Notes to Financial Statements

Note 1: Description of Plan

The following description of the Scosche Industries, Inc. 401(k) Profit Sharing Plan ("the Plan") provides general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which became effective January 01, 1994. The plan covers all employees of Scosche Industries, Inc, who are twenty-one years of age or older and have attained one year of service prior to the plan entry dates. Effective January 1, 2006, the Plan became a "safe harbor 401(k) Plan". The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Contributions to the 401(k) plan may consist of funds contributed by the Company, employees and rollover contributions. Participants may elect to defer a percentage of their compensation to the plan through payroll deductions. Federal tax laws limit the maximum annual contributions participants can make. For the year ended December 31, 2009, maximum deferrals were limited to $16,500. Participants who reach age 50 by the end of the year can make annual catch-up contributions of $5,500.

The Company makes a safe harbor matching contribution equal to 100% of the participants' salary deferrals that do not exceed 3% of their compensation plus 50% of their salary deferrals between 3% and 5% of their compensation. This safe harbor matching contribution is 100% vested. For purposes of calculating the safe harbor matching contribution, the participants' compensation and deferrals will be determined on a payroll period basis. The Company's safe harbor matching contribution for the year ended December 31, 2009 was $169,890.

Each year, the Company may make a discretionary profit sharing contribution to the Plan. The profit sharing contribution will be "allocated" or divided among participants eligible to share in the contribution for the Plan year. The participants' share of the profit sharing contribution is determined by the following fraction:

$$\text{Profit sharing contribution} \times \frac{\text{Participant compensation}}{\text{Total compensation of all participants eligible to share}}$$

In order to share in the profit sharing contribution, the employees have to be employed on the last day of the Plan year and completed at least 1000 hours of service during the Plan year. The Company's profit sharing contribution for the year ended December 31, 2009 was $502,016.

Note 1: Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with *(a)* the participant's contribution, *(b)* the Company's matching contribution and profit sharing contribution and *(c)* investment earnings, and charged with administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions made to these accounts are directed by the participant into various investment options offered by the Plan and the allocations between investments can be changed at will.

Vesting

Participants in a safe harbor 401(k) plan are 100% vested in their salary reduction, employer's safe harbor matching contribution and rollover contribution and the related earnings. Vesting in the Company's profit sharing contribution plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service in increments of 20% per year of participation beginning with year two. The employee must provide a minimum of 1000 hours of service to complete a year of vesting service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested interest in the Plan. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 2%. Principal and interest is paid ratably through payroll deductions. Participant loans generally must be repaid within 5 years if for purposes other than the purchase of a primary residence and within a maximum of 30 years for the purchase of a primary residence. Effective November 1, 2009, the loan interest rate was changed to be commensurate with the rate of interest charged on similar commercial loans by persons or institutions in the business of lending money in the same geographic area as the Plan sponsor.

At December 31, 2009 and 2008, there were loans to participants which totaled $104,607 and $61,872 respectively.

Payment of Benefits

Benefits are recorded when paid. On termination of service due to death, disability, or retirement, participants may elect to have their vested benefits distributed to them as soon as administratively feasible following termination of their employment. However, if the value of their vested benefits does not exceed $5,000, a lump-sum distribution will be made to them within a reasonable time after they terminate employment regardless of whether they elect to receive it.

Note 1: Description of Plan (Continued)

Forfeited Accounts

At December 31, 2009 and 2008, forfeited non-vested accounts totaled $6,385 and $5,031 respectively. These accounts were used to reduce future employer contributions.

Operating expenses

Expenses of maintaining the Plan are paid by the Company. Other costs not paid by the Company shall be paid by the Plan. Administrative and trust expenses charged to the Plan amounted to $25,297 and $7,610 for the years ended December 31, 2009 and 2008, respectively.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at amortized cost, which represent fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis, dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 3: Plan Termination

Note 5: Tax Status

The Plan is a prototype qualified plan designed by Invesmart Inc., which is covered by an opinion letter issued by the Internal Revenue Service. The Plan has been amended since its inception, and the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 6: Information Prepared and Certified by the Trustee (unaudited)

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified as complete and accurate by the Trustee:

	2009	2008

Net investment income	796,883	(1,185,184)

Note 7: Related-Party Transactions

Certain plan investments are shares of mutual funds managed by the Trustee, and therefore, these transactions qualify as party-in-interest transactions.

Note 8: ERISA Bond Requirement

The Employment Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the plan year or $500,000. At December 31, 2009 and 2008, the Plan's sponsor maintained bond coverage in the amount of $500,000 and $400,000 respectively.

Note 9: Fair Value Measurements

FASB Statement 157, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active and inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

As stated in Note 2, with the exception of loan balances from participant loans receivable, all plan investments are regulated investment funds managed by the Charles Schwab Trust Company. Fair value determination for all these fund is based on Level 1 of the fair value hierarchy.

The following table sets forth by level, within the fair value hierarchy, the plan's net assets at fair value as of December 31, 2009 and 2008.

	Assets at Fair Value at December 31, 2009

Note 10: Risks and Uncertainties

The Plan's investments, in general, are subject to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

On January 29, 2010, the Company was notified by the Internal Revenue Service that they were auditing the Plan for plan year ended December 31, 2008. Management is not aware of any matters that would affect the Plan's financial statements, footnotes, or supplemental schedules; however, the final outcome of the audit is unknown at this time. The accompanying financial statements do not include any adjustments that might result from this uncertainty.

Note 11: Summary of Significant Plan Amendments

On January 01, 2006, the Plan was amended to include the safe harbor provision into the Plan. Effective January 1, 2009 the Plan eliminated the 6 month deferral suspension for hardship withdrawals. Other amendments were made to have the Plan comply to the current tax laws and regulations.

Note 12: Subsequent Events

Pursuant to FASB Accounting Standards Codification 855-10, subsequent events have been evaluated through October 7, 2010.
