1. Description of Plan

Laufer Group International, Ltd. (collectively, the "Company") established the Laufer Group International, Ltd. 401(k) Profit Sharing Plan and Trust (the 'Plan") on January 1, 2005. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed defined contribution plan covering substantially all employees of the Company who are twenty-one years or older and who have completed at least three consecutive months of eligible service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each participant may contribute up to 100% of the participant's annual pre-tax compensation each year, limited by law to a maximum amount of $16,500 for the year 2009. Individuals who will be at least age 50 by December 31, 2009 may make an additional "catch-up" contribution, up to a maximum amount of $5,500 in 2009. The Plan also provides for the Company to make discretionary matching contributions. From January to May 2009, the Company made contributions equal to 25% of the participants' deferrals and from June to December, 2009 the Company made contributions equal to 10% of the participants' deferrals per participant. The participant must have worked 1,000 hours during the Plan year and be employed at the end of the Plan year to be eligible to receive the match. Additionally, discretionary profit-sharing amounts may be contributed at the option of the Company's management. These contributions are made to designated groups , as defined in the Plan, and are allocated to a participant in proportion to the participant's compensation. For the year ended December 31, 2009, the Company did not make any profit–sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures

Forfeitures of discretionary matching contributions are used to reduce the Company's future matching contributions or the Plan's administrative expenses. The Plan document states that the option of having forfeitures reduce employer contributions includes the option to pay Plan administrative expenses.

Vesting

Participants are immediately vested in their elective contributions plus actual earnings thereon. Participant vesting in the Company's matching and profit-sharing contributions plus actual earnings thereon is based on years of continuous service. A participant is 20% vested after two years of service, 40% vested after three years of service, 60% vested after four years of service, 80% vested after five years of service and 100% vested after six years of service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of (a) $50,000, reduced by the difference between the highest outstanding balance of all other loans from the Plan during the one-year period before the loan was made, and the outstanding balance of loans from the Plan on the date on which the loan was made or (b) 50% of the non-forfeitable amount of the participant's account balance. The loans are collateralized by the balance in the participant's account and bear interest at rates that range from 4% to 9.25% per annum, which are commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon death, retirement, disability or termination of employment, the participant will become entitled to the total vested value of his or her account, determined as of the valuation date. The Plan also provides for in-service withdrawals by qualified participants. Distributions will be paid by either lump sum, installments over a number of years, or an annuity purchase, based upon the election of the participant or the Plan, as defined in the Plan or the Internal Revenue Code ("Code").

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Administrative Expenses

The Company pays all significant administrative costs of the Plan, unless paid with forfeited funds in the Plan.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

3. Investment Information Certified by Plan's Trustee (Unaudited)

The following is a summary of the investment information regarding the Plan as of December 31, 2009, and for the year then ended, included in the Plan's financial statements that was prepared or derived by Mid Atlantic Trust Company, the trustee and custodian of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained a certification from the trustee that such information is complete and accurate. The 2008 financial information has been compiled.

4. Fair Value Measurements

In accordance with the authoritative guidance on fair value measurements and disclosures under generally accepted accounting principles, the Company discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to valuations based on unobservable inputs that are significant to the valuation (level 3 measurement). The guidance establishes three levels of the fair value hierarchy as follows:

Level 1 - Valuations based on unadjusted quoted market prices in active markets for identical securities

Level 2 - Valuations based on observable inputs other than level 1 prices such as quoted prices for similar assets at the measurement date, quoted prices in markets that are not active or other inputs that are unobservable, either directly or indirectly

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement, and involve management's judgment
