Note 1 - Plan Description

The following description of the Severstal North America, Inc. 401k Plan I (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a voluntary, defined contribution plan covering salaried employees of Severstal Dearborn Inc. (the "Company"), along with salaried laboratory workers and firefighters who have attained three months of service, hired or rehired before February 1, 2012. Beginning in May 2012, salaried laboratory workers and firefighters were transferred to the Severstal Dearborn, LLC Tax-Efficient Savings Plan for Hourly Employees. Additionally, effective September 1, 2012, all salaried employees of Mountain State Carborn, LLC, an entity affiliated with the Company through common ownership, were added to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration - The Company is the sponsor of the Plan. Until January 31, 2012, Mercer Trust Company functioned as trustee and investment manager, at which point Fidelity Management Trust Company became the new trustee and investment manager. Investment management fees and trustee fees are paid by the Plan or the Company at the discretion of the plan administrator.

Participant Accounts - Each participant's account is credited with the participant's contributions, if applicable, and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options - Participant and Company contributions may be allocated to investment options in multiples of 1 percent. Participants may change their investment choices for both future contributions and existing account balances, and may suspend contributions by contacting Fidelity Management Trust Company.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. The notes receivable are secured by the balance in the participant's account and bear interest at rates that range from 3.25 percent to 8.25 percent, which are commensurate with local prevailing rates as determined periodically by the plan administrator. Principal and interest are paid ratably through deductions taken each pay period.

Note 1 - Plan Description (Continued)

Contributions - Participants may elect to make before-tax and after-tax contributions to the Plan. The Plan provides for employee salary 401(k) before-tax contributions up to a maximum of 99 percent and after-tax contributions up to a maximum of 10 percent of the annual compensation subject to limitations established by the Internal Revenue Code (eligible compensation). Effective February 1, 2012, employee salary 401(k) before-tax and after-tax contributions were reduced to a maximum of 90 percent and 0 percent of eligible compensation. Effective February 1, 2012, a Roth option was added with a maximum contribution of 90 percent of eligible compensation. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Company makes contributions to the Plan as a percentage of each participant's base salary or, if greater, a minimum base salary, and the participant's age as defined in the plan document. Effective September 1, 2011, the Company amended the Plan to eliminate the lowest level tier and incorporated the employees previously covered in that tier to the next highest tier. As of December 31, 2012 and 2011, the Company makes contributions to the Plan according to the following schedule:

Participant's Age at End of Pay Period	Monthly Minimum Base Salary	Employer Contribution Percentage
Under 30	$ 1,957	3.1
30-34	2,109	3.7
35-39	2,621	4.3
40-44	3,184	4.9
45-49	4,173	5.4
50-54	5,380	5.8
55 and over	7,269	6.2

Vesting - Participants are immediately vested in employee salary 401(k) and rollover contributions and any income or loss thereon. Effective September 1, 2011, the Company amended the Plan to change the vesting schedule related to Company's contribution portion of participant accounts, plus actual earnings thereon, to become immediately vested.

Payment of Benefits - Distributions are payable upon retirement, attainment of age 59 1/2, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Note 1 - Plan Description (Continued)

Hardship Withdrawals - Participants may request that all or a portion of their contributions account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals that do not fall within the IRS safe harbor guidelines.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions or to pay administrative expenses of the Plan. Unallocated forfeitures totaled $0 and $160,402 at December 31, 2012 and 2011, respectively.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company and Mercer Trust Company or their affiliates at December 31, 2012 and 2011, respectively. Fidelity Management Trust Company and Mercer Trust Company are the trustees of the Plan as of December 31, 2012 and 2011, respectively; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets.

All other investments are valued based on quoted market prices. See Note 4 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Contributions - Contributions are recorded in the period that payroll deductions are made from participants.

Benefit Payments - Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 13, 2013, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

In 2012, the Plan changed its trustee, from Mercer Trust Company to Fidelity Management Trust Company (collectively, the "Trustees"). The Trustees of the Plan held the Plan's investments and participant notes receivable and executed all related transactions during the periods under audit. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustees.

Investments that exceed 5 percent of end of year net assets are as follows:

	2012	2011
Mutual funds:		
Artisan Mid Cap Fund	$ 1,688,325	$ 1,809,713
Artisan Mid Cap Value Fund	1,807,190	1,710,495
Harbor Capital Appreciation Fund	3,020,288	2,955,267
T. Rowe Price Retirement 2020 Fund	2,851,602	2,101,365
Money market funds:		
Putnam Money Market Fund	-	5,404,716
Fidelity Retirement Money Market	4,625,523	-

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

(2) This class represents investments in actively managed common collective trust funds that invest in a variety of fixed-income investments which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. There were no unfunded commitments or redemption restrictions.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 6 - Termination of Plan

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the labor agreement and the Employee Retirement Income Security Act of 1974. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 7 - Plan Transfers

The Company sponsors the Severstal Dearborn, LLC Tax-Efficient Savings Plan for Hourly Employees which covers all hourly employees represented under the agreement between Severstal North America, Inc. and the International Union, United Automobile, Aerospace, and Agricultural Implement Workers of America (UAW).

During 2012, the Plan made net transfers of $1,624,281 to participants who transferred from the Plan to the Severstal Dearborn, LLC Tax-Efficient Savings Plan for Hourly Employees as a result of a collective bargaining agreement provision which moved all labworkers and firefighters from salaried to hourly status. In general, if a participant transfers between salaried and hourly status, the participant will maintain an account in each plan.
