Independent Auditors' Report

To the Trustees of the
Johnson, Pope Profit Sharing Plan and Trust:

We have audited the accompanying statements of net assets available for plan benefits of Johnson, Pope Profit Sharing Plan and Trust as of December 31, 2009 and 2008 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2009. These financial statements and the supplemental schedule are the responsibility of the Plan's management. Our responsibility is to express and opinion on these financial statements and the supplemental schedule based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of Johnson, Pope Profit Sharing Plan and Trust as of December 31, 2009 and 2008 and the changes in its net assets available for plan benefits for the year ended December 31, 2009 in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at end of year is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure Under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

(1) Description of Plan

The following description of the Johnson, Pope Profit Sharing Plan and Trust (the Plan) sponsored by Johnson, Pope, Bokor, Ruppel & Burns, LLP (the Company), provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

(a) General

The Plan, as amended and restated as of January 1, 2002, is a defined contribution plan covering all employees of Johnson, Pope, Bokor, Ruppel and Burns, LLP. Employees eligible to participate are those who are employed for a period of one year and who have attained age eighteen. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each year, participants may make elective contributions not to exceed the dollar limitation contained in section 402(g) of the Internal Revenue Code. The Company, at the discretion of its Board of Directors, may also contribute to the Plan a matching contribution equal to 25% of the amount of each participant's elective contribution made to the Plan for the Plan year. The Company may also make qualified non-elective profit-sharing contributions to the Plan which are subject to certain limitations. For the year ended December 31, 2009, the Company made matching and profit sharing contributions of $138,658 and $440,515, respectively.

(c) Participant Accounts

Each participant's account is credited with the participant's salary deferral contributions and allocations of (a) the Company’s matching and qualified non-elective contributions (b) plan earnings and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

(d) Vesting

Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Vesting in the Company’s matching and profit sharing contributions is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Forfeitures are reallocated to remaining Plan participants in the same manner as the original employer contribution type (matching or profit-sharing) to which the forfeited amount relates, i.e., they are treated as additional employer contributions.

(Continued)

JOHNSON, POPE PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

(e) Payment of Benefits

On termination of service, if a participant's account balance exceeds $5,000, the Plan permits the participant to elect distribution either in a lump-sum amount equal to the value of his or her account, or various annuity options. The Plan does not permit participants to receive a distribution in any form other than a lump-sum if a participant's vested account balance does not exceed $5,000. Hardship distributions are also allowed in accordance with the Plan.

(f) Participant Notes Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms can extend to a maximum of 5 years except for loans related to the purchase of a primary residence which may extend up to a maximum of 15 years. The loans are secured by the balance in the participant's account and bear interest at prevailing market rates. Principal and interest are paid ratably through payroll deductions. At December 31, 2009 and 2008, participant notes in the amount of $286,719 and $229,209, respectively, were outstanding.

(g) Investment Options

Contributions to the Plan may be directed by the participants to any of several investment options provided by the Plan from time to time. Participants may change their investment options at any time through on-line access. Certain other plan assets are invested at the direction of the trustees.

(h) Financial Accounting Standards

In June 2009, the Financial Accounting Standards Board (FASB) issued authoritative guidance establishing two levels of U.S. generally accepted accounting principles (GAAP) - authoritative and nonauthoritative - and making the Accounting Standards Codification (ASC) the source of authoritative, nongovernmental GAAP, except for rules and interpretive releases of the Securities and Exchange Commission. This guidance, which was incorporated into ASC Topic 105 - *Generally Accepted Accounting Principles*, was effective for interim and annual periods ending after September 15, 2009. The adoption changed certain disclosure references to U.S. GAAP, but did not have any other impact on the Plan's financial statements.

(2) Summary of Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(Continued)

JOHNSON, POPE PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

(b) Payment of Benefits

Benefits are recorded when paid.

(c) Estimates in Financial Statements

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes therein during the period. Actual results could differ from those estimates.

(d) Valuation of Investments

The Plan adopted Financial Accounting Standards Board ASC Topic 820 relating to *Fair Value Measurements,* which provides a common definition of fair value, establishes a framework for measuring fair value under U.S. generally accepted accounting principles and requires additional disclosures about fair value measurements.

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. See note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(3) Investments

The fair value of individual investments that represent 5% or more of the Plan's net assets as of December 31, 2009 and 2008, are as follows:

	2009	2008
Participant directed investments -		
Cash Management Trust of America	$ 1,333,310	-
Washington Mutual Investors Fund	$ 2,982,426	2,489,918
Vanguard SPDR Series Trust	$ 1,642,146	-

(Continued)

JOHNSON, POPE PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

(4) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

(5) Tax Status and Plan Amendments

The Internal Revenue Service has determined and informed the Company by a letter dated June 17, 2010, that the Plan and related trust, including plan amendments executed through September 30, 2009, are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

(6) Fair Value Measurements

The Financial Accounting Standards Board (FASB) guidance regarding "*Fair Value Measurements and Disclosures"* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for Plan assets measured at fair value:

Self-directed brokerage accounts:	Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. Equity securities are valued at the closing price reported in the active market in which the individual securities are traded. Closely held common stock and corporate bonds are valued based on quoted prices for similar assets. Treasury obligations are valued based on quoted prices in active markets.
Mutual funds:	Valued at the net asset value (NAV) of shares held by the Plan at year end.
Participant loans:	Valued at amortized cost, which approximates fair value.
Limited partnerships:	Valued at the appraised value of the underlying real estate multiplied by the Plan's ownership percentage.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

JOHNSON, POPE PROFIT SHARING PLAN AND TRUST

(7) Party-In-Interest Transactions

Certain administrative expenses of the Plan, such as professional fees, are paid directly by the Plan sponsor, Johnson, Pope, Bokor, Ruppel and Burns, LLP.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Plan investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain Plan investments, it is at least reasonably possible that changes in the value of Plan investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

(9) Subsequent Events Review

Subsequent events were evaluated by Plan management through October 14, 2010, which is the date the financial statements were available to be issued.

Independent Auditors' Report

To the Trustees of the
Johnson, Pope Profit Sharing Plan and Trust:

We have audited the accompanying statements of net assets available for plan benefits of Johnson, Pope Profit Sharing Plan and Trust as of December 31, 2009 and 2008 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2009. These financial statements and the supplemental schedule are the responsibility of the Plan's management. Our responsibility is to express and opinion on these financial statements and the supplemental schedule based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of Johnson, Pope Profit Sharing Plan and Trust as of December 31, 2009 and 2008 and the changes in its net assets available for plan benefits for the year ended December 31, 2009 in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at end of year is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure Under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

(1) Description of Plan

The following description of the Johnson, Pope Profit Sharing Plan and Trust (the Plan) sponsored by Johnson, Pope, Bokor, Ruppel & Burns, LLP (the Company), provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

(a) General

The Plan, as amended and restated as of January 1, 2002, is a defined contribution plan covering all employees of Johnson, Pope, Bokor, Ruppel and Burns, LLP. Employees eligible to participate are those who are employed for a period of one year and who have attained age eighteen. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each year, participants may make elective contributions not to exceed the dollar limitation contained in section 402(g) of the Internal Revenue Code. The Company, at the discretion of its Board of Directors, may also contribute to the Plan a matching contribution equal to 25% of the amount of each participant's elective contribution made to the Plan for the Plan year. The Company may also make qualified non-elective profit-sharing contributions to the Plan which are subject to certain limitations. For the year ended December 31, 2009, the Company made matching and profit sharing contributions of $138,658 and $440,515, respectively.

(c) Participant Accounts

Each participant's account is credited with the participant's salary deferral contributions and allocations of (a) the Company’s matching and qualified non-elective contributions (b) plan earnings and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

(d) Vesting

Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Vesting in the Company’s matching and profit sharing contributions is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Forfeitures are reallocated to remaining Plan participants in the same manner as the original employer contribution type (matching or profit-sharing) to which the forfeited amount relates, i.e., they are treated as additional employer contributions.

(Continued)

JOHNSON, POPE PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

(e) Payment of Benefits

On termination of service, if a participant's account balance exceeds $5,000, the Plan permits the participant to elect distribution either in a lump-sum amount equal to the value of his or her account, or various annuity options. The Plan does not permit participants to receive a distribution in any form other than a lump-sum if a participant's vested account balance does not exceed $5,000. Hardship distributions are also allowed in accordance with the Plan.

(f) Participant Notes Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms can extend to a maximum of 5 years except for loans related to the purchase of a primary residence which may extend up to a maximum of 15 years. The loans are secured by the balance in the participant's account and bear interest at prevailing market rates. Principal and interest are paid ratably through payroll deductions. At December 31, 2009 and 2008, participant notes in the amount of $286,719 and $229,209, respectively, were outstanding.

(g) Investment Options

Contributions to the Plan may be directed by the participants to any of several investment options provided by the Plan from time to time. Participants may change their investment options at any time through on-line access. Certain other plan assets are invested at the direction of the trustees.

(h) Financial Accounting Standards

In June 2009, the Financial Accounting Standards Board (FASB) issued authoritative guidance establishing two levels of U.S. generally accepted accounting principles (GAAP) - authoritative and nonauthoritative - and making the Accounting Standards Codification (ASC) the source of authoritative, nongovernmental GAAP, except for rules and interpretive releases of the Securities and Exchange Commission. This guidance, which was incorporated into ASC Topic 105 - *Generally Accepted Accounting Principles*, was effective for interim and annual periods ending after September 15, 2009. The adoption changed certain disclosure references to U.S. GAAP, but did not have any other impact on the Plan's financial statements.

(2) Summary of Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(Continued)

JOHNSON, POPE PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

(b) Payment of Benefits

Benefits are recorded when paid.

(c) Estimates in Financial Statements

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes therein during the period. Actual results could differ from those estimates.

(d) Valuation of Investments

The Plan adopted Financial Accounting Standards Board ASC Topic 820 relating to *Fair Value Measurements,* which provides a common definition of fair value, establishes a framework for measuring fair value under U.S. generally accepted accounting principles and requires additional disclosures about fair value measurements.

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. See note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(3) Investments

The fair value of individual investments that represent 5% or more of the Plan's net assets as of December 31, 2009 and 2008, are as follows:

	2009	2008
Participant directed investments -		
Cash Management Trust of America	$ 1,333,310	-
Washington Mutual Investors Fund	$ 2,982,426	2,489,918
Vanguard SPDR Series Trust	$ 1,642,146	-

(Continued)

JOHNSON, POPE PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

(4) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

(5) Tax Status and Plan Amendments

The Internal Revenue Service has determined and informed the Company by a letter dated June 17, 2010, that the Plan and related trust, including plan amendments executed through September 30, 2009, are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

(6) Fair Value Measurements

The Financial Accounting Standards Board (FASB) guidance regarding "*Fair Value Measurements and Disclosures"* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for Plan assets measured at fair value:

Self-directed brokerage accounts:	Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. Equity securities are valued at the closing price reported in the active market in which the individual securities are traded. Closely held common stock and corporate bonds are valued based on quoted prices for similar assets. Treasury obligations are valued based on quoted prices in active markets.
Mutual funds:	Valued at the net asset value (NAV) of shares held by the Plan at year end.
Participant loans:	Valued at amortized cost, which approximates fair value.
Limited partnerships:	Valued at the appraised value of the underlying real estate multiplied by the Plan's ownership percentage.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
