INDEPENDENT AUDITORS' REPORT

To the Trustees and Participants of
Future Pipe Industries, Inc. 401(k) Plan

We were engaged to audit the accompanying statement of net assets available for benefits of Future Pipe Industries, Inc. 401(k) Plan (the "Plan") as of December 31, 2008 and the related statement of changes in net assets available for benefits for the year then ended and the supplemental schedule as of December 31, 2008. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 6, which was certified by Hartford Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedule. We have been informed by the Plan trustees that the custodian holds the Plan's investment assets and executes investment transactions. The Plan trustees have obtained a certification from the custodian as of and for the year ended December 31, 2008 that the information provided to the Plan trustees by the custodian is complete and accurate.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of Future Pipe Industries, Inc. 401(k) Plan as of December 31, 2007 in accordance with the Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits as of December 31, 2007 and, accordingly, do not express an opinion or any other form of assurance on it.

Future Pipe Industries, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2008

Note 1 - Description of the Plan

The following description of the Future Pipe Industries, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan, established on January 1, 2007, is a defined contribution plan covering employees of Future Pipe Industries, Inc. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan custodian

Hartford Life Insurance Company (the "Custodian" or "Hartford") is the custodian for the Plan.

Eligibility, contributions and vesting

The Plan's eligibility requirement allows participation upon one year of service and obtaining the age of 21. Each year, participants may contribute up to the maximum percentage allowable not to exceed the limitation set forth in Section 402 of the Internal Revenue Code ("IRC"). Participants may also rollover amounts representing distributions from other qualified plans.

The Company shall make a safe harbor matching contribution on behalf of each participant in an amount equal to 100% of the participant's elective salary deferrals that do not exceed 3% of the participant's compensation for the plan year, plus 50% of the participant's elective deferrals that exceed 3%, not to exceed 5% of the participant's compensation. The safe harbor matching contributions are determined on the basis of compensation paid for each payroll period. The Company can also make a profit sharing contribution each year. The Company elected not to make a profit sharing contribution for the 2008 or 2007 plan year.

Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of Plan earnings or losses, and Plan administrative expenses, if any.

Participants direct the investment of their account balances in any of several investment options. Participants can change their investment allocation among the various investment options either through direct transfers from one option to another, or by changing the percentage allocation of future contributions.

Participants are immediately vested in their voluntary contributions, the Company's safe harbor contribution and actual earnings thereon.

Benefit payments

Benefits are payable from the participant's vested account balances subject to certain restrictions, upon termination of employment and retirement, as defined by the Plan. In the case of death, distributions are made to the participant's beneficiary. Distributions ordinarily are made in single lump-sum cash payments. In-service distributions are prohibited for all participants in accordance with the provisions of the Plan.

Note 1 - Description of the Plan (Continued)

Benefit payments (continued)

Any taxable distribution paid by the Custodian directly to the participant will be subject to mandatory federal income tax withholding of 20% of the requested distribution. Upon termination, if the value of the participant's account balance is more than $1,000 but less than $5,000 and the participant does not consent to a lump sum distribution, the account balance will be distributed to an individual retirement account for the benefit of the participant at the direction of the Plan trustees.

Plan termination

Although it has not expressed any interest in doing so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the net assets would be allocated among participants of the Plan in accordance with the provisions of the Plan.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The guaranteed investment contract is fully benefit-responsive and is valued at estimated fair value, with an adjustment to its contract value disclosed separately, as provided by Hartford. Fair value approximated contract value for the years ended 2008 and 2007. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Determination of realized and unrealized gain or loss on investments

Unrealized appreciation or depreciation in the fair values of investments held at year-end is determined using the fair value at the beginning of the year or the purchase price if the investment is acquired during the year. The realized gain or loss on the sale of investments is determined using historical cost. Upon the sale of an investment, the current year unrealized appreciation or depreciation is adjusted for unrealized gains and losses recognized in prior years. Unrealized appreciation or depreciation and realized gains and losses are reported as net appreciation or depreciation in fair value of investments on the statements of changes in net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Administrative expenses

Administrative expenses of the Plan, if not paid by the Plan, are paid by the Company.

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Recent accounting pronouncements

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157, "*Fair Value Measurements"* ("SFAS No. 157"), which is effective for fiscal years beginning after November 15, 2007. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements.

The Plan adopted SFAS No. 157 effective January 1, 2008, for all financial assets and financial liabilities as required; however, the adoption of SFAS No. 157 did not have a material effect on the Plan's financial statements. See Note 4.

Financial instruments and credit risk

Financial instruments which potentially subject the Plan to credit risk include investments in pooled separate accounts and a guaranteed investment contract. Investments are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. Plan participants bear the risk of any investment losses.

Note 3 - Income Tax Status

The prototype plan adopted by the Company received its latest favorable determination letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with applicable requirements of the IRC. The Plan trustees believe that the Plan is currently designed and being operated within the applicable requirements of the IRC and was tax-exempt as of December 31, 2008. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 4 - Fair Value Measurements

On January 1, 2008, the Plan adopted SFAS No. 157, as discussed in Note 2.

SFAS No. 157 establishes a hierarchy for grouping assets and liabilities, based on the significance of inputs. The hierarchy of fair value measurements is described below:

- Level 1 – quoted prices in active markets for identical assets or liabilities;
- Level 2 – inputs other than level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of these assets or liabilities; or
- Level 3 – unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- Pooled separate accounts – These investments are valued daily at the net asset value of shares or units held by the Plan based on the quoted market value of the underlying assets.
- Guaranteed investment contract – The value of this investment is an amount equal to the amount contributed to the account plus plan amounts transferred from any other funding vehicle plus credited interest less expenses and charges if any, and less any amounts transferred, withdrawn or disbursed from the account.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the valuation methods are considered appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets measured at fair value are as follows:

	Level 1	Level 2	Level 3	Total
Investments:				
Pooled separate accounts	$ -	$ 594,901	$ -	$ 594,901
Guaranteed investment contract	-	-	71,370	71,370
Total investments	$ -	$ 594,901	$ 71,370	$ 666,271

Note 4 - Fair Value Measurements (Continued)

The following table sets forth a summary of changes in fair value of the Plan's level 3 assets for the year ended December 31, 2008:

	Guaranteed investment contract
Balance, beginning of year	$ 22,195
Realized gains	302
Unrealized gains related to instruments still held at the reporting date	1,039
Purchases, sales, issuances and settlements, net	47,834
Balance, end of year	$ 71,370

Note 5 - Investments

The following table presents the fair values of individual investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2008 and 2007.

	2008	2007 (Compiled)
Pooled separate accounts:		
American Funds Growth	$ 49,082	$ 38,567
American Funds Capital Income Builder	69,946	35,668
American Funds Capital World Growth and Income	43,905	30,329

Van Kampen Comstock	(a)	31,811
Van Kampen Mid Cap Growth	34,293	26,937
Guaranteed investment contract *	71,370	22,195

* Contract value approximated fair value for the year ended December 31, 2008 and 2007.

(a) Investment does not represent 5% or more of the Plan's net assets available for benefits at the respective year end.

During 2008 and 2007, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $224,739 and $2,198, respectively.

Note 6 - Information Certified by the Custodian (Unaudited)

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan trustees have received a certification from the Custodian for the Plan years 2008 and 2007 as to the accuracy and completeness of certain Plan financial information.

The following information included in the financial statements was obtained from data that has been prepared and certified as complete and accurate by the Custodian.

	2008	2007 (Compiled)
Investments at fair value		
Guaranteed investment contract	$ 71,370	$ 22,195
Pooled separate accounts	594,901	366,975
Interest and dividends	1,341	185
Net depreciation in fair value of investments	224,739	2,198

Additionally, all information included in the Schedule H, line 4i - Schedule of Assets Held at End of Year was obtained from data that has been prepared and certified as complete and accurate by the Custodian.

Note 7 - Investment Contract with Insurance Company

In 2007, the Plan entered into a benefit-responsive investment contract (the “Contract”) with Hartford. Hartford maintains the contributions in a general account. The account is credited with earnings and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the Contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Contract. Contract value, as reported to the Plan by Hartford, represents contributions made under the Contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct withdrawals or transfers of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than three percent. Such interest rates may change from time to time. Any such change by Hartford shall be declared in advance and shall become effective as of the first day of the month immediately following the date the Company is mailed notice of such change. The declared interest rate credited during a contract year shall not be less than the guaranteed rate for such contract year.

The average yields as of December 31, 2008 and 2007 are as follows:

	2008	2007
Based on actual earnings	3.97%	4.96%
Based on interest rate credited to participants	3.00%	3.25%

Note 8 - Party-In-Interest Transactions

Certain Plan investments are in pooled separate accounts and a guaranteed investment contract that are managed by Hartford. Hartford is the Plan's custodian and therefore, these transactions qualify as party-in-interest transactions.

RE: NOTICE OF REJECTION OF THE FORM 5500 ANNUAL REPORT OF FUTURE PIPE INDUSTRIES, INC. 401(K) PLAN FOR December 31, 2008

Case No. 11-0173D

Employer Identification Number:	76-0160155
Plan Number:	001
Plan Year Ended:	12-31-08

Dear Plan Administrator:

This letter notifies you that the U.S. Department of Labor ("Department") has rejected the 2008 Form 5500 Annual Report for the above-referenced Plan ('Plan") pursuant to Section 104(a)(4) of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Department has determined that you have failed to provide certain material information required to be part of the Annual Report filed pursuant to Section 101(b)(1) of ERISA and the regulations issued there under.

Reasons for Rejection

The following reporting and disclosure deficiency must be corrected to remedy this filing:

The report of an Independent Qualified Public Accountant ("IQPA") required by the Department regulation Section 2520.103-1(b) was not included with the original filing.

Your correction of this deficiency may affect the information reported in other items and in the annual reports for subsequent years.

Pursuant to Section104(a)(5) and 502(c)(2) of ERISA, an annual report which is rejected under Section 104(a)(4) for a failure to provide material information will be treated as a failure to file an annual report unless a revised report satisfactory to the Department is filed within **45-days** of

the date of this Notice of Rejection. In such a case, the Secretary may bring a civil action or take any other action authorized by Title I of ERISA, including assessment of a civil penalty of up to $1,100 per day from the date on which the annual report was due (determined without regard to any extension for filing).

ACTIONS TO BE TAKEN BY YOU

To avoid possible civil penalties, **within 45-days** you must:

1. File an Acceptable, Amended 12-31-08 Plan Year Annual Report.

   Effective January 1, 2010, the procedures for filing and amending the Form 5500 Annual Report have changed. For guidance on how to amend your Form 5500, see Question #4 of the "Frequently Asked Questions about EFAST2" posted on our website: www.efast.dol.gov. Click on the "FAQ" menu option under the caption "Support."

2. Send a copy of your amended filing to this office.

   Email a scanned copy of your amended filing to drc@dol.gov. Be certain to include the case number 11-0173D in the subject line.

   -OR-

   Send a paper copy of your amended filing to either of the following addresses:

   To help ensure that your response is in compliance with this request:

   - Include the case number (11-0173) in your response.
   - Verify that all correspondence is signed by the Plan Administrator or a representative duly authorized by a power of attorney.

Note: There are no provisions for extensions of time for correcting your filing and responding to this Notice.

Plan Administrators in Bankruptcy

If you or the plan sponsor are currently a debtor in a bankruptcy petition, then provide us with detailed information concerning the bankruptcy proceeding, including but not limited to the following information: (1) the petition filing date; (2) case number; (3) court where the petition was filed; (4) the chapter under which bankruptcy protection was sought; (5) your bankruptcy counsel's contact information, and (6) the contact information of the bankruptcy trustee, if one was appointed.

The Department may have further comments regarding this filing or your response.

If you have any questions, please contact me via email at drc@dol.gov (include Case No. 11-0173D in the subject line) or call (202) 693-8367 (this is not a toll-free number).

INDEPENDENT AUDITORS' REPORT

To the Trustees and Participants of
Future Pipe Industries, Inc. 401(k) Plan

We were engaged to audit the accompanying statement of net assets available for benefits of Future Pipe Industries, Inc. 401(k) Plan (the "Plan") as of December 31, 2008 and the related statement of changes in net assets available for benefits for the year then ended and the supplemental schedule as of December 31, 2008. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 6, which was certified by Hartford Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedule. We have been informed by the Plan trustees that the custodian holds the Plan's investment assets and executes investment transactions. The Plan trustees have obtained a certification from the custodian as of and for the year ended December 31, 2008 that the information provided to the Plan trustees by the custodian is complete and accurate.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of Future Pipe Industries, Inc. 401(k) Plan as of December 31, 2007 in accordance with the Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits as of December 31, 2007 and, accordingly, do not express an opinion or any other form of assurance on it.

Future Pipe Industries, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2008

Note 1 - Description of the Plan

The following description of the Future Pipe Industries, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan, established on January 1, 2007, is a defined contribution plan covering employees of Future Pipe Industries, Inc. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan custodian

Hartford Life Insurance Company (the "Custodian" or "Hartford") is the custodian for the Plan.

Eligibility, contributions and vesting

The Plan's eligibility requirement allows participation upon one year of service and obtaining the age of 21. Each year, participants may contribute up to the maximum percentage allowable not to exceed the limitation set forth in Section 402 of the Internal Revenue Code ("IRC"). Participants may also rollover amounts representing distributions from other qualified plans.

The Company shall make a safe harbor matching contribution on behalf of each participant in an amount equal to 100% of the participant's elective salary deferrals that do not exceed 3% of the participant's compensation for the plan year, plus 50% of the participant's elective deferrals that exceed 3%, not to exceed 5% of the participant's compensation. The safe harbor matching contributions are determined on the basis of compensation paid for each payroll period. The Company can also make a profit sharing contribution each year. The Company elected not to make a profit sharing contribution for the 2008 or 2007 plan year.

Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of Plan earnings or losses, and Plan administrative expenses, if any.

Participants direct the investment of their account balances in any of several investment options. Participants can change their investment allocation among the various investment options either through direct transfers from one option to another, or by changing the percentage allocation of future contributions.

Participants are immediately vested in their voluntary contributions, the Company's safe harbor contribution and actual earnings thereon.

Benefit payments

Benefits are payable from the participant's vested account balances subject to certain restrictions, upon termination of employment and retirement, as defined by the Plan. In the case of death, distributions are made to the participant's beneficiary. Distributions ordinarily are made in single lump-sum cash payments. In-service distributions are prohibited for all participants in accordance with the provisions of the Plan.

Note 1 - Description of the Plan (Continued)

Benefit payments (continued)

Any taxable distribution paid by the Custodian directly to the participant will be subject to mandatory federal income tax withholding of 20% of the requested distribution. Upon termination, if the value of the participant's account balance is more than $1,000 but less than $5,000 and the participant does not consent to a lump sum distribution, the account balance will be distributed to an individual retirement account for the benefit of the participant at the direction of the Plan trustees.

Plan termination

Although it has not expressed any interest in doing so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the net assets would be allocated among participants of the Plan in accordance with the provisions of the Plan.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The guaranteed investment contract is fully benefit-responsive and is valued at estimated fair value, with an adjustment to its contract value disclosed separately, as provided by Hartford. Fair value approximated contract value for the years ended 2008 and 2007. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Determination of realized and unrealized gain or loss on investments

Unrealized appreciation or depreciation in the fair values of investments held at year-end is determined using the fair value at the beginning of the year or the purchase price if the investment is acquired during the year. The realized gain or loss on the sale of investments is determined using historical cost. Upon the sale of an investment, the current year unrealized appreciation or depreciation is adjusted for unrealized gains and losses recognized in prior years. Unrealized appreciation or depreciation and realized gains and losses are reported as net appreciation or depreciation in fair value of investments on the statements of changes in net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Administrative expenses

Administrative expenses of the Plan, if not paid by the Plan, are paid by the Company.

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Recent accounting pronouncements

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157, "*Fair Value Measurements*" ("SFAS No. 157"), which is effective for fiscal years beginning after November 15, 2007. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements.

The Plan adopted SFAS No. 157 effective January 1, 2008, for all financial assets and financial liabilities as required; however, the adoption of SFAS No. 157 did not have a material effect on the Plan's financial statements. See Note 4.

Financial instruments and credit risk

Financial instruments which potentially subject the Plan to credit risk include investments in pooled separate accounts and a guaranteed investment contract. Investments are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. Plan participants bear the risk of any investment losses.

Note 3 - Income Tax Status

The prototype plan adopted by the Company received its latest favorable determination letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with applicable requirements of the IRC. The Plan trustees believe that the Plan is currently designed and being operated within the applicable requirements of the IRC and was tax-exempt as of December 31, 2008. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Future Pipe Industries, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2008

Note 4 - Fair Value Measurements

On January 1, 2008, the Plan adopted SFAS No. 157, as discussed in Note 2.

SFAS No. 157 establishes a hierarchy for grouping assets and liabilities, based on the significance of inputs. The hierarchy of fair value measurements is described below:

- Level 1 – quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of these assets or liabilities; or
- Level 3 – unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- Pooled separate accounts – These investments are valued daily at the net asset value of shares or units held by the Plan based on the quoted market value of the underlying assets.
- Guaranteed investment contract – The value of this investment is an amount equal to the amount contributed to the account plus plan amounts transferred from any other funding vehicle plus credited interest less expenses and charges if any, and less any amounts transferred, withdrawn or disbursed from the account.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the valuation methods are considered appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets measured at fair value are as follows:

	Level 1	Level 2	Level 3	Total
Investments:				
Pooled separate accounts	$ -	$ 594,901	$ -	$ 594,901
Guaranteed investment contract	-	-	71,370	71,370
Total investments	$ -	$ 594,901	$ 71,370	$ 666,271

Note 4 - Fair Value Measurements (Continued)

The following table sets forth a summary of changes in fair value of the Plan's level 3 assets for the year ended December 31, 2008:

	Guaranteed investment contract
Balance, beginning of year	$ 22,195
Realized gains	302
Unrealized gains related to instruments still held at the reporting date	1,039
Purchases, sales, issuances and settlements, net	47,834
Balance, end of year	$ 71,370

Note 5 - Investments

The following table presents the fair values of individual investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2008 and 2007.

	2008	2007 (Compiled)
Pooled separate accounts:		
American Funds Growth	$ 49,082	$ 38,567
American Funds Capital Income Builder	69,946	35,668
American Funds Capital World Growth and Income	43,905	30,329
American Funds Europacific	47,011	36,102

Templeton Global Bond	57,731	20,084
Van Kampen Equity and Income	51,712	19,591
Van Kampen Comstock	(a)	31,811
Van Kampen Mid Cap Growth	34,293	26,937
Guaranteed investment contract *	71,370	22,195

* Contract value approximated fair value for the year ended December 31, 2008 and 2007.

(a) Investment does not represent 5% or more of the Plan's net assets available for benefits at the respective year end.

During 2008 and 2007, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $224,739 and $2,198, respectively.

Note 6 - Information Certified by the Custodian (Unaudited)

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan trustees have received a certification from the Custodian for the Plan years 2008 and 2007 as to the accuracy and completeness of certain Plan financial information.

The following information included in the financial statements was obtained from data that has been prepared and certified as complete and accurate by the Custodian.

	2008	2007 (Compiled)
Investments at fair value		
Guaranteed investment contract	$ 71,370	$ 22,195
Pooled separate accounts	594,901	366,975
Interest and dividends	1,341	185
Net depreciation in fair value of investments	224,739	2,198

Additionally, all information included in the Schedule H, line 4i - Schedule of Assets Held at End of Year was obtained from data that has been prepared and certified as complete and accurate by the Custodian.

Note 7 - Investment Contract with Insurance Company

In 2007, the Plan entered into a benefit-responsive investment contract (the "Contract") with Hartford. Hartford maintains the contributions in a general account. The account is credited with earnings and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the Contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Contract. Contract value, as reported to the Plan by Hartford, represents contributions made under the Contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct withdrawals or transfers of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than three percent. Such interest rates may change from time to time. Any such change by Hartford shall be declared in advance and shall become effective as of the first day of the month immediately following the date the Company is mailed notice of such change. The declared interest rate credited during a contract year shall not be less than the guaranteed rate for such contract year.

The average yields as of December 31, 2008 and 2007 are as follows:

	2008	2007
Based on actual earnings	3.97%	4.96%
Based on interest rate credited to participants	3.00%	3.25%

Note 8 - Party-In-Interest Transactions

Certain Plan investments are in pooled separate accounts and a guaranteed investment contract that are managed by Hartford. Hartford is the Plan's custodian and therefore, these transactions qualify as party-in-interest transactions.
