The Trustees
The American National Bank of Texas
Employee Stock Ownership Plan and 401(k) Profit Sharing Plan Committee

We have audited the accompanying statements of net assets available for benefits of the American National Bank of Texas ESOP and 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. Our audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 2009 and 2008, and the changes in its financial status for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2009 on Pages 13-14 is presented for purposes of additional analysis, and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in the audit of the basic 2009 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

1. Description of the Plan

The following description of The American National Bank of Texas ESOP and 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan whereby eligible employees of The American National Bank of Texas ("Employer") are permitted to make contributions that are tax deferred under Section 401(k) of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was established on January 1, 1986 and was amended and restated effective January 1, 1989 to provide for "before-tax" employee contributions through salary reduction contributions under Section 401(k) of the Internal Revenue Code ("IRC"). The American National Bank of Texas Employee Stock Ownership Plan was established on January 1, 1987 as a stock bonus plan qualified under Section 401(a) of the Internal Revenue Code. On October 1, 2000, the Plan Sponsor amended and restated the Profit Sharing Plan to incorporate the Employee Stock Ownership Plan and to modify certain Plan provisions. Effective October 1, 2000, the amended and restated Plan is named The American National Bank of Texas ESOP and 401(k) Profit Sharing Plan. Effective January 1, 2006, the Plan was amended to include participation of Sleeper Sewell Insurance Services for benefits of their employees. Effective January 1, 2006, the Plan was amended to allow for immediate eligibility, remove the automatic enrollment provisions, and adopt safe harbor plan provisions.

As of December 31, 2009 and 2008, the Trustees of the money market fund, mutual funds, and participant loans were Nationwide Trust Company and Charles Schwab Trust Company, respectively. The trustee of the ANB Corporation common stock for the years ending December 31, 2009 and 2008 was ANB Trust.

Contributions

For 2009 and 2008, a participant may elect to defer any amount up to 50% of his or her pretax compensation subject to certain maximum limitations imposed by the IRC ($16,500 for 2009 and $15,500 for 2008). A participant may elect to defer up to 50% of their pretax compensation, as defined by the plan, subject to the maximum limitation imposed by the IRC. Participants may also make eligible rollover contributions.

The Plan provides for three types of Employer contributions: 1) matching contributions, 2) profit sharing contributions, and 3) Employee stock ownership (ESOP) contributions. The Employer matches deferrals equal to 100% of a participant's salary deferral up to 3% of the participant's compensation and matches an additional 50% of the participant's salary deferral to the extent such deferrals exceed 3% but do not exceed 5% of participants compensation. The Employer may also make additional discretionary profit sharing and ESOP contributions as determined by the Board of Directors.

Plan Administration and Expenses

The Plan is administered by the Company. In accordance with the trust agreement, all the Plan's assets and income therefrom, with the exception of Company stock, are held and administered by Nationwide Trust Company, the Trustee. The Company has responsibility for making employer contributions, appointing and removing the Trustee, establishing a funding policy and method, and amending or terminating the Plan. All administrative fees and expenses were fully paid for by the plan during 2009.

Company stock is held and managed by the Bank's Trust Department. Certain other administrative functions are performed by officers or employees of the Bank. However, such officers and employees receive no compensation from the Plan.

Vesting and Participation

Employees become eligible for participation immediately upon hire, as defined by the Plan. To be eligible to receive the employer profit sharing and ESOP contributions, participants must have been employed by the Employer on the last day of the Plan year, or die, retire, or become disabled during the Plan year. Participants must also have completed one thousand (1,000) hours of service as defined in the Plan.

Participants are 100% vested at all times in their salary deferral, rollover and employer matching contributions.

Participants become vested in their employer profit sharing and ESOP contributions based upon the following schedule:

Participant's (Years of Service)	Vested Percentage
Less than two years	0%
Two but less than three	20%
Three but less than four	40%
Four but less than five	60%
Five but less than six	80%
Six or more years	100%

Participant Accounts

Each participant's account is credited with the participant's contribution, employer matching contributions and allocations of discretionary employer profit sharing and ESOP contributions and Plan earnings. Employer matching contributions are allocated based upon a participant's salary deferral. Allocations of employer profit sharing and ESOP contributions are based on the ratio of the participant's compensation to the total compensation of all participants for such Plan year. Allocations of Plan earnings are based on the participant's account balances. ESOP contributions are invested primarily in Company stock and, except as otherwise provided for in certain provisions of the Plan, may not be directed by the participants to other investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment Options

At December 31, 2009, the Plan offered a total of seventy-eight (78) mutual funds and one (1) money market fund as investment options for participants. As of December 31, 2008, the Plan offered a total of eleven (11) investments and one (1) money market fund.

Forfeitures

Forfeited nonvested accounts may be reallocated to participants as an additional profit sharing or ESOP contribution, or may be used to reduce Employer matching, Employer profit sharing and/or ESOP contributions and to pay administrative fees. As of December 31, 2009, forfeitures of $99,000 were available for reducing future employer contributions or to restore prior forfeitures under certain conditions. No forfeitures were used to fund employer matching contributions during the year.

Payment of Benefits

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount which may be paid to them directly or rolled over into a Qualified Retirement Plan or IRA. Effective October 1, 2008, the Plan was amended with respect to ESOP payments. ESOP payments will be, pursuant to the discretionary lump-sum payments, unless the participant elects a longer distribution period of annual installments over a period not longer than five years.

Participant Loans

Participants may borrow from their participant accounts a minimum amount of $1,000 and up to a maximum of the lesser of 50% of their vested account balance or $50,000.

The loans are secured by the balance in the participant's account and bear interest at a rate equal to the *Wall Street Journal* prime rate plus 1%. The maximum term of a loan may be five years except for loans to purchase a primary residence for which the maximum term is ten years.

Plan Termination

While there is no intention to do so, the Employer reserves the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their employer contribution balances and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements requires the Plan administrator and the trustee to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Under the provisions of the Plan, administrative expenses are paid by the Plan unless paid for by the Employer.

Subsequent Events

Subsequent events have been evaluated through September 20, 2010, which was the date the financial statements were available to be issued.

New Accounting Pronouncements

In April and September 2009, the Financial Accounting Standards Board ("FASB") issued guidance which (i) provided additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased, (ii) provided guidance on identifying circumstances that indicate a transaction is not orderly, (iii) permitted, as a practical expedient, entities to measure the fair value of certain investments based on the net asset value per share and (iv) expanded the required disclosures about fair value measurements. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

In May 2009 and February 2010, the FASB issued guidance which established general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued.

In particular, this guidance established (i) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure, (ii) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date and (iii) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

In June 2009, the FASB issued new codification standards which represent the source of authoritative U.S. generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by non-governmental entities. The codification supersedes all non-SEC accounting and reporting standards which existed prior to the codification. All other non-grandfathered, non-SEC accounting literature not included in the codification is non-authoritative. The new codification standards were effective for 2009.

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

3. Fair Value Measurements

Effective January 1, 2008, the Plan adopted the provisions of ASC 820, "Fair Value Measurements" for all financial assets and liabilities disclosed at fair value in the financial

statements on a recurring basis. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 — Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 — Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for instruments categorized in Level 3. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure.

Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions.

The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or Level 2 to Level 3.

Valuation Techniques

Money market funds and mutual funds. Valued at the net asset value (NAV) of shares held by the plan at year end and are classified as Level 1 within the valuation hierarchy as they are traded on a national securities exchange.

Loans to participants. Valued and amortized cost, which approximates fair value are classified within Level 3 of the valuation hierarchy.

The ANB Corporation common stock. The value of the ANB Corporation's common stock was valued by an independent third party as the stock is not traded on a securities exchange. Their valuation is based on a multiple of current earnings less an appropriate discount. The multiple chosen is consistent with multiples of similar companies based on current market price and is considered to be Level 3 of the valuation hierarchy.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2009 and 2008:

		Fair Value Measurments at Reporting Date Using

5. Line of Credit

In 2002, the Plan entered into a line of credit agreement with a bank which has subsequently been renewed with a credit limit of $500,000. As of December 31, 2008 there was $328,791 due on the line of credit. There was no outstanding balance as of December 31, 2009.

Unallocated shares are collateral for the line of credit when extended. The agreement provides for the line and accrued interest to be repaid in eight months. The line of credit had an interest rate equal to the sum of the Applicable Margin plus the quotient of (a) the LIBOR Rate applicable to such Interest Period, divided by (b) one minus the Reserve Requirement (expressed as a decimal) applicable to such Interest Period.

6. Party-In-Interest Transactions

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. Transactions

during the year with parties-in-interest included contributions made by the Employer and the payment by the Employer of expenses incurred in the administration of the Plan.

7. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated May 12, 2005, that the Plan is designed in accordance with applicable sections of the IRC. Although, the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. Reconciliation of Financial Statements to Form 5500
