NOTES TO FINANCIAL STATEMENTS

December 31, 2012

NOTE A – DESCRIPTION OF PLAN

The following description of the 401(k) Profit Sharing Plan & Trust (the Plan) of VibrantCare Rehabilitation Inc. (the Company) provides only general information. Participants should refer to the Plan adoption agreement for a more complete description of the Plan's provisions.

The financial statements of the Plan are prepared in conformity with generally accepted accounting principles and general practices for employee benefit plans. The following is a summary of the significant accounting and reporting policies used in preparing the financial statements.

General: The Plan is a defined contribution plan covering all employees of the Company. Full time employees over the age of 18 are eligible to participate in the Plan after two months of service and per diem employees are eligible to participate in the Plan after one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was effective as of January 1, 2007.

The Company is the administrator of the Plan and, as such, carries out the duties imposed under ERISA. The Company has delegated certain responsibilities for the operation and administration of the Plan. Plan investments have been managed by the trustee, the Reliance Trust Company, since April 22, 2010 and any transactions with the Reliance Trust Company are considered to be party-in-interest transactions.

Contributions: Each year, full time participants with more than two months of service and temporary or per diem employees with more than one year of service may contribute the maximum amount of their compensation allowable by the Internal Revenue Code. Employees who are age 50 or older by the end of the Plan year were allowed to make additional "catch-up" contributions of $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 16 equity mutual funds, one bond mutual fund and a number of common investment trust funds as investment options for participants through the custodian and trustee, the Reliance Trust Company. The Company also offers a discretionary match of employee contributions if approved by the Board of Directors. There was no Company match during 2012. The Company match during 2011 was equal to the lesser of each participants' contribution or 25% of the first three percent of the participants' pretax compensation as approved by the Board of Directors.

The Company may also make additional discretionary profit sharing contributions to the Plan if approved by the Board of Directors. Participants must have more than 1,000 hours of service during the Plan year to receive a discretionary profit sharing contribution. The Company did not make any discretionary profit sharing contributions during the year ended December 31, 2012.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on annual compensation, participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants: The Plan may grant loans to participants. Participants may borrow from their fund accounts a maximum 95% of one-half of their vested account balance or 95% of the total vested account balance less Roth election deferrals account balance, whichever is less. Additionally, the minimum loan amount is $1,000 and the total amount cannot exceed $50,000. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent. Loans terms may not exceed 54 months. As of December 31, 2012 and 2011, there were three and four loans outstanding with interest rates ranging from 4.25% to 6.00% and repayment dates through 2017 and 2014, respectively. Principal and interest are paid ratably through payroll deductions.

NOTE A – DESCRIPTION OF PLAN (CONTINUED)

Vesting: All participants are immediately 100% vested in their contributions, plus allocated earnings thereon. Participants vest in the discretionary Company match and the discretionary profit sharing contributions as follows: 20% after two years of service, 40% after three years of service, 60% after four years of service, 80% after five years of service and 100% after six years of service. However, employees hired prior to March 1, 2009 are grandfathered with the following vesting schedule: 20% after two years of service and 100% after three years of service.

Cost of Administration: All reasonable costs, charges and expenses incurred by the trustee in connection with the administration of the Plan and all reasonable costs, charges and expenses incurred by the Plan administrator in connection with the administration of the Plan (including fees for legal services rendered) may be paid by the employer, but if not paid by the employer when due, shall be paid from the Plan. All costs of administration for the year ended December 31, 2012, which amounted to $34,008, were paid by the Plan to the Standard Retirement Services, Inc. and represent party-in-interest transactions.

Payment of Benefits: On termination of service for retirement at age 59 1/2, death or disability, an amount equal to the participant's vested account balance will be distributed as soon as administratively feasible, following the date on which a distribution is requested or is otherwise payable. The Plan allows for automatic lump sum distributions of participant account balances that do not exceed $5,000 and does not allow hardship withdrawals. Participants are immediately vested in their contributions plus related actual earnings.

Forfeitures: Upon termination of employment, nonvested portions of employer contributions are forfeited and used to reduce future employer contributions and to pay certain expenses. At December 31, 2012, there was $1,828 in the forfeiture account that had not been allocated.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared using the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition: The Plan's assets are invested in various investments offered through an agreement between the company and the Plan custodian and trustee, the Reliance Trust Company. The Plan's investments are stated at fair value as of December 31, 2012. The market values of the investments are based on the fair value of underlying securities as determined from quoted prices for identical investments in active markets on the last business day of the Plan year. Investment in the common trust fund is stated at fair value as determined by the issuer of the common trust fund, based on the fair value of the underlying investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The Plan evaluated all events and transactions that occurred after December 31, 2012 and up to October 8, 2013, the date the financial statements were available to be issued. During this period, the Plan did not have any recognizable or non-recognizable subsequent events.

New Pronouncements: In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, which changes the wording used to describe the requirements in U.S.GAAP for measuring fair value and for disclosing information about fair value measurements. The Company adopted this pronouncement at the beginning of plan year 2012. The adoption of this requirement did not have a material impact on the Plan's financial statements.

NOTE D – TAX STATUS

The 401(k) profit-sharing plan sponsored by Standard Retirement Services, Inc. obtained an opinion letter in which the Internal Revenue Service stated that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

FASB ASC 740-10 clarifies the accounting for income taxes, by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. It also provides guidance on de-recognition, measurement and classification of amounts relating to uncertain tax positions, accounting for the disclosure of interest and penalties, accounting in interim periods, disclosures and transition relating to the adoption of the new accounting standard. The Plan adopted provisions of FASB ASC 740-10, on January 1, 2008. There have been no adjustments identified for unrecognized tax benefits requiring an adjustment to the statement of changes in net assets available for benefits since this pronouncement was implemented. The Plan recognizes interest accrued and penalties related to unrecognized tax benefits in tax expense. The Plan has recognized no interest or penalties since this pronouncement was implemented.

NOTE E – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE F – FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Values and Disclosures*, defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles, and expands disclosures about fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant who holds the asset or owes the liability rather than an entity-specific measure. The Plan uses prices and inputs that are current as of the measurement date. According to FASB ASC 820, assets and liabilities are reported in three levels in the fair value hierarchy: using quoted prices in active markets for identical assets and liabilities (Level 1), using significant other observable inputs (Level 2) and using significant unobservable inputs (Level 3).

Assets measured at fair value on a recurring basis consist of investments in mutual funds, common trust funds and money market funds. All of the Plan's mutual funds and money market funds were valued using Level 1 inputs. The fair values of mutual funds and money market funds were estimated using quoted prices for identical assets in active markets from a fair value quoted on a recognized security exchange.

The common trust fund is not traded on an exchange, however, the fair value is determined based on the underlying investments as traded on an exchange and active markets. This fund is classified as a Level 2 investment.

Unrealized losses on mutual funds, common trust funds and money market funds included in the change in net assets available for benefits at December 31, 2012 were $36,650. Under FASB ASU 2010-25 notes receivable from participants are no longer required to be presented as part of the fair value measurement note or in the hierarchy table required by FASB ASC 820.

Valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While management believes valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of

certain financial instruments could result in a different estimate of fair value at the reporting date.

Investments measures at fair value on a recurring basis consisted of the following types of instruments at December 31, 2012 and 2011:

	Assets measured at Fair Value on a Recurring Basis as of December 31, 2012

Common trust funds	643,267		$ 643,267	
Total investments measured at fair value	$ 2,568,207	$ 1,924,940	$ 643,267	$ -

	Assets measured at Fair Value on a Recurring Basis as of December 31, 2011

Mutual funds	$ 1,871,387	$ 1,871,387		
Common trust funds	621,883		$ 621,883	
Total investments measured at fair value	$ 2,493,270	$ 1,871,387	$ 621,883	$ -

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investments securities. Investments securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.
