NOTE 1 - DESCRIPTION OF PLAN

The following description of the Atlantic Coast Enterprises, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan that was established on September 1, 2008 to provide retirement benefits for employees of Atlantic Coast Enterprises, LLC (the Company) who have at least 1 year of service and have reached the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may contribute up to 100% of compensation up to the maximum allowed by the Internal Revenue Code (the Code). Employees may also contribute amounts representing distributions from other qualified retirement plans (rollover contributions) to the extent permitted by the Code, regardless of whether they have met the eligibility requirements for participation in the Plan. Participant pre-tax deferral contributions for the year ended December 31, 2009 were $44,257. Participant Roth deferral contributions for the year ended December 31, 2009 were $3,874. The nonelective safe-harbor contribution was 100% of the amount of the participant's elective deferrals that do not exceed 3% of the participant's compensation, plus 50% of the amount of the participant's elective deferrals that exceed 3% of the participant's compensation but do not exceed 5% of the participant's compensation, which totaled $38,978. All contributions are subject to certain limitations imposed by the Plan and the Code.

Participant Accounts - Participants have separate accounts for employee and employer contributions for each investment option selected. Participants may elect to have contributions invested in any or all of the funds, subject to certain limitations. Investment income is allocated to the participants' accounts regularly. Investment income is allocated based on a participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's accounts.

Vesting - Participants are immediately vested in their deferral and rollover contributions, and employer contributions, including the earnings on these amounts.

Investment Options - Participants may direct their contributions to a variety of pooled separate accounts held at the Hartford Life Insurance Company. These funds include a variety of investment options with various objectives and degrees of financial risk.

Participant Loans - At the discretion of the Plan, participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or one-half of their vested account balance. Loan terms range over a term of no more than five years, except for the purchase of a principal residence, which may permit a longer repayment term. The loans are secured by the balance in the participant's account and bear interest at a rate that professional lenders would charge, as determined by the plan administrator. Participants may only have one loan outstanding at any given time. Generally, principal and interest are paid ratably through payroll deductions. The notes currently bear interest at 4.25%.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Payment of Benefits - Upon retirement, disability, death or termination of employment, the participant shall become entitled to the total value of his or her vested account, determined as of the valuation date. All distributions will be paid in a single lump-sum payment, as defined in the Plan or the Code.

Upon financial hardship, a participant is entitled to the value of his or her deferral accounts, but not the earnings thereon, determined as of the valuation date, which is payable immediately in a lump-sum distribution.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Plan uses the accrual basis of accounting for plan transactions.

Investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following is a description of the valuation methodology used for assets measured at fair value.

Pooled separate accounts are stated at their net unit values as reported by the investment manager of the fund based on the fair value of the underlying assets and liabilities. Participant loans are valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits - Benefits to participants are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties - The Plan provides for various investment options in pooled separate accounts funds. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

possible that changes in the values of investments will occur in the near term and those changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events - In preparing these financial statements, management has evaluated subsequent events through September 7, 2010, which represents the date the financial statements were available to be issued.

NOTE 3 - INCOME TAX STATUS

The Plan has adopted a nonstandardized prototype plan that received a favorable opinion letter from the Internal Revenue Service that it was in compliance with the applicable requirements of the Code. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the plan administrator believes the Plan was qualified and the related trust was tax exempt as of the financial statement date.

NOTE 4 - CERTIFICATION BY THE INVESTMENT CUSTODIAN

Information presented in the accompanying statements and schedule as of December 31, 2009 and 2008, and for the year ended December 31, 2009 and for the period September 1, 2008 (date of inception) to December 31, 2008 for investments and investment income was derived, without audit, from information certified to be complete and accurate by the Hartford Life Insurance Company, the custodian, as permitted by the election made by the plan administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 5 - INVESTMENTS

Investments representing 5% or more of the Plan's net assets available for benefits at December 31, 2009 were as follows:

	Units	Amount

NOTE 5 - INVESTMENTS (Continued)

Investments representing 5% or more of the Plan's net assets available for benefits at December 31, 2008 were as follows:

	Units	Amount
Pooled separate accounts:		
T Rowe Price Retirement 2020	227	$ 1,601
T Rowe Price Retirement 2030	269	1,795
T Rowe Price Retirement 2040	768	5,051
Franklin Income	608	5,937
American Funds Capworld G & I	596	6,272
Pimco Real Return	170	1,855

During 2009, the Plan's investments in the pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $22,081.

NOTE 6 - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:
