We were engaged to audit the accompanying statement of net assets available for benefits of North Florida Surgeons, P.A. Profit Sharing Plan (the "Plan") as of December 31, 2009, the related statement of changes in net assets available for benefits for the year then ended, and the supplemental schedule of Schedule H, line 4i – Schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3 and 5, which was certified or provided by Orchard Trust Company, LLC, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009, and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 2009 financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of the Plan as of December 31, 2008, in accordance with the Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying 2008 statement of net assets available for benefits and, accordingly, do not express an opinion or any other form of assurance on it.

1. Description of Plan

The following description of North Florida Surgeons, P.A. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of North Florida Surgeons, P.A. (the "Company") who have completed one year of service, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may contribute in whole percentages with a minimum of 1 percent of their pre-tax compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company makes a safe harbor non-elective contribution to all eligible non-highly compensated employees, equal to 3% of their compensation. The Company may also make additional non-elective and matching contributions equal to a discretionary percentage of the participant's elective deferral. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and the Company's safe harbor non-elective contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions and related earnings is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's vested account and bear interest at rates that range from 4.25 percent to 8.75 percent, which represent the Prime Rate plus 1 percent published on the first day of the month in which the loan is originated. Loan terms may not exceed five years unless it is for the purchase of a primary residence, in which case the term can be fifteen years. No more than two loans may be outstanding at a time for a participant. Principal and interest are paid ratably through payroll deductions.

1. Description of Plan (Continued)

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in annual installments. In any case, if the vested account balance is less than $5,000, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2009, forfeited non-vested accounts totaled $9,952. These accounts will be used to pay Plan expenses first and then reduce future Company discretionary non-elective or matching contributions with any remaining amount. During the year ended December 31, 2009, no Plan expenses or Company contributions were reduced by forfeited non-vested accounts.

2. Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the financial statements. The financial statements and accompanying notes are representations of the Plan's management. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the presentation of the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if any. At December 31, 2009 and 2008, Orchard Trust Company, LLC ("Orchard"), the trustee of the Plan, has reported to the plan administrator that fair value approximates contract value for the Plan's guaranteed investment contract, and thus no adjustment was recorded.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The administrative expenses of the Plan are either paid by the Plan or the Company.

Subsequent Events

The Plan has evaluated subsequent events through the date of the report of the independent certified public accountants, the date the financial statements were available to be issued.

3. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate as of or for the year ended December 31, 2009:

Investments:	
Pooled separate accounts	$ 5,449,252
Guaranteed investment contract	1,478,819
Participant loans	80,479
	$ 7,008,550
Investment income:	
Net appreciation in fair value of investments	$ 918,883
Interest and dividends	157,696
Total investment income	$ 1,076,579

3. Information Certified by the Plan's Trustee (Continued)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Investments

The following table presents individual investments that represent 5 percent or more of the Plan's net assets at December 31, 2009:

Key Guaranteed Portfolio Fund	$ 1,478,819
Pimco Total Return Admin	661,819
American Funds Capital World Growth & Income	605,655
American Funds American Balanced Fund	581,727
American Funds Growth Fund of America	557,619
Invesco Van Kampen Growth & Income A	522,950

For the year ended December 31, 2009, the Plan had net appreciation (including gains and losses on investments bought and sold, as well as held during the year) in the fair value of investments as follows:

Pooled separate accounts	$ 918,883
Exchange traded funds	127,394
Common stock	86,844
	$ 1,133,121

The Plan permits participants to invest their contributions through self-directed brokerage accounts, which are not covered under the limited scope certification. Components of the net appreciation in fair value of investments relating to the participant directed and self-directed accounts for the year ended December 31, 2009 are as follows:

Participant directed investments	$ 918,883
Self-directed investments	214,238
	$ 1,133,121

5. Fair Value Measurements

Authoritative guidance provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

5. Fair Value Measurements (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled separate accounts: Valued at the unit price reported by Great-West Life & Annuity Insurance Company ("Great West") for units held by the Plan at year-end.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Exchange traded funds: Valued at the net asset value of shares held by the Plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 6).

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Effective for 2009, the Plan adopted authoritative guidance that expands the disclosures, and requires that the major category for debt and equity securities in the fair value hierarchy table below be determined on the basis of the nature and risks of the investment. The guidance is to be applied prospectively. The table is presented using the same descriptions of the nature and risk of the investments that the custodian provides to the participants.

5. Fair Value Measurements (Continued)

There have been no changes in the methodologies used during the year ended December 31, 2009. The following table sets forth by level, within the fair value hierarchy, the Company's investments at fair value at December 31, 2009:

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

	Guaranteed Investment Contract	Participant Loans	Total
Balance, beginning of year	$ 1,181,078	$ 74,735	$ 1,255,813
Purchases, sales, issuances and settlements, net	297,741	5,744	303,485
Balance, end of year	$ 1,478,819	$ 80,479	$ 1,559,298

6. Guaranteed Investment Contract

The Plan has assets invested in the Key Guaranteed Portfolio Fund (the "Portfolio Fund"), a fully benefit-responsive investment contract. Great West maintains the contributions in a general account that is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is required to be presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Orchard has reported to the plan administrator that fair value approximates contract value for the Plan's guaranteed investment contract, and thus no adjustment is presented. Contract value, as reported to the Plan by Orchard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events cannot be initiated by the Plan participants, and can only be initiated by the Plan's administrator upon termination of the Plan or complete termination of the contract. The plan administrator does not believe that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. The average yield based on actual earnings and the interest rate credited to participants was 3.16% for the year ended December 31, 2009.

7. Related Party Transactions

Fees paid by the Plan to the third party administrator for administrative services amounted to $ 8,966 for the year ended December 31, 2009.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

9. Tax Status

The Plan has adopted the Orchard Trust Company Defined Contribution Prototype/Volume Submitter Plan and Trust. The Internal Revenue Service has informed the Company by letter dated May 14, 2004 that the plan adopted by the Company, as then designed, is in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since adoption, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. Plan Amendments

Effective January 1, 2010, the Plan was amended and restated in its entirety. The following changes were made: 1) North Florida Medical Services, LLC was added as a participating employer; 2) Roth deferrals were added as a contribution type; 3) each participant is now their own classification group with respect to Company non-elective contributions; 4) the age requirement was changed from 55 to 40 for in-service distributions from matching and non-elective accounts; 5) a participant may now receive an in-service distribution from a partially vested account; and 6) a change in elective service crediting for predecessor employers.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2009:

Net assets available for benefits per the financial statements	$ 8,026,302
Less: Company contribution receivable at December 31, 2009	(135,551)
Net assets available for benefits per Form 5500	$ 7,890,751

The following is a reconciliation of Company contributions per the financial statements to Form 5500 for the year ended December 31, 2009:

Company contributions per the financial statements	$ 690,060
Plus: Company contribution receivable at December 31, 2008	328,848
Less: Company contribution receivable at December 31, 2009	(135,551)
