INCENTIVE PROFIT SHARING PLAN FOR EMPLOYEES OF SEALING DEVICES INC.

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2010 AND 2009

Note 1 **Description of Plan**

The following description of the Incentive Profit Sharing Plan for Employees of Sealing Devices Inc. (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of the employees of Sealing Devices Inc. (the Company). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees of the Company who have reached 21 years of age and have completed one year of continuous service are eligible to participate in the Plan. Employees must complete a minimum of 1,000 hours of service in each Plan year to remain eligible for discretionary employer profit sharing contributions, except in the case of an employee's death, disability, or retirement.

Contributions

Participants may make salary deferral contributions up to 100 percent of pretax annual compensation or after-tax Roth contributions, as defined in the Plan. The Company may make discretionary profit sharing contributions at the discretion of the Company's Board of Directors. The profit sharing contribution is allocated to each qualified participant's account in the ratio of the individual participant's compensation to total participants' compensation. Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution, Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Investment Options

The Plan trustees, along with an investment advisor, manage Plan assets except for participant contributions. Participants may direct their contributions into a variety of mutual fund accounts. Participants may also direct their profit sharing account balances upon attaining age 50.

Note 1 **Description of Plan - Continued**

Payment of Benefits
Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of his or her account, or periodic installments over a period not to exceed the life expectancy of the participant or beneficiary. Participants become eligible for retirement benefits at age 65 or age 60 with ten years of service. Participants become fully vested in the event of death or a total and permanent disability.

Forfeitures
Forfeited accounts will first be used to pay administrative expenses and any remaining forfeitures are used to reduce employer contributions. At September 30, 2010 and 2009, forfeited non-vested accounts totaled $70,738 and $63,602, respectively.

Note 2 **Significant Accounting Policies**

Basis of Accounting
The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value, except for the insurance policies, which are valued at the insurance contract cash value, which approximates fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Note 2 **Significant Accounting Policies - Continued**

Administrative Expenses
Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. All expenses of maintaining the Plan may be paid from Plan assets.

Subsequent Events
For the fiscal year ended September 30, 2010, the Company has evaluated subsequent events for potential recognition and disclosure through January 5, 2011, the date the financial statements were available to be issued.

Note 3 **Certified Information**
The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by TD Ameritrade Trust Company, the trustee, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedules. Except for the insurance policy cash value and its related investment activity, the trustee has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of September 30, 2010 and 2009 and the related investment activity reflected on the statement of changes in net assets available for benefits for the year ended September 30, 2010. Additionally, the trustee has certified the information in the schedule of assets (held at end of year) as of September 30, 2010.

The fair values of investments that represent more than five percent of the Plan's net assets as of September 30 are summarized below:

		2010		**2009**
Artio International Equity Fund	**$**	**1,047,844**	$	944,420
PIMCO Total Return Fund	**$**	**1,096,584**	$	991,786

Wasatch 1st Source Income Equity Fund	**$**	**2,077,575**	$	1,709,828

For the year ended September 30, 2010, the Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,145,725.

Note 4 **Fair Value Measurements**

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 (FASB ASC 820), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 **Fair Value Measurements - Continued**

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2010 and 2009.

Cash: Valued at dollars held in the account.

Registered Investment Companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Life Insurance Policies: Valued at the net cash surrender value of the policies at the Plan year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2010 and 2009:

Note 5 **Party-In-Interest Transactions**

As of September 30, 2010 certain of the Plan's investments are money market funds managed by TD Ameritrade Trust Company. TD Ameritrade Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 6 **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their account balance.

Note 7 **Tax Status**

Effective July 1, 2008, the Plan adopted a prototype plan sponsored by the Company. The prototype plan has received an opinion letter dated May 9, 2002 from the Internal Revenue Service as to the prototype plan's qualified status. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 8 **Risks and Uncertainties**

The Plan provides for investments which, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
