INTELLIGENTSIA
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Intelligentsia 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established by Intelligentsia Coffee & Tea Inc. (Company) covering all employees of the Company and all the employees of Ecco Caffe, Inc., a wholly owned subsidiary of the Company, who have 6 months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to the amount set by law. The limit for 2011 and 2010 was $16,500. Additionally in 2011 and 2010 a catch-up contribution of $5,500 was available for participants who reached age 50 before the end of the Plan year. Participants may also contribute amounts representing distributions from other qualified define benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their contribution percentage monthly. The Company, at the discretion of its Board of Directors, may contribute a match to each Participant as a percentage of salary deferrals made during the Plan year or as a uniform dollar amount as defined in the Plan. Additionally, a qualified nonelective contribution (QNECs) may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participants Accounts - Each participant's account is credited with the participant's contribution, allocations of the Company's contribution, if any, and the Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Company contributions and forfeitures, if any, are allocated based on participant earnings as defined in the Plan.

Vesting – Participants are immediately vested in their contributions, rollovers, and earnings thereon. Vesting in the Company's discretionary contribution, if any, plus earnings thereon are based on years of continuous service. A participant is 100 percent vested after four years of credited service.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of 1 loan. The total of all of a Participant's outstanding loans cannot exceed the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest rates as determined by the Plan administrator when the loan is requested. Principal and interest payments are paid through payroll deductions and may not extend past five years.

Payment of Benefits – On termination of service due to death, disability, or retirement, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump sum amount or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as lump sum distributions or they may elect to rollover their distribution to an IRA or another qualified plan.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Investments – Participants may invest their account balances in any of several investment options. All accounts are "participant directed" and, as such, are reflective of the Plan asset placements made by the individual participants in the Plan. Participants may change their investment options at any time.

Forfeited Accounts – At December 31, 2011 and 2010 forfeited nonvested accounts totaled $3,791 and $1,393, respectively. These amounts may be used by the Plan for several purposes, such as the payment of Plan expenses.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual method of accounting.

Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from these estimates.

Investment Valuation and Income Recognition – The Plan's investments in pooled separate accounts are presented at fair value. Those identified as Level 2 are based on the quoted market prices of the underlying securities within each fund at December 31, 2011 and 2010 and are based on the net asset value (NAV) provided by AXA Equitable Life Insurance Company. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits – Benefits are recorded when paid.

Operating Expenses – All expenses of maintaining the Plan are paid by the Company, except for payment of certain administrative expenses. The administrative expenses are paid directly from the Plan to AXA Equitable Life Insurance Company.

NOTE 3 – FAIR VALUE MEASUREMENT

Financial Accounting Standards Board (FASB) *Accounting Standard Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

> Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
>
> Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
>
> Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end as priced by the custodian.

Interest bearing cash account: Valued at the closing price reported.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 – FAIR VALUE MEASUREMENT (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010:

NOTE 5 – INVESTMENTS IN POOLED SEPARATE ACCOUNTS REDEEMABLE AT NET ASSET VALUE

The Plan investments are in pooled separate accounts through AXA Equitable Life Insurance Company (AXA). These funds represent net contributions from participants that are allocated to that fund. Each fund invests solely in shares of a mutual fund which are segregated from the assets of AXA. Funds which are not sub-advised invest solely in mutual funds which are externally managed. Sub-advised funds invest solely in shares of a fund within series issued by AXA or a related entity. The underlying funds may hold a variety of assets, including derivatives, lend these securities, and may be subject to credit or concentration risk.

(b) This category consists of investments that seek the growth of capital. These investments are primarily invested in equity securities.

(c) This category of investments attempts to preserve a fixed level of income. Investments are made primarily in debt investments with various maturities.

(d) This category of investments seeks to approximate the aggregate total return or specific Indices. Each investment tracks the performance of a designated Index.

NOTE 5 – INVESTMENTS IN POOLED SEPARATE ACCOUNTS REDEEMABLE AT NET ASSET VALUE (CONTINUED)

(e) This category of investments seeks long-term capital growth through investments in foreign corporations.

(f) This category of investments seeks to preserve both invested principal and earned interest, to earn a stable fixed-income yield, and to provide liquidity for participant-directed disbursements.

(g) This category of investments seeks capital appreciation through investments in domestic equity securities. These investments in equity securities are commonly diversified and based on fundamental research.

NOTE 6 – RELATED PARTY TRANSACTIONS

Plan investments are in pooled separate accounts managed by AXA Equitable Life Insurance Company. AXA Equitable Life Insurance Company is the custodian as defined by the Plan. These transactions qualify as party-in-interest transactions.

NOTE 7 – CONCENTRATION OF INVESTMENTS

All of the Plan's investments are held by AXA Equitable Life Insurance Company.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 9 – TAX STATUS

The Internal Revenue Service has determined and informed AXA Equitable Life Insurance Company by a letter, dated April 18, 2008, that the Prototype Plan is designated in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepting in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for year prior to 2008.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment accounts. Investment accounts are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment accounts and contracts, it is at least reasonably possible that changes in the values of investment accounts and contracts will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 – PARTY-IN-INTEREST TRANSACTIONS

The Plan sponsor failed to remit employee contributions on a timely basis which resulted in party-in-interest transactions. These are prohibited transactions with related parties. Lost earnings on delinquent participant contributions receivable is $5,656 and $5,615 at December 31, 2011 and 2010, respectively. The 2011 amount is also shown on supplementary schedule H, line 4a – schedule of delinquent participant contributions.

NOTE 12 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 8, 2012, the date which the financial statements were issued.
