ENVELOPE 1, INC.
401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2011 AND 2010

1. Summary of plan:

The Envelope 1, Inc. 401(k) Retirement Savings Plan (the Plan) was established on January 1, 1997, by Envelope 1, Inc. (the Company) and became effective at that time. The Board of Directors of the Company have appointed Principal Life Insurance Company to serve as plan trustee. The following description of the Plan is provided for general information purposes only. The plan agreement should be reviewed for more complete information.

Each full-time employee of the Company becomes eligible to participate in the Plan as of the first semi-yearly date immediately following the date the employee completes one year of service, as defined.

Each participant can elect to contribute a percentage of their compensation to the Plan up to a maximum of 15% of qualifying compensation, as defined. Contributions made by the Company are based on a discretionary matching formula. The Company provides no matching contributions. The Plan permits participants to designate the investment of their accounts into investment funds.

Investment income and realized or unrealized gains or losses on investments are allocated to participants' accounts on a daily valuation date based upon the performance of investment options designated by the participant.

Amounts contributed by participants are fully vested and nonforfeitable. Participants begin vesting in the value of their Company contribution after completing their first year of credited service and are fully vested at the completion of five years of credited service. When a participant retires prior to attaining age 65, or terminates employment, the nonvested balance in his account is forfeited. The Company contribution is reduced by the forfeited amount in the month immediately following the date in which the forfeiture occurs. At December 31, 2011 and 2010, forfeited nonvested accounts totaled $0 and $0, respectively. Forfeitures are used to reduce future employer contributions or offset investment fees.

1. Summary of plan (continued):

A participant's account assets become payable at death, upon attaining age 65, upon becoming disabled or upon separation from the Plan. Payments to participants or their beneficiaries are distributed as described by the plan agreement. Upon separation from the Plan, the participant can elect either a lump sum or annuity distribution.

The Plan permits participants to withdraw against the vested portion of their plan account in the event of hardship.

2. Summary of significant accounting policies:

Basis of accounting:

The accompanying statements of net assets available for benefits and statements of changes in net assets available for benefits are prepared on the accrual basis of accounting.

Contributions:

Contributions due from plan participants are accrued at the end of each pay period at which time the amounts are withheld from the participants' compensation. Participant and Company contributions are remitted by the Company to the trustee on a timely basis, but no later than the time period required under ERISA regulations.

Administrative expenses:

Expenses related to administering the Plan are the responsibility of the Company. Investment fees are paid by the Plan.

2. Summary of significant accounting policies (continued):

Estimates:

The Company uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of Plan assets and liabilities available for benefits. Actual results could vary from the estimates that were assumed in preparing the financial statements.

Investment valuation and income recognition:

For the year ended December 31, 2009, the Plan has adopted SFAS No. 157 for Fair Value Measurement and disclosure of plan assets. The accompanying statements of net assets available for benefits continue to reflect the Plan's investment at fair market value at December 31, 2011 and 2010. SFAS No. 157 requires that the Plan categorize investments into a three-tier or "input level" fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and lowest priority to unobservable inputs (Level 3). In some cases, the inputs used to measure fair value might fall in different levels of the fair value hierarchy. When this happens, the level in the fair value hierarchy that the asset or liability falls under is based on the lowest input level that is significant to the fair value measurement in its entirety. The Plan has categorized the investment as follows:

Description	12-31-11	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Investment contract	$ 546,040	$0	$ 0	$546,040
Separate account	999,659	0	999,659	0
Total	$1,545,699	$0	$999,659	$546,040

2. Significant accounting policies (continued):

The effect of Level 3 inputs on net assets is as follows:

Investment category - investment contract	
Beginning balance	$527,015
Total gains or losses	(51)
Interest credited	5,853
Purchases, issuances, settlements	13,223
Ending balance	$546,040
Unrealized gains or losses	$ (51)

Description	12-31-10	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Investment contract	$ 527,015	$0	$ 0	$527,015
Separate account	962,260	0	962,260	0
Total	$1,489,275	$0	$962,260	$527,015

The effect of Level 3 inputs on net assets is as follows:

Investment category - investment contract	
Beginning balance	$500,355
Total gains or losses	2,955
Interest credited	10,542
Purchases, issuances, settlements	13,163
Ending balance	$527,015
Unrealized gains or losses	$ 2,955

2. Significant accounting policies (continued):

The accompanying statements of net assets available for benefits reflect the Plan's investments at their fair market value as of December 31, 2011 and 2010. Quoted market prices are used to value investments. A summary of the Plan's investments at December 31, 2011 is presented in Schedule I.

3. Investments:

The following presents investments that represent 5% or more of the plans net assets:

	2011	2010
Principal Life Insurance Company Investment Contract with Principal Life Insurance Company with maturity dates of December 31, 2011, 2012, 2013, 2014 and 2015. (See Note 4)	$546,040	$527,015

Pooled Separate accounts Russell Life Mod Str Sep Account, 5,538 and 5,661 units respectively	96,191	98,634

4. Investment Contract with insurance company:

In 1997, the Plan entered into a benefit responsive investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and investment fees. The contract is included in the statements of net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts. The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and investment fees. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract at December 31, 2011 and 2010 was $546,040 and $527,015, respectively. The average yield and crediting interest rates were approximately .85% and .85% for 2011 and 2010, respectively. The crediting interest rate is based on a formula agreed upon with the issuer.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Principal. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

5. Federal income taxes:

The Internal Revenue Service had determined and informed the Company by a letter dated February 2, 1998, that the plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. However, the Plan trustee and the Plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

6. Information certified by trustee:

The plan trustee maintains records of investment transactions and participants' accounts and determines the valuation of the investment portfolio for each participant and each fund. Information with respect to investments held and their market values as presented in Schedule I, investment income, net unrealized appreciation in market value of investments, benefit payments to terminated plan participants and net realized gain on sale of investments has been certified by the trustee as being complete and accurate.

7. Reportable transactions:

During 2011 and 2010, the Plan had no reportable transactions. As defined, a reportable transaction is a transaction or series of transactions involving amounts in excess of 5% of the value of the Plan's assets at the beginning of the year.

8. Concentration of credit risk:

All plan assets are invested in various funds managed by Principal Life Insurance Company, the Plan trustee.

9. Transactions with parties in interest:

Certain Plan investments are units of Pooled Separate Accounts managed by Principal Life Insurance Company. Principal is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $12,074 and $12,090 for the years ended December 31, 2011 and 2010, respectively.

10. Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

11. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
