NOTE 1: DESCRIPTION OF RETIREMENT PLAN

General

AirNet Systems, Inc. Retirement Savings Plan (the "Plan") is a 401(k) profit sharing plan which was formed for the purpose of providing retirement benefits to employees of AirNet Systems, Inc. (the "Sponsor"). Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

Eligibility

All employees of the Sponsor become eligible to participate in the Plan upon reaching age 18 and completing one month of service.

Contributions

Each year, participants may elect to contribute a portion of their pretax annual compensation, as defined in the Plan. The Plan provides for a matching contribution at the discretion of the Sponsor. During 2009 the Sponsor made employer matching contributions equal to 50% of the participant's contribution, not to exceed 6% of the participant's compensation. Additional employer profit sharing amounts may be contributed annually at the option of the Plan Sponsors' board of directors. Profit sharing contributions are allocated to individual participant accounts in the ratio that each participant's compensation, as defined, for the Plan Year, bears to the total compensation of all participants for the Plan Year. Contributions are subject to certain limitations pursuant to Section 401(k) of the Internal Revenue Code.

Participants Accounts

Each participant's account is credited with the participant's elective deferral contribution, employer matching contribution and allocations of (a) the employer's profit sharing contribution, and (b) Plan investment earnings. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their elective deferral, plus actual earnings thereon. Vesting in the employers' contribution portion of their accounts is based on years of continuous service. The vesting schedule is as follows:

Years of Service	Vesting Percentages
Less than 2	0%
2	20%
3	40%
4	60%
5 or more	100%

Forfeitures, if any, are first used to pay administrative expenses, with any remainder used to reduce future employer contributions. At December 31, 2009 and 2008, unallocated forfeited amounts were $11,340 and $73,112, respectively. During the year ended December 31, 2009, $25,914 were used to pay administrative expenses and $80,543 were used to reduce employer contributions

NOTE 1: DESCRIPTION OF RETIREMENT PLAN (Continued)

Investments

Participants direct the investment of their accounts into various investment options offered by the Plan, which primarily include mutual funds with varying fund objectives and degrees of investment risk. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that these changes could materially affect the amounts reported in the statements of net assets available for benefits.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan fund. Loan terms range from one to five years or up to ten years (thirty years prior to a 2002 Plan amendment) for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Interest rates currently range from 3.25% to 9.50%. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may receive an amount equal to the value of the participant's vested interest in his or her account.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses

Plan fees and expenses, including fees and expenses connected with the providing of administrative services by external service providers, are primarily paid by the Plan sponsor or are passed through to the participants in the Plan.

Subsequent Events

In evaluating events that may have a material impact on the financial statements, the Company has considered activities through September 28, 2010, the date the financial statements were available to be issued.

NOTE 3: PLAN TERMINATION

Although the Plan sponsor has not indicated any intent to do so, it has the right to terminate the Plan at any time. In the event the Plan sponsor terminates the Plan, participants are entitled to receive the value of their account, including employer contributions and earnings thereon.

NOTE 4: TAX STATUS

The Plan has adopted a standardized form of a prototype plan sponsored by Fidelity Management & Research Company. The prototype plan has applied for an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 5: INVESTMENTS

The Plan's investments that represent five percent or more of the Plan's net assets available for benefit as of December 31, 2009 and 2008 are as follows:

	2009	2008
Fidelity Blue Chip Growth	$ 1,457,235	$ 1,177,909
Fidelity Diversified International	1,272,027	947,225
Fidelity Freedom 2030	1,204,448	919,542
Fidelity Retirement Money Market	1,079,319	1,464,101
Fidelity Dividend Growth	1,061,004	806,686
Baron Growth	988,925	744,268
Fidelity Balanced	958,855	846,049
Spartan US Equity Index	944,170	825,027
Fidelity Mid Cap Stock	930,007	673,845

NOTE 6: INFORMATION SUPPLIED BY TRUSTEE

All information included in the accompanying financial statements and the supplemental schedule, except for information concerning employer, participant and rollover contributions and contributions receivable, excess deferrals and corrective distributions for excess deferrals, benefits paid to participants and administrative expenses, is unaudited and has been prepared by or summarized from reports prepared by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certification from the trustee that such information is complete and accurate.

NOTE 7: RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the nondiscretionary trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

NOTE 8: RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9: FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

NOTE 9: FAIR VALUE MEASUREMENTS (Continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
