Note 1 Description of Plan

The following description of the OPM Services, Inc. ("Company") 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established on January 1, 2001 under the provision of Section 401 (k) of the Internal Revenue Code ("IRC"). The Plan covers all eligible employees of the Company. It is subject to the provisions of the Employee Retirement Income Security act of 1974 (ERISA).

Contributions – Each year, participants' contributions shall not exceed the lesser of (a) $49,000, as adjusted for increases in the cost of living or (b) 100% of pretax annual compensation up to a maximum of $17,000 or $22,500 if age 50 or older, as defined by the Plan. In addition, participants who are projected to attain age 50 before the end of a calendar year shall be able to make catch-up contributions as of January 1st of that calendar year. Participants may also contribute amounts rolled over from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a guaranteed investment contract as investment options for participants. Participants may make changes to their deferral percentage or amount at any time.

The Company may make a discretionary year end profit-sharing contribution on behalf of each participant allocated by employee compensation levels. The Company's contributions shall be made in cash or in such property as is acceptable to the trustee.

Participant Accounts – An account is maintained for each participant. Each participant's account is credited with the participants' deferral contributions and allocation of (a) the Company's contribution, (b) plan earnings, and (c) allocation of administrative expenses. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefits that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion is based on the years of service in accordance with the following schedule:

Years of Vesting Service	Percentage
1	34%
2	67%
3	100%

Note 1 Description of Plan (continued)

Participant Loans – Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 of 50% of their vested balances. All loans are required to be paid within five years unless the purpose of the loan is to pay for the purchase of a primary residence. Loans are secured by the participant vested balance and bear interest at a rate commensurate with the interest rates charged by the persons in the business of lending money loans which would be made under similar circumstances; between 4.25% and 6.25%. Principal and interest are paid ratably through monthly payroll deductions.

At December 31, 2012 and 2011 loan balances totaled $89,171, and $80,069, respectively.

Payment of Benefits – A participant eligible for distribution may elect to have the amount paid in cash in one lump-sum. Any distribution to a participant who has a benefit which exceeds $5,000, shall require such participant's written (or in such other form as permitted by the Internal Revenue Service) consent if such distribution occurs prior to the time the benefit is "immediately distributable." A benefit is "immediately distributable" if any part of the benefit could be distributed to the participant (or surviving spouse) before the participant attains or would attains (or would have attained if not deceased) the later of the participant's normal retirement age or age 62.

Forfeited Accounts – At December 31, 2012 and 2011, forfeited non-vested accounts totaled $779 and $265, respectively. Forfeited accounts are used either to reduce future employer contributions or to reduce administrative expenses relating to the maintenance of the Plan. The Forfeiture Account was not used to reduce administrative expenses relating to the maintenance of the Plan for the year ended December 31, 2012.

Investment Options – Upon enrollment in the Plan, a participant may direct employee contributions in percentage increments to investments offered by John Hancock Life Insurance Company (U.S.A.) ("John Hancock"). Options include fixed rate guaranteed investment contracts and a variety of mutual funds to match the participant's investment profile.

Note 2 Summary of Significant Accounting Policies

Date of Management's Review - The Plan has evaluated subsequent events through July 26, 2013, the date the financial statements were available to be issued.

Note 2 Summary of Significant Accounting Policies (continued)

Basis of Accounting - The accompanying financial statements have been prepared on the accrual method of accounting and include only assets, liabilities and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis, if applicable.

Investment Valuation and Income Recognition - The Plan's investments are reported at the value reported to the Plan by the trustee, which represents fair value except for its investment contract. Investments in insurance company deposit administration contracts (guaranteed investment contracts or GIC's) are reported at contract value as determined by the trustee if the contract is fully benefit responsive, or otherwise at fair value. The asset trustee during 2012 and 2011 was John Hancock Life Insurance Company (U.S.A.). Investments in pooled separate accounts are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. See Footnote 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles, requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment and Administration expenses - Investment management fees are charged to participants on their investment elections. These fees are reflected in the net depreciation in the fair value of investments in the accompanying financial statements. These transactions qualify as exempt party-in-interest transactions. Administrative fees are incurred for the preparation of the Form 5500 and related audited financial statements. Such fees are paid directly by the Plan Sponsor, OPM Services, Inc.

Note 3 Investments

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by John Hancock, the Plan trustee, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

The following information presents the fair value of the participant-directed investments in this Plan that was certified by the trustee. Single investments representing 5% or more of the Plan's net assets at December 31 are separately identified.

	2012	2011
Lifestyle Balanced	$ 125,942	$ 71,386
T. Rowe Price Equity Inc	$ 96,383	$ 91,325
Lifestyle Growth	$ 260,005	$ 189,578
Pimco Total Return	$ 73,091	$ 87,544
Retirement Living 2010-2045	$ 314,282	$ 261,628
The Growth Fund of America	$ 47,041	$ 81,550

Net Appreciation:

For the year ended December 31, 2012, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

Fair value as determined by the Trustee:	
Common/collective trusts	$ 197,978

Note 4 Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification 820 (FASB ASC 820), Fair Value Measurements and Disclosures formerly Financial Accounting Standards Board Statement No. 157, Fair Value Measurements (SFAS No. 157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Note 4 **Fair Value Measurements** (continued)

Pooled separate accounts: Valued at the net asset value ("NAV") of shares/ units held by the Plan at year end. Pooled separate accounts do not have publically-quoted prices in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, with the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Assets at Fair Value			
	Level 1	Level 2	Level 3	Total
As of December 31, 2012				
Mutual Funds	$1,595,857	$	$	$1,595,857
	$1,595,857	$	$	$1,595,857
As of December 31, 2011				
Mutual Funds	$1,226,604	$	$	$1,226,604
	$1,226,604	$	$	$1,226,604

Note 5 **Plan Termination**

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 6 Tax Status

The Plan has not requested or received a determination letter from the Internal Revenue Service ("IRS") indicating that the Plan, as designed, is in compliance with the Internal Revenue Code ("IRC"). The Plan has adopted a Volume Submitter program and opined in a letter dated March 31, 2008, that it is acceptable under Section 401(a) of the IRC. The Plan administrator believes that the Plan is currently being operated in accordance with the IRC.

Note 7 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 Related Parties

Certain Plan investments are shares of mutual funds managed by John Hancock. John Hancock is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $11,964 for the year ended December 31, 2012.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
