ATLANTIC INERTIAL SYSTEMS INC. MONEY PURCHASE PENSION PLAN
Notes To The Financial Statements
For The Period from January 1, 2009 through September 28, 2009

Note 1 - Description of the Plan:

The following description of the Atlantic Inertial Systems Inc. Money Purchase Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

Effective September 28, 2009, the Plan was merged with the Atlantic Inertial System Inc. 401(k) Retirement Savings Plan (the "401(k) Plan"). Participant account balances were transferred into the 401(k) Plan.

General

The Plan was a defined contribution plan established effective August 20, 2007, and was most recently amended effective September 28, 2009. The Plan covered substantially all hourly employees of Atlantic Inertial Systems Inc. (the "Company") who are members of the collective bargaining unit represented by the International Association of Machinists and Aerospace Workers, Lodge 1249, Local 26 or International Union of Journeymen & Allied Trades. Employees who had attained age 21 and completed 1 year of service and 1,000 hours of service were eligible to participant in the Plan. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Company made contributions ranging from $500 to $2,750 for eligible employees using a formula defined in the Plan agreement based on age and years of service. This contribution is reduced ratably by percentages based on hours of service for eligible employees who complete fewer than 1,800 hours of service in a Plan year. The Company contributions are invested directly in an investment company contract and various mutual funds, as directed by the participant. Company contributions are recorded annually. The Company intends to make this contribution into the 401(k) Plan for future years beginning with 2009.

Participant Accounts

Each participant's account was credited with the allocation of the Company's contribution and Plan earnings. Earnings were allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. Allocations of Plan earnings for investments were based on participants' account balances. The benefit to which a participant was entitled was the benefit that would be provided from the participant's vested account.

Vesting

Vesting on contributions was based on years of service, as defined in the Plan agreement. Employees who were currently employed on the date the Plan was established were immediately vested in all employer contributions. Any eligible employees hired after the date was established became 100% vested in all employer contributions after 3 years of service. However, if an active participant died prior to the normal retirement age or became totally disabled, the participant's account became 100% vested in all employer contributions.

Note 1 - Description of the Plan: (Continued)

Payment of Benefits

Employees could elect to receive the value of their account as a lump-sum distribution upon retirement or termination, or they could elect to receive their benefits as a life annuity payable monthly from retirement date. If the employee's vested benefit was $1,000 or less, the participant would receive a lump-sum payment. Participants with a vested account balance between $1,000 and $5,000 who did not elect a form of distribution would have their vested balance rolled over to an individual retirement account administered by Wells Fargo Bank, N.A.

Administrative Expenses

The Plan is responsible for payment of the financial advisory services, trustee expenses and fees; however, the Company may pay the Plan expenses directly. For the period ended September 28, 2009, there were no transaction fees paid by the Plan.

Plan Merger

Effective September 28, 2009, Atlantic Inertial Money Purchase Plan merged with the Atlantic Inertial 401(k) Retirement Savings Plan. Participant account balances were transferred accordingly.

Subsequent Events

Subsequent events were evaluated through June 28, 2010, which is the date the financial statements were available to be issued.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, the changes in net assets available for benefits during the reporting period and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investment in the Wells Fargo Collective Stable Return Fund (N4) was generally benefit responsive and was stated at fair value. The contract value of the investment contract at September 28, 2009 was $-0-. Investments in the various mutual funds were stated at fair value, which was determined by the unit value reported by Wells Fargo Bank, N.A. (see Note 5 - Investment Contract). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 6 - Fair Value Measurements).

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Risks and Uncertainties

The Plan invested in a combination of investment securities, which were exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in their value, it was at least reasonably possible that changes in values in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Benefits

Benefit claims were recorded as expenses when they were approved for payment and paid by the Plan.

Note 3 - Certified Financial Information:

The Plan assets were invested in products sold and/or managed by Wells Fargo Bank, N.A. The investment balance and related investment information included in the financial statements and accompanying notes were derived from statements, which have been certified by Wells Fargo Bank, N.A. as of September 28, 2009 and December 31, 2008, and for the period from January 1, 2009 through September 28, 2009, as complete and accurate in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 4 - Investments:

The following investments represented 5% or more of the Plan's net assets as of December 31, 2008:

Wells Fargo Collective Stable Return Fund (N4)

Plan assets were transferred effective September 28, 2009; therefore, no amounts were in excess of 5% as of September 28, 2009.

Investment Performance

In 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value as follows:

Investment contract with investment company, at estimated fair value:	
Wells Fargo Collective Stable Return Fund (N4)	$ 145,648

Note 5 - Investment Contract:

The Plan has entered into an investment contract with Wells Fargo Bank, N.A. via an investment in the Wells Fargo Collective Stable Return Fund (N4) (the "Fund"). The Fund has invested all of its assets in Wells Fargo Stable Return Fund G, a collective trust fund sponsored by Wells Fargo Bank, N.A. The Wells Fargo Stable Return Fund G is a fully benefit responsive contract that invests in investment contracts and security-backed contracts. These securities are wrapped by a contract value guarantee that insures that participant initiated withdrawals from the Fund will be paid at book value. The average yield was 2.22% for the period from January 1, 2009 through September 29, 2009, and 4.17% for the year ended December 31, 2008.

Average Yields:	**2009**	**2008**
Based on actual earnings	4.44%	4.17%
Based on interest rate credited to participants (for the period January 1, 2009 through September 28, 2009 and the year ended December 31, 2008, respectively)	3.32%	4.10%

Note 6 - Fair Value Measurements:

Financial Accounting Standards Board Statement (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 6 - Fair Value Measurements: (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 28, 2009 and December 31, 2008.

Common/collective trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 5 - Investment Contract).

Mutual funds: Valued at the net asset value ("NAV") of shares held at year end by Wells Fargo.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

No assets were held as of September 28, 2009. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

Note 6 - Fair Value Measurements: (Continued)

Note 7 - Related Party Transactions:

Plan assets included investments in funds managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. was the Plan's trustee and as such, transactions with the trustee qualify as party-in-interest transactions. Personnel and facilities of the Company have been used to perform administrative functions for the Plan at no charge to the Plan.

Note 8 - Plan Termination:

Although it has not expressed any intent to do so, the Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants would remain 100% vested in their accounts (see Note 1 - Plan Merger).

Note 9 - Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated August 19, 2009, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the plan administrator believed that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes was included in the Plan's financial statements.

Note 10 - Forfeitures:

Forfeitures resulted from non-vested Company contributions remaining in the Plan from terminated employees. Forfeiture reserve amounts were $-0- and $386 at September 28, 2009 and December 31, 2008, respectively. Forfeitures were available to offset Company cash contributions or pay Plan expenses, which would be otherwise payable by the Company, in accordance with the Plan agreement. In 2009, no Company cash contributions or Plan expenses were offset from forfeited non-vested accounts.

Note 11 - Reconciliation of Financial Statements to Form 5500:

The Annual Return/Report of Employee Benefit Plan (the "Form 5500") is prepared on the modified cash basis. Accordingly, certain balances included on Schedule H (Part I and II) of the Form 5500 differ from those included in these financial statements. Contributions in the statements of changes in net assets available for benefits differ from contributions in the Form 5500 by the change in the amount of contributions accrued at September 28, 2009 and December 31, 2008. The ending net asset balances are reconciled as follows:

	2009	2008
Net assets available for benefits per the Form 5500	$ --	$ 10,119,058
Employer contributions receivable	--	438,720
Net assets available for benefits per the financial statements	$ --	$ 10,557,778
