INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
the EMS 401(K) Plan

I was engaged to audit the financial statements of EMS 401(K) Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and the supplemental schedules as of and for the year ended December 31, 2009 as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by John Hancock Retirement Plan Services of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. I have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that I did not audit, I am unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 – PLAN DESCRIPTION

Effective January 1, 2003, Environmental Monitoring Services, Inc. (the "Company") adopted the EMS 401 (k) Plan (the "Plan") to provide retirement benefits for all eligible employees. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company. Employees are not required to satisfy an age or service requirement to be eligible to participate in the Plan. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA") and subsequent related amendments and revisions.

Administration of the Plan

The Company is the Plan Sponsor and handles administrative functions for the Plan. The Plan's assets are maintained by John Hancock Life Insurance Company (the "Custodian") and are invested through participant-directed accounts in various mutual funds or other investments offered by the Custodian. The Plan uses the services of an independent third party for participant recordkeeping. Certain administrative services and cost are incurred by the Company without cost to the Plan.

Contributions

Each year, participants may contribute to the Plan, subject to limits imposed by the Internal Revenue Service. The maximum allowed by law for 2009 is $15,500. Additionally, participants who are at least 50 years of age by December 31, 2009 are permitted to make catch-up contributions up to $5,000 for 2009. Participants may change their contributions percentages at any time during the year. The Company may make matching contributions to the Plan at their discretion. The Company may also make a discretionary nonelective contributions unrelated to employee contributions to the Plan. For the year ended December 31, 2009, the Company made no contributions to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) any Company contributions and (b) Plan earning/losses and is charged with applicable withdrawals and an allocation of any administrative expenses. Allocations are based on participant earnings, account activity or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

The Plan provides for participant-directed investments among a variety of funds offered by the Plan's Custodian. The allocation of investment income for each of the investment options is based on the ratio that each participant's account balance bears to the total account balance of all eligible participants.

Vesting

Participants are immediately vested in their contributions plus actual earning thereon. Vesting in the Company's matching or discretionary portion of their accounts plus actual earnings thereon is based on years of continuous service. The following schedule describes the participant's level of vesting after each year of service.

Number of Years of Completed Service	Percentage of Vested Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participants Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to 50% of their account balance. Loan transactions are treated as a transfer to (from) an investment fund from (to) the loan fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator.

Payments of Benefits

Under the terms of the Plan, participants who attain retirement age of become totally disabled prior to their retirement date will receive all amounts credited to their accounts. Upon the death of the participant while actively employed, distribution are made in accordance with the participant's previous direction. All the participants will receive their account balance in a lump sum equal to the value of their account.

Withdrawals

Employees may make early withdrawals of all or a portion of their elective deferral contributions in their account under the hardship provisions of the Plan. A participant may make unrestricted withdrawals of their vested accounts on or after age 59 ½.

Forfeitures

Forfeitures arise when participants terminate employment before being fully vested in matching or discretionary Company contributions. Forfeitures of non-vested Company contributions are allocated to the participants in the same manner as the Company matching contribution. There were no forfeitures for the year ended December 31, 2009.

Plan Termination

Although is has not expressed any intent to terminate the Plan, the Company may do so at any time. In the event of termination of the Plan, all amounts credited to a participant's account become fully vested and the Plan assets are to be distributed according to provisions outlined in the Plan document.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America and are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are valued at their fair value at the date of valuation based on quoted market rates as reported to the Plan by the Custodian. The change in the current value of investments (including investments bought and sold) during 2009 is reflected in the statement of changes in net assets available for benefits as net appreciation in fair value of investments. Interest income is recorded on the accrual basis.

Participant loans are valued at their outstanding balances, which approximates fair value.

Payments of Benefits

Benefits are recorded when paid.

NOTE 3 – INFORMATION CERTIFIED BY THE CUSTODIAN – (UNAUDITED)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, the Plan's Trustee, John Hancock Life Insurance Company (U.S.A), has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Investments in money market accounts, common/collective trusts and registered investment companies (mutual funds) as shown in the Statement of Net Assets Available for Benefits.

b. Investment income and net appreciation in fair value of investments, as shown in the Statement of Changes in Net Assets Available for Benefits.

c. All information included in Schedule H, Item 4i – Schedule of Assets (Held at End of Year) at December 31, 2009, as shown in the supplemental schedule.

The plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2008, the Plan, entered into a fully benefit-responsive investment contract with John Hancock. John Hancock maintains the contributions in a general account where they are invested in accordance with John Hancock's general account investment policy. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by John Hancock, represents contributions make under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on the return John Hancock expects on new investments made by it and held within the John Hancock general account, and is guaranteed to always equal or exceed the contractually guaranteed rate. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor, (4) the failure of the trust to qualify for exemption under federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The average interest rate credited to participants on these accounts, which approximated the average effective yield, was approximately 3.64% for 2009.

NOTE 5 – INVESTMENTS

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	2009
Lifestyle Balanced	20,016
Lifestyle Growth	49,498
Lifestyle Aggressive	38,682
T. Rowe Price Equity, Inc.	14,554

NOTE 6 – PARTY-IN-INTEREST

The Plan has participant loans as investments at December 31, 2009. As a result, these investments and all transactions relating to these investments qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.

Also, certain Plan investments are shares of mutual funds managed by John Hancock Life Insurance Company, which is the Custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.

Fees paid by the Plan to the Custodian for administrative fees amounted to $ 3,184 for the year ended December 31, 2009.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to terminate the Plan, the Company may do so at any time. In the event of termination of the Plan, all amounts credited to a participant's account become fully vested and the Plan assets are to be distributed according to provisions outlined in the Plan document.

NOTE 8 – TAX STATUS

The plan is a Prototype Plan under the Prototype Sponsor – Malcolm Thompson and Associates, Inc. The Internal Revenue Service has determined and informed the Prototype Sponsor by a letter dated August 7, 2001, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and currently operated in compliance with the applicable requirements of the IRC. According, no provision for income taxes has been included in the Plan's financial statements.

NOTE 9 – RISKS UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). Three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 inputs to the valuation methodology include the following:
  - Quoted prices for similar assets or liabilities in active markets
  - Quoted prices for identical or similar assets or liabilities in inactive markets
  - Inputs other tan quoted prices that are observable for the asset or liability
  - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2008, and 2009.

The plan's investments consist of shares of an account which guarantees principal and a minimum guaranteed interest rate for the life of the product as well as featuring two declared interest rates: a current rate determined at least monthly, and a guaranteed minimum floor rate declared for a defined period – currently one calendar year. The current value shown reflects the approximate amount that would have been paid if the contract had been terminated as of the last day of the reporting period and potential surrender charges and market value adjustments were asspied as of such date. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy the plan's assets at fair value as of December 31, 2009 and 2008.

Assets at Fair Value as of December 31, 2009

	Level 1	Level 2	Level 3	Total
