To the Plan Committee
Southwest Business Corporation
401(k) Profit Sharing Plan
San Antonio, Texas

We were engaged to audit the financial statements and supplemental schedule of Southwest Business Corporation 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2009 and 2008 and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 3, which was certified by Reliance Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America, and in our opinion are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Southwest Business Corporation
401(k) Profit Sharing Plan

Notes to Financial Statements

1. Description of Plan

The following description of Southwest Business Corporation 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which covers all employees of Southwest Business Corporation and affiliates (collectively, the "Company") on their hire date. Employees are eligible for profit sharing contributions after completing one year of service with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may elect to contribute up to 100% of their eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 50% of the first 6% of compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company. A participant must be employed on the last day of the Plan year to share in any employer profit sharing contributions. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

1. Description of Plan (continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid through payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under $1,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled $67,088 and $105,891, respectively. These accounts will be used to pay the expenses of the Plan or to reduce future employer contributions. During the year ended December 31, 2009, forfeitures of $66,540 were used to pay for Plan expenses ($61,030 in 2008). In addition, employer contributions were reduced by $50,000 and $75,000 from forfeited nonvested accounts in 2009 and 2008, respectively.

Expenses of the Plan

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document.

2. Summary of Significant Accounting Policies

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Estimates (continued)

The Plan holds a common collective trust with an underlying investment in a fully benefit-responsive investment contract. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Shares of registered investment companies (mutual funds) are reported at fair value based on the quoted market price of the fund, which represents the net asset value of the shares held by the fund at year-end. Shares held in bank common trust funds are reported at fair value based on the unit prices quoted by the fund, representing the fair value of the underlying investments. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

Codification of Accounting Standards

In June 2009, the Financial Accounting Standards Board ("FASB") issued the Accounting Standards Codification ("ASC"), which establishes the ASC as the single source of authoritative accounting principles recognized by FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. The subsequent issuances of new standards will be in the form of Accounting Standards Updates that will be included in the codification. This guidance is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Plan updated its historical GAAP references to comply with the codification for its years ended December 31, 2009 and 2008. The adoption of this guidance did not have a material effect on the Plan's net assets and changes therein, since the codification is not intended to change GAAP.

Accounting for Uncertainty in Income Taxes

FASB clarified the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in *Income Taxes – Overall* of the ASC. The new provisions for accounting for the uncertainty in income taxes prescribe a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. They also provide guidance on derecognition of tax benefits, classification on the balance sheet, interest and penalties, accounting in interim periods, disclosure, and transition.

The new provisions for accounting for the uncertainty in income taxes provided for a deferral of the effective date of implementation for certain nonpublic enterprises to annual financial statements for fiscal years beginning after December 15, 2008. The Plan elected this deferral and, accordingly, has adopted the new provisions as of January 1, 2009. The adoption of the new provisions for accounting for the uncertainty in income taxes did not have a material impact on the Plan's net assets and changes therein.

2. Summary of Significant Accounting Policies (continued)

Recent Accounting Pronouncements (continued)

Fair Value Measurements and Disclosures

Fair Value Measurements and Disclosures of the ASC defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. *Fair Value Measurements and Disclosures* applies to all other ASC topics that require or permit fair value measurements and does not require any new fair value measurements. The provisions of *Fair Value Measurements and Disclosures* for financial assets and liabilities were effective beginning January 1, 2008. The provisions of *Fair Value Measurements and Disclosures* for nonfinancial assets and nonfinancial liabilities were effective and adopted as of January 1, 2009.

Subsequent Events

In May 2009, FASB issued an accounting standard to establish general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. Specifically, this guidance provides (i) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (ii) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements; and (iii) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. This guidance is effective for interim or annual financial periods ending after June 15, 2009, and is to be applied prospectively. The Plan adopted this guidance for its year ended December 31, 2009. The adoption of this guidance did not have a material effect on the Plan's net assets or changes therein.

The Plan has evaluated subsequent events that occurred after December 31, 2009 through the date of this report on October 11, 2010. Any material subsequent events that occurred during this time have been properly recognized or disclosed in the financial statements.

3. Information Certified By Reliance Trust Company ("Reliance")

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Reliance, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

The following table presents the fair value of participant-directed investments in this Plan that was certified by Reliance. Single investments that represent 5% or more of the Plan's net assets as of December 31, 2009 and 2008 are separately identified.

	December 31,

Davis Funds Davis New York Venture Fund A	**1,684,587**	1,025,388
Columbia Acorn Z Fund	**1,683,969**	942,938

*The stable value fund is certified at contract value.

Reliance also certified the completeness and accuracy of the dividends of $466,203 ($613,198 in 2008) and the net appreciation in fair value of investments of $4,752,381 for the year ended December 31, 2009 (net depreciation of $7,712,622 in 2008).

3. Information Certified By Reliance Trust Company ("Reliance") (continued)

During 2009 and 2008, the Plan's investments appreciated (depreciated) in fair value by $4,752,381 and $7,712,622, respectively, as follows:

	Years Ended December 31,	
	2009	2008
Common collective trusts	**$ 110,732**	$ 161,969
Mutual funds	**4,641,649**	(7,874,591)
	$ 4,752,381	$ (7,712,622)

4. Fair Value Measurements

The requirements of *Fair Value Measurements and Disclosures* of the ASC apply to all financial instruments (as of December 31, 2009 and 2008) and all nonfinancial assets and nonfinancial liabilities (as of December 31, 2009) that are being measured and reported on a fair value basis. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. *Fair Value Measurements and Disclosures* also establishes a fair value hierarchy that prioritizes the inputs used in valuation methodologies into the following three levels:

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical assets or liabilities.

- Level 2 Inputs – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, or other inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

- Level 3 Inputs – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or other valuation techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

4. Fair Value Measurements (continued)

The Plan's investments, measured at fair value by the three levels described above, at December 31, 2009 and 2008 are as follows:

	Total Fair Value Measurement at December 31, 2009	Level 1	Level 2	Level 3
Assets:				
Mutual funds	**$ 27,073,613**	**$ 27,073,613**	**$ -**	**$ -**

Level 3 Investments

The following is a summary of the activity of investments classified as Level 3:

	Participant Loans	
	Years Ended December 31,	
	2009	2008
Balance at beginning of year	**$ 652,227**	$ 531,597

Loan withdrawals	**407,829**	427,211
Balance at end of year	**$ 752,637**	$ 652,227

5. Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

6. Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated March 14, 2005, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:
