1. Description of Plan

The following description of the Valor Healthcare Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Plan Termination

On July 31, 2012, Valor Healthcare, Inc. (the Company of the Plan administrator) announced that it had signed a definitive agreement to merge with Humana Government Business, Inc. (Humana). The merger subsequently closed on August 1, 2012. Effective July 31, 2012, the Plan was terminated by the Plan administrator. The Plan no longer accepts new contributions, new loans or hardship withdrawals. Outstanding loans continued with the normal repayment process until December 31, 2012. Subsequent to the year end, all outstanding loans were either paid off or deemed to be distributions from the Plan.

General

The Plan was a defined contribution plan covering all employees of the Company who had attained age eighteen. Employees were eligible to participate in the Plan on the first day of the first, fourth, seventh and tenth months of the calendar year. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

Pursuant to the Plan document, the Plan administrator is Valor Healthcare, Inc. Per resolution of the Humana Board, duties of the Company were delegated to the Humana's Benefit Committee. Record keeping for the Plan was performed by Ascensus and Frontier Trust Company for all of 2011, 2012 and this relationship continued into 2013. The Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code (the Code) and the provisions of ERISA, as amended.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on the participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Contributions

The Company made discretionary contributions to the Plan in the same dollar amount per week for each eligible employee during the term of employment. In addition, participants were allowed to contribute up to 100 percent of pre-tax annual compensation, as defined in the Plan. Contributions were limited, in total, by certain provisions of the Internal Revenue Code (IRC), which are subject to change from time to time. Participants who have attained the age of 50 before the end of the Plan year were eligible to make catch-up contributions. Participants may have also contributed amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants directed the investment of their contributions into various investment options offered by the Plan. As described in the Plan, there are no employer contributions required subsequent to July 31, 2012. Participants are not permitted to make any contributions subsequent to July 31, 2012.

Vesting

Participants were immediately vested in their contributions and the Company's contributions plus actual earnings thereon. All participants are fully vested as of July 31, 2012.

Forfeited Accounts

The Plan had no forfeitures since participants were immediately vested in their accounts.

Notes Receivable from Participants

The Plan allowed participants to borrow funds against their account balances. These loans are required to be a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan terms range from one to five years or up to thirty years for the purchase of a primary residence. All loans, which are collateralized by the participants' account balances, must be repaid with interest at the per annum rate determined at the inception of the loan. The rate on outstanding loans is 5%. All loans are subject to certain requirements as outlined in the Plan. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits

Upon termination of service for any reason, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

1. Description of Plan (continued)

Administrative Expenses

General plan administrative expenses, such as legal fees and administrative costs, were paid for directly by the Plan administrator. Fees specific to the participant's account were charged against that participant's account balance.

2. Summary of Significant Accounting Policies

Basis of Accounting and Presentation

As a result of the termination, the Plan changed its basis of accounting from the accrual basis to the liquidation basis. There were no material changes to the financial statements as a result of this change in accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of financial statements and the reported amounts of net assets available for benefits and changes therein during the reporting period. Actual results may differ from these estimates.

Payment of Benefits

Benefits are recorded when paid.

3. Trustee Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator has obtained certifications from Frontier Trust Company, the trustee of the Plan, that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements as to money market and mutual funds, net depreciation in the fair value of investments, dividend income, and all information in the supplemental schedule are presented in reliance solely upon those certifications.

4. Investments

The following investments represent five percent or more of the Plan's net assets at December 31:

	2012	2011
American Funds Cap World Gr and Inc R2	$ 592,530	$ 454,789
American Funds Money Market Fund R2	541,814	513,652
Prudential Jennison Health Sciences A	534,916	381,879
Prudential Jennison Natural Resources A	353,235	348,141
American Funds EuroPacific Growth R2	202,060	*
Wells Fargo Adv Utility & Telecomm A	200,633	*
Total	$ 2,425,188	$ 1,698,461

Investments that did not represent 5% or more of the Plan's net assets available for benefits at December 31, 2012 and 2011 are identified with an "*".

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments bought and sold and held during the year) appreciated in value by $319,744 as follows:

Money market funds	$ -
Mutual funds	319,744
Participant loans	-
Total appreciation in value	$ 319,744

5. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

- Level 2: Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; and (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value at December 31:

	2012			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 541,814	$ -	$ -	$ 541,814
Mutual funds	3,274,456	-	-	3,274,456
Total investments at fair value	$ 3,816,270	$ -	$ -	$ 3,816,270

	2011			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 513,728	$ -	$ -	$ 513,728
Mutual funds	2,490,009	-	-	2,490,009
Total investments at fair value	$ 3,003,737	$ -	$ -	$ 3,003,737

5. Fair Value Measurements (continued)

The Plan's investments, money market funds and mutual funds, are measured at fair value on a recurring basis which are generally classified within level 1 of the fair value hierarchy. The fair values of these investments are based on quoted market prices in active markets.

6. Excess Contributions Payable

Excess contributions payable represents amounts owed to participants who made excess contributions based on the compliance testing performed by the Plan's recordkeeper. The excess contributions payable balance at December 31, 2012 was returned by the Plan to the participants on February 25, 2013.

7. Reconciliation of Financial Statements to Form 5500

2012 and 2011 Form 5500s were prepared on the accrual basis of accounting and there are no reconciling items between the 2012 and 2011 Form 5500's and the accompanying financial statements.

8. Tax Status

The Company adopted a prototype standardized profit sharing plan with a deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of IRC.

The Plan recognized the effect of income tax positions only if those positions are more likely than not of being sustained. The Plan does not believe its financial statements include any uncertain tax positions. Information returns for the years ended December 31, 2009 or later remain subject to examination by various taxing authorities.

9. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Before the merger of Valor Healthcare, Inc. and Humana, the Plan administrator discovered several irregularities in the Plan and on August 17, 2012, the Plan administrator filed the Department of Labor's Voluntary Fiduciary Correction Program (VCP) outlining the following irregularities and corrective plans:

9. Risks and Uncertainties (continued)

- Profit Sharing Allocation: the Plan administrator discovered that certain employer contributions from the inception of the Plan in 2004 through 2008 were not properly made in accordance with the terms of the Plan document. These irregularities were discovered and the Plan administrator subsequently made corrections by making corrective contributions in 2009. The filing to VCP, dated August 17, 2012, reports these irregularities in the profit sharing allocation and the corrective adjustments made in 2009.

- Automatic Enrollment: the Plan administrator discovered that the adoption of certain agreements for the Plan between September 30, 2006 and December 31, 2009 provided for automatic enrollment of participants; however, the Plan administrator never intended to and never implemented the automatic enrollment feature. The Plan administrator reviewed its files and determined that a significant number of its employees enrolled in the Plan to make elective deferrals, opted out upon hire, or returned a form confirming that they elected not to participate. As such, the Plan administrator proposed amendment to the Plan document effective September 30, 2006 to eliminate the automatic enrollment feature.

- Early Entry: between 2005 and 2009, the Plan administrator allowed six employees to participate in the Plan by making elective deferrals before meeting the Plan's age and service requirements. The Plan administrator distributed the ineligible contributions adjusted for earnings and losses to the affected participants.

The Plan administrator believes that these corrective actions and its filing with VCP will minimize any penalties from the Department of Labor and IRS. Any penalties and excise tax will be paid by the Plan administrator.

10. Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 9, 2013, the date the financial statements were available to be issued. No subsequent events were noted that require adjustment to the financial statements. Effective October 3, 2013, all assets of the Plan were distributed.
