INDEPENDENT AUDITORS' REPORT

To the Participants and Administration Committee of the
Morton Grinding, Inc. 401(k) Plan

We have audited the accompanying financial statements and supplemental schedules of Morton Grinding, Inc. 401(k) Plan as of December 31, 2011, and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. The financial statements of the Plan as of and for the year ended December 31, 2010 were audited by other auditors whose report dated June 21, 2011, expressed an unqualified opinion on those statements.

Except as explained in the following paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by The Hartford, the Custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we performed procedures with respect to the information summarized in Note 7, the financial statements referred to above present fairly, in all material respects, the statement of net assets available for plan benefits of Morton Grinding Inc. 401(k) Plan as of December 31, 2011, and the changes in its financial status for the year ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules listed in the accompanying index are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Morton Grinding Inc.
401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

1. Plan description

The following description of the Morton Grinding Inc. 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Morton Grinding Inc. (The Plan Sponsor), which has adopted the Plan. The effective date of the Plan is January 1, 1997. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan covers all employees of Morton Grinding age 21 years or older who have over three months of service, except for those who are covered by a collective bargaining agreement and nonresident aliens with no U.S. source income. Plan entry dates are the first day of each month immediately following the month that the employee becomes eligible.

Contributions

Contributions to the 401(k) plan may consist of funds contributed by the Company, employees and rollover contributions. Participants may elect to contribute up $16,500 per year, as adjusted for increases in the cost of living under IRC Section 415(d) or 100% of allowable compensation. Employees who have reached age 50 may make catchup contributions up to $5,500 per year.

Morton Grinding makes employer matching contributions on behalf of each participant in an amount equal to 50 percent of the participant's first six percent of deferrals as interpreted by the Plan Administrator.

Morton Grinding may make a discretionary profit-sharing contribution to the Plan, allocated to the ratio that each eligible participant's compensation bears in relation to the total compensation for all eligible participants for the Plan year. The Company did not make a discretionary profit-sharing contribution in 2011.

Vesting Schedule

The Vested portion of the Account of any Participant attributable to Employer contributions shall be a percentage of the total amount credited to the participant's Accounts determined on the basis of the Participant's number of years of service. A participant is 100% vested after six years of credited service.

1. Plan description (continued)

Participant accounts

Each participant's account is credited with the participant's contribution and the matching contribution of the employer and the Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions made to these accounts are directed by the participant into a particular investment offered by the administrator and the allocations between investments can be changed at will.

The Elective Deferral Account, including catch-up contributions, Roth 401(k) contributions, and the rollover contributions shall be 100% vested regardless of a Participant's years of service.

Transmittal of contributions

The Plan conforms to regulations requiring that employee contributions to the Plan be credited to the participants' accounts no later than the 15th business day of the month following the month in which the participants' contributions are withheld from the employee pay or the earliest date that the cash designated for employee contributions can be identified. During 2011, the Plan complied with this requirement.

Forfeitures

At December 31, 2011, there were no forfeitures. This account will be used to reduce future employer contributions. At December 31, 2010 there was $25 of forfeitures.

If a Participant terminates employment before being fully vested, then the non-vested portion of the terminated Participant's account balance remains in the Plan. The forfeiture can be used to pay any administrative expenses, reduce any Employer contribution and reduce any Employer matching contribution.

NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

1. Plan description (continued)

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Loans in excess of 50% of the participant's vested interest may be approved provided that security, in addition to the participant's account is provided. Principal and interest is paid ratably through monthly payroll deductions. At December 31, 2011 and December 31, 2010 there were loans to the participants in the amount of $260,834 and $229,663 respectively. Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Loans determined to be in default are deemed as distributions in the year they are defaulted.

Payment of benefits

Benefits are recorded when paid. On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or in the installment payments as permitted under the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan's administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at

the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Summary of significant accounting policies (continued)

Reclassification

Certain balances recorded at December 31, 2010 have been reclassified to conform to the December 31, 2011 presentation.

Investment valuation and income recognition

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The Plan uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the the lowest priority to inputs to the valuation methodology are unobservable and significant to the fair value measurement (Level 3 measurements).

Investments are in: a)mutual funds measured at readily available quoted market prices in active markets for identical securities, net asset value of shares held by the plan at year end (Level 1 input measurements), b) fixed and variable annuities fair value is based on observable inputs for the asset, either directly or indirectly (Level 2 input measurements), c) The fair value of the guaranteed investment contract (fixed account) is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Mutual Funds (Registered investment companies)

Shares of mutual funds in registered investment companies are valued based on quoted market prices of the fund in active markets and classified within Level 1 of the hierarchy.

The following table sets forth by level, within the fair value heirarchy, the Plan's assets at fair value as of December 31, 2011 and 2010 :

All investment transactions are recorded on a trade date basis.

2. Summary of significant accounting policies (continued)

New accounting Pronouncements

In September 2010, the FASB Emerging Issues Task Force issued ASU No. 2010-25: *Reporting Loans to Participants by Defined Contribution Pension Plans*. The ASU amendments apply to any defined contribution pension plan that allows participant loans. The amendments in this ASU require that (1) for reporting purposes, participant loans shall be classified as notes receivable from participants, and not as investments, (2) notes receivable should be segregated from plan investments, (3) participant loans shall be measured at their unpaid principal balance plus any accrued and unpaid interest, and (4) the fair value disclosures required for investments under ASC Topic 825-10-50-10 through 50-16, *Financial Instruments*, are not required for participant loans. The amendments in this update are effective for fiscal years ending after December 15, 2010.

3. Investments

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $54,514.

The following presents the fair values of the Plan's investments that represent 5% or more of the Plan's net assets as certified by the asset custodian.

	December 31,	
Description	2011	2010
Fixed Account	$ 1,440,140	$ 1,443,803
Hartford Dividend & Growth	294,527	288,314
MFS Total Return	269,279	252,544
Oppenheimer Developing Markets	-	287,917
BlackRock Natural Resources Trust	245,850	245,555

4. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

See independent auditors' report

5. Income taxes

The Plan obtained its latest opinion letter on November 27, 2001, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, amounts contributed by the Company, Plan participants and Plan earnings are not taxable to the participants until distributed and no provision for income taxes has been included in the plan's financial statements.

6. Related party transactions

The investments of the Plan are shares of mutual funds managed by the custodian, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the custodian were $876 and $1,961 for December 31, 2011 and 2010, respectively. The Plan third party administrator of the company & Insurance agent also qualifies as a party-in-interest and was paid $9,164 in commissions and fees for December 31, 2011. The following officer of the Company also qualitifes as party-in-interest when she is a participant in the Plan. Yolanda Morton had the following balances as of 2011 and 2010, respectively, $308,512 and $303,978, respectively.

7. Information prepared and certified by the Custodian (unaudited)

The following information included in the accompanying financial statements and Schedule of Assets (Held At End of Year) was obtained from data that has been prepared and certified to as complete and accurate by the custodian.

NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

8. ERISA bond requirement

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the plan year or $500,000. At December 31, 2011, the Plan's sponsor maintained bond coverage in the amount of $500,000. The Plan was not in compliance with the bonding requirements for 2011

9. Expenses of the plan

The Company may pay administrative and trust expenses in whole or in part. All expenses not paid by the Company shall be paid by the Plan. Administrative and trust expenses paid by the Company and not charged to the Plan amounted to $17,240 for the year ended December 31, 2011. The Company also pays the salaries of the benefits administrators and other personnel who perform services for the Plan as part of their duties. These expenses are not recorded as plan expenses. Most investment options have management fees, which reduce the overall return on assets. The appreciation of investments is reflected net of these fees.

10. Concentrations of credit risk

The Plan maintains its cash and investment accounts in uninsured accounts held by The Hartford. These accounts are subject to the market risks associated with the various accounts' specific investments and general market conditions.

11. Subsequent events

Subsequent events were evaluated through September 30, 2012, the financial statement issue date.

On July 4, 2012, the Company will start utilizing the services of the John Hancock Life Insurance Company as its record-keeper and custodian. In addition, the new third party administrator will be R-Tech Consultants.

See independent auditors' report

11. Subsequent events (continued)

Approximately August 3rd – August 27, 2012, the Company will be in a blackout period for all 401k funds. The Hartford will transfer funds to John Hancock Life Insurance Company Company on August 13th, and begin allocating the funds into the new investment options (age bracketed) portfolio funds. Once the allocations are completed, special statements will be issued showing employees how their funds were allocated at the John Hancock Life Insurance Company, and all former abilities as to changing investments, looking at the total deferrals, etc will be restored.

Jeffrey A. Regalado of Compass Financial & Insurance Services Inc. will remain the Company's licensed financial advisor.

12. Benefits Payable to Former Participants

The American Institute of Certified Public Accountants (AICPA) has issued guidelines regarding amounts due to former plan participants but not paid by year-end. The AICPA requires these amounts to be classified as net assets available for plan benefits, and not as liabilities of the Plan. Included in net assets available for plan benefits are amounts which may become payable to participants who are not active participants of the Plan.

The amount of vested account balances held by terminated participants as of December 31, 2011 was $491,502.

13. Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 to Form 5500:

	2011
Net assets available for benefits per the financial statements	$ 4,841,769
