INDEPENDENT AUDITOR'S REPORT

To the Trustees of **Texas Bank 401K Plan:**

We were engaged to audit the financial statements of **Texas Bank 401K Plan** (the **Plan**) as of December 31, 2009 and 2008, and for the years then ended and the supplemental schedule as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the **Plan's** management.

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the **Plan** administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Life Insurance Company, the Trustee for the **Plan,** except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the **Plan** administrator that the Trustee holds the **Plan's** investment assets and executes investment transactions. The **Plan** administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the **Plan** administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Plan Description

The following description of **Texas Bank 401K Plan** (the **Plan**) provides only general information. Participants should refer to the **Plan** agreement for a more complete description of the **Plan's** provisions.

General

The **Plan** is a defined contribution benefit plan covering all eligible employees of Texas Bank Brownwood (the Company) who are over the age of 21 and have three months of service. Employees are eligible to become a participant on January 1, April 1, July 1, or October 1 after eligibility requirements are met. The **Plan** is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (the Code). The **Plan** is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Basis of Accounting

The financial statements of the **Plan** have been prepared on the accrual basis of accounting. Accordingly, revenue is recognized when earned and expenses are recognized when incurred.

Contributions

Each year, participants in the **Plan** may elect to contribute any amount up to 100% of their compensation, as defined by the **Plan**, subject to certain maximum limitations imposed by the Code. Employees who are eligible to make elective deferrals under the **Plan** and who have attained the age of fifty before the close of the **Plan** year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the Code. Participants may also contribute amounts representing distribution from other qualified benefit plans.

The Company's matching contribution is equal to 100% of the participant's contribution, up to a maximum of 5% of the participant's compensation. In addition, the Company may also make discretionary profit sharing contributions. There were no discretionary profit sharing contributions made during the years ended December 31, 2009 or 2008.

Forfeitures

Forfeitures may first be applied to pay administrative expenses under the **Plan** which would otherwise be paid by the Employer. Any other forfeitures which have not been used to pay administrative expenses shall be applied to reduce employer contributions. There were no forfeitures in 2009. For 2008, forfeitures amounted to $28,773. There were no unallocated forfeiture balances at December 31, 2009 and 2008.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive benefits as either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installment payments over a fixed number of years, or may purchase a qualified annuity. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Benefits are recorded when paid.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Participant Accounts

Each participant's account is credited with the participant's voluntary contributions, and the Company's matching contributions and an allocation of (a) the Company's discretionary contributions, and (b) **Plan** earnings. Discretionary contributions are allocated to all eligible participants based on compensation. Earnings are allocated to the participants' accounts based upon investment elections. Earnings on amounts invested in guaranteed interest accounts are credited daily at the composite guaranteed rate as defined in the **Plan** document. Earnings on amounts invested in pooled separate accounts are determined based upon number of units held by the individual participants and the unit value at the valuation date.

Vesting

Participants are immediately vested in their salary deferral contributions and rollover contributions plus actual earnings thereon. Vesting in the Company's contributions of their accounts is based on years of continuous service, noted as follows:

Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 or more years	100%

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to 50% of their vested account balance, not to exceed $50,000 less the highest outstanding loan balance in any 12 month period. Loans to participants are made at the discretion of the **Plan** Administrator based on the **Plan** provisions. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the **Plan** administrator. Principal and interest are paid ratably through payroll deductions over a period not extending beyond five years from the date of the loan. A participant may be granted one loan during any one year period and only one loan may be outstanding at a time.

Withdrawing Participant Obligations

Amounts allocated to withdrawing participants are claims that have been processed and approved for payment prior to year-end, but not paid as of that date. These amounts were not deemed material at December 31, 2009 or 2008.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the **Plan** administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Investment Valuation and Income Recognition

Investments are recorded at fair value. Mutual funds are reported at fair value based on the quoted market price of the fund, which represents the net asset value of the shares held by the **Plan** at year end. Investments in insurance company pooled separate accounts are reported at the value reported to the **Plan** by the insurance company, which represents approximate fair value. Investments in insurance company deposit administration contracts (guaranteed investment contracts) are reported at contract value as determined by the insurance company if the contract is fully benefit responsive or otherwise at fair value. The guaranteed investment contracts with Principal are reported at fair value. Investments in cash surrender value life insurance policies are reported at the cash value, which approximates fair value, as determined by the insurance company. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Plan Expenses

The **Plan** sponsor pays substantially all general **Plan** expenses.

Note 2: INFORMATION CERTIFIED BY TRUSTEE

For **Plan** years ending December 31, 2009 and 2008, the financial information included in the **Plan** financial statements and required supplemental schedule, except for contributions receivable, contributions, and distributions for withdrawals and terminations, has been derived from information certified as complete and accurate by the Trustee, in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA).

The **Plan's** investments (including investments bought, sold, and held during the year) appreciated in value by $537,912 for the year ended December 31, 2009 and depreciated in value by $1,332,412 for the year ended December 31, 2008.

Note 4: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the **Plan** to discontinue its contributions at any time and to terminate the **Plan** subject to the provisions of ERISA. In the event of **Plan** termination, participants will become 100 percent vested in their accounts.

Note 5: INCOME TAX STATUS

The **Plan** obtained its latest determination letter on July 22, 2003, in which the Internal Revenue Service stated that the **Plan**, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The **Plan** has been amended since receiving the determination letter. However, the **Plan** administrator and the **Plan's** tax counsel believe that the **Plan** is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the **Plan's** financial statements.

Note 6: RISKS AND UNCERTANTIES

The **Plan** provides for various investment options in any combination of pooled separate accounts, stocks and other investment securities offered by the **Plan**. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risk. Due to the level or risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes can materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7: RELATED PARTY TRANSACTIONS

Certain **Plan** investments in pooled separate accounts are managed by Principal Life Insurance Company, the custodian of the **Plan's** assets. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the **Plan** and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 8: FAIR VALUE DISCLOSURES

Authoritative guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. The price in the principal (or most advantageous) market used to measure the fair value of the asset or liability shall not be adjusted for transaction costs. An orderly transaction is a transaction that assumes exposure to the market for a period prior to the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets and liabilities; it is not a forced transaction. Market participants are buyers and sellers in the principal market that are (i) independent, (ii) knowledgeable, (iii) able to transact and (iv) willing to transact.

Note 8: FAIR VALUE DISCLOSURES – continued

Authoritative guidance requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts, such as cash flows or earnings, to a single present amount on a discounted basis. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (replacement costs). Valuation techniques should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

In that regard, authoritative guidance establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs - Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 Inputs - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (for example, interest rates, volatilities, prepayment speeds, loss severities, credit risks and default rates) or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs - Significant unobservable inputs that reflect an entity's own assumptions that market participants would use in pricing the assets or liabilities.

A description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. While management believes the Company's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Mutual Funds - Investments are reported at fair value utilizing Level 1 inputs. For these investments, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U. S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayments speeds, credit information and the bond's terms and conditions, among other things.

Note 8: FAIR VALUE DISCLOSURES – continued

Pooled Separate Accounts - Investments are reported at fair value utilizing Level 2 inputs. For these investments, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U. S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayments speeds, credit information and the bond's terms and conditions, among other things.

The following table summarizes financial assets measured at fair value on a recurring basis as of December 31, 2009, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total Fair Value
Investments	$ $1,076,775	$ $2,270,247	$ $ 390,932	$ $3,737,954

The guaranteed interest contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations, and the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

December 31, 2009	Participant Loans	Guaranteed Interest Contract	Total
Beginning balance	$ 93,391	$ 323,273	$ 416,664
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	-	7,924	7,924
