1. DESCRIPTION OF PLAN

The following description of the Mullinax Ford Employees 401(k) Retirement Plan (the "Plan") provides only general information. Reference to the Plan document should be made for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full time employees of Mullinax Ford (the "Company"), as defined in the Plan document.

Employees become eligible to participate in the Plan upon attaining age 21 and completing one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The effective date of the original Plan was May 1, 1996. Effective January 1, 2003, the Plan adopted a prototype plan developed by Fidelity Management Trust Company ("Fidelity").

Contributions

Contributions to the Plan are made by the participants and the Company. Participants may elect to defer up to 75 percent of their annual compensation, subject to Internal Revenue Service ("IRS") limitations. Additionally, participants may rollover or transfer to the Plan any portion or all of the property received from another qualified employee benefit trust (rollover contribution).

In addition, the Plan contains a provision for the Company to match 30 percent of the participant's deferrals to a maximum of a 4 percent deferral of eligible compensation. The Company may make additional contributions at the discretion of Company management.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution and the Plan's earnings. Allocations of earnings are based on participants' account balances, as defined. The Company's matching contributions are allocated proportionately to participant elective contributions for all eligible participants throughout the year. Additional discretionary contributions from the Company are allocated as a percentage of compensation of eligible participants for the plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of participants' accounts, plus actual earnings thereon, is based on years of service in accordance with the following:

Years Vested of Service	Percentage
0 But Less Than 1	0%
1 But Less Than 2	20%
2 But Less Than 3	40%
3 But Less Than 4	60%
4 But Less Than 5	80%
5 or More	100%

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or defer distribution until the year following the year in which the participant reaches 70 ½ years of age. A hardship withdrawal may also be taken to satisfy an immediate and heavy financial need that cannot be satisfied from other financial resources. Hardship withdrawals may be taken for reasons as defined in the Plan document.

Forfeitures of nonvested amounts are used to reduce the contributions of the Company. At December 31, 2009, forfeiture nonvested amounts totaled $1,361.

Loans to Participants

A participant may borrow from the Plan an aggregate amount not to exceed the lesser of: (a) $50,000 or (b) 50% of the participant's vested account balance. Interest on participant loans is based on comparable market rates.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions into any of several investment options. Participants may change their investment options at their discretion.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

FASB Accounting Standards Codification

On July 1, 2009, the Financial Accounting Standards Board ("FASB") issued "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles," which establishes the FASB Accounting Standards Codification (the "ASC") as the source of authoritative principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"). This standard is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Codification does not change or alter existing GAAP and there is no expected impact on the Plan's financial net assets available for benefits or changes in net assets available for benefits.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 8 for discussion of fair value measurements. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Tax Status

The Plan is exempt from federal income taxes as a qualified plan in accordance with the favorable determination letter issued by the IRS dated March 31,2008 stating that Plan, as then designed, is qualified under the Section 401(a) of the Internal Revenue Code ("IRC") and, accordingly, generally would not incur income taxes or have any unrecognized tax benefits. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in accordance with the applicable requirements of the IRC. As a result, the financial statements do not reflect a provision for income taxes.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

The plan agreement allows for all administrative expenses to be paid by either the Company or the Plan. For the year ended December 31, 2009, these expenses were paid by the Plan. Audit fees are paid directly by the Company.

Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Adoption of Accounting Pronouncements

Subsequent Events

In May 2009, the FASB issued an accounting standard which establishes general standards of accounting for and disclosure of events that occur after the statement of net assets available for benefits date but before the financial statements are issued or available to be issued. The standard was adopted for the year ending December 31, 2009. The Plan has evaluated subsequent events through October 14, 2010, which is the date the financial statements were available to be issued.

Accounting for Uncertainty in Income Taxes

On January 1, 2009, the Plan adopted the provisions of an accounting standard, which clarifies the accounting for uncertainty in income taxes recognized in a plan's financial statements in accordance with existing accounting guidance on income taxes, and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This standard also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Interest and penalties on tax liabilities, if any, would be recorded in administrative expenses. No liability for unrecognized tax benefits was recorded as a result of implementing this standard.

Recent Accounting Pronouncements

Fair Value Measurements

In September 2009, the FASB issued an accounting standard update which amends existing guidance on fair value measurements and disclosures. The update allows an entity to measure the fair value of an investment that has no readily determinable fair market value, on the basis of the net asset value per share as provided by the investee. The update is effective for annual and interim periods beginning after December 15, 2009, with early adoption permitted, and is not expected to have an effect on the Plan's financial statements.

Improving Disclosures About Fair Value Measurements

In January 2010, the FASB issued an accounting standard update on fair value measurements and disclosures. The update requires more robust disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. This update is not expected to have an effect on the Plan's financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements (Continued)

Reporting Loans to Participants by Defined Contribution Plans

In September 2010, the FASB issued an accounting standard to clarify how loans to participants should be classified and measured by defined contribution benefit plans. The standard requires most investments held by a plan, including participant loans, be presented at fair value. Consequently, participant loans will be required to be classified as notes receivable from participants, measured at their unpaid principal balance plus any accrued but unpaid interest, and segregated from plan investments. The accounting standard is effective for fiscal years ending after December 15, 2010 with early adoption permitted. The impact on the Plan's financial statements is currently being evaluated.

3. INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets.

	2009	2008
Fidelity Money Market Trust Retirement Money Market Portfolio	$ 1,101,222	$ 787,658
Fidelity Freedom 2010 Fund	420,228	315,184
Fidelity Freedom 2020 Fund	*	164,336

* Investment does not represent 5 percent or more of the Plan's net assets at December 31, 2009.

The Plan's investments in registered investment companies and a money market account (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $350,145 during 2009.

4. PLAN TERMINATION

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits according to the financial statements to Form 5500:

	2009	2008
Net assets available for benefits per the financial statements	$ 2,569,139	$ 2,029,311
Participants contributions	(15,846)	(16,738)
Employer contributions	(2,220)	(2,847)
Net assets available for benefits per Form 5500	**$ 2,551,073**	**$ 2,009,726**

The following is a reconciliation of contributions per the financial statements to Form 5500:

	2009
Contributions per the financial statements	$ 386,314
Plus prior year contributions receivable	19,585
Less current year contributions receivable	(18,066)
Contributions per Form 5500	**$ 387,833**

7. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan, Fidelity, has certified that the following data included in the accompanying 2009 and 2008 financial statements and supplemental schedules is complete and accurate.

	2009	2008
Investments, at fair value:		
Shares of registered investment companies and money market fund	$ 2,537,434	$ 1,966,247
Participant loans	13,639	43,479
Total	**$ 2,551,073**	**$ 2,009,726**

	2009
Investment income:	
Net appreciation in fair value of investments	$ 350,145
Interest	40,697
Total investment income	**$ 390,842**

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

8. FAIR VALUE MEASUREMENTS

The ASC establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

8. FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Money market portfolio: Valued at the NAV of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

		Fair Value Measurements at Reporting Date Using:		
Description	Fair Value 12/31/2009	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$ 1,436,212	$ 1,436,212	$ -	$ -
Money Market Fund	1,101,222	-	1,101,222	-
Participant Loans	13,639	-	-	13,639
Total assets at fair value	**$ 2,551,073**	**$ 1,436,212**	**$ 1,101,222**	**$ 13,639**

		Fair Value Measurements at Reporting Date Using:		
Description	Fair Value 12/31/2008	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$ 1,178,589	$ 1,178,589	$ -	$ -
Money Market Fund	787,658	-	787,658	-
Participant Loans	43,479	-	-	43,479
Total assets at fair value	**$ 2,009,726**	**$ 1,178,589**	**$ 787,658**	**$ 43,479**

The following tables set forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009 and 2008:

	Year Ended December 31, 2009
Description	Participant Loans
Balance, beginning of year	$ 43,479
Purchases, sales, issuances and settlements (net)	(29,840)
Balance, end of year	**$ 13,639**

8. FAIR VALUE MEASUREMENTS (CONTINUED)

Description	Year Ended December 31, 2008 Participant Loans
Balance, beginning of year	$ 58,900
Purchases, sales, issuances and settlements (net)	(15,421)
Balance, end of year	**$ 43,479**

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan invests in a money market account and various mutual funds managed by Fidelity. Fidelity was the trustee of the Plan during the years ended December 31, 2009 and 2008, and therefore, these transactions qualify as party-in-interest transactions.

11. LATE REMITTANCES

During 2009, the Company did not remit the deferrals for the pay period ended October 30, 2009 in a timely manner. As a result, the Company made a payment of approximately $7 to the Plan for lost opportunity costs caused by untimely remittances.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Plan Administrator and Trustee
Mullinax Ford Employees 401(k) Retirement Plan

We were engaged to audit the financial statements and supplemental schedules of Mullinax Ford Employees 401(k) Retirement Plan (the "Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in NOTE 7, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the Mullinax Ford Employees 401(k) Retirement Plan (the "Plan") provides only general information. Reference to the Plan document should be made for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full time employees of Mullinax Ford (the "Company"), as defined in the Plan document.

Employees become eligible to participate in the Plan upon attaining age 21 and completing one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The effective date of the original Plan was May 1, 1996. Effective January 1, 2003, the Plan adopted a prototype plan developed by Fidelity Management Trust Company ("Fidelity").

Contributions

Contributions to the Plan are made by the participants and the Company. Participants may elect to defer up to 75 percent of their annual compensation, subject to Internal Revenue Service ("IRS") limitations. Additionally, participants may rollover or transfer to the Plan any portion or all of the property received from another qualified employee benefit trust (rollover contribution).

In addition, the Plan contains a provision for the Company to match 30 percent of the participant's deferrals to a maximum of a 4 percent deferral of eligible compensation. The Company may make additional contributions at the discretion of Company management.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution and the Plan's earnings. Allocations of earnings are based on participants' account balances, as defined. The Company's matching contributions are allocated proportionately to participant elective contributions for all eligible participants throughout the year. Additional discretionary contributions from the Company are allocated as a percentage of compensation of eligible participants for the plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of participants' accounts, plus actual earnings thereon, is based on years of service in accordance with the following:

Years Vested of Service	Percentage
0 But Less Than 1	0%
1 But Less Than 2	20%
2 But Less Than 3	40%
3 But Less Than 4	60%
4 But Less Than 5	80%
5 or More	100%

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or defer distribution until the year following the year in which the participant reaches 70 ½ years of age. A hardship withdrawal may also be taken to satisfy an immediate and heavy financial need that cannot be satisfied from other financial resources. Hardship withdrawals may be taken for reasons as defined in the Plan document.

Forfeitures of nonvested amounts are used to reduce the contributions of the Company. At December 31, 2009, forfeiture nonvested amounts totaled $1,361.

Loans to Participants

A participant may borrow from the Plan an aggregate amount not to exceed the lesser of: (a) $50,000 or (b) 50% of the participant's vested account balance. Interest on participant loans is based on comparable market rates.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions into any of several investment options. Participants may change their investment options at their discretion.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

FASB Accounting Standards Codification

On July 1, 2009, the Financial Accounting Standards Board ("FASB") issued "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles," which establishes the FASB Accounting Standards Codification (the "ASC") as the source of authoritative principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"). This standard is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Codification does not change or alter existing GAAP and there is no expected impact on the Plan's financial net assets available for benefits or changes in net assets available for benefits.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 8 for discussion of fair value measurements. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Tax Status

The Plan is exempt from federal income taxes as a qualified plan in accordance with the favorable determination letter issued by the IRS dated March 31,2008 stating that Plan, as then designed, is qualified under the Section 401(a) of the Internal Revenue Code ("IRC") and, accordingly, generally would not incur income taxes or have any unrecognized tax benefits. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in accordance with the applicable requirements of the IRC. As a result, the financial statements do not reflect a provision for income taxes.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

The plan agreement allows for all administrative expenses to be paid by either the Company or the Plan. For the year ended December 31, 2009, these expenses were paid by the Plan. Audit fees are paid directly by the Company.

Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Adoption of Accounting Pronouncements

Subsequent Events

In May 2009, the FASB issued an accounting standard which establishes general standards of accounting for and disclosure of events that occur after the statement of net assets available for benefits date but before the financial statements are issued or available to be issued. The standard was adopted for the year ending December 31, 2009. The Plan has evaluated subsequent events through October 14, 2010, which is the date the financial statements were available to be issued.

Accounting for Uncertainty in Income Taxes

On January 1, 2009, the Plan adopted the provisions of an accounting standard, which clarifies the accounting for uncertainty in income taxes recognized in a plan's financial statements in accordance with existing accounting guidance on income taxes, and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This standard also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Interest and penalties on tax liabilities, if any, would be recorded in administrative expenses. No liability for unrecognized tax benefits was recorded as a result of implementing this standard.

Recent Accounting Pronouncements

Fair Value Measurements

In September 2009, the FASB issued an accounting standard update which amends existing guidance on fair value measurements and disclosures. The update allows an entity to measure the fair value of an investment that has no readily determinable fair market value, on the basis of the net asset value per share as provided by the investee. The update is effective for annual and interim periods beginning after December 15, 2009, with early adoption permitted, and is not expected to have an effect on the Plan's financial statements.

Improving Disclosures About Fair Value Measurements

In January 2010, the FASB issued an accounting standard update on fair value measurements and disclosures. The update requires more robust disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. This update is not expected to have an effect on the Plan's financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements (Continued)

Reporting Loans to Participants by Defined Contribution Plans

In September 2010, the FASB issued an accounting standard to clarify how loans to participants should be classified and measured by defined contribution benefit plans. The standard requires most investments held by a plan, including participant loans, be presented at fair value. Consequently, participant loans will be required to be classified as notes receivable from participants, measured at their unpaid principal balance plus any accrued but unpaid interest, and segregated from plan investments. The accounting standard is effective for fiscal years ending after December 15, 2010 with early adoption permitted. The impact on the Plan's financial statements is currently being evaluated.

3. INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets.

	2009	2008
Fidelity Money Market Trust Retirement Money Market Portfolio	$ 1,101,222	$ 787,658
Fidelity Freedom 2010 Fund	420,228	315,184
Fidelity Freedom 2020 Fund	*	164,336

* Investment does not represent 5 percent or more of the Plan's net assets at December 31, 2009.

The Plan's investments in registered investment companies and a money market account (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $350,145 during 2009.

4. PLAN TERMINATION

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits according to the financial statements to Form 5500:

	2009	2008
Net assets available for benefits per the financial statements	$ 2,569,139	$ 2,029,311
Participants contributions	(15,846)	(16,738)
Employer contributions	(2,220)	(2,847)
Net assets available for benefits per Form 5500	**$ 2,551,073**	**$ 2,009,726**

The following is a reconciliation of contributions per the financial statements to Form 5500:

	2009
Contributions per the financial statements	$ 386,314
Plus prior year contributions receivable	19,585
Less current year contributions receivable	(18,066)
Contributions per Form 5500	**$ 387,833**

7. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan, Fidelity, has certified that the following data included in the accompanying 2009 and 2008 financial statements and supplemental schedules is complete and accurate.

	2009	2008
Investments, at fair value:		
Shares of registered investment companies and money market fund	$ 2,537,434	$ 1,966,247
Participant loans	13,639	43,479
Total	**$ 2,551,073**	**$ 2,009,726**

	2009
Investment income:	
Net appreciation in fair value of investments	$ 350,145
Interest	40,697
Total investment income	**$ 390,842**

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

8. FAIR VALUE MEASUREMENTS

The ASC establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

8. FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Money market portfolio: Valued at the NAV of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

		Fair Value Measurements at Reporting Date Using:		
Description	Fair Value 12/31/2009	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$ 1,436,212	$ 1,436,212	$ -	$ -
Money Market Fund	1,101,222	-	1,101,222	-
Participant Loans	13,639	-	-	13,639
Total assets at fair value	**$ 2,551,073**	**$ 1,436,212**	**$ 1,101,222**	**$ 13,639**

		Fair Value Measurements at Reporting Date Using:		
Description	Fair Value 12/31/2008	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$ 1,178,589	$ 1,178,589	$ -	$ -
Money Market Fund	787,658	-	787,658	-
Participant Loans	43,479	-	-	43,479
Total assets at fair value	**$ 2,009,726**	**$ 1,178,589**	**$ 787,658**	**$ 43,479**

The following tables set forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009 and 2008:

	Year Ended December 31, 2009
Description	Participant Loans
Balance, beginning of year	$ 43,479
Purchases, sales, issuances and settlements (net)	(29,840)
Balance, end of year	**$ 13,639**

8. FAIR VALUE MEASUREMENTS (CONTINUED)

Description	Year Ended December 31, 2008 Participant Loans
Balance, beginning of year	$ 58,900
Purchases, sales, issuances and settlements (net)	(15,421)
Balance, end of year	**$ 43,479**

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan invests in a money market account and various mutual funds managed by Fidelity. Fidelity was the trustee of the Plan during the years ended December 31, 2009 and 2008, and therefore, these transactions qualify as party-in-interest transactions.

11. LATE REMITTANCES

During 2009, the Company did not remit the deferrals for the pay period ended October 30, 2009 in a timely manner. As a result, the Company made a payment of approximately $7 to the Plan for lost opportunity costs caused by untimely remittances.
