KIRBY FOODS, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - PLAN DESCRIPTION

The following description of the Kirby Foods, Inc. 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was set up as an optional benefit for employees of Kirby Foods, Inc. (the "Company"). The Plan allows eligible employees to defer part of their income on a tax-favored basis into the Plan for retirement savings. The Company also contributes to the Plan. These funds are invested by the Plan and earnings are generated that are allocated to the participants. The majority of the Plan's investments are invested with John Hancock Life Insurance Company (U.S.A.) ("John Hancock"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a defined contribution plan covering all employees of the Company who have completed one year of service (1,000 hours) and attained the age of twenty-one. The Plan has two components: 401(k) and Company match. The following describes these components:

Contributions

Participants can contribute up to 100% of their compensation. A matching contribution equal to 100% of the first 1% of a participant's compensation is made by the Company to the Participant's Elective Account. A supplemental matching contribution is made at the discretion of the Company. The supplemental match is allocated to each participant based upon the ratio of his/her deferral to total plan deferrals. The Company did not make any supplemental matching contributions for the years ended December 31, 2012 or 2011. Contributions are subject to certain limitations. The Plan currently offers forty-five different pooled accounts, two guaranteed interest accounts, and two variable annuities as investment options to Plan participants.

Vesting

The balance in each Participant's Elective Account shall be fully vested at all times and shall not be subject to forfeiture for any reason. For the match portion of the 401(k), participants are vested on a graduated basis in the contributions and earnings based on years of continuous service and are 100% vested after six years of credited service.

Participant Accounts

Each Participant's Account is credited with (a) the Participant's Elective Contributions, (b) an allocation of the Company's matching contributions and (c) Plan earnings less administrative expenses. Allocations are based on the participants' level of elective contribution or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the vested benefit from the Company matching account and 100% of the employee elective account.

Payment of Benefits

Amounts held in the participant's account may not be distributable prior to the earlier of:

1. his/her termination of employment, total and permanent disability, or death;

2. his/her application for an in-service hardship withdrawal;

NOTE 1 - PLAN DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits (Continued)

3. termination of the Plan without establishment of a successor plan by the Employer or Affiliated Employer;

4. the date of the sale by the Employer to an entity that is not an Affiliated Employer of substantially all of the assets (within the meaning of Code Section 409 (d)(2) with respect to a participant who continues employment with the corporation acquiring such assets); or

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses
Administrative expenses are generally paid by the Plan and deducted directly from participant accounts by John Hancock. Some administrative expenses were paid by the Plan sponsor in 2012 and 2011.

Use of Estimates in Preparing Financial Statements
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions from net assets during the reporting period. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
Management evaluated subsequent events through August 20, 2013, the date the financial statements were available to be issued. Events or transactions occurring after December 31, 2012, but prior to August 20, 2013 that provide additional evidence about conditions that existed at December 31, 2012, have been recognized in the financial statements for the year ended December 31, 2012. Events or transactions that provided evidence about conditions that did not exist at December 31, 2012 but arose before the financial statements were available to be issued have not been recognized in the financial statements for the year ended December 31, 2012.

NOTE 3 - SUMMARY OF INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan's administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

a. Cash and investments included in the accompanying statements of net assets available for benefits of $4,316,005 and $3,966,313 as of December 31, 2012 and 2011, respectively.

b. Net investment income (loss) included in the accompanying statements of changes in net assets available for benefits of $514,753 and $(111,658) for the years ended December 31, 2012 and 2011, respectively.

The Plan's independent auditors did not perform auditing procedures with respect to the above information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

T. Rowe Price RCM Science & Technology Fund	230,516	224,752

NOTE 3 - INVESTMENTS (CONTINUED)

Investment income (loss) is comprised of the following for the years ended December 31:

	2012	2011
Interest and dividends	$ 135	$ 251
Net appreciation (depreciation) in fair value of investments:		
Pooled separate accounts	514,654	(111,880)
Investment income (loss)	$ 514,789	$ (111,629)

NOTE 5 - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled Separate Accounts: Valued based upon the underlying investments of units held by the Plan at year end.

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

Group Annuity Contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer.

Variable Annuities: Valued at the unit value based on the closing price reported on the value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

NOTE 6 - RELATED PARTY TRANSACTIONS

The following transactions occurred with parties-in-interest:

	2012	2011
Kemper CPA Group, third-party administrator fees	$ 16,539	$ 22,279
CliftonLarsonAllen LLP audit fees	12,848	12,650
John Hancock USA fees	10,929	10,659
AXA Equitable Life Insurance Company	16	16
Total	$ 40,332	$ 45,604

John Hancock is the custodian, as defined by the Plan, therefore, transactions with John Hancock qualify as party-in-interest transactions. Kemper CPA Group and CliftonLarsonAllen LLP qualify as parties-in-interest as well. At December 31, 2012 and 2011 the Plan owed $4,341 and $5,194 in administrator fees to Kemper CPA Group.

NOTE 7 - INCOME TAX STATUS

The Plan and related trust have adopted the Kemper CPA Group LLP Defined Contribution Prototype Plan and Trust, which the Internal Revenue Service has determined and informed Kemper CPA Group LLP by a letter dated March 31, 2008 that the form of the Prototype plan is acceptable for use by employer under Section 401 of the Internal Revenue Code (IRC). The Plan itself has not requested a determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of American require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the year prior to 2009.

NOTE 8 - TERMINATION OF THE PLAN

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan provides for various investment options in various combinations of investment funds. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Certain plan assets are pooled separate accounts, as classified in the financial statements included herein. The pooled separate accounts did not file a Form 5500 for the direct filing entity, therefore, the underlying assets have been reported on the Form 5500, Schedule H.

NOTE 11 - PENDING BENEFIT PAYMENTS

At December 31, 2012 and 2011, there were no net assets available for benefits that were pending payment.
