on participant contributions or eligible employee compensation, as defined in the Plan.

Payment of benefits - Upon termination, the participants or beneficiaries may elect to leave their account balance in the Plan, or receive their total benefits in a lump sum amount equal to the value of the participant's vested interest in their account. The Plan allows for the automatic distribution of participant vested account balances that do not exceed $5,000. Effective January 1, 2009, the automatic distribution threshold was lowered to $1,000.

Loans to participants - The Plan allows participants to borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the participant's vested balance. Such loans bear interest at the available market financing rates and must be repaid to the Plan within a five-year period, unless the loan is used for the purchase of a principal residence in which case the maximum repayment period may be longer. The specific terms and conditions of such loans are established by the Committee. Outstanding loans at December 31, 2009 carry interest rates ranging from 3.25% to 9%.

NOTE 5 - CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Fidelity has certified the current value of assets held at December 31, 2009 and 2008, and transactions entered into during the respective years, that were used in the preparation of the accompanying financial statements and supplemental schedule. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.
