Independent Auditors' Report

To the Participants and Plan Administrator,
Ryan Herco Flow Solutions Profit Sharing/401(k) Plan
Burbank, California

We were engaged to audit the statements of net assets available for benefits of Ryan Herco Flow Solutions Profit Sharing/401(k) Plan (the Plan) as of December 31, 2009 and 2008 and the statement of changes in net assets available for benefits for the year ended December 31, 2009 and supplemental schedule as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company (Fidelity), trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that Fidelity holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from Fidelity as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the Plan Administrator by Fidelity is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by Fidelity, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Plan Description

The following description of the Ryan Herco Flow Solutions Profit Sharing/401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Ryan Herco Flow Solutions (the Company), who have six consecutive months of service and are at least 20 years of age. Employees are able to enter the Plan immediately upon meeting the eligibility requirements.

The Plan was originally adopted effective August 31, 1971 and is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). Additionally, the Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In December 2006, Ryan Herco Products Corporation merged with Flow Solutions Incorporated (Flow Solutions). Effective January 1, 2008, Flow Solutions' three qualified benefit plans with assets totaling $6,448,211 merged into the Plan. The participants of Flow Solutions' benefit plans became participants of the Plan. In March 2008, the Plan's name changed to Ryan Herco Flow Solutions Profit Sharing/401(k) Plan.

Participant Accounts and Contributions

Participants may contribute up to 60% of pretax annual compensation, as defined in the Plan, and up to 100% of any cash bonuses, upon proper notice and approval. Total participant contributions are subject to annual limits established by the Internal Revenue Service (IRS). The maximum participant deferral limit was $16,500 for the year ended December 31, 2009. Catch-up contributions of $5,500 were available to participants who had attained age 50 or older by December 31, 2009, and had not exceeded the contribution limit for the Plan year.

Each participant's account is credited or charged with the participant's contribution and allocations of the Company's matching 401(k) contributions, discretionary profit sharing contributions, investment income (losses) and administrative expenses.

The Company is required to make matching contributions on participants' 401(k) salary deferrals. The Company matches 50% of participants' salary deferrals up to 4% of eligible compensation. The Company matching contribution for the year ended December 31, 2009 was $161,205, of which $157,631 was funded through forfeitures.

The Company may make annual discretionary profit sharing contributions to the Plan which are to be allocated to participants employed on the last day of the Plan year, on the basis of their relative compensation to the total compensation of all eligible participants. The Company did not make a profit sharing contribution for the year ended December 31, 2009.

Note 1. Plan Description (Continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in Company matching and profit sharing contributions is based on years of continuous service. A participant is 20% vested after two years, and continues to vest 20% per year thereafter. A participant becomes fully vested after six years of service.

Notwithstanding the above, if a participant (1) attains the age of 65, (2) dies or (3) terminates employment by reason of permanent disability, the Company matching and discretionary profit sharing contribution amounts become 100% vested without regard to years of service.

Benefit Payments

Distributions of a participant's account are made upon termination of service, death, disability or retirement. Distributions are made in either a lump-sum payment or in annual installments paid over a period not to exceed the participants' estimated life expectancy at the time of distribution. If the value of the vested portion is less than $1,000, the participant will automatically receive a lump-sum payment. An in-service distribution can also be made to participants who have attained the age of 59-1/2, upon disability or when experiencing financial hardship.

Administrative Expenses

The Company incurs certain expenses in administering the Plan, which are not passed on as expenses of the Plan. Administrative expenses charged to the Plan consist of charges associated with investment transactions, benefit payments and loan processing.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Participant Loans

Participants may borrow from their vested accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested balance. The loans are secured by the vested balance in the participant's account and bear interest at the prevailing market rate as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions or participants' own personal funds over a term not to exceed five years or extend beyond the participant's normal retirement, except loans used to purchase or improve the participant's primary residence, which have a repayment term not to exceed 10 years.

Note 1. Plan Description (Continued)

Forfeitures

Forfeitures of terminated participants' unvested Company contributions may be used to reduce future Company contributions. During the year ended December 31, 2009, a total of $157,631 of forfeitures was applied to reduce Company matching contributions. At December 31, 2009, the amount of forfeitures available for future use was approximately $23,000.

Note 2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Valuation of Investments

The Plan's investments are stated at the value reported to the Plan by Fidelity Management Trust Company (Fidelity). Investments in shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset value of the shares held at year end. Money market funds are stated at their carrying values, which approximate fair values. Participant loans receivable are reported at their outstanding principal balance, which approximates fair value.

Realized and Unrealized Appreciation

Realized and unrealized appreciation is based on the market value of the assets at the end of the Plan year compared to the market value of the assets at the beginning of the Plan year, or at the time of assets purchased/exchanged during the Plan year.

Benefit Payments

Benefits are recorded when paid.

Note 2. Significant Accounting Policies (Continued)

Subsequent Events

The Plan's management has evaluated subsequent events for recognition and disclosure through July 8, 2010, which is the date the financial statements were available to be issued.

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2009-01 (formerly Statement No. 168), *Topic 105 - Generally Accepted Accounting Principles - FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*. The Codification is the single source of authoritative nongovernmental U.S. generally accepted accounting principles (GAAP). The Codification does not change current GAAP, but is intended to simplify user access to all authoritative GAAP by providing all the authoritative literature related to a particular topic in one place. All existing accounting standard documents are superseded and all other accounting literature not included in the Codification is considered non-authoritative. The Codification is effective for interim or annual reporting periods ending after September 15, 2009. Management has made the appropriate changes to GAAP references in the financial statements.

During the year ended December 31, 2009, the Plan adopted FASB authoritative guidance that established requirements for the accounting and disclosure of events that occur after the financial statements date, but before the financial statements are issued or available to be issued. The adoption of this guidance had no impact on the Plan's financial statements.

During the year ended December 31, 2009, the Plan adopted an Accounting Standards Codification (ASC) update for fair value measurements and disclosures related to certain alternative investments. This guidance permits the use of a qualifying investment's net asset value per share to estimate fair value, as a practical expedient to measuring fair value. The update also requires additional disclosures by major category of investment about the nature and risks of investments within its scope that are measured at fair value on a recurring or nonrecurring basis. This update was effective for the Plan for the year ended December 31, 2009. The adoption of this update had no impact on the Plan's financial statements.

Note 3. Certified Financial Information

The financial information included in the Plan's financial statements as it relates to investment assets, investment transactions, investment income and the schedule of assets held at end of year have been derived from information certified as complete and accurate by Fidelity, in accordance with Section 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 4. Investments

The following represents investments of the Plan as of December 31. Investments that represent 5% or more of the Plan net assets available for benefits are separately identified with an asterisk.

	2009	2008
Mutual Funds:		
Fidelity Puritan Fund	$ 826,818*	$ 650,001
Fidelity Contra Fund	995,843*	1,035,210*
Fidelity Growth and Income Fund	841,059*	714,756*
Fidelity Independence Fund	1,409,118*	1,095,374*
Fidelity Blue Chip Growth Fund	1,430,580*	1,036,344*
Fidelity Low-Priced Stock Fund	777,517*	800,087*
Fidelity Diversified International Fund	1,434,508*	1,367,130*
Fidelity Institutional Short-Intermediate Government Portfolio	1,079,926*	869,203*
Other mutual funds	2,701,498	2,423,661
Fidelity Retirement Government Money Market Fund	3,240,000*	3,681,194*
Participant loans	590,427	454,183
	$15,327,294	$14,127,143

Note 5. Excess Contributions Payable

Contributions received from participants for 2009 are net of payments of $15,684 made in 2010 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2009.

Note 6. Income Tax Status

The Company adopted a nonstandardized prototype plan sponsored by Fidelity. The Plan prototype received an opinion letter dated October 9, 2003 from the IRS, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has since been amended. The Plan Administrator has not applied for a determination letter and the prototype sponsor has not received a new opinion letter, but believes the Plan is currently being operated in compliance with the applicable provisions of the IRC.

Note 7. Party-In-Interest Transactions

Certain Plan investments are invested in shares of mutual funds managed by Fidelity Management and Research Company, an affiliate of Fidelity Management Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Administrative fees paid to Fidelity by the Plan amounted to $15,545 for the year ended December 31, 2009.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2009	2008
Per financial statements	$ 15,311,610	$ 14,127,143
Excess contributions payable	15,684	--
Per Form 5500	$ 15,327,294	$ 14,127,143

The following is a reconciliation of changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2009:

Per financial statements	$ 1,184,467
Excess contributions payable	15,684
Per Form 5500	$ 1,200,151

Note 10. Fair Value Measurements

Fair value is determined based on assumptions that a market participant would use in pricing an asset or liability. Measurements of fair value are classified within a hierarchy based upon valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable or substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following methods and assumptions were used to estimate the fair value of each class of assets that are recognized at fair value. There have been no changes in the methodologies used as of December 31, 2009.

Money market funds: The carrying value approximates fair value.

Mutual funds: Valued using quoted market prices, which represent the net assets value of shares held by the Plan at year-end.

Participant loans: Valued at outstanding principal amounts, which approximate fair values. These loans are secured by vested account balances of borrowing participants.

Note 10. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Fair Value Measurements Using			
	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

Independent Auditors' Report

To the Participants and Plan Administrator,
Ryan Herco Flow Solutions Profit Sharing/401(k) Plan
Burbank, California

We were engaged to audit the statements of net assets available for benefits of Ryan Herco Flow Solutions Profit Sharing/401(k) Plan (the Plan) as of December 31, 2009 and 2008 and the statement of changes in net assets available for benefits for the year ended December 31, 2009 and supplemental schedule as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company (Fidelity), trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that Fidelity holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from Fidelity as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the Plan Administrator by Fidelity is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by Fidelity, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Plan Description

The following description of the Ryan Herco Flow Solutions Profit Sharing/401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Ryan Herco Flow Solutions (the Company), who have six consecutive months of service and are at least 20 years of age. Employees are able to enter the Plan immediately upon meeting the eligibility requirements.

The Plan was originally adopted effective August 31, 1971 and is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). Additionally, the Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In December 2006, Ryan Herco Products Corporation merged with Flow Solutions Incorporated (Flow Solutions). Effective January 1, 2008, Flow Solutions' three qualified benefit plans with assets totaling $6,448,211 merged into the Plan. The participants of Flow Solutions' benefit plans became participants of the Plan. In March 2008, the Plan's name changed to Ryan Herco Flow Solutions Profit Sharing/401(k) Plan.

Participant Accounts and Contributions

Participants may contribute up to 60% of pretax annual compensation, as defined in the Plan, and up to 100% of any cash bonuses, upon proper notice and approval. Total participant contributions are subject to annual limits established by the Internal Revenue Service (IRS). The maximum participant deferral limit was $16,500 for the year ended December 31, 2009. Catch-up contributions of $5,500 were available to participants who had attained age 50 or older by December 31, 2009, and had not exceeded the contribution limit for the Plan year.

Each participant's account is credited or charged with the participant's contribution and allocations of the Company's matching 401(k) contributions, discretionary profit sharing contributions, investment income (losses) and administrative expenses.

The Company is required to make matching contributions on participants' 401(k) salary deferrals. The Company matches 50% of participants' salary deferrals up to 4% of eligible compensation. The Company matching contribution for the year ended December 31, 2009 was $161,205, of which $157,631 was funded through forfeitures.

The Company may make annual discretionary profit sharing contributions to the Plan which are to be allocated to participants employed on the last day of the Plan year, on the basis of their relative compensation to the total compensation of all eligible participants. The Company did not make a profit sharing contribution for the year ended December 31, 2009.

Note 1. Plan Description (Continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in Company matching and profit sharing contributions is based on years of continuous service. A participant is 20% vested after two years, and continues to vest 20% per year thereafter. A participant becomes fully vested after six years of service.

Notwithstanding the above, if a participant (1) attains the age of 65, (2) dies or (3) terminates employment by reason of permanent disability, the Company matching and discretionary profit sharing contribution amounts become 100% vested without regard to years of service.

Benefit Payments

Distributions of a participant's account are made upon termination of service, death, disability or retirement. Distributions are made in either a lump-sum payment or in annual installments paid over a period not to exceed the participants' estimated life expectancy at the time of distribution. If the value of the vested portion is less than $1,000, the participant will automatically receive a lump-sum payment. An in-service distribution can also be made to participants who have attained the age of 59-1/2, upon disability or when experiencing financial hardship.

Administrative Expenses

The Company incurs certain expenses in administering the Plan, which are not passed on as expenses of the Plan. Administrative expenses charged to the Plan consist of charges associated with investment transactions, benefit payments and loan processing.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Participant Loans

Participants may borrow from their vested accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested balance. The loans are secured by the vested balance in the participant's account and bear interest at the prevailing market rate as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions or participants' own personal funds over a term not to exceed five years or extend beyond the participant's normal retirement, except loans used to purchase or improve the participant's primary residence, which have a repayment term not to exceed 10 years.

Note 1. Plan Description (Continued)

Forfeitures

Forfeitures of terminated participants' unvested Company contributions may be used to reduce future Company contributions. During the year ended December 31, 2009, a total of $157,631 of forfeitures was applied to reduce Company matching contributions. At December 31, 2009, the amount of forfeitures available for future use was approximately $23,000.

Note 2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Valuation of Investments

The Plan's investments are stated at the value reported to the Plan by Fidelity Management Trust Company (Fidelity). Investments in shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset value of the shares held at year end. Money market funds are stated at their carrying values, which approximate fair values. Participant loans receivable are reported at their outstanding principal balance, which approximates fair value.

Realized and Unrealized Appreciation

Realized and unrealized appreciation is based on the market value of the assets at the end of the Plan year compared to the market value of the assets at the beginning of the Plan year, or at the time of assets purchased/exchanged during the Plan year.

Benefit Payments

Benefits are recorded when paid.

Note 2. Significant Accounting Policies (Continued)

Subsequent Events

The Plan's management has evaluated subsequent events for recognition and disclosure through July 8, 2010, which is the date the financial statements were available to be issued.

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2009-01 (formerly Statement No. 168), *Topic 105 - Generally Accepted Accounting Principles - FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*. The Codification is the single source of authoritative nongovernmental U.S. generally accepted accounting principles (GAAP). The Codification does not change current GAAP, but is intended to simplify user access to all authoritative GAAP by providing all the authoritative literature related to a particular topic in one place. All existing accounting standard documents are superseded and all other accounting literature not included in the Codification is considered non-authoritative. The Codification is effective for interim or annual reporting periods ending after September 15, 2009. Management has made the appropriate changes to GAAP references in the financial statements.

During the year ended December 31, 2009, the Plan adopted FASB authoritative guidance that established requirements for the accounting and disclosure of events that occur after the financial statements date, but before the financial statements are issued or available to be issued. The adoption of this guidance had no impact on the Plan's financial statements.

During the year ended December 31, 2009, the Plan adopted an Accounting Standards Codification (ASC) update for fair value measurements and disclosures related to certain alternative investments. This guidance permits the use of a qualifying investment's net asset value per share to estimate fair value, as a practical expedient to measuring fair value. The update also requires additional disclosures by major category of investment about the nature and risks of investments within its scope that are measured at fair value on a recurring or nonrecurring basis. This update was effective for the Plan for the year ended December 31, 2009. The adoption of this update had no impact on the Plan's financial statements.

Note 3. Certified Financial Information

The financial information included in the Plan's financial statements as it relates to investment assets, investment transactions, investment income and the schedule of assets held at end of year have been derived from information certified as complete and accurate by Fidelity, in accordance with Section 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 4. Investments

The following represents investments of the Plan as of December 31. Investments that represent 5% or more of the Plan net assets available for benefits are separately identified with an asterisk.

	2009	2008
Mutual Funds:		
Fidelity Puritan Fund	$ 826,818*	$ 650,001
Fidelity Contra Fund	995,843*	1,035,210*
Fidelity Growth and Income Fund	841,059*	714,756*
Fidelity Independence Fund	1,409,118*	1,095,374*
Fidelity Blue Chip Growth Fund	1,430,580*	1,036,344*
Fidelity Low-Priced Stock Fund	777,517*	800,087*
Fidelity Diversified International Fund	1,434,508*	1,367,130*
Fidelity Institutional Short-Intermediate Government Portfolio	1,079,926*	869,203*
Other mutual funds	2,701,498	2,423,661
Fidelity Retirement Government Money Market Fund	3,240,000*	3,681,194*
Participant loans	590,427	454,183
	$15,327,294	$14,127,143

Note 5. Excess Contributions Payable

Contributions received from participants for 2009 are net of payments of $15,684 made in 2010 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2009.

Note 6. Income Tax Status

The Company adopted a nonstandardized prototype plan sponsored by Fidelity. The Plan prototype received an opinion letter dated October 9, 2003 from the IRS, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has since been amended. The Plan Administrator has not applied for a determination letter and the prototype sponsor has not received a new opinion letter, but believes the Plan is currently being operated in compliance with the applicable provisions of the IRC.

Note 7. Party-In-Interest Transactions

Certain Plan investments are invested in shares of mutual funds managed by Fidelity Management and Research Company, an affiliate of Fidelity Management Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Administrative fees paid to Fidelity by the Plan amounted to $15,545 for the year ended December 31, 2009.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2009	2008
Per financial statements	$ 15,311,610	$ 14,127,143
Excess contributions payable	15,684	--
Per Form 5500	$ 15,327,294	$ 14,127,143

The following is a reconciliation of changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2009:

Per financial statements	$ 1,184,467
Excess contributions payable	15,684
Per Form 5500	$ 1,200,151

Note 10. Fair Value Measurements

Fair value is determined based on assumptions that a market participant would use in pricing an asset or liability. Measurements of fair value are classified within a hierarchy based upon valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable or substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following methods and assumptions were used to estimate the fair value of each class of assets that are recognized at fair value. There have been no changes in the methodologies used as of December 31, 2009.

Money market funds: The carrying value approximates fair value.

Mutual funds: Valued using quoted market prices, which represent the net assets value of shares held by the Plan at year-end.

Participant loans: Valued at outstanding principal amounts, which approximate fair values. These loans are secured by vested account balances of borrowing participants.

Note 10. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:
