Notes to Financial Statements

December 31, 2012 and 2011

(1) Description of Plan

The following description of the NRP-FL 401(k) Retirement Plan (formerly known as Casual Restaurant Concepts, Inc. 401(k) Profit Sharing Plan) (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan adopted January 1, 1996, that covers all employees, except hourly paid and highly compensated employees, who have reached the age of 18 with 3 consecutive months of employment with Casual Restaurant Concepts, Inc. prior to May 23, 2012 and Neighborhood Restaurant Partners Florida, LLC beginning on May 23, 2012 (collectively the "Employer"). The Plan is subject to the provisions of the Internal Revenue Code, the Employee Retirement Income Security Act of 1974 (ERISA), and the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA).

John Hancock Life Insurance Company (John Hancock), the custodian, is responsible for maintaining the investments of the Plan and reporting on the earnings and investments of the Plan.

On May 23, 2012, Casual Restaurant Concepts, Inc. was purchased by Neighborhood Restaurant Partners Florida, LLC and the Plan's name was changed to NRP-FL 401(k) Retirement Plan.

(b) Contributions

Participants may elect to contribute an amount not to exceed the maximum annual contribution limit allowed by the Internal Revenue Code (the Code). Employer matching contributions to the Plan are fixed. The employer matching contribution allocated to any eligible participant may not exceed 4% of included compensation and will apply to only 25% of the participant's applicable contributions. Compensation paid in the plan year after entry into the plan is eligible for employer matching contributions.

The Plan accepts rollovers and direct transfers from other tax-qualified plans.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution, the Employer contributions, rollover contributions from other qualified retirement plans, and allocations of Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

The Plan allows participants to direct their contributions to any investment option available to the Plan.

(1) Description of Plan - Continued

(d) Vesting

Participants are 100% vested in their own salary deferral and rollover contributions plus actual earnings thereon at all times. Vesting in the Employer match portion of their accounts plus actual earnings thereon is based on a six year graded vesting schedule. Participants become vested in Employer contributions in accordance with the following schedule:

Total Number of Years of Service	Vested Interest
After 1 year of service	0%
After 2 years of service	20%
After 3 years of service	40%
After 4 years of service	60%
After 5 years of service	80%
After 6 years of service	100%

Participants also become fully vested upon reaching their normal retirement date (age 65), death, or retirement due to disability.

(e) Forfeited Accounts

Terminated participants that are less than 100% vested in the Employer contribution portion of their account may forfeit the non-vested portion of their account. Participants that are not vested in any portion of the employer match are deemed to be cashed-out at the employee's date of termination. The forfeitures are allocated in the Plan year after the forfeiture occurs. Forfeitures of non-vested employer matching contributions are allocated as a reduction in the matching contributions. The Company utilized approximately $1,900 of non-vested employer matching contributions to reduce matching contributions for the year ended December 31, 2012. Unallocated forfeitures were approximately $1,100 and $4,600 at December 31, 2012 and 2011, respectively.

(f) Payment of Benefits

Benefits may be received when a participant retires, becomes disabled, terminates employment, or at time of death as defined in the Plan document. Benefit payments are made in the form of a lump sum distribution and are recorded when paid.

(g) Hardship Withdrawals

The Plan provides for hardship distributions in accordance with the Plan agreement.

(1) Description of Plan - Continued

(h) Termination of Plan

Although it has not expressed any intent to do so, the Employer has the right under the Plan agreement to terminate the plan subject to the provisions of ERISA. In the event of termination of the Plan, the participants will become 100% vested in their accounts.

(i) Participant Loans

The Plan does not allow participants to borrow from the Plan.

(j) Expenses

The expenses of administration of the Plan are either absorbed by the Company or paid out of Plan assets. Expenses include contract administration fees, third party administrator service fees, and redemption fees.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting and present the net assets available for benefits and changes in net assets available for benefits in accordance with accounting principles generally accepted in the United States of America.

(b) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management of the Plan to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of investment assets and liabilities. Accordingly, actual results may differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair values are based on quoted market prices at December 31, 2012 and 2011. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gain and losses on investments bought and sold as well as held during the year.

(2) Summary of Significant Accounting Policies - Continued

(d) Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities based upon participant requests. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(e) New Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued guidance which amends Accounting Standards Codification (ASC) 820. This guidance requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, it provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The guidance requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. Net assets available for benefits and changes in net assets available for benefits of Plan were not affected by the adoption of the new guidance.

(f) Unit Values

Individual participant accounts for the pooled separate accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

(3) Information Certified by Custodian (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock, the Plan's investment custodian, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Total investments, at fair value, as shown in the statements of net assets available for benefits;
- Total investment income together with related investment activity, as shown in the statement of changes in net assets available for benefits;
- The schedule of assets (held at end of year) as of December 31, 2012 included in the supplemental schedule.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in these financial statements and supplemental schedule.

(4) Investment Contracts with Insurance Company

Accounting Standards Codification Topic 962-325, *Plan Accounting – Defined Contribution Pension Plans*, defines the circumstances in which an investment contract is considered fully benefit responsive and provides certain reporting and disclosure requirements for fully benefit-responsive investment contracts in defined-contribution, health and welfare and pension plans. John Hancock has determined that their investment contracts, the guaranteed interest accounts, do not meet the criteria to be considered fully benefit-responsive.

The guaranteed interest accounts are credited with earnings on the underlying investments and are charged for Plan withdrawals and administrative expenses by John Hancock. The guaranteed interest rates in effect through December 2012 ranged from 0.15% to 1.30%. The average yield at December 31, 2012 and 2011 was 0.90% and 2.09%, respectively. The crediting interest rates in effect were 0.15% and 0.40% at December 31, 2012 and 0.75% and 1.30% at December 31, 2011.

(5) Investments

The following table provides details of investments that represent 5% or more of the Plan's net assets at December 31, 2012 and 2011:

	2012	2011
Pooled separate accounts:		
Short Term Federal	$ *	157,870

Lifestyle Growth	*	157,367
Lifestyle Conservative	202,550	*

* This investment did not represent 5% or more of the Plan's net assets.

Allocation of monies for various investment options is at the sole discretion of participants for their individual contributions.

(6) Fair Value Measurements

The Plan applies the provisions of Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"), in measuring fair value. ASC 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly;

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Pooled Separate Accounts

The pooled separate accounts are valued at quoted market prices in an exchange and active markets, which represent the net asset values of shares, held by the Plan at year end and are classified as Level 1 investments.

Guaranteed Interest Accounts

The guaranteed interest accounts are valued at the average interest rate set for each participant's account as determined by the contract as of the valuation date, which approximates fair value. These are classified as Level 2 inputs.

(6) Fair Value Measurements - Continued

(7) Transactions with Parties-In-Interest

During the year ended December 31, 2012 there were transactions involving the investment of Plan assets in pooled separate accounts and guaranteed interest accounts maintained by John Hancock. John Hancock is the custodian of the Plan. The Plan paid John Hancock $40,109 representing asset charges, statement fees and transactions fees. These transactions qualify as party-in-interest transactions, as defined in Section 3(14) of ERISA; they are, however, expressly exempted from the prohibited transaction rules.

(8) Income Tax Status

The Plan obtained its latest determination letter on May 6, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to net income on Schedule H of Form 5500 for the year ended December 31, 2012:

Net increase in net assets available for benefits per the financial statements	$ 585,734
2012 Receivables not reported on Form 5500	(13,112)
Net income per Schedule H of Form 5500 - Line 2(k)	$ 572,622
