Independent Auditors' Report

The Board of Trustees
The Savings Plan for the Employees of
The Amalgamated Life Insurance Company
White Plains, NY

We have audited the accompanying statements of net assets available for benefits of the Savings Plan for the Employees of The Amalgamated Life Insurance Company (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in its net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2009 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

(1) Description of the Plan

The following brief description of the Savings Plan for the Employees of The Amalgamated Life Insurance Company (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

(a) General

The Plan was formed to provide eligible employees with benefits upon their retirement. The Plan is a defined contribution plan covering substantially all employees of Amalgamated Life Insurance Company ("ALICO") and its affiliates. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

(b) Contributions

Each year, participants may contribute up to 60% of pretax annual compensation or $16,500, whichever is less, to the Plan. Compensation is defined as the taxable compensation reported by ALICO on the participant's Internal Revenue Service ("IRS") Form W-2 for the Plan year. Contributions to the Plan are deducted by ALICO from participant compensation. On a pretax basis, the Plan participants cannot defer more than the Internal Revenue Code ("IRC") 402(g) limit ($16,500 for 2009 and $15,500 for 2008).

During 2009 and 2008, ALICO contributed a 50% match on employee contributions up to 3% of eligible compensation and a profit sharing contribution of 1.5% of compensation to eligible participants of the Plan.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and their respective matching ALICO contributions, the profit sharing ALICO contributions and allocations of the Plan's investment income earnings. Allocations are based on participant account balance, deferrals or earnings.

The benefit to which a participant is entitled is the participant's vested account balance.

(d) Vesting

Participant's contributions are always 100% vested. The employer matching contributions and profit sharing are fully vested after five years of service. Forfeited balances of terminated participants' nonvested accounts are used to reduce future ALICO contributions and/or offset Plan administration fees. At December 31, 2009 and 2008, $49,964 and $103,746, respectively, were available to reduce future ALICO contributions. During 2009 and 2008, $96,964 and $355,736 were used to reduce ALICO contributions and/or offset Plan administration fees in 2009 and 2008, respectively.

(e) Withdrawals

Prior to termination of service, a portion of a participant's contributions may be withdrawn under financial hardship upon written notice in such form as prescribed by the Plan provisions. Upon

withdrawing from the Plan, participants generally receive a full disbursement of their vested account balances. Any participant who has not attained the age of 59½ may be subject to a 10% penalty and applicable income taxes.

(f) Distributions

Upon the attainment of age 59½, a distribution may be made in either a lump sum or as a direct rollover to a qualified Individual Retirement Account ("IRA"). Upon termination of employment, participants may request to receive a payout in either a cash distribution or as a rollover to a qualified IRA account or new employer's retirement plan. Upon the death of an employee, the designated beneficiary will be entitled to receive the vested account balance.

(g) Participant Loans

Employees must have at least $2,000 vested in their account before they are eligible for a loan. The minimum loan is $1,000. The maximum loan is the lesser of one-half of the participants' vested account balance or $50,000 reduced by the highest outstanding loan balance during the prior twelve month period. Installment payments are made through payroll deductions.

All loans must be repaid within a five-year period unless it is for the purchase of a principal residence, then the loan may be repaid over a ten-year period. All loans have an interest rate of prime plus 2% at the time the loan is entered into which remains fixed for the life of the loan.

(h) Administrative Expenses

All administrative expenses incurred in connection with the operation of the Plan are paid by ALICO.

(2) Significant Accounting Policies

(a) Basis of Accounting

In July 2009, the Financial Accounting Standard Board (the "FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles" ("Codification" or "ASC") to become the source of authoritative U.S. generally accepted accounting principles ("U.S. GAAP") recognized by the FASB to be applied by nongovernmental entities. All other accounting literature not included in the Codification will be considered non-authoritative. The Codification does not change current U.S. GAAP. References to authoritative U.S. GAAP literature in the financial statements and the notes thereto have been updated to reflect the new Codification references.

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and contingencies and changes therein, and

disclosure of commitments at the date of the financial statements. Actual results could differ from those estimates.

(c) Valuation of Investments and Investment Income Recognition

Financial instruments are carried at fair value. ASC 820-10 (formerly Statement of Financial Accounting Standards ("SFAS") No. 157), "Fair Value Measurements" defines fair value, establishes a framework for measuring fair value and expands the disclosures about fair value measurements. ASC 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in a principal or most advantageous market. Fair value is a market-based measurement that is determined based on inputs, which refer broadly to assumptions that market participants use in pricing assets or liabilities. These inputs can be readily observable, market corroborated, or unobservable. ASC 820-10 established a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value in three broad levels. The standard requires that assets and liabilities be classified in their entirety based on the level of input that is significant to the fair value measurement. Assessing the significance of a particular input may require judgment considering factors specific to the asset or liability, and may affect the valuation of the asset or liability and their placement within the fair value hierarchy. The Fund classifies fair value balances based on the fair value hierarchy defined by ASC 820-10 as follows:

Level 1—Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis. Valuation adjustments and block discounts are not applied to Level 1 instruments.

Level 2—Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly

Level 3—Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investment income is recognized when earned and consists of interest, dividends, bond discount accretion and bond premium amortization. Dividends are recorded on the ex-dividend date. Purchases and sales are recorded on a trade-date basis.

(d) ASC 962

As described in ASC 962, (formerly FASB Staff Position FSP AAG INV-1 and SOP 94-4-1), "*Plan Accounting – Defined Contribution Pension Plans"*, investment contracts held by a defined contribution plan are required to be reported at fair value. This applies even when the contracts are not held directly by the Plan but are underlying assets in Common Collective Trust ("CCT") investments held by the Plan. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully

benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a CCT. As required by ASC 962, the statements of net assets available for benefits present the fair value of the investment in the CCT as well as the adjustment of the investment in the CCT from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

(e) Risks and Uncertainties

The Plan invests in a variety of investment funds. The investment funds are invested in U.S. equities and fixed income securities. Investment funds, like other investment securities, in general are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(f) Payment of Benefits

Benefit payments are recorded when paid.

(g) Accounting for Uncertainty in Income Taxes

The Plan adopted the provisions of ASC 740-10 (formerly FASB Interpretation No. 48), "Accounting for Uncertainty in Income Taxes", on January 1, 2009. Under ASC 740-10, a plan must recognize the tax benefit associated with tax positions taken for tax return purposes when it is more likely than not that the position will be sustained upon examination by a taxing authority. The Fund has filed for and received income tax exemptions in the jurisdictions where it is required to do so. Additionally, the Fund has filed Form 5500 Annual Return/Report of Employee Benefit Plan, as required, and all other applicable returns in jurisdictions where it is required. No interest or penalties were accrued as of January 1, 2009 as a result of the adoption of ASC 740-10. For the year ended December 31, 2009, there was no interest or penalties recorded or included in the financial statements**.**

(h) Updates to Fair Value Measurement and Disclosure

In 2009, FASB Staff Position 157-4, "Disclosures Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly", was issued and later codified into ASC 820, which expanded disclosures and required that the major category for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments.

In September 2009, the FASB issued ASU No. 2009-12, "Fair Value Measurements and Disclosures: Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent) ("ASU 2009-12"), which amended ASC Subtopic 820-10, Fair Value Measurements and Disclosures – Overall". ASU 2009-12 is effective for the first reporting period ended after December 15, 2009. ASU 2009-12 expands the required disclosures for certain investments with a reported net asset value ("NAV"). ASU 2009-12 permits, as a practical expedient, an entity holding investments in certain entities that calculate NAV per share or its equivalent for which the fair value is not readily determinable, to

measure the fair value of such investments on the basis of that NAV per share or its equivalent without adjustment**.** The ASU requires enhanced disclosures about the nature and risks of investments within its scope. Such disclosures include the nature of any restrictions on an investor's ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investee. The Fund has adopted ASU 2009-12 for the year ended December 31, 2009 (see note 3). The effect of the adoption of the ASU had no impact on the statement of changes in net assets available for benefits.

(i) New Pronouncement

In January 2010, the FASB issued Accounting Standards Update ("ASU") No. 2010-06, "Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements". This ASU requires some new disclosures and clarifies some existing disclosure requirements about fair value measurement as set forth in Codification Subtopic 820-10. The FASB's objective is to improve these disclosures and, thus, increase the transparency in financial reporting. ASU No. 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The Fund does not expect the implementation of ASU No. 2010-06 to have a material impact on its financial statements.

(3) Investments

The Plan's assets and liabilities recorded at fair value have been categorized based upon a fair value hierarchy in accordance with ASC 820-10. See Note 2 for a discussion of the Plan's policies regarding this hierarchy.

A description of the valuation techniques applied to the Plan's major categories of assets and liabilities measured at fair value are as follows:

Mutual Funds

The Plan has investments in mutual funds. Each mutual fund net asset value ("NAV") is the value of a single share. The mutual funds are valued on a daily basis at the close of business day for the New York Stock Exchange ("NYSE"). The assets of each mutual fund consist primarily of shares of the underlying Fidelity fund, which are valued at their respective NAV. A money market underlying Fidelity fund assets are valued on the basis of amortized costs. Other underlying Fidelity fund assets are valued primarily on the basis of market quotation, official closing process, or on the basis of information furnished by a pricing service. These investments are priced by the Plan's custodian using nationally recognized pricing services based on observable market data and are classified as Level 2.

Common Collective Trust

The Plan has investments in a CCT which invests mainly in fixed-income securities or bond funds (may include derivative instruments such as future contracts and swap agreements). In addition the CCT invests in wrapper contracts issued by third parties and cash equivalents represented by shares in money market funds.

The fair value of these investments is determined at the close of business of the NYSE by a nationally recognized pricing service. These assets are classified as Level 2 as most of the underlying investments are in exchange-traded fixed income and money market funds.

Participant Loans

Participant loans are stated at their outstanding balance, which approximates fair value. These loans are classified as Level 3 in accordance with the fair value hierarchy.

The following tables present the level within the fair value hierarchy at which the Plan's financial assets and financial liabilities are measured on a recurring basis at December 31, 2009 and 2008:

	Balance at December 31, 2009	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:				
Mutual funds:				
Fixed Income	$ 4,144,122	$ —	$ 4,144,122	$ —
International Public Equity	9,060,986	—	9,060,986	—

(Continued)

The table listed below provides a reconciliation of the beginning and ending net balances for assets and liabilities measured at fair value and classified as Level 3 in the fair value hierarchy for the years ended December 31, 2009 and 2008:

	December 31	
	2009	2008
Beginning balance	$ 857,413	$ 917,587
Loan withdrawals	546,937	354,200
Loan repayments	(433,872)	(414,374)
Ending balance	$ 970,478	$ 857,413

The Fund had no financial assets or financial liabilities that were measured at fair value on a non-recurring basis during the year ended December 31, 2009 and 2008.

Investments that represent 5% or more of net assets of the Plan are as follows as of December 31:

	December 31	
	2009	2008
Fidelity Intermediate Bond Fund	$ 1,493,241	$ 1,207,828
Fidelity Diversified International Fund	1,703,829	1,245,334
Fidelity Puritan Fund	2,055,185	1,775,262
Fidelity Spartan U.S. Equity Index Portfolio	2,614,591	2,067,154
Fidelity Growth & Income Portfolio	2,119,482	1,703,166
Fidelity Magellan Fund	3,859,213	2,682,803
Fidelity Managed Income Portfolio	5,779,454	5,424,936
Fidelity Government Income Fund	2,650,881	2,318,528

In accordance with ASU No. 2009-12, the Plan expanded its disclosures to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV per share or its equivalent for which the fair value is not readily determinable, as of December 31, 2009. The following table for December 31, 2009, sets forth a summary of the Plan's investments with a reported NAV:

Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Fixed Income	$ 4,144,122	$ —	Daily	Prior Day
International Public Equity	9,060,986	—	Daily/Weekly	Daily through 10 Business Days
U.S. Public Equity	6,789,258	—	Daily/Weekly	Daily through 10 Business Days
Stable Value - Fixed Income*	5,673,946	—	*	*

**Withdrawals made in order to accommodate distribution to participants under a Participating Plan, whether in-service or following termination of employment, may be made on any business day. Withdrawals made in order to accommodate a participant-directed exchange to another investment option under a Participating Plan may be made on any business day, provided that the exchange is not directed into a competing fund. Transferred amounts must be held in a non-competing investment option for 90 days before subsequent transfers to a competing fund can occur. Withdrawals directed by a Plan Sponsor must be preceded by twelve (12) months written notice to the Trustee; provided, however, that the Trustee may, in its discretion complete any such plan-level withdrawals before the expiration of such twelve (12) month period. The Trustee may defer completing any withdrawal where doing so immediately might adversely affect the Portfolio. The Trustee shall make the payments available as quickly as cash flows and prudent portfolio management permits.*

During 2009 and 2008, the Plan's investments in (including gains and losses on investments bought, sold and held during the year) appreciated/(depreciated) in fair value as follows:

	2009	2008
Mutual Funds	$ 3,316,634	$ (9,318,860)
Common Collective Trust	61,886	(52,442)
Net appreciation (depreciation) in value	$ 3,378,520	$ (9,371,302)

(4) Excess Contribution Payable

During 2009 and 2008, the Plan failed the Actual Deferral Percentage (ADP) test which measures the contributions of the highly compensated employees (HCE) and the non-highly compensated employees (non-HCE). The amount contributed by the HCE cannot exceed a certain limit based on the amount contributed by the non-HCE. The HCE contributed $32,276 and $73,473 over the ADP limit during 2009 and 2008, respectively. As of December 31, 2009, $32,276 remains to be reimbursed.

(5) Plan Termination

While it has not expressed any intention to do so, the Plan may be terminated or partially terminated, or contributions under the Plan may be partially or completely terminated at any time by the Board of Directors of ALICO. In the event of such termination of the Plan, the participants would become 100% vested and the assets remaining shall be distributed to participants, former participants and beneficiaries in proportion to their respective account balances at the date of termination.

(6) Tax Status

The Plan Sponsor has adopted a prototype non-standardized retirement plan, which received a favorable opinion letter from the IRS on October 9, 2003, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

There was no unrelated business income for 2009. In addition, the Plan has not taken a tax position that would require provisions of a liability under ASC 740-10. See note 2(g).

(7) Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 and 2008 to Form 5500:

	December 31, 2009	December 31, 2008
Net assets available for benefits per the financial statements	$ 26,840,993	$ 21,736,084
Less – adjustment from fair value to contract value for fully benefit-responsive investment contracts	(105,508)	(292,632)
Net assets available for benefits per the Form 5500	$ 26,735,485	$ 21,443,452

The following is a reconciliation of investment income per the financial statements for the years ended December 31, 2009 and 2008 to Form 5500:

	December 31, 2009	December 31, 2008
Total investment income per the financial statements	$ 4,008,141	$ (8,469,242)
Less - adjustment from fair value to contract value for fully benefit-responsive investment contracts	(187,124)	(230,600)
Total investment income per the Form 5500	$ 4,195,265	$ (8,699,842)

(8) Transactions with Parties-in-Interest

The recordkeeping and custody functions for the underlying investments held by the Plan are performed by Fidelity Management Trust Company ("Fidelity"). Certain investments of the Plan are shares of mutual funds and common collective trust whose advisors are affiliated with Fidelity. Participants' loans also qualify as party-in-interest.

The Plan maintains a banking relationship with Amalgamated Bank (the "Bank"). The Bank is a party in interest to the Plan and certain members of the board of directors of the Bank serve as board of trustees of the Plan.

(9) Subsequent Events

The Plan's management has performed subsequent event procedures through October 13, 2010, which is the date the financial statements were available to be issued and there were no subsequent events requiring adjustment to the financial statements or disclosures as stated herein.
