NOTE 1: DESCRIPTION OF THE PLAN

The following description of the Dynacare Retirement Savings Plan and Trust (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

Plan Description

The Plan is a defined contribution plan covering certain eligible employees of Dynacare Laboratories, Inc. (the “Company”). All employees who are at least 18 years old, have three months of service, and are members of one of the collective bargaining units specified in the plan document under which retirement benefits are the subject of good-faith bargaining are eligible to participate in the Plan for purposes of entering into a salary reduction agreement. Nonresident aliens are excluded from the Plan. One year of service is required for purposes of receiving allocations of employer contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

During 2002, Laboratory Corporation of America Holdings (“LabCorp”) acquired Dynacare Laboratories, Inc. (“Dynacare”) and assumed the role of plan administrator. At the time of the acquisition, Dynacare was operating in various locations throughout the United States. Employees at these various locations participated in a single qualified defined contribution plan, the Dynacare Retirement Services Plan and Trust. Plan investment, recordkeeping, and administrative services were provided by KeyBank National Association (“KeyBank”) for 2002 and 2001. The payroll records for these employees were handled by multiple service providers.

In December 2002, KeyBank terminated its 401(k) plan administrative services for all their clients including the Plan. LabCorp transferred all plan assets to Fidelity Management Trust Company (the “Trustee”) for the successor trust, investment, recordkeeping, and administrative services under a separate contract. In addition, payroll processing for all locations was brought under LabCorp’s payroll system effective January 1, 2003.

Plan Merger

The Board of Directors of LabCorp approved the merger of the Plan into the Laboratory Corporation of America Holdings Employees’ Retirement Savings Plan, effective September 1, 2009, at which point all obligations of the Plan were assumed by Laboratory Corporation of America Holdings Employees’ Retirement Savings Plan. As a result, all plan investments were transferred into the Laboratory Corporation of America Holdings Employees’ Retirement Savings Plan in September 2009.

NOTE 1: DESCRIPTION OF THE PLAN (continued)

Contributions

Each year, participants may contribute from 1% to 15% of their gross wages subject to annual limitations imposed by the Internal Revenue Service ("IRS"). Participants may also roll over amounts distributed from other qualified defined benefit or defined contribution plans. The Company makes a matching contribution to the Plan in an amount equal to 100% of the first 3% of the participant's contribution. For the period from January 1, 2009 to September 1, 2009 and for the year ended December 31, 2008, the Company did not make any profit sharing contributions to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan investment results, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is based on years of continuous service with a minimum of 1,000 hours of service per year.

Completed Years of Service for Vesting Purposes	Percentage Vested
1	0%
2	20%
3	100%

In addition, employer contributions become 100% vested upon the attainment of age 65 if the participant is still employed by the Company.

Forfeitures

Forfeitures represent nonvested Company contributions to participants that have terminated their employment with the Company. As of September 1, 2009 and December 31, 2008, the forfeited balances were \$0 and \$273,802. Forfeitures from matching contributions shall be applied to reduce employer contributions. As of September 1, 2009, \$270,096 of forfeitures were transferred to the Laboratory Corporation of America Holdings Employees' Retirement Savings Plan as part of the Plan merger.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

The plan administrator has evaluated subsequent events through July 7, 2010, the date the financial statements were available to be issued.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (concluded)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

All investment information disclosed in the accompanying financial statements, including investments held as of September 1, 2009 and December 31, 2008, and net appreciation in fair value of investments and interest for the period from January 1, 2009 to September 1, 2009 were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* ("FASB ASC 820"), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 framework are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2** Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of September 1, 2009 and December 31, 2008.

Money market fund and mutual funds - Valued at the net asset value ("NAV") of shares held by the Plan at year end which is the quoted market price.

Common/collective investment trust - Valued at NAV based on the market value of the underlying investments. The fund invests primarily in the common stocks of the 500 Companies that make up the Standard & Poor's 500 Index, which have observable level 1 pricing inputs.

Participant loans - Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

All investments were liquidated as of September 1, 2009. The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2008:

	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total

NOTE 6: RELATED PARTY TRANSACTIONS

The Plan invests in certain funds managed by the Trustee; therefore, transactions related to these funds qualify as party-in-interest transactions that are allowable under ERISA.

The Plan does not consider any Company contributions to the Plan to be party-in-interest transactions. The Company provides certain accounting, administrative, and investment management services to the Plan for which no fees are charged.

NOTE 7: INCOME TAX STATUS

The Plan has received a determination letter from the IRS dated February 25, 2009, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code ("IRC"). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.
