INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Custom Aluminum Products, Inc. Employees'
401(k) and Profit Sharing Plan
South Elgin, Illinois

We were engaged to audit the statements of net assets available for benefits of the Custom Aluminum Products, Inc. Employees' 401(k) and Profit Sharing Plan (the Plan) as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the year then ended and supplemental schedules for the year ended December 31, 2011 and 2010. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note F, which was certified by MG Trust Company, LLC, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executed investment transactions. The Plan administrator has obtained a certification from the trustee with respect to the information summarized in Note F, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A – PLAN DESCRIPTION

General

The Custom Aluminum Products, Inc. Employees' 401(k) and Profit Sharing Plan (the Plan) is a defined contribution plan sponsored by Custom Aluminum Products, Inc (the Company). Employees are eligible to participate after attaining the age of 21 and completing one year of service of 1,000 hours or more with the Company (as defined by the Plan).

Contributions

Contributions to the Plan, under the profit sharing component, are determined at the discretion of the Company and are made within the time permitted by the Internal Revenue Code. Contributions are allocated among participants based upon the participant's earnings (as defined in the Plan).

Employees participating under the salary deferral contribution component in the Plan may elect to contribute to the Plan up to 100% of their compensation (as defined by the Plan), subject to an annual maximum limitation of $16,500 in both 2011 and 2010, respectively. In addition, certain participants were eligible to make "catch-up" contributions of up to $5,500 in both 2011 and 2010, respectively. The contributions are not currently subject to federal and state income taxes but are taxed upon distribution to participants. The Company may make a matching contribution of up to 100% of the first 4% contributed by each employee. In addition, the Company may make a profit sharing contribution which is allocate to participants based on the ratio of their compensation to total compensation.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-eight mutual funds as investment options for participants.

Participant Accounts

A separate account is maintained for each participant aggregating allocated Company contributions, participant contributions and investment earnings. Participants vest immediately in their salary deferral contributions and earnings, thereon. Participants become vested in Company contributions over a six year period. Forfeitures of non-vested Company contributions are used to reduce Company plan expenses and then Company contributions.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Forfeitures

Forfeitures of non-vested Company contributions are used to reduce future Company contributions. As of December 31, 2011 there were $692 of forfeitures that have not yet been applied to reduce the Company's contributions.

NOTE A – PLAN DESCRIPTION (Continued)

Administrative Expenses

Certain expenses incurred in the administration of the Plan are paid directly by the Company.

Payment of Benefits

Upon the earlier of normal retirement, death, disability or termination of the Plan, the full value of a participant's separate account is payable to the participant or his beneficiaries. Benefits distributable under the Plan, for any reason, are paid at the discretion of the Plan administrator by a lump-sum distribution in cash, or a life annuity.

Plan Termination

While the Company expects to continue the Plan, it reserves the right to amend or terminate the Plan at any time. In the event of a termination or partial termination, the rights of all participants in their account balances will be non-forfeitable.

Amendments

The Company reserves the right to amend the Plan at any time.

Reclassifications

Certain amounts for 2010 may have been reclassified in order to conform with the 2011 financial statement presentation.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Contributions

Contributions to the Plan are recorded on the accrual basis of accounting. The Company may make a contribution to the Plan, for a given plan year, at any time prior to when the Company files its federal income tax return for the year. Contributions from participants are recorded in the period the Company makes payroll deductions from plan participants.

Valuation of Investments

The Plan's investments are stated at quoted market prices which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis.

Investment Transactions and Income

In accordance with the Plan's policy of stating investments at fair value, the net change in unrealized appreciation or depreciation is reflected in the statement of changes in assets available for benefits. Realized gains or losses on investment transactions are recorded as the difference between the proceeds received and the cost.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets available for benefits at the date of the financial statements and the reported amounts of changes in assets available for benefits during the reporting periods. Actual results could differ from those estimates.

Date of Management's Review

Subsequent events were evaluated through October 11, 2012, which is the date the financial statements were available to be issued.

NOTE C – INVESTMENTS

The following table presents the fair value of the Plan's investments. Investments that represent five percent or more of the Plan's assets at year-end are separately identified.

	2011	2010
Fidelity Cash Reserves	$ -	$ 597,964
Eaton Vance Large Cap Value Inst	-	360,503
Oppenheimer Rising Dividend A	601,255	528,401

Vanguard Morgan Growth Inv	428,421	389,799
MFS Value Fund A	518,496	-
Total Return Bond Fund	-	713,669
Templeton Global Bond Fund	327,845	-
Franklin US Government Securities	319,010	-
Aggregate total of investments under 5% of current value of Plan assets	1,705,694	1,785,345
Total Mutual Funds	$ 5,921,846	$ 5,775,620

During 2011 and 2010, the Plan's investments in mutual funds (including investments bought, sold, and/or held during the year) decreased in market value by $196,862 and increased by $329,081 respectively.

NOTE D – FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted

NOTE D – FAIR VALUE MEASUREMENTS (Continued)

prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011.

Mutual funds: Valued at the closing net asset value (NAV) of shares held by the Plan at year end.

Common/Collective Trusts: Based on the sum of participant contributions to the trusts, plus interest and transfers, less any amounts distributed, any transfers from the trusts, and premium tax, if applicable.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010.

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Mutual funds	$5,921,154	-	-	$5,921,154
Cash and cash equivalents	11,707	-	-	11,707
Total assets at fair value	$5,933,553	-	-	$5,933,553

NOTE D – FAIR VALUE MEASUREMENTS (Continued)

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Mutual funds	$5,775,256	-	-	$5,775,256
Cash and cash equivalents	11,270	-	-	11,270
Total assets at fair value	$5,786,890	-	-	$5,786,890

NOTE E – INCOME TAX STATUS

The Plan was prepared in compliance with the requirements of ERISA and all other subsequent income tax acts. The Plan obtained its latest determination letter on April 10, 1996, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan has adopted the provisions of FASB ASC 740, which clarifies the accounting for uncertainty in income taxes. In accordance with these provisions, a tax position is recognized as a benefit only if it is more than 50% likely that the tax position would be upheld in a tax examination. No tax benefit is recorded for tax positions that are 50% or less likely to be upheld in a tax examination. The adoption had no effect on the financial statements.

The Plan recognized interest and penalties related to unrecognized tax benefits as interest and income tax expense, respectively. As of December 31, 2011 and, 2010 the Plan had no amounts accrued for interest or penalties.

The Plan does not expect the total amount of unrecognized tax benefits to significantly change in the next twelve months.

The Plan files tax returns in the U.S federal jurisdiction. The Plan is no longer subject to U.S federal tax examinations by tax authorities for years before 2009.

NOTE F – FINANCIAL DATA CERTIFIED BY THE ASSET CUSTODIANS (Unaudited)

The Plan administrator has received, from the asset custodian, certifications of the financial information and data as of and for the years ended December 31, 2011 and 2010, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The investments held by the asset custodian amounting to $5,933,553 and $5,786,526, as of December 31, 2011 and 2010, respectively, reflected in the accompanying statement of net assets available for benefits and

NOTE F – FINANCIAL DATA CERTIFIED BY THE ASSET CUSTODIANS (Continued)

the gain (loss) from investments held by the Asset Custodians amounting to $(196,169) and $329,081 and interest and dividends from investments held by the asset custodian amounting to $155,038 and $194,128 for the years ended December 31, 2011 and 2010, respectively, reflected in the accompanying statement of changes in net assets available for benefits, were derived from the financial information certified by the asset custodian.

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances, and the amounts reported in the statement of net assets available for benefits.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Custom Aluminum Products, Inc. Employees'
401(k) and Profit Sharing Plan
South Elgin, Illinois

We were engaged to audit the statements of net assets available for benefits of the Custom Aluminum Products, Inc. Employees' 401(k) and Profit Sharing Plan (the Plan) as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the year then ended and supplemental schedules for the year ended December 31, 2011 and 2010. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note F, which was certified by MG Trust Company, LLC, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executed investment transactions. The Plan administrator has obtained a certification from the trustee with respect to the information summarized in Note F, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Contributions

Contributions to the Plan are recorded on the accrual basis of accounting. The Company may make a contribution to the Plan, for a given plan year, at any time prior to when the Company files its federal income tax return for the year. Contributions from participants are recorded in the period the Company makes payroll deductions from plan participants.

Valuation of Investments

The Plan's investments are stated at quoted market prices which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis.

Investment Transactions and Income

In accordance with the Plan's policy of stating investments at fair value, the net change in unrealized appreciation or depreciation is reflected in the statement of changes in assets available for benefits. Realized gains or losses on investment transactions are recorded as the difference between the proceeds received and the cost.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets available for benefits at the date of the financial statements and the reported amounts of changes in assets available for benefits during the reporting periods. Actual results could differ from those estimates.

Date of Management's Review

Subsequent events were evaluated through October 11, 2012, which is the date the financial statements were available to be issued.

NOTE C – INVESTMENTS

The following table presents the fair value of the Plan's investments. Investments that represent five percent or more of the Plan's assets at year-end are separately identified.

	2011	2010
Fidelity Cash Reserves	$ -	$ 597,964
Eaton Vance Large Cap Value Inst	-	360,503
Oppenheimer Rising Dividend A	601,255	528,401

Aggregate total of investments under 5% of current value of Plan assets	1,705,694	1,785,345
Total Mutual Funds	$ 5,921,846	$ 5,775,620

During 2011 and 2010, the Plan's investments in mutual funds (including investments bought, sold, and/or held during the year) decreased in market value by $196,862 and increased by $329,081 respectively.

NOTE D – FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted

NOTE D – FAIR VALUE MEASUREMENTS (Continued)

prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011.

Mutual funds: Valued at the closing net asset value (NAV) of shares held by the Plan at year end.

Common/Collective Trusts: Based on the sum of participant contributions to the trusts, plus interest and transfers, less any amounts distributed, any transfers from the trusts, and premium tax, if applicable.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010.

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total

NOTE E – INCOME TAX STATUS

The Plan was prepared in compliance with the requirements of ERISA and all other subsequent income tax acts. The Plan obtained its latest determination letter on April 10, 1996, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan has adopted the provisions of FASB ASC 740, which clarifies the accounting for uncertainty in income taxes. In accordance with these provisions, a tax position is recognized as a benefit only if it is more than 50% likely that the tax position would be upheld in a tax examination. No tax benefit is recorded for tax positions that are 50% or less likely to be upheld in a tax examination. The adoption had no effect on the financial statements.

The Plan recognized interest and penalties related to unrecognized tax benefits as interest and income tax expense, respectively. As of December 31, 2011 and, 2010 the Plan had no amounts accrued for interest or penalties.

The Plan does not expect the total amount of unrecognized tax benefits to significantly change in the next twelve months.

The Plan files tax returns in the U.S federal jurisdiction. The Plan is no longer subject to U.S federal tax examinations by tax authorities for years before 2009.

NOTE F – FINANCIAL DATA CERTIFIED BY THE ASSET CUSTODIANS (Unaudited)

The Plan administrator has received, from the asset custodian, certifications of the financial information and data as of and for the years ended December 31, 2011 and 2010, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The investments held by the asset custodian amounting to $5,933,553 and $5,786,526, as of December 31, 2011 and 2010, respectively, reflected in the accompanying statement of net assets available for benefits and

NOTE F – FINANCIAL DATA CERTIFIED BY THE ASSET CUSTODIANS (Continued)

the gain (loss) from investments held by the Asset Custodians amounting to $(196,169) and $329,081 and interest and dividends from investments held by the asset custodian amounting to $155,038 and $194,128 for the years ended December 31, 2011 and 2010, respectively, reflected in the accompanying statement of changes in net assets available for benefits, were derived from the financial information certified by the asset custodian.

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances, and the amounts reported in the statement of net assets available for benefits.
