NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Advantage Benefits Company, LLC ("Company") 401(k) Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, formed on January 1, 2001, is a defined contribution plan covering all employees of the Company who are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974.

Contributions

Employees

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, so long as the total employee contribution does not exceed the 401k elective deferral limits ($17,000 in 2012). Participants who have attained age 50 during the year may make additional "catch-up" contributions subject to limitations by the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 24 funds as investment options for participants.

Employer

Participants who are eighteen years or older and have at least one year of entry service are eligible for matching contributions. The Company may contribute to the Plan at its discretion. During the year ended December 31, 2012, the Company did not make a matching contribution. Matching contributions totaling $2,482 were paid to eligible participants from the Plan's forfeitures account. The match was 5% of each participant's contribution up to a maximum of 6% of pay.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. For employer

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Vesting (Continued)

matching contributions, a participant vests 20 percent after two years of credited service, 40 percent after three years of credited service, 66.67 percent after four years of credited service and is 100 percent vested after five years. For all other employer contributions, a Participant vests 33.33 percent after three years of credited service, 66.67 percent after four years of credited service and is 100 percent vested after five years.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. The notes receivable from participants balance was $56,646 and $47,042 at December 31, 2012 and 2011, respectively.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. During the year ended December 31, 2012 benefits of $47,977 were paid to terminated participants.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

In accordance with GAAP, the stable value fund held by a defined contribution plan is required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2012, contract value was not materially different than fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded upon distribution.

Operating Expenses

Unless paid by the Company, expenses of maintaining the Plan are paid by the Plan and the participants. The Plan pays for terminated maintenance fees and non-discrimination testing fees. Participants pay the participant maintenance fees.

NOTE 3 – CONTRIBUTIONS RECEIVABLE

The contributions receivable at December 31, 2012 and 2011 consist of contributions withheld from participants prior to December 31, 2012 and 2011, and remitted to the Plan subsequent to December 31, 2012 and 2011, along with any employer matching contribution, if applicable. There were no contribution receivables at December 31, 2012 and 2011.

NOTE 4 – INVESTMENT PROGRAMS

During the year ended December 31, 2012, the Plan recognized net appreciation of investments of $93,009. These gains are included in Net Appreciation in Fair Value of Investments on the Statement of Changes in Net Assets Available for Benefits.

The fair values of individual investments that represent 5% or more of the Plan's net assets at December 31, 2012 and 2011 are as follows (* equals investments not greater than 5%):

	2012	2011
Principal Large Cap S&P 500 Index SA-R6	$ 121,220	$ 79,099
Principal Government & HO Bond SA-R6	132,471	121,113

Principal International Emerging Markets SA-R6	93,118	67,324
Principal Large Cap Value I SA-R6	68,949	*
Principal Mid Cap Growth III SA-R6	56,566	61,081

NOTE 5 – FAIR VALUE MEASUREMENTS

The Plan adopted ASC No. 820, "Fair Value Measurements" effective January 1, 2009. Under this standard, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan's assets and liabilities recorded at fair value are categorized based upon a fair value hierarchy that ranks the quality and reliability of the information used to determine fair value, in accordance with applicable accounting guidance. The following is a description of the levels of the fair value hierarchy:

- Level 1- inputs are unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 - inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, as well as inputs other than quoted prices that are observable for the asset or liability.
- Level 3 - inputs are unobservable inputs and are not corroborated by market data.

NOTE 5- FAIR VALUE MEASUREMENTS (Continued)

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels

The following is a description of the valuation methodologies used for assets measured at fair value. Level 2 investments securities include pooled separate accounts and a money market account for which quoted prices are not available in active markets for identical instruments, but are instead valued based upon the asset value ("NAV") of the underlying investments.

The following table set forth by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2012 and 2011:

	As of December 31, 2012			
	Level 1	Level 2	Level 3	Fair Value

Short term fixed income:	–	246,910	–	246,910
Total assets	$ –	$909,387	$ –	$909,387

NOTE 5 – FAIR VALUE MEASUREMENTS (Continued)

*The investment strategy for each individual pooled separate account is to achieve the investment return provided by the individual underlying investments that are traded on active markets as indicated per the name of each pooled separate account. There are no redemption restrictions or unfunded commitments

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with the policy of stating investments at fair value, unrealized appreciation or depreciation on investments are reflected within investment income (loss) in the Statement of Changes in Net Assets Available for Benefits.

NOTE 6 – TERMINATION OF PLAN

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of Employee Retirement Income Security Act of 1974 (ERISA).

NOTE 7 – FEDERAL INCOME TAXES

The Internal Revenue Service has determined and informed the Company by a letter dated September 19, 2012 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, the accompanying financial statements do not include a provision for federal income taxes.

The Plan administration believes it is no longer subject to income tax examination by the Internal Revenue Service for years prior to 2009.

NOTE 8 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate risk, market risk and credit risks. Due to the level of risk associated with certain

NOTE 8 – RISK AND UNCERTAINTIES (Continued)

investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 – RELATED PARTY TRANSACTIONS

Certain Plan investments are funds managed by Principal Life Insurance Company which is affiliated with Principal Life Insurance Retirement Plan Processing Services, who is the trustee of the Plan, record keeper and serves as custodian.

NOTE 10 – FIDELITY BOND COVERAGE

Section 412 of ERISA and 29 CFR Part 2580 requires the plan to have fidelity bond coverage. The plan itself must be the named insured under the fidelity bond from an approved surety covering plan officials and that protects the plan from losses due to fraud and dishonestly. For the year ended December 31, 2012, the plan was covered by a fidelity bond.

NOTE 11 – SUBSEQUENT EVENTS

The Plan Administrator evaluated the effect subsequent events would have on the financial statements through October 1, 2013, which is the date the financial statements were available to be issued.
