## NOTES TO FINANCIAL STATEMENTS

FOR THE PERIOD FROM JANUARY 1, 2009 THROUGH SEPTEMBER 30, 2009  
AND THE YEAR ENDED DECEMBER 31, 2008

---

### 1. DESCRIPTION OF PLAN

The following description of the Retirement Savings Plan for Bargaining Unit Employees of Continental Automotive, Inc. and Certain Affiliated Companies (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The plan covers all hourly employees of the Charlotte, North Carolina manufacturing facility and former employees covered by a collective bargaining agreement in Bryan, Ohio, Mayfield, Kentucky and various other closed facilities of Continental Tire North America, Inc. Continental Tire North America, Inc. is a subsidiary of the plan sponsor, Continental Automotive, Inc. (the “Company”).

Effective September 30, 2009, the assets of the Plan were merged into the Retirement Savings Plan for Employees of Continental-Rubber. The participant’s accounts were transferred into the new Plan and the participants are immediately able to participate in the Plan.

Plan Contributions - Participants may contribute up to 25% of their annual compensation (before-and/or after-tax), up to a maximum of \$16,500 and \$15,500 for 2009 and 2008, respectively, subject to certain discrimination tests prescribed by the Internal Revenue Code. The plan does not currently provide for employer match contributions.

Participant Accounts - Each participant’s account is credited with the participant’s contributions and allocations of the Plan gains or losses. Allocations of earnings and losses for each fund are based on the ratio of weighted average participant account balances to the total weighted average of all participant account balances. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant’s accounts.

Investment Options - Upon enrollment in the Plan, a participant directs the investment of their contributions into various investment options offered by the Plan. Participants may direct their contributions into one or more core mutual funds, a money market fund and a self-directed brokerage account option that allows contributions in common stock, mutual funds, corporate debt, and cash and money market funds.

Vesting - Participants are immediately vested in their voluntary employee contributions in addition to actual earnings thereon.

Forfeitures - As of September 30, 2009 and December 31, 2008 forfeited non-vested accounts totaled \$0 and \$8,393, respectively. These accounts will be used to reduce future employer contributions.

Distributions - Distributions from the Plan may be made upon proper application by a participant for retirement, proven financial hardship, death (in which case the payment is made to the beneficiary), or employment termination, as specified in the Plan agreement.

Participant Loans - The Plan permits participants to borrow a minimum of \$1,000 up to 50% of their vested account balance, not to exceed \$50,000. The Plan does not permit concurrent loans. The loans are secured by the balance in the participant's account and bear interest at fixed rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions. As of September 30, 2009 and December 31, 2008 the Plan had loans receivable from participants with balances totaling \$0 and \$497,834, respectively, which are included with investments in the accompanying statements of net assets available for benefits.

Participant Investment Rollovers - Participants are allowed to transfer or rollover funds into the Plan from other qualified plans.

Subsequent Events - In preparing its financial statements, the Company has evaluated subsequent events through July 6, 2010, which is the date the financial statements were available to be issued.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, except that benefits paid to plan participants are recorded on a cash basis.

Use of Accounting Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation/(depreciation) in fair value of investments.

The change in net unrealized appreciation/(depreciation) of investments held from the beginning of the Plan year to the end of the Plan year is included with realized gains/losses as net investment income/loss reported in the accompanying statements of changes in net assets available for benefits.

Contributions - Contributions from employees are recorded as they are withheld from the participant's wages.

Distributions - Distributions are recorded when paid.

### 3. INVESTMENTS (UNAUDITED)

The Plan's investment assets are held in trust and administered by Fidelity Management Trust Company (the "Trustee"). All investment information disclosed in the accompanying financial statements, including investments held and net investment income (loss), and interest and dividends, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

The fair value of investments that represented 5% or more of the Plan's net assets available for benefits as of September 30, 2009 and December 31, 2008 is as follows:

|                                                         | September 30,<br><u>2009</u> | December 31,<br><u>2008</u> |

\*Does not represent 5% or more of the Plan's net assets available for benefits for the respective year.

For the period from January 1, 2009 through September 30, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated as follows:

|                                 |                     |
|---------------------------------|---------------------|

### 4. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

|         |                                                                                                                                                                 |
|---------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
|---------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Level 2

Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

## Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Money market funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Self directed brokerage accounts: Valued at the closing price reported on the active market on which the individually owned securities are traded.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2009 and December 31, 2009:

## 5. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are shares of mutual funds managed by Fidelity Investments, Inc., an affiliate of Fidelity. Fidelity is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Certain administrative fees related to the administration of the Plan were paid by the Plan. Certain other third party administrator fees were paid by the Company on behalf of the Plan. These transactions qualify as party-in-interest transactions.

6. TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated October 27, 2005, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan Sponsor (Continental Automotive, Inc.) believes that the Plan is designed, and operated, in compliance with the applicable requirements of the Internal Revenue Code and therefore is a qualified plan with a related tax-exempt trust.

7. PLAN TERMINATION

The Plan was effectively terminated on September 30, 2009 and the Plan's assets were merged into the Retirement Savings Plan for Employees of Continental-Rubber.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

During 2008, credit and liquidity issues in the United States and throughout the global financial system resulted in highly volatile financial markets. These economic events have had a significant adverse impact on many of the Plan's investment securities. As a result, the Plan's investments incurred a significant decline in fair value during the 2008 plan year.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of September 30, 2009 and December 31, 2008:
