CALAMOS
PROFIT SHARING 401(k) PLAN

Notes to Financial Statements

(1) Description of Plan

The following description of the Calamos Profit Sharing 401(k) Plan *(the "Plan")* is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan established by Calamos Investments LLC and affiliates *(collectively, the "Company")* and is subject to the provisions of the Employee Retirement Income Security Act of 1974 *("ERISA")*. Great-West Trust Company, LLC (formerly known as Orchard Trust Company, LLC) *(the "Trustee")* is the trustee of the Plan.

(b) Employee Contributions, Withdrawals, and Notes Receivable from Participants

Participants in the Plan are permitted to make pre-tax and post-tax contributions each payroll period up to a maximum annual amount of $17,000 in 2012. The Plan also permits participants who have attained age 50 before the end of the plan year to make additional elective deferrals to the Plan known as "catch-up" contributions, as permitted under federal income tax provisions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

A participant may not withdraw participant contributions until reaching the age of 59-1/2 unless hardship can be proven to the Benefits Administration Committee. Withdrawals due to retirement, death, permanent disability and termination of employment are provided for as defined within the Plan and are subject to federal income tax provisions.

A participant may also request a loan on before and after-tax contributions subject to the limitations set forth in the Plan. All loans are secured by the participant's account balance and generally repaid through semi-monthly payroll deductions. The minimum borrowing is $1,000 with the maximum borrowing equal to the lesser of $50,000 or 50 percent of the participant's vested account balance. Interest rates charged on these loans are fixed at the loan date and are calculated using the prime interest rate plus 1%. Interest rates on loans outstanding at December 31, 2012 range from 4.25% to 9.25%. Interest paid on outstanding loans is contributed to the participant's account. Loan origination fees are charged against the participants' loan amount.

(c) Employer Contributions

The Company contributes both a matching amount and a discretionary profit sharing amount. The Company matching amount consists of 50% of each eligible participant's before and after-tax contributions, not to exceed 3% of total compensation. At the end of each plan year, the Company may also contribute a discretionary profit sharing amount on behalf of each participating employee who has completed 1,000 hours of service within twelve months and is employed on the last day of the year, subject to hours of service requirements set forth in the plan document. The profit sharing amount is a percentage of the participant's eligible compensation and is directed by the plan sponsor in non-participant directed investments *(the "Profit Sharing Component")*.

(d) Forfeitures

Participants who terminate employment with a partially vested interest in their employer account balances may forfeit the rights in such non-vested account balances. Non-vested account balances are considered forfeited either when the participant closes their account by requesting a distribution or after five years from the date of termination. Forfeitures may be used to pay administrative expenses of the Plan or to reduce Company contributions. At December 31, 2012 and 2011, forfeited non-vested accounts totaled $263,503 and $653,894, respectively, which were used to fund employer contributions amounts subsequent to year end. Total forfeitures used to reduce employer contributions during 2012, were $465,828. For the year ended December 31, 2012, non-vested accounts totaling $410,397 were forfeited.

(e) Participation and Vesting

In accordance with the provisions of the Plan, each employee who is at least 20 1/2 years of age is eligible to participate in the Plan without regard to years of service. Employees are eligible for profit sharing benefits after completing 1,000 hours of service within twelve months.

Employees are fully vested in their own contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service as follows:

	Percent vested
Less than two years	- %
Two years, but less than three	20 %
Three years, but less than four	40 %
Four years, but less than five	60 %
Five years, but less than six	80 %
Six years or more	100 %

To earn a year of service, an employee must be credited with at least 1,000 hours of service during a plan year. Employees will be vested 100% through death, total and permanent disablement, or if they leave service with the Company at age 65 or over.

(f) Investment Elections

During 2012, the Plan had participant directed and non-participant directed investments. The non-participant directed profit sharing contributions were invested in various mutual funds at the direction of the Company. The employee contributions are directed by participants into various investment options offered by the Plan. The Company maintained seventeen investment elections for the Plan for the participants to direct:

- Calamos Focus Growth Fund, Class I (Formerly known as, Calamos Blue Chip Fund, Class I)
- Calamos Convertible Fund, Class I

During 2013, the Templeton International Bond Adv was added to the Plan, as an investment election, for participants to direct their contributions.

(g) Expenses

The expenses of the Plan are the responsibility of the Plan, but may be reimbursed by the Company. All expenses of the Plan for the year ended December 31, 2012 were paid by the Company, including administrative services provided to the Plan by certain employees.

(h) Participant Accounts

Each participant's account is credited with the participant's contribution, employer matching contribution, allocations of the company's profit sharing contribution and plan earnings. Participants also may be charged with loan fees and withdrawal expenses if loans or withdrawals are made. Allocation of profit sharing is based on participant compensation. Allocation of plan earnings is based on participant account balances.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on an accrual basis and in accordance with accounting principles generally accepted in the United States of America *("GAAP")*.

(b) Investment Valuation and Income Recognition

Plan investments are stated at fair value. Investments include mutual funds, which are recorded at the net asset value of the fund. Investments held in the profit sharing component consist of various mutual funds and are valued based on the net asset value of each respective mutual fund.

Purchases and sales of investments are recorded on a trade date basis. The cost of investments is determined using the specific identification method. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as the Plan's gains and losses on investments held during the year.

(c) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are treated as benefits paid based upon terms of the Plan document.

(d) Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, the reported amounts of changes in net assets available for benefits, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(e) Payment of Benefits

Payments of benefits are in the form of lump sum distributions and are recorded when paid.

(3) Investments

Investments that represent 5% or more of net assets available for benefits are as follows:

	December 31,	
	2012	**2011**
Calamos Growth Fund, Class I	$ 11,803,887	$ 11,279,476
Calamos International Growth Fund, Class I	10,518,894	9,183,370
Calamos Growth and Income Fund, Class I	8,644,934	8,257,429
Calamos Global Growth and Income Fund, Class I	8,287,115	7,676,421
Calamos Evolving World Growth Fund, Class I	4,348,091	3,889,070
Calamos High Yield Fund, Class I[(1)]	3,809,884	-

(1) As of December 31, 2011, investments in Calamos High Yield Fund, Class I, did not represent 5% or more of the net assets available for benefits.

During the year ended December 31, 2012, the Plan's investments in mutual funds, including gains and losses on investments bought and sold, appreciated in value by $4,222,306.

(4) Information Certified or Provided by the Trustee

The Company, as Plan Administrator, has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by the Trustee, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule.

	December 31,	
	2012	**2011**
Mutual funds	$ 65,860,184	$ 58,116,295
Notes receivable from participants	700,681	652,708

The Trustee also certified to the completeness and accuracy of $4,222,306 of net appreciation in fair value of the investments, $1,390,168 of interest and dividends related to the aforementioned investments and $30,072 of interest related to the notes receivables from participants for the year ended December 31, 2012.

(5) Fair Value Measurements

The Company utilizes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: Level 1 – observable inputs such as quoted prices for identical assets and liabilities in active markets; Level 2 – inputs, other than the quoted prices in active markets, that are observable either directly or indirectly (including quoted prices of similar securities, interest rates, credit risk, fair value adjustments to quoted foreign securities, etc.); and Level 3 – unobservable inputs in which there is little or no market data, and require the reporting entity to develop its own assumptions. For each period presented, the Company did not have any assets measured at fair value using Level 2 or Level 3 measurements. Transfers between levels are measured at the end of the reporting period. The Company had no transfers between levels during the reporting periods.

Investments are presented in the financial statements at fair value in accordance with GAAP. Investments in mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to be published at their daily net asset value and to be transacted at that price. These funds are deemed to be actively traded and are classified as Level 1 in the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2012 and 2011.

The following tables set forth by levels, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis as of December 31, 2012 and 2011.

(7) Related Party Transactions

The Plan invests in mutual funds managed by the Company from which the Company receives investment management fees; therefore, these investments qualify as party-in-interest transactions. During 2012, the Company received investment management fees ranging from 0.55% to 1.10% of the average daily net assets of each fund that it manages.

Certain employees of the Company provide administrative services to the Plan, and neither the Company nor the employees receive reimbursement from the Plan.

(8) Plan Termination or Modification

While the Company has not indicated an intent to terminate the Plan, the Company has the right under the Plan to modify or terminate the Plan at any time subject to the provisions of ERISA. However, the Company may not retroactively reduce the share of any participant or cause the Plan's assets to revert to the Company unless required by law. In the event of plan termination, participants would become 100% vested in their employer contributions and earnings thereon.

(9) Income Tax Status

The Plan adopted a prototype plan document sponsored by the Trustee. The Trustee received an opinion letter from the Internal Revenue Service *(the "IRS")*, dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code, and any employer adopting this prototype plan will be considered to have a plan qualified by the IRS. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the appropriate tax authorities. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

(10) Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, changes in the values of investment securities may occur in the near term and such changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits and changes therein.

(11) Subsequent Events

The Company has evaluated subsequent events through July 1, 2013, which is the date the statements were available to be issued.
