Independent Auditors' Report

We were engaged to audit the financial statements of Fulbright & Jaworski L.L.P. 401(k) Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and the supplemental schedule as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in *Note 3*, which was certified by the Fidelity Management Trust Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 – DESCRIPTION OF PLAN

The Fulbright & Jaworski L.L.P. 401(k) Plan (the "Plan") is a defined contribution plan covering attorney and non-attorney personnel of Fulbright & Jaworski L.L.P. (the "Firm"). The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was formed effective January 1, 1985.

The purpose of the Plan is to provide employees with retirement benefits. Significant provisions of the Plan in effect as of December 31, 2009 are summarized below. Participants should refer to the Plan and trust documents for a more complete description of the Plan's provisions.

A. Eligibility – All attorney and non-attorney personnel are eligible to participate in the Plan beginning on the first day of the calendar month following completion of one (1) hour of service with the Firm.

B. Contributions – Participants may elect to defer a percentage of their compensation into the Plan as a participant contribution. There are two types of elective deferrals: pre-tax deferrals and Roth deferrals (deferrals subject to federal income taxes). The Plan has the following contribution options:

1. Participant Contributions

   Each year attorney and non-attorney personnel may defer between one percent (1%) and fifteen percent (15%), and one percent (1%) and fifty percent (50%), respectively, of eligible compensation into the Plan not to exceed the maximum limit allowed by law. Participants who have attained or will attain age fifty (50) by the end of the year and have contributed the maximum amount permitted by law may make additional catch-up contributions.

   In addition, participants may also contribute amounts representing rollovers from other eligible retirement plans or certain Investment Retirement Accounts ("IRAs").

2. Employer Matching Contributions

   For each non-attorney participant, the Firm contributes a match of fifty percent (50%) of any tax-deferred contribution made up to a maximum of six percent (6%) of the first $35,000 of compensation, not to exceed $1,050. The Firm does not make employer matching contributions for attorneys.

C. Participant Accounts – Each participant's account is credited with the participant's elective contributions, employer contributions, rollovers, and Plan earnings or losses. Administrative fees are charged against the participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting – Participants are immediately vested in their elective contributions and rollovers plus actual earnings or losses thereon. Vesting in the Firm's contribution portion of their accounts plus actual earnings or losses thereon is based on credited years of active service.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

D. Vesting – (Continued)

Participants vest as follows:

Years of Service	Percentage
Less than 1	-0-%
1	20%
2	40%
3	60%
4	80%
5	100%

Active service means the number of whole years of employment with the Firm, whether or not those years are completed consecutively. The nonvested portion of a participant's account balance is forfeited upon termination of service. Under this Plan, upon death, disability or retirement, the participant is one hundred (100%) percent vested in all his account.

E. Investment Options – Participants direct the investment of their contributions into various investment options offered by the Plan which are valued daily. The Plan currently offers interest-bearing cash, mutual funds, lifecycle funds, and a common collective trust fund as investment options for participants. Participants may redirect future contributions or exchange existing balances among available investment options at any time.

F. Payment of Benefits – On termination of employment, for reasons other than death, disability, or retirement, a participant or designated beneficiary may elect to receive a lump-sum cash distribution equal to the value of the participant's vested account balance, or as a direct rollover distribution to an IRA rollover account or another qualified retirement plan. Distributions will normally be made or begin within one year after the employment is terminated. However, if the value of a participant's account is more than $5,000, a participant must consent before an immediate distribution is made. If a participant does not consent to an immediate distribution, the money will stay in the Plan until the earlier of: a) death or any time after retirement or b) consent of distribution. Entire vested interest must be paid or begin to be paid by April following the later of the year a participant retires or the year a participant attains age seventy and one-half (70 ½).

Participants may make withdrawals from their account only if they have a qualifying hardship. Participants have a qualifying hardship if participants have an immediate and heavy financial need and a withdrawal is required in order to satisfy the need. Participants may not make elective salary deferrals to the Plan for a period of six (6) months after the receipt of the hardship distribution.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

G. Forfeited Accounts – Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts are retained in the Plan and will be first used to reduce employer matching contributions. For the year ended December 31, 2009, the Firm applied $99,101 to reduce employer matching contributions. At December 31, 2009 and 2008, forfeited nonvested accounts totaled $17,223 and $93,736, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The accompanying financial statements and supplemental schedule have been prepared on the accrual basis of accounting in conformity with generally accepted accounting principles in the United States of America ("GAAP").

B. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Firm to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Recent Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued the Statement of Financial Accounting Standards ("SFAS") No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles* (the "Codification"). This standard replaces SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*, and establishes only two levels of GAAP, authoritative and nonauthoritative. The FASB Accounting Standards Codification ("ASC") has become the source of authoritative, nongovernmental GAAP. All other nongrandfathered, accounting literature not included in the Codification will become nonauthoritative.

This standard was effective for financial statements for interim or annual reporting periods ending after September 15, 2009. The adoption of the Codification changed the Plan's references to GAAP accounting standards but did not impact the Plan's net assets available for benefits.

The Plan has adopted the provisions of ASC 855, *Subsequent Events* (formerly SFAS No. 165, *Subsequent Events*) which clarifies that management must evaluate, as of each reporting period, events or transactions that occur after the balance sheet date and through the date that the financial statements are issued or available to be issued, both for interim and annual reporting periods. The provisions of ASC 855 became effective prospectively for interim and annual reporting periods ending after June 15, 2009.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Recent Accounting Pronouncements – (Continued)

In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-06, *Improving Disclosures About Fair Value Measurements* ("ASU 2010-06"), which amends the Fair Value Measurements and Disclosures Topic of ASC 820. This amendment requires new disclosures on the value of and the reasons for transfers in and out of Levels 1 and 2 of the fair value hierarchy and additional disclosures about purchases, sales, issuances and settlements within Level 3 fair value measurements. ASU 2010-06 also clarifies existing disclosure requirements on levels of disaggregation and about input and valuation techniques. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 19, 2009, except for the requirement to provide additional disclosures regarding Level 3 measurements which will be effective beginning after December 15, 2010.

D. Investment Valuation and Income Recognition

FASB ASC Topic 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

- Level 2 – Inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.

- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Investment Valuation and Income Recognition – (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Interest-Bearing Cash: Investment in a money market fund is valued at quoted market prices of the net asset value of shares held by the Plan at year-end.

Mutual Funds: Investments in mutual funds are stated at fair value based upon quoted market prices of the net asset value of shares held by the Plan at year-end.

Lifecycle Funds: Investments in lifecycle funds, sometimes called "targeted or age-based" funds, are stated at fair value based upon quoted market prices of the net asset value of shares held by Plan at year-end. These funds vary their assets mixes among stock, bond, and money market funds to become more conservative as they approach a target date.

Common Collective Trust Fund: Common collective trust fund invests primarily in guaranteed investment contracts ("GICs") and synthetic GICs. GICs are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations. The fair value of synthetic GICs is the total fair value based on the daily price of the underlying assets valued at the net asset value provided by the administrator of the fund, plus the fair value of the third-party guarantee.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The adoption of FASB ASC Topic 820 did not have a material impact on the Plan's financial statements.

The Plan invests in the SEI Stable Value Fund (the "Fund"). The Fund invests in underlying assets such as fixed income securities and bond funds, and enters into benefit responsive investment contracts such as guaranteed investment contracts, separate account contracts, and wrap contracts issued by third-parties. The Fund seeks to minimize exposure to credit risk by diversification of the wrap contracts across an approved group of issuers. Investments in wrap contracts are fair valued using a discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio securities. For purposes of the benefit responsive withdrawals, investments in wrap contracts are valued at contract value, which could be more or less than fair value. This investment contract provides for benefit responsive withdrawals at contract value including those instances when, in connection with wrap contracts, underlying investment securities are sold to fund normal benefit payments prior to the maturity of such contracts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Investment Valuation and Income Recognition – (Continued)

Wrap contracts accrue interest using a formula called the "crediting rate". The crediting rate is the discount rate that equates that estimated future market value with a portfolio's current contract value. Crediting rates are reset quarterly. The wrap contracts provide a guarantee that the crediting rate will not fall below 0%. The crediting rate may be affected by many factors, including purchase and redemptions by unit-holders. The impact depends on whether the market value of the underlying assets is higher or lower than the contract value of those assets at the time of those transactions. Generally, the market value of underlying assets will tend to be higher than book value after interest rates have fallen due to higher bond prices. Conversely, the market value of underlying assets will tend to be lower than their contract value after interest rates have risen due to lower bond prices.

The crediting interest rates and average yields on these contracts are as follows:

	2009	2008
SEI Stable Value Fund:		
Crediting interest rate	**1.40%**	3.27%
Average yield earned by the Plan	**3.69%**	6.44%

Certain separate account contracts in the Fund permit the Plan or the issuer to elect to terminate the contract, with the Plan having the right to elect to receive either market value or book value payable at the end of the quarter five years after the effective date of the termination. In addition, if the Plan defaults on its obligations under the separate account agreement, the issuer may terminate the agreement and the Plan will receive market value. The contract is included in the statements of net assets available for benefits at fair value. The adjustment from fair value to contract value for the investment contract is based on the contract value reported to the Plan by the SEI Trust Company.

Valuations of the Plan assets are generally made every business day. Net appreciation in the fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation or depreciation of investments held at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

E. Benefits Paid to Participants

Benefits are recorded when paid. As of December 31, 2009, there were no amounts allocated to participants who elected to withdraw from the Plan, but have not been paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Administrative Expenses

The Plan will pay some or all Plan related expenses except for a limited category of expenses which the law requires the Firm to pay. Generally, operational and administrative expenses of the Plan are paid from Plan assets. Certain expenses that are attributable to the participant's account may be deducted directly from their account.

G. Reclassifications

Certain reclassifications have been made to the 2008 statement of net assets available for benefits to conform to the 2009 statement of net assets available for benefits presentation. The reclassification had no effects on net assets.

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

All investments and investment activities included in the accompanying statements of net assets available for benefits, the statement of changes in net assets available for benefits, and the supplemental schedule have been certified as complete and accurate by the Fidelity Management Trust Company, ("the Trustee") as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The Plan's independent auditors did not perform auditing procedures with respect to the certified information except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 – INVESTMENTS (UNAUDITED)

At December 31, 2009 and 2008, all investments of the Plan were participant-directed.

The following presents investments at December 31, 2009 and 2008 that represented five percent (5%) or more of the Plan's net assets:

	2009	2008
Vang Prime Mm Inst	**$ 29,545,051**	$ 32,547,685

*Indicates party-in-interest.
**Represents less than five percent (5%) of the Plan's net assets as of December 31.

NOTE 4 – INVESTMENTS (UNAUDITED) (CONTINUED)

During 2009, the Plan's investments in mutual funds and lifecycle funds and (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value as follows:

Mutual funds	$ 30,903,549
Lifecycle funds	585,700
NET APPRECIATION IN FAIR VALUE OF INVESTMENTS	$ 31,489,249

NOTE 5 – RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by the Trustee. These transactions qualify as party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 6 – PLAN TERMINATION

The firm has the discretionary authority to determine eligibility for benefits under the Plan and to construe the terms of the Plan. Although the Firm intends to continue the Plan indefinitely, the Firm necessarily reserves the right to amend or even terminate the Plan at any time; provided, however, that any amendment or termination shall not reduce any of a participant's accrued benefit at that time.

In the event of Plan termination, participants will become one hundred percent (100%) vested in their accounts as of the end of the last Plan year for which a substantial Firm contribution was made and in any amounts later allocated to their accounts.

NOTE 7 – TAX STATUS

The Plan received its latest favorable determination letter on July 1, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Firm and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 9 – SUBSEQUENT EVENTS

In preparing these financial statements, the Firm has evaluated events and transactions for potential recognition or disclosure through October 7, 2010, the date the financial statements were available to be issued.

Independent Auditors' Report

We were engaged to audit the financial statements of Fulbright & Jaworski L.L.P. 401(k) Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and the supplemental schedule as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in *Note 3*, which was certified by the Fidelity Management Trust Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 – DESCRIPTION OF PLAN

The Fulbright & Jaworski L.L.P. 401(k) Plan (the "Plan") is a defined contribution plan covering attorney and non-attorney personnel of Fulbright & Jaworski L.L.P. (the "Firm"). The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was formed effective January 1, 1985.

The purpose of the Plan is to provide employees with retirement benefits. Significant provisions of the Plan in effect as of December 31, 2009 are summarized below. Participants should refer to the Plan and trust documents for a more complete description of the Plan's provisions.

A. Eligibility – All attorney and non-attorney personnel are eligible to participate in the Plan beginning on the first day of the calendar month following completion of one (1) hour of service with the Firm.

B. Contributions – Participants may elect to defer a percentage of their compensation into the Plan as a participant contribution. There are two types of elective deferrals: pre-tax deferrals and Roth deferrals (deferrals subject to federal income taxes). The Plan has the following contribution options:

1. Participant Contributions

   Each year attorney and non-attorney personnel may defer between one percent (1%) and fifteen percent (15%), and one percent (1%) and fifty percent (50%), respectively, of eligible compensation into the Plan not to exceed the maximum limit allowed by law. Participants who have attained or will attain age fifty (50) by the end of the year and have contributed the maximum amount permitted by law may make additional catch-up contributions.

   In addition, participants may also contribute amounts representing rollovers from other eligible retirement plans or certain Investment Retirement Accounts ("IRAs").

2. Employer Matching Contributions

   For each non-attorney participant, the Firm contributes a match of fifty percent (50%) of any tax-deferred contribution made up to a maximum of six percent (6%) of the first $35,000 of compensation, not to exceed $1,050. The Firm does not make employer matching contributions for attorneys.

C. Participant Accounts – Each participant's account is credited with the participant's elective contributions, employer contributions, rollovers, and Plan earnings or losses. Administrative fees are charged against the participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting – Participants are immediately vested in their elective contributions and rollovers plus actual earnings or losses thereon. Vesting in the Firm's contribution portion of their accounts plus actual earnings or losses thereon is based on credited years of active service.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

D. Vesting – (Continued)

Participants vest as follows:

Years of Service	Percentage
Less than 1	-0-%
1	20%
2	40%
3	60%
4	80%
5	100%

Active service means the number of whole years of employment with the Firm, whether or not those years are completed consecutively. The nonvested portion of a participant's account balance is forfeited upon termination of service. Under this Plan, upon death, disability or retirement, the participant is one hundred (100%) percent vested in all his account.

E. Investment Options – Participants direct the investment of their contributions into various investment options offered by the Plan which are valued daily. The Plan currently offers interest-bearing cash, mutual funds, lifecycle funds, and a common collective trust fund as investment options for participants. Participants may redirect future contributions or exchange existing balances among available investment options at any time.

F. Payment of Benefits – On termination of employment, for reasons other than death, disability, or retirement, a participant or designated beneficiary may elect to receive a lump-sum cash distribution equal to the value of the participant's vested account balance, or as a direct rollover distribution to an IRA rollover account or another qualified retirement plan. Distributions will normally be made or begin within one year after the employment is terminated. However, if the value of a participant's account is more than $5,000, a participant must consent before an immediate distribution is made. If a participant does not consent to an immediate distribution, the money will stay in the Plan until the earlier of: a) death or any time after retirement or b) consent of distribution. Entire vested interest must be paid or begin to be paid by April following the later of the year a participant retires or the year a participant attains age seventy and one-half (70 ½).

Participants may make withdrawals from their account only if they have a qualifying hardship. Participants have a qualifying hardship if participants have an immediate and heavy financial need and a withdrawal is required in order to satisfy the need. Participants may not make elective salary deferrals to the Plan for a period of six (6) months after the receipt of the hardship distribution.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

G. Forfeited Accounts – Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts are retained in the Plan and will be first used to reduce employer matching contributions. For the year ended December 31, 2009, the Firm applied $99,101 to reduce employer matching contributions. At December 31, 2009 and 2008, forfeited nonvested accounts totaled $17,223 and $93,736, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The accompanying financial statements and supplemental schedule have been prepared on the accrual basis of accounting in conformity with generally accepted accounting principles in the United States of America ("GAAP").

B. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Firm to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Recent Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued the Statement of Financial Accounting Standards ("SFAS") No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles* (the "Codification"). This standard replaces SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*, and establishes only two levels of GAAP, authoritative and nonauthoritative. The FASB Accounting Standards Codification ("ASC") has become the source of authoritative, nongovernmental GAAP. All other nongrandfathered, accounting literature not included in the Codification will become nonauthoritative.

This standard was effective for financial statements for interim or annual reporting periods ending after September 15, 2009. The adoption of the Codification changed the Plan's references to GAAP accounting standards but did not impact the Plan's net assets available for benefits.

The Plan has adopted the provisions of ASC 855, *Subsequent Events* (formerly SFAS No. 165, *Subsequent Events*) which clarifies that management must evaluate, as of each reporting period, events or transactions that occur after the balance sheet date and through the date that the financial statements are issued or available to be issued, both for interim and annual reporting periods. The provisions of ASC 855 became effective prospectively for interim and annual reporting periods ending after June 15, 2009.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Recent Accounting Pronouncements – (Continued)

In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-06, *Improving Disclosures About Fair Value Measurements* ("ASU 2010-06"), which amends the Fair Value Measurements and Disclosures Topic of ASC 820. This amendment requires new disclosures on the value of and the reasons for transfers in and out of Levels 1 and 2 of the fair value hierarchy and additional disclosures about purchases, sales, issuances and settlements within Level 3 fair value measurements. ASU 2010-06 also clarifies existing disclosure requirements on levels of disaggregation and about input and valuation techniques. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 19, 2009, except for the requirement to provide additional disclosures regarding Level 3 measurements which will be effective beginning after December 15, 2010.

D. Investment Valuation and Income Recognition

FASB ASC Topic 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

- Level 2 – Inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.

- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Investment Valuation and Income Recognition – (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Interest-Bearing Cash: Investment in a money market fund is valued at quoted market prices of the net asset value of shares held by the Plan at year-end.

Mutual Funds: Investments in mutual funds are stated at fair value based upon quoted market prices of the net asset value of shares held by the Plan at year-end.

Lifecycle Funds: Investments in lifecycle funds, sometimes called "targeted or age-based" funds, are stated at fair value based upon quoted market prices of the net asset value of shares held by Plan at year-end. These funds vary their assets mixes among stock, bond, and money market funds to become more conservative as they approach a target date.

Common Collective Trust Fund: Common collective trust fund invests primarily in guaranteed investment contracts ("GICs") and synthetic GICs. GICs are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations. The fair value of synthetic GICs is the total fair value based on the daily price of the underlying assets valued at the net asset value provided by the administrator of the fund, plus the fair value of the third-party guarantee.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The adoption of FASB ASC Topic 820 did not have a material impact on the Plan's financial statements.

The Plan invests in the SEI Stable Value Fund (the "Fund"). The Fund invests in underlying assets such as fixed income securities and bond funds, and enters into benefit responsive investment contracts such as guaranteed investment contracts, separate account contracts, and wrap contracts issued by third-parties. The Fund seeks to minimize exposure to credit risk by diversification of the wrap contracts across an approved group of issuers. Investments in wrap contracts are fair valued using a discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio securities. For purposes of the benefit responsive withdrawals, investments in wrap contracts are valued at contract value, which could be more or less than fair value. This investment contract provides for benefit responsive withdrawals at contract value including those instances when, in connection with wrap contracts, underlying investment securities are sold to fund normal benefit payments prior to the maturity of such contracts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Investment Valuation and Income Recognition – (Continued)

Wrap contracts accrue interest using a formula called the "crediting rate". The crediting rate is the discount rate that equates that estimated future market value with a portfolio's current contract value. Crediting rates are reset quarterly. The wrap contracts provide a guarantee that the crediting rate will not fall below 0%. The crediting rate may be affected by many factors, including purchase and redemptions by unit-holders. The impact depends on whether the market value of the underlying assets is higher or lower than the contract value of those assets at the time of those transactions. Generally, the market value of underlying assets will tend to be higher than book value after interest rates have fallen due to higher bond prices. Conversely, the market value of underlying assets will tend to be lower than their contract value after interest rates have risen due to lower bond prices.

The crediting interest rates and average yields on these contracts are as follows:

	2009	2008
SEI Stable Value Fund:		
Crediting interest rate	**1.40%**	3.27%
Average yield earned by the Plan	**3.69%**	6.44%

Certain separate account contracts in the Fund permit the Plan or the issuer to elect to terminate the contract, with the Plan having the right to elect to receive either market value or book value payable at the end of the quarter five years after the effective date of the termination. In addition, if the Plan defaults on its obligations under the separate account agreement, the issuer may terminate the agreement and the Plan will receive market value. The contract is included in the statements of net assets available for benefits at fair value. The adjustment from fair value to contract value for the investment contract is based on the contract value reported to the Plan by the SEI Trust Company.

Valuations of the Plan assets are generally made every business day. Net appreciation in the fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation or depreciation of investments held at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

E. Benefits Paid to Participants

Benefits are recorded when paid. As of December 31, 2009, there were no amounts allocated to participants who elected to withdraw from the Plan, but have not been paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Administrative Expenses

The Plan will pay some or all Plan related expenses except for a limited category of expenses which the law requires the Firm to pay. Generally, operational and administrative expenses of the Plan are paid from Plan assets. Certain expenses that are attributable to the participant's account may be deducted directly from their account.

G. Reclassifications

Certain reclassifications have been made to the 2008 statement of net assets available for benefits to conform to the 2009 statement of net assets available for benefits presentation. The reclassification had no effects on net assets.

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

All investments and investment activities included in the accompanying statements of net assets available for benefits, the statement of changes in net assets available for benefits, and the supplemental schedule have been certified as complete and accurate by the Fidelity Management Trust Company, ("the Trustee") as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The Plan's independent auditors did not perform auditing procedures with respect to the certified information except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 – INVESTMENTS (UNAUDITED)

At December 31, 2009 and 2008, all investments of the Plan were participant-directed.

The following presents investments at December 31, 2009 and 2008 that represented five percent (5%) or more of the Plan's net assets:

	2009	2008
Vang Prime Mm Inst	**$ 29,545,051**	$ 32,547,685

*Indicates party-in-interest.
**Represents less than five percent (5%) of the Plan's net assets as of December 31.

NOTE 4 – INVESTMENTS (UNAUDITED) (CONTINUED)

During 2009, the Plan's investments in mutual funds and lifecycle funds and (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value as follows:

Mutual funds	$ 30,903,549
Lifecycle funds	585,700
NET APPRECIATION IN FAIR VALUE OF INVESTMENTS	$ 31,489,249

NOTE 5 – RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by the Trustee. These transactions qualify as party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 6 – PLAN TERMINATION

The firm has the discretionary authority to determine eligibility for benefits under the Plan and to construe the terms of the Plan. Although the Firm intends to continue the Plan indefinitely, the Firm necessarily reserves the right to amend or even terminate the Plan at any time; provided, however, that any amendment or termination shall not reduce any of a participant's accrued benefit at that time.

In the event of Plan termination, participants will become one hundred percent (100%) vested in their accounts as of the end of the last Plan year for which a substantial Firm contribution was made and in any amounts later allocated to their accounts.

NOTE 7 – TAX STATUS

The Plan received its latest favorable determination letter on July 1, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Firm and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 9 – SUBSEQUENT EVENTS

In preparing these financial statements, the Firm has evaluated events and transactions for potential recognition or disclosure through October 7, 2010, the date the financial statements were available to be issued.
