401(k) PLAN RETIREMENT SAVINGS PLAN

NOTE 1 - DESCRIPTION OF PLAN

The following description of The D/T Carson Enterprises Inc. Employees 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information of the Plan's provisions.

General

The Plan is a defined contribution plan and was originally established on April 1, 2001. The Plan covers all employees of D/T Carson Enterprises Inc. (the Company) and its related entities who meet the following eligibility requirements:

a. Attained age 21.
b. Completed three months of service with the Company.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and the Internal Revenue Code (IRC). The Plan was amended at various dates through March 31, 2012 to comply with applicable laws and regulations.

Plan Administration

The Company is the plan administrator and is responsible for managing the day-to-day operations of the Plan. American United Life Insurance Company (AUL), custodian of the plan, is responsible for investing and managing the Plan's assets.

Contributions

Participants may elect to defer their compensation as an employee savings contribution, subject to the IRC limitations. Plan participants over age 50 may defer catch-up contributions, subject to the IRC limitations. Rollovers from other qualified plans are accepted. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make matching contributions equal to a discretionary percentage. During the years ended March 31, 2012 and March 31, 2011, the Company matched 100% of the participants' pre-tax contributions, up to 3% of eligible compensation. Participants must be employed on the last day of the Plan year to be eligible to share in the allocation of matching contributions.

NOTE 1 - DESCRIPTION OF PLAN - CONTINUED

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions (including those rolled over from another qualifying plan), related matching contributions, and an allocation of Plan earnings, and charged with benefit payments and allocation of Plan losses and expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of their contributions and their share of employer contributions into various investment options offered by the Plan, and may change their investment elections anytime. The investment options include a fixed interest investment option (Fixed Account) and Separate Account funds. Investments in the Fixed Account are credited with a contractual rate of return and are guaranteed by AUL. Separate Account investments consist solely of investments in mutual funds registered with the Securities and Exchange Commission (SEC).

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus earnings thereon is based on years of continuous service as follows:

Years of Service	% Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Forfeitures

Forfeitures of employer matching contributions are used to offset Plan administrative expenses and reduce the Company's matching contributions. During the year ended March 31, 2012, forfeitures in the amount of $59 and $24,624 were used to reduce Plan expenses and employer matching, respectively. There were no forfeitures available to reduce future Plan expenses and the Company's matching contributions at March 31, 2012.

NOTE 1 - DESCRIPTION OF PLAN - CONTINUED

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution or installment payments equal to the participant's vested account balance, if the vested account balance is more than $5,000. If the vested account balance is $5,000 or less, the entire balance will be paid out. In addition, hardship distributions are permitted as defined by the Plan document.

Notes Receivable from Participants

In accordance with the Plan document, participants are not allowed to borrow funds from their accounts.

Administrative Expenses

Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan. Audit fees and other administrative expenses are paid by the Company.

NOTE 2 - SUMMARY OF SIGNFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such change could materially affect the amounts reported in the statements of net assets available for Benefits.

NOTE 2 - SUMMARY OF SIGNFICANT ACCOUNTING POLICIES - CONTINUED

Valuation of Investments

In accordance with GAAP, all assets of the Plan are stated at fair value or amounts approximating fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 7). GAAP also requires the statements of net assets available for benefits present the adjustment from fair value to contract value for the fully benefit-responsive investment contracts, if material, and the statement of changes in net assets available for benefits to be prepared on a contract value basis for the fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts are the contracts that guarantee that (1) the crediting rate provided under the contract will not fall below zero and (2) participant-initiated withdrawals from the fund (i.e., withdrawals as the result of death, disability, retirement, termination of employment, hardship withdrawal, and transfers to a non-competing fund) will be covered at contract value.

Investment Contract with Insurance Company

The Plan has an investment contract with AUL through the Fixed Account. Contributions to the Fixed Account are maintained in the AUL general account, to which AUL adds interest at the contract rate. The interest rate is based on the expected on held in the AUL general account, which should always be equal or exceed the contractually guaranteed rate. The general account is invested predominantly in fixed-income investments such as bonds, mortgages, and private placements. The interest rate earned for the years ended March 31, 2012 and 2011 was 3%.

Withdrawals from the Fixed Account and transfers between the Fixed Account and the other investment options are made at contract value. However, there are certain restrictions on transfers from the Fixed Option. In addition, liquidation of the entire contract may cause a one-time adjustment to the aggregate contract value, resulting in a fair value different from the contract value. Therefore, the contract is not considered to be fully responsive as defined in the GAAP and is reported at fair value. Contract value approximates fair value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Recognition of Income

Net change in fair value of investments includes realized and unrealized gains and losses on investments sold or held during the year. Sales and purchases are accounted for on a trade date basis, and interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE 2 - SUMMARY OF SIGNFICANT ACCOUNTING POLICIES - CONTINUED

Benefits

Benefit payments to participants are recorded when paid. The amounts allocated to accounts of terminated employees who have also terminated their participation in the Plan, including involuntary cash-outs, as a component of net assets available for benefits were $217 and none at March 31, 2012 and March 31, 2011, respectively.

Subsequent Events

In accordance with GAAP, events occurring between March 31, 2012 and November 2013, 2012 (the date these financial statements were available to be issued) were evaluated, and no material subsequent events that required recognition in these financial statements were noted.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-06, *Fair Value Measurements and Disclosures,* which amends ASC 820, *Fair Value Measurements and Disclosures*, adding a new disclosure requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis. This requirement is effective for fiscal years beginning after December 15, 2010. The adoption in 2011 did not materially affect the Plan's financial statements.

In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU No. 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU No. 2011-04 requires information about all transfers between Levels 1 and 2, not just significant transfers, as well as additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. It also requires disclosure of the categorization by level for items that are not measured at fair value in the statement of net assets available for benefits but are disclosed at fair value. The new guidance is effective for reporting periods beginning after December 15, 2011. Plan management does not expect the adoption of ASU No. 2011-04 to have a material effect on the statements of net assets available for benefits and statements of changes in net assets available for benefits.

NOTE 3 - INCOME TAX STATUS

The Company has adopted a Prototype Non-Standardized Profit Sharing Plan that received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, which stated that the Plan was in compliance with the applicable requirements of the IRC.

The Plan has been amended since receiving the opinion letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

In accordance with GAAP, the Plan management is required to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of March 31, 2012, there are no uncertain positions taken or expected to be taken. As a result, the Plan has recognized no interest or penalties related to uncertain tax positions.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2008.

NOTE 4 - PLAN TERMINATION AND AMENDMENT

Although it has not expressed any intent to do so, the Company has the right under the Plan documents to amend or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balances.

NOTE 5 - INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan has certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for Benefits as of March 31, 2012 and 2011 and the supplemental Schedule H, line 4i – Schedule of assets (Held at End of Year) as of March 31, 2012, and the related investment activity reflected in the accompanying statement of changes in net assets available for Benefits for the year ended March 31, 2012.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by AUL, the custodian, as defined by the Plan. Therefore, these transactions qualify as party-in-interest and are denoted as such on the Supplemental Schedule H, line 4i – Schedule Assets (Held at End of Year). However, these party-in-interest transactions are exempt pursuant to ERISA regulations.

NOTE 7 - FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date (an exit price). The fair value hierarchy prioritized the inputs to valuation techniques used to measure fair value into three levels, with the highest priority given to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority given to unobservable inputs (Level 3). The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methodologies used for the Plan assets measured at fair value on a recurring basis are as follows:

- Separate Account investments in mutual funds are valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Separate Account at year-end. The NAV of the Separate Account is not a publicly-quoted price in an active market, but it is based on underlying investments, which are traded in an active market (Level 2).

- Fair Value of the Fixed Account is based on discounting the related cash flows based on current yield of similar instruments with comparative durations and creditworthiness (Level 3)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at March 31, 2012 and 2011:

	Fair Value Measurement at March 31, 2012 Using Input Type			
	Level 1	Level 2	Level 3	Total
Separate Account	$ -	$ 1,990,382	$ -	$ 1,990,382
Fixed Account	-	-	328,394	328,394
	$ -	$ 1,990,382	$ 328,394	$ 2,322,431

NOTE 7 - FAIR VALUE MEASUREMENTS - CONTINUED

	Fair Value Measurement at March 31, 2011 Using Input Type			
	Level 1	Level 2	Level 3	Total
Separate Account	$ -	$ 1,799,927	$ -	$ 1,799,927
Fixed Account	-	-	304,258	304,258
	$ -	$ 1,799,927	$ 304,258	$ 2,104,185

For Plan investments measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the year ended March 31, 2012, the reconciliation of beginning and ending balances is as follows:

Fair value at April 1, 2011	$ 304,258
Interest income	9,446
Purchases	71,584
Sales	(56,894)
Total gains (realized/unrealized)	-
Transfers out of Level 3	-
Fair value at March 31, 2012	$ 328,394

The preceding methods may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the measurement date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one level to another. In such instances, the transfer is reported at the end of the reporting period. There have been no material transfers in or out of Levels 1, 2, and 3 during the years ended March 31, 2012 and 2011.

NOTE 8 - INVESTMENTS

The fair values of individual investments that represent 5% or more of the Plan's net assets available for Benefits are as follows at December 31:

	2012	2011
AmCent Strategic Alloc Aggres	$ 136,330	$ 115,072
AmCent Strategic Alloc Mod	168,667	162,971
AUL Fixed Account	328,394	304,258
Columbia Mid Cap Index	176,133	204,731
Janus Aspen Series Flex Bond	127,821	62,239*
Janus Aspen Series WW Growth	174,029	192,871
OneAmerica Money Market	131,801	103,520*
OneAmerica Value	179,191	170,009
SSgA S&P 500 Index	324,914	308,169
Vanguard Vif Small Comp Growth	152,133	104,265*

* For comparison purposes

During the Plan year ended March 31, 2012, the Plan's investments (including interest, dividends, gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $65,758.

NOTE 9 - CORRECTIVE DISTRIBUTIONS

The Plan failed to pass the Actual Deferral Percentage (ADP) test for the 2012 Plan year. In order to correct such testing failure, federal law generally requires that corrective action be completed no later than the end of the following year to avoid Plan disqualification. The corrective distributions as of March 31, 2012 in the amount of $28,862 were made subsequent to year end and are reported as a liability in the accompanying statements of net assets available for benefits.

Considering the remedial actions taken pursuant to the provisions of the Plan documents, management believes that the failed nondiscrimination testing will not affect the tax-exempt status of the Plan.

NOTE 10 - RECONCILIATION OF THE FINANCIAL STATEMENTS TO THE FORM 5500

The following is a reconciliation of net assets available for Benefits reflected on the financial statements to the Form 5500 as of December 31:

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
