INDEPENDENT AUDITORS' REPORT

Plan Administrative Committee
Generon IGS, Inc. 401(k) Retirement Plan:

We were engaged to audit the financial statements and supplemental schedule of the Generon IGS, Inc. 401(k) Retirement Plan (the Plan) as of December 31, 2009 and 2008, and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, auditing procedures with respect to the information summarized in note 5, which was certified by John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that John Hancock Life Insurance Company (U.S.A.) holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

401(k) RETIREMENT PLAN

Notes to Financial Statements
December 31, 2009 and 2008

1. **Plan Description**

General

Generon IGS, Inc. 401(k) Retirement Plan (the Plan) is a defined contribution 401(k) plan covering substantially all employees of Generon IGS, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions, which is available from the Plan administrator.

Eligibility

All employees are eligible to participate after completing one month of service and having also attained age twenty-one, unless they are considered an excluded employee. The entry date into the Plan is the first day of the plan year quarter coinciding with or next following the date the employee satisfies the Plan's eligibility requirements. Special rules apply if an employee is terminated and rehired. The excluded employees are as follows:

- Employees whose employment is governed by a collective bargaining agreement.
- Nonresident aliens who do not receive earned income from the Company which constitutes United States source income.

Contributions

Active participants may make a pre-tax salary deferral of annual compensation, subject to certain Internal Revenue Code (IRC) limitations. Certain participants are eligible to make a catch-up contribution in accordance with Section 414(v) of the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. All participant contributions are fully vested. The Company makes a matching contribution of 50% of the participant's contribution up to 4% of defined compensation. The Company may also make discretionary profit sharing contributions. During 2009, the Company made a 1% profit sharing contribution in the mount of $96,662.

Vesting

Participants are 100% vested at all times in their voluntary 401(k) contributions. Employer matching and discretionary profit sharing contributions vest as follows:

Years of Service	Percentage
1	0 %
2	50 %
3	100 %

Continued

Participant investment account options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Participant accounts

Each participant's account is credited with the participant's contributions, the Company's contribution and earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled are the benefits that can be provided from the participant's vested account.

Benefit payments

Benefits are payable from participant account balances, subject to certain restrictions, upon termination of employment, normal retirement at age 65, reaching the age of 55 and completion of five years of service, in service distributions at age 59½, death, disability or financial hardship, as defined in the Summary Plan Description. If a participant's employment is terminated before retirement, he or she may receive a lump-sum distribution equal to the value of his or her account. If a participant dies before benefits are received, the full value of his or her account will be paid to the surviving spouse or designated beneficiary.

Should a participant terminate employment and have an account balance be less than $5,000, the Plan allows for mandatory distribution by the Plan administrator directly to the participant.

Forfeited accounts

At December 31, 2009 and 2008, forfeited non-vested accounts had balances of $0 and $34,181, respectively. The forfeiture accounts can be used to make current or future period Company matching contributions, additional Company non-elective contributions, or pay administrative expenses. During 2009, $41,706 of forfeited accounts were used to offset employer contributions. The total forfeitures in 2009 from participant accounts were $7,525.

Participant loans

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are repayable over a period not to exceed five years, except for loans for the purchase of a principal residence, through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on reasonable rates of interest as determined by the Plan's third party administrator.

Continued

Plan termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2. **Significant Accounting Policies**

Basis of presentation

The financial statements have been prepared on an accrual basis and present the net assets available for plan benefits and changes in those net assets in accordance with accounting principles generally accepted in the United States of America.

Investments and income recognition

Investments in pooled separate accounts are stated at fair value based on the quoted market price of the securities held in the pooled separate accounts as of the date of the financial statements. The guaranteed interest accounts are reported at contract value and represent investment contracts with John Hancock Life Insurance Company (U.S.A.). John Hancock Life Insurance Company (U.S.A.) maintains the contributions in its general funds and such funds are guaranteed by the insurance company. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The guaranteed interest accounts provide for a guaranteed interest rate for a specified period of time, for 3 years and 5 years, with interest compounded annually. The rate credited is the rate in effect on the day when each contribution is deposited into the account. The crediting interest rate is based on an agreed-upon formula with the issuer. The interest rates were 1.55% and 3.20% for 3 years and 5 years, respectively, as of December 31, 2009. The interest rates were 3.35% for 3 years and 5 years as of December 31, 2008. Redemption of the guaranteed interest accounts are subject to market value adjustments and transfers restrictions as permitted by the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Contributions and investment income are recorded on the accrual basis. Unrealized gains and losses are presented as net appreciation in fair value of pooled separate accounts on the statement of changes in net assets available for benefits, along with gains and losses realized on sales of investments in the pooled separate accounts.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Administrative expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Continued

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Reclassifications

Certain reclassifications have been made to the 2008 financial statements and related note disclosures to conform with the 2009 presentation.

Subsequent events

Management of the Plan has evaluated subsequent events through October 13, 2010, the date which the financial statements were available to be issued.

3. **Investments**

The Plan's investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2009 and 2008, are as follows:

	2009	2008
Lifestyle Balanced	$1,099,703	552,140
Lifestyle Conservative	322,470	286,829
Lifestyle Growth	301,935	159,933
Money Market Fund	209,563	*
5 Year Guaranteed Interest Account	*	131,845

*Investment did not meet threshold of 5% or more of plan net assets.

The participant has the option of investing in up to 25 investment options. Investment elections may be modified on a daily basis at the participant's direction.

4. **Fair Value Measurements**

Accounting rules for fair value clarify that fair value is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants based on the highest and best use of the asset or liability. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The accounting rules provide a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Continued

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value at December 31, 2009 and 2008. There have been no changes in methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Valued at the underlying price per unit, which approximates fair value based on the publicly quoted price of these funds.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the management of the Plan believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. **Information Certified by Custodian (Unaudited)**

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, John Hancock Life Insurance Company (U.S.A.) has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2009 and 2008.
- Net appreciation in fair value of pooled separate accounts and interest and dividends, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2009.
- Schedule H, Line 4(i) - schedule of assets (held at end of year) as of December 31, 2009.

6. **Federal Income Tax Status**

On July 1, 2007, the Plan adopted and operated under the Manufactures Life Insurance Company (U.S.A.) prototype nonstandardized profit sharing plan (Prototype Plan). On August 7, 2001, the Prototype Plan received a favorable determination letter from the Internal Revenue Service which stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the IRC. Management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, management believes that the Plan was qualified and the related trust was tax-exempt as of December 31, 2009 and 2008. Accordingly, no provision for Federal income taxes has been included in the Plan's financial statements.

7. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. **Party-in-Interest Transactions**

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the Plan custodian and therefore these transactions qualify as party-in-interest transactions.

The Company provides certain administrative services at no cost to the Plan.
