ENERGY MANAGEMENT & SERVICES COMPANY 401(K) PROFIT SHARING PLAN

Notes to the Financial Statements

1. Description of Plan

The following brief description of Energy Management & Services Company 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the *Summary Plan Description* for more complete information.

General

The Plan became effective January 1, 2000, and is a defined contribution retirement plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as well as applicable sections of the Internal Revenue Code (IRC). The trustees of the Plan are Dale Honn and Mary Smith.

Eligibility

The Plan is a single employer plan that covers substantially all employees of three companies: Energy Management & Services Co. (EMS), EMS Quality Control, LLC (QC) and EMS Land Services, LLC (LS) (collectively referred to as the Companies). EMS adopted the Plan and serves as the Plan Administrator, and QC and LS are participating employers as they are part of the controlled group to which the Companies belong.

Employees are eligible to make deferrals to the Plan and receive the Companies' contributions after reaching the age of 21 and completing one year of service, during which an employee works a minimum of 1,000 hours. Employees are eligible to participate in the Plan on the earlier of the first day of the seventh month or the first day of the Plan year coinciding with or following the date on which eligibility requirements are satisfied.

Contributions

Participants may elect to contribute a percentage of their annual compensation to their individual accounts on a pre-tax basis, not to exceed the annual maximum limit established by the IRC.

In addition to participant deferrals, the Companies may, at their discretion, make a matching contribution each Plan year on behalf of eligible participants equal to a discretionary percentage determined by the Companies of each participant's deferrals. Only participants who are employed by the Companies on the last day of the Plan year and have completed a year of service, as defined by the Plan, are eligible to receive matching contributions.

The Companies may also make discretionary profit sharing contributions. Participants must be employed on the last day of the Plan year and have completed at least 1,000 hours of service during the Plan year to be eligible to receive profit sharing contributions. If participants are not employed on the last day of the Plan year due to death, total and permanent disability, or retirement, they will be eligible to share in the Companies' profit sharing contributions.

1. Description of Plan, continued

Participants' Accounts

Each participant's account is credited with the participant's contribution, the Companies' matching and profit sharing contributions, and an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined by the Plan Document. The benefit to which the participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately and fully vested in all of their deferrals and related earnings. Participants become 20% vested in the Companies' contributions and related earnings thereon after one year of service and vest 20% each additional year of service up to 100% after five years. Participants become immediately and fully vested in all of the Companies' contributions in the event of death or total and permanent disability. The nonvested portion of a participant's account is forfeited upon the distribution of the vested portion of the participant's account or the participant's incurrence of five consecutive breaks in service, as defined by the Plan Document.

Forfeited Accounts

As of December 31, 2011 and 2010, there were $1,327 and $11,278 of forfeited nonvested accounts, respectively. During 2011, $11,278 of forfeitures were used to decrease employer contributions.

Refund of Excess Contributions

Contributions received from participants for 2010 are net of payments of $1,490 made in the subsequent year to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Those amounts are also included in the Plan's statement of net assets available for benefits as refund of excess contributions as of December 31, 2010.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum or partial distribution as soon as administratively feasible at the participant's election. If the value of the participant's account is less than $1,000, an involuntary distribution will be made to the participant.

1. Description of Plan, continued

Operating Expenses

The Plan permits payment of expenses using Plan assets. Investment fees charged by the individual funds are included in net depreciation in fair value of investments and plan management fees are shown as administrative expenses in the accompanying statement of changes in net assets available for benefits. All costs not paid by the Plan are absorbed by the Companies.

Risks and Uncertainties

The Plan provides for various participant-directed investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of the investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

2. Summary of Significant Accounting Policies

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) which require management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of the significant accounting policies consistently followed by the Plan in the preparation of its financial statements:

Cash Equivalents

Cash equivalents consist of accumulated forfeited nonvested accounts. Cash equivalents are recorded at cost, which approximates market value.

Investment Valuation and Income Recognition

The Plan's investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains or losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value; however, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits is required to present investment contracts at fair value

2. Summary of Significant Accounting Policies, continued

Investment Valuation and Income Recognition, continued

as well as an additional line item showing an adjustment of the fully benefit-responsive investment contracts from fair value to contract value. Plan management has determined that the contract value of the Plan's fully benefit-responsive investment contract approximates fair value and no adjustment is required.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Recent Accounting Pronouncement

In May 2011, an accounting update was issued, "Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs," which helps converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle. In addition, the update requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for the year ending December 31, 2012. Plan management is currently evaluating the effect that the amendments will have on the Plan's financial statements.

Subsequent Events

The Plan Administrator evaluated the period from December 31, 2011 to October 11, 2012 (the date the financial statements were ready to be issued) for items requiring recognition or disclosure in the financial statements.

3. Information Certified or Provided by John Hancock Life Insurance Company (U.S.A.)

The following is a summary of the investment information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2011, that was prepared by or derived from information provided by the custodian, John Hancock Life Insurance Company (U.S.A.) (JH), and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from JH that information provided to the Plan Administrator by JH related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to investment information in this note which appears throughout the financial statements and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2011.

3. **Information Certified or Provided by John Hancock Life Insurance Company (U.S.A.), continued**

The following table presents the fair value of the investments in the Plan that were certified by JH. Single investments representing more than 5% of the Plan's net assets available for benefits as of December 31, 2011 and 2010 are separately identified.

	2011	2010
Lifestyle Fund - Balanced Portfolio	$ 495,547	$ 590,378
Lifestyle Fund - Growth Portfolio	394,380	493,064
Lifestyle Fund - Aggressive Portfolio	153,546	152,541
Lifestyle Fund - Conservative Portfolio	*	152,905
Other investments	480,884	532,945
Total investments	$ 1,524,357	$ 1,921,833

** Investment did not represent more than 5% of the Plan's net assets available for benefits as of December 31, 2011.*

JH also certified the completeness and accuracy of the investment (loss) income for the year ended December 31, 2011 as summarized below:

Net depreciation in fair value of investments:	
Guaranteed investment contract	$ (82)
Mutual funds	(43,854)
	$ (43,936)
Interest and dividends:	
Guaranteed investment contract	$ 75

4. **Investment Contract with Insurance Company**

The Plan has a benefit-responsive investment contract with JH. JH maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value, as reported to the Plan by JH. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rates were 1.30% and 0.81% as of December 31, 2011 and 2010, respectively. Such interest rates are reviewed on a monthly basis for resetting. The average yield for the year ended December 31, 2011 was 1.89%.

5. Fair Value Measurements

The Plan has determined the fair value of investments through the application of GAAP related to fair value measurements and disclosures. Investments valued using Level 1 inputs are based on unadjusted quoted prices within active markets. Investments valued using Level 2 inputs are based primarily on quoted prices for similar investments in active or inactive markets. Investments valued using Level 3 inputs are valued based on management's assumptions about the assumptions market participants would utilize in pricing the investments.

Fair value measurements are as follows:

	Fair Value	Level 1	Level 2	Level 3
December 31, 2011				
Guaranteed investment contract	$ 3,778	$ -	$ 3,778	$ -
Mutual funds	1,520,579	1,520,579	-	-
	$ 1,524,357	$ 1,520,579	$ 3,778	$ -
December 31, 2010				
Guaranteed investment contract	$ 3,867	$ -	$ 3,867	$ -
Mutual funds	1,917,966	1,917,966	-	-
	$ 1,921,833	$ 1,917,966	$ 3,867	$ -

Following is a description of the valuation methodologies used for investments measured at fair value. There were no changes to the methodologies used to measure fair value at December 31, 2011 and 2010.

Guaranteed investment contract: Contract value approximates fair value.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. For investment disaggregation, see the accompanying supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year).

6. Tax Status

The Plan uses a prototype plan document sponsored by Acuff & Associates, Inc. (Acuff). Acuff received an opinion letter from the Internal Revenue Service (IRS), dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Priorities Upon Plan Termination

Although they have not expressed any intention to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the rights of all affected participants to amounts contributed by them and the Companies and related earnings thereon would become fully vested.

8. Transactions with Parties-in-Interest

Plan investments are primarily shares of mutual funds, some of which are managed by JH. JH is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to JH amounted to $15,666 for the year ended December 31, 2011.

9. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2011 and 2010 to Schedule H of IRS Form 5500.
