THE PLAN ADMINISTRATOR AND PARTICIPANTS

THE PASHA GROUP 401(k) PROFIT SHARING PLAN

We were engaged to audit the financial statements of THE PASHA GROUP 401(k) PROFIT SHARING PLAN (the "Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and the supplemental schedules as of and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by First State Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE PASHA GROUP 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2009

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of The Pasha Group 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan was established in 1994 to provide retirement benefits for employees of The Pasha Group (the "Company") in the United States. In addition, the employees of Gateways International, Inc., Pasha Stevedoring & Terminals, Inc., Pasha Stevedoring & Terminals, L.P., Pasha Freight Systems, Pasha Automotive Services, BINL Incorporated, American Shipping, Inc., Ryan's World, and MODO International are eligible as adopting employers. The Plan is a defined contribution plan covering all employees of the Company and the adopting employers, except members of a collective bargaining agreement, non-resident aliens and independent contractors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and certain provisions of the Internal Revenue Code ("IRC"), as amended.

The Plan provides for a Plan administrator who is responsible for keeping accurate and complete records with regard to the Plan's operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and government regulations and providing participants with any reports and documents required by law.

The Plan's trustee, CitiGroup Institutional Trust Company ("CitiGroup"), was a wholly owned subsidiary of CitiGroup, Inc. through November 30, 2008. Effective December 1, 2008, CitiGroup was divested from CitiGroup, Inc. and became an independent trust company, First State Trust Company ("FSTC").

Participation – An employee of the Company and of the adopting employers is eligible to participate in the salary deferral portion of the Plan on the first day of the month on or after the employee has worked for at least 30 days and is at least 21 years of age. An employee is eligible for employer profit sharing and matching contributions beginning on the January 1st or July 1st that falls on or after the employee has worked for a period of 6 months and is at least 21 years of age.

Participant Contributions – Participants may elect to make pre-tax salary contributions and/or after-tax ("Roth" deferrals) salary contributions, subject to an annual maximum amount ($16,500 for 2009). Participants, who are at least 50 years of age by the end of the calendar year, may also make catch-up contributions subject to an annual maximum amount ($5,500 for 2009). Participants may rollover amounts representing distributions from an eligible retirement plan subject to approval by the Plan administrator.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Employer Contributions – The Company may elect to make discretionary matching contributions and profit sharing contributions as determined by the management of the Company. Contributions are subject to certain limitations. A participant's eligible compensation for purposes of determining the profit sharing contribution is subject to an annual maximum amount ($245,000 for 2009). Participants must be credited with at least 1,000 hours of service and must be employed on the last day of the Plan year to receive the discretionary profit sharing contribution. There were no profit sharing and discretionary matching contributions made for 2009.

Participant Accounts – The Plan maintains an account for each participant which is credited with the participant's contributions and the Company's matching contributions, if any, and allocations of (a) the Company's profit sharing contributions and, (b) Plan investment earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting of Plan Benefits – Participants are immediately vested in their voluntary contributions, rollover contributions and any actual earnings thereon. Vesting in the Company's contributions and earnings thereon is based on years of credited service. Vesting is based on a 5-year graded scale as follows:

Years of Service	Vested Percentage
Less than One Year	0%
1 Year	20%
2 Years	40%
3 Years	60%
4 Years	80%
5 Years	100%

Investment Options – Upon enrollment in the Plan, a participant is allowed to direct the investments of his or her account balance into various investment funds offered through FSTC, the Plan's trustee. A participant may also direct the investment of account funds to the purchase of life insurance programs, as defined.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Loans – The Plan allows participants to borrow from their vested account balance provided they meet the Plan's eligibility requirements. The minimum loan amount is $1,000 and the maximum loan amount is the lesser of one-half of the participant's vested account balance or $50,000. The term of the loan is not to exceed five years, except for loans used to finance the purchase of a primary residence, which could be for a longer period. The loans are collateralized by the balance in the participant's account and bear a fixed interest rate based on the prime rate plus 1% at the date of loan. At December 31, 2009, interest rates on outstanding loans ranged from 5.25% to 9.00% and maturity dates ranged from January 2010 to April 2036. Principal and interest are repaid ratably through semi-monthly payroll deductions. Participants are allowed to continue payments for up to one year after termination of employment. At the end of one year, any unpaid loan balance will be considered in default and will become due and payable.

Payment of Benefits – Upon termination of service due to death, disability or other reasons, a participant (or beneficiary) may elect to receive a lump-sum amount equal to the value of the participant's vested account balance. Upon normal retirement, a participant becomes fully vested and may elect to receive a lump-sum payment from his or her account balance. Normal retirement age is 65 years. A participant may also be eligible for a withdrawal due to financial hardship in certain circumstances. Mandatory distributions are required to begin no later than April 1st following the later of the end of the year a participant retires, or reaches age 70 ½. If a terminated participant's account balance is between $1,000 and $5,000, and no instructions have been received from such participant, the amount will be rolled over to an individual retirement account as designated by the plan administrator. However, if the vested benefit in the participant's account does not exceed $1,000, the participant will receive the full value of the vested interest in the account as a lump sum distribution.

Forfeited Accounts – The unvested portion of a participant's account is forfeited upon separation of employment. Forfeitures are applied to pay administrative fees and discretionary employer contributions. The balance of unapplied forfeitures as of December 31, 2009 and 2008 was $25,293 and $34,502, respectively. There were no forfeitures used for the year ended December 31, 2009.

Administrative Expenses – Administrative expenses are paid out by the Plan unless the Company elects to pay them.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared under the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

New Accounting Pronouncements – On June 30, 2009, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles (as amended).* This standard established the FASB Accounting Standards Codification ("FASB ASC") as the single source of authoritative accounting principles generally accepted in the United States of America recognized by the FASB to be applied by nongovernmental entities. Substantially all previous United States generally accepted accounting principle standards issued by a standard setter are superseded and are codified into the FASB ASC. The FASB ASC is effective for financial statements issued for periods ending after September 15, 2009. Adoption of the FASB ASC had no impact on the Plan's net assets available for benefits or changes in net assets available for benefits.

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events*, now codified in the *Subsequent Events* topic of the FASB ASC. This new standard establishes general standards of accounting for and disclosure of events that occur after the date of the financial statements but before the financial statements are issued or are available to be issued. The Plan has adopted this standard in 2009 and the Plan has evaluated subsequent events through October 13, 2010, the date the financial statements were available to be issued.

In September 2009, the FASB issued Accounting Standards Update ("ASU") No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* ASU No. 2009-12 permits the use of net asset value per share, without further adjustment, to estimate the fair value of investments in investment companies that do not have readily determinable fair values as defined by FASB. The accounting guidance in ASU No. 2009-12 is effective for periods ending after December 15, 2009, and early adoption is permitted. The Plan adopted these amendments effective January 1, 2009. The adoption did not have an impact on the Plan's financial statements and all required disclosures have been made.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

As described in the *Plan Accounting – Defined Contribution Pension Plans* topic of the FASB ASC (formerly Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and Statement of Position 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in benefit-responsive contracts through a common collective trust. As required by the standard, the Statements of Net Assets Available for Benefits presents the fair value of the investment in the common collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

NOTE 3 – FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* topic of the FASB ASC (formerly SFAS No. 157, *Fair Value Measurements*) provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described as follows:

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds: Valued based on quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year-end.

Common Collective Trusts: Valued based on quoted market prices of the underlying investments, which represent the NAV of shares held by the Plan at year-end.

Cash Value of Life Insurance Policies: Valued at cash value as reported by The Prudential Insurance Company of America ("Prudential"), which represents fair value.

Participant Loans: Valued at amortized cost, which approximates fair value.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTES TO FINANCIAL STATEMENTS

December 31, 2009

NOTE 4 – INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE OF THE PLAN

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The investment information as of December 31, 2009 and 2008 and for the year ended December 31, 2009, including the information in Note 3 and the supplemental schedules, except for the cash value of life insurance policies and participant loans, and the related investment income, was obtained from data that has been certified by FSTC, the custodian and trustee of the Plan, to be complete and accurate.

The following is a summary of the certified investment information prepared by the trustee, furnished to the Plan administrator and included in the Plan's financial statements and supplemental schedules at December 31:

NOTE 4 – INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE OF THE PLAN (Continued)

The following is a summary of investment income information certified by FSTC for the year ended December 31, 2009:

Net Appreciation in Fair Value of Investments:	
Mutual Funds	$ 4,977,819
Common Collective Trust Funds	162,547
	5,140,366
Interest and Dividend Income	396,031
Portion of Investment Income Certified	$ 5,536,397

NOTE 5 – INVESTMENT CONTRACT

The Plan has a beneficial ownership interest in the Capital Preservation Fund (the "Fund") which invests primarily in guaranteed investment contracts ("GICs") issued by insurance companies and other financial institutions, and other investment products (synthetic GICs and collective investment trusts) with similar characteristics.

Traditional GICs are backed by the general account of the issuer. The Fund deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals, as defined, will occur at contract value (principal plus accrued interest). GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date.

NOTE 5 – INVESTMENT CONTRACT (Continued)

A synthetic GIC is an investment contract issued by an insurance company or bank, backed by a portfolio of fixed income securities or collective investment trust funds that invest primarily in fixed income securities that are owned by the Fund. These assets underlying the investment contract are maintained separate from the contract issuer's general assets, usually by a third party custodian. The investment contract providers are obligated to provide an interest rate not less than zero. These contracts typically provide that realized and unrealized gains and losses in the underlying assets are not reflected immediately in the assets of the Fund, but rather are amortized, usually over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate. The issuer guarantees that all qualified participant withdrawals, as defined, will occur at contract value. The fund invests in synthetic GIC contracts to provide book value payments for qualified participant withdrawals while smoothing out the impact of interest rate changes in the normal course of pursuing its investment objectives.

Synthetic GICs are designed to reset the respective crediting rate typically on a monthly or quarterly basis. Traditional GICs do not reset their crediting rates as they provide a fixed rate of interest over the term to maturity of the contract. Synthetic GICs cannot credit interest at a rate less than zero percent. The net crediting rate reflects fees paid to wrap (synthetic) contract issuers.

As described in Note 2, the Plan accounts for the investment contract at contract value because it is fully benefit-responsive. Accordingly, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value.

The Fund attempts to reduce the risk of significant non-benefit related withdrawals by participating plans, which are permitted under the Declaration of Fund upon receipt of twelve months written notice, by investing in certain contracts which allow the Fund to effect book value withdrawals from the issuing entity under various circumstances, generally with twelve months notice required.

Unanticipated events, such as a GIC issuer's inability to meet its obligations or significant withdrawal requests by Plan participants in the Fund, could affect the recoverability of assets including the underlying investment securities of the synthetic GICs held by the Fund.

NOTE 5 – INVESTMENT CONTRACT (Continued)

The crediting rate is the periodic interest rate accrued to Plan participants and is either set at the beginning of the contract and held constant, or reset periodically to reflect the performance of the underlying securities. During the years ended December 31, 2009 and 2008, the average yield generated by the Investment Contract was as follows:

	2009	2008
Based on Actual Earnings	1.44%	4.33%
Based on Interest Rate Credited to Participants	1.06%	4.01%

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of the funds available through FSTC and life insurance policies issued by Prudential. Investment securities are exposed to various risks, such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect the participants' account balances and the amounts reported in the financial statements.

The underlying securities of the Plan's investments could include securities with contractual cash flows, such as, but not limited to, asset backed securities, collateralized mortgage obligations, and commercial mortgage backed securities and real estate. The value, liquidity and related income of these securities may be particularly sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by real or perceived difficulties of the issuers, changes in interest rates and conditions in financial markets.

NOTE 7 – INCOME TAX STATUS

The Company adopted a Plan document which received a favorable opinion letter from the Internal Revenue Service ("IRS") on January 11, 2002 under the trustee's volume submitter program, which stated that the prototype plan and related trust that the Plan adopted are designed in accordance with the applicable sections of the IRC. The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8 – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds and collective trust funds managed by FSTC. Fees paid by the Plan to FSTC for investment management services amounted to $161,166, for the year ended December 31, 2009. As of December 31, 2009 and 2008, investment management services fees of $45,406 and $35,215, respectively, were payable to FSTC. Transactions with FSTC qualify as party-in-interest transactions.

NOTE 9 – PLAN TERMINATION

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and the Company will direct the distribution of the Plan assets to the participants in accordance with the provisions of the Plan.

NOTE 10 – NONEXEMPT TRANSACTIONS

During August 2006 and October 2009, participant contributions, including a loan repayment, amounting to $427 and $100, respectively, were not deposited to the trustee in a timely manner, as defined by ERISA. The delinquent contributions were remitted to the trustee in April 2009 for $427 and December 2009 for $100. The Plan Sponsor remitted to the trustee the lost earnings and interest on the delinquent contributions amounting to $94 on August 31, 2010.

These nonexempt transactions do not affect the tax status of the Plan.

NOTE 11 – SUBSEQUENT EVENTS

Effective January 1, 2010, the Plan restated its Basic Plan Document to include certain regulatory requirements. There were no significant changes to the provisions of the Plan as a result of the restatement.
