Report of Independent Certified Public Accountants

To the Plan Administrator of
TT Electronics 401(k) Retirement Plan:

Report on the financial statements

We were engaged to audit the financial statements of **TT Electronics 401(k) Retirement Plan** (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entities meet the requirements of 29 CFR 2520.103-8. The Plan administrator obtained certifications from these entities as of December 31, 2012 and 2011, and for the year ended December 31, 2012, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified information described in Note 5, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to financial statements

1 Description of the Plan

The following description of the TT Electronics 401(k) Retirement Plan (the Plan or Parent Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of the following operating entities: TT Group Industries, Inc., MMG NA, IRC, Inc., IRC, LP, AB Automotive, Inc., Shallcross, Inc., AEI Cable, Inc., BAS Components, Inc., BI Technologies Corporation (effective December 27, 2012) and Optek Technology, Inc. (effective December 28, 2012) (collectively, the Company or Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Prudential Bank & Trust, F.S.B. was the Plan trustee, and its affiliate, Prudential Retirement Insurance and Annuity Company (collectively, Prudential), served as the Plan custodian of certain investments through December 26, 2012. Prudential Retirement served as the Plan's recordkeeper through December 26, 2012. Effective December 27, 2012, Nationwide Financial Services, Inc., including its subsidiary Nationwide Trust Company, FSB, a division of Nationwide Bank (collectively, Nationwide), became the Plan trustee and recordkeeper. National Benefit Services, LLC serves as the Plan's third-party administrator. The Company's Investment Committee provides oversight to the Plan.

Plan Amendments and Mergers

Effective December 27, 2012, the Company approved a corporate resolution to merge the BI Technologies Corporation 401(k) Retirement Plan (the BI Technologies Plan) with and into the Parent Plan and eligible employees of BI Technologies Corporation became eligible to participate in the Parent Plan. Furthermore, effective December 27, 2012, all participants in the BI Technologies Plan became active participants in the Parent Plan. All of the assets of the BI Technologies Plan were transferred into the Parent Plan on December 27, 2012 and included $13,344 in interest-bearing cash, $256,820 in common stocks, $8,379,742 in pooled separate accounts, $9,133,612 in guaranteed income funds and $272,814 in notes receivable from participants. Additionally, all participant accounts of individuals who were employed by BI Technologies Corporation as of December 27, 2012 shall vest according to the vesting schedule outlined in the Parent Plan agreement.

Effective December 28, 2012, the Company approved a corporate resolution to merge the Optek Technology 401(k) Savings Plan (the Optek Plan) with and into the Parent Plan and eligible employees of Optek Technology, Inc. became eligible to participate in the Parent Plan. Furthermore, effective December 28, 2012, all participants in the Optek Plan became active participants in the Parent Plan. All of the assets of the Optek Plan were transferred to the Parent Plan on December 28, 2012 and included $7,507,022 in noninterest-bearing cash and $279,518 in notes receivable from participants. The assets included in noninterest bearing cash at December 31, 2012 were subsequently allocated to the Parent Plan's investments in January 2013. Additionally, all participant accounts of individuals who were employed by the Optek Technology, Inc. as of December 28, 2012 shall vest according to the vesting schedule outlined in the Parent Plan agreement.

Eligibility

Employees who are not covered by a collective bargaining agreement can participate in the Plan immediately upon hiring.

Employees who are covered by collective bargaining agreements can participate in the Plan in accordance with their respective collective bargaining agreements.

Contributions

Employees may make pre-tax and/or Roth 401(k) contributions to the Plan; however, contributions are limited to the lesser of 100% of the employee's gross wages or the maximum amount allowable by law.

For employees who are not covered by the terms of a collective bargaining agreement, the Company matches 100% of the employee's contributions up to a maximum of 3% of each employee's gross wages. For employees who are covered by the terms of a collective bargaining agreement, the Company contributes an amount using a formula which reflects the employee's length of service as determined in the respective agreement. During 2012, the Company contributed $.05 cents per hour for eligible employees with a length of service of 1-4 years, $.28 cents per hour for eligible employees with a length of service of 5-9 years, $.32 cents per hour for eligible employees with a length of service of 10-19 years, $.33 cents per hour for eligible employees with a length of service of 20-24 years, and $.38 cents per hour for eligible employees with a length of service of 25+ years.

At the discretion of the Company's Board of Directors, the Company may also make additional contributions for a plan year. An employee's share of this contribution is determined using a formula which reflects the employee's length of service and compensation. No such additional contributions were made for the 2012 plan year.

Rollover Provision

The Plan allows participants to "roll over" assets from other qualified savings plans into the Plan.

Vesting

Participants are immediately and fully vested in their contributions plus actual earnings thereon. Participants who are not covered by the terms of a collective bargaining agreement are immediately and fully vested in company matching contributions plus actual earnings thereon. Participants who are covered by certain collective bargaining agreements become fully vested in company contributions after five years of service based on the following table:

Years of Service	Vested Percentage
Less than 2	0%
2	40%
3	60%
4	80%
5 or more	100%

Notes Receivable from Participants

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Participants may have no more than two loans currently outstanding from the Plan. The loans are secured by the balance in the participant's account. Loan terms for all loans other than for principal residence range from 1-5 years. Principal residence loan terms range from 1-15 years. The loans bear interest at rates that are commensurate with local prevailing rates at the date of issuance, as determined quarterly by the Plan Administrator. As of December 31, 2012, interest rates ranged from 3.50% to 9.25% on all outstanding loans. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Participants are entitled to withdraw all or a portion of their vested account balances upon termination of services due to death, permanent disability, retirement or for other reasons or any time thereafter. The Plan also provides that a participant may receive liquidation of all or part of his vested benefits in the event of extreme economic hardship, subject to approval by the Plan's 401(k) committee. In accordance with the Internal Revenue Code (IRC), benefits withdrawn prior to age 59½ may be subject to additional taxes.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue the contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Forfeitures

Account balances forfeited by prior plan participants may be used by the employer to reduce its contributions to the Plan. Forfeiture activity during 2012 is summarized as follows:

For the year ended December 31		2012
Forfeited nonvested accounts, beginning of year	$	2,885
Participant forfeitures		2,575
Investment earnings		71
Forfeitures used to reduce employer contributions		(5,531)
Transfers in from qualified plans		19,591
Forfeited nonvested accounts, end of year	**$**	**19,591**

Participant Accounts

Participant accounts may be invested in one or more of the investment funds available under the Plan at the direction of the participant. Each participant's account is credited with (a) participant's contributions, (b) an allocation of employer contributions and (c) an allocation of investment earnings, and is charged with (a) withdrawals, (b) an allocation of investment losses and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan Expenses

The Company pays substantially all expenses for the administration of the Plan, except for certain member-requested service expenses and expenses related to maintaining a Self-Directed Brokerage Account.

2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962, *Plan Accounting – Defined Contribution Pension Plans*, defined contribution plans should generally report investments at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2011, the Plan invested in one fund that was considered a fully benefit-responsive investment, the Prudential Retirement Insurance and Annuity Company Guaranteed Income Fund. No such fully benefit-responsive investments exist at December 31, 2012.

Cash

Cash consists of cash on deposit and available for trade with Nationwide.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment and Income Valuation

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for description of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes realized gains (losses) from the sale of investments and the change in unrealized gains and losses.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Benefit Payments

Benefits are recorded when paid.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Adoption of New Accounting Standard

In May 2011, FASB issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in US GAAP and IFRSs* (ASU 2011-04), which amends Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* (ASC 820). ASU 2011-04 also requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2 measurements. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance was effective for reporting periods beginning on or after December 15, 2011. The Plan's adoption of the accounting standard did not have a material impact on the statement of net assets available for benefits or statement of changes in net assets available for benefits. See Note 4 for additional disclosures for the Plan's Level 3 measurements.

Subsequent Events

Plan management has evaluated subsequent events through October 15, 2013, the date the financial statements were available to be issued.

Effective September 17, 2013, the Company approved a corporate resolution to merge the TT Electronics Integrated Manufacturing Services Retirement Savings Plan & Trust (TT Electronics Integrated Plan) with and into the Parent Plan and eligible employees of TT Electronics Integrated Manufacturing Services, Inc. became eligible to participate in the Parent Plan. Furthermore, effective October 1, 2013, all participants in the TT Electronics Integrated Plan became active participants in the Parent Plan. Plan assets of approximately $8.8 million were transferred into the Parent Plan from the TT Electronics Integrated Plan on September 17, 2013.

3 Investments

The following presents investments, at fair value, which represent 5% or more of the Plan's net assets. All investments are participant-directed.

December 31	2012	2011
Guaranteed income fund	**$ 20,053,431**	$ 10,951,869

Individually less than 5% of net assets	**-**	1,326,199
Total investments, at fair value	**$ 36,593,896**	$ 21,741,007

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

For the year ended December 31	2012
Pooled separate accounts	**$ 855,086**
Mutual funds	**429,821**
Self-directed brokerage accounts	**144,230**
Total net appreciation in fair value of investments	**$ 1,429,137**

4 Fair Value Measurement

FASB ASC 820 provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: valued at the net asset value per unit using quoted market prices of the underlying assets.

Guaranteed income funds: valued by discounting the related cash flows based on current yields of similar instruments with comparable durations. Contract value of the guaranteed investment contract represents contributions made to the account, plus earnings, less participant withdrawals.

Mutual funds: valued at the net asset value of shares held by the Plan at year-end.

Self-directed brokerage accounts: the brokerage accounts are comprised of common stocks, mutual funds and partnership investments. Common stocks are valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds are valued at the net asset value of shares held by the Plan at year-end. Investments in partnerships are valued at appraised values at the end of the Plan year as reported by the partnerships' respective general partners and the trustee of the Plan.

The preceding methodologies described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

December 31, 2012	Level 1	Level 2	Level 3	Total
Investments, at fair value:				
Guaranteed income fund	$ -	$ -	$ 20,053,431	$ 20,053,431
Pooled separate accounts:				
Specialty	-	3,403,352	-	3,403,352

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of Levels 1, 2 or 3.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of the financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2012 and for the year then ended.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Fixed Insurance Contract	$20,053,431	Market Value Adjustment	Market Value Adjustment Rate	0.00%
			Contingent Deferred Sales Charge	0.00%
			Maturity Date	N/A - the contract's provisions do not provide for a distribuions at book value at some specified future date
			Crediting Rate	3.45%

5 Certified Financial Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential has certified that the following information in the accompanying financial statements is complete and accurate:

- All investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2011.
- Investment earnings of $1,610,835 and interest income on notes receivable from participants of $34,718, included in the statement of changes in net assets available for benefits for the year ended December 31, 2012.

Additionally, Nationwide has certified that the following information in the accompanying financial statements and supplemental schedule is complete and accurate:

- All investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2012.
- Investment earnings of $ 116,945 included in the statement of changes in net assets available for benefits for the year ended December 31, 2012.
- Supplemental schedule of assets (held at end of year) as of December 31, 2012.

6 Tax Status of the Plan

On March 31, 2008, the Internal Revenue Service (IRS) stated that the prototype document adopted by the Plan, as then designed, qualifies under IRC Section 401(a), and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax exempt.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012 and 2011, and for the year ended December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.

7 Related-party Transactions

Certain plan investments are units of pooled separate accounts and a money market fund as well as interest in a guaranteed income fund managed by Prudential, Nationwide, and/or an affiliate, during 2012. Prudential and Nationwide are the Plan trustees/custodians, and, therefore, these transactions qualify as party-in-interest.

8 Investment Contract with Insurance Company

The Plan invests in a fixed insurance contract issued by Nationwide Life Insurance Company (Nationwide Insurance) at December 31, 2012. The contract does not restrict participant-directed exchanges and is therefore included in the statement of net assets available for benefits as of December 31, 2012 at fair value, which approximates contract value, as reported to the Plan by Nationwide Insurance. The contract's net rate, crediting rate and average yield earned at December 31, 2012 is 3.45%. The contract does not have an established maturity date. Additionally, a contract holder may request a lump sum distribution with a market value adjustment, or an installment payout, at contract value over a period of years. The contract will continue in force until all assets have been distributed, or no further payments are due. See Note 4 for further disclosures pertaining to this investment contract.

The Plan held a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (Prudential Insurance) through December 26, 2012. Prudential Insurance maintained the contributions in a general account. The contract was included in the statement of net assets available for benefits as of December 31, 2011 at fair value, which approximated contract value, as reported to the Plan by Prudential Insurance. Contract value represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may have ordinarily directed the withdrawal or transfer of all or a portion of their investment at contract value. The concept of a value other than contract value does not apply to this insurance company issued general account backed evergreen (no maturity date) group annuity spread product even upon a discontinuance of the contract in which case contract value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. This contract's operation is different than many other evergreen group annuity products in the market by virtue of the fact that a fair value adjustment does not apply upon discontinuance. There are not any specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a fair value. The Plan owns a promise to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional guaranteed insurance contract and therefore there are not any known cash flows that could be discounted. As a result, the fair value amount shown is equal to the contract value.

There were no reserves against contract value for credit risk on the contract issuer or otherwise at December 31, 2011. The average yield and crediting interest rate was approximately 2.75% at December 31, 2011. The crediting interest rate was based on a formula agreed upon with the issuer, but may not have been less than 1.50%. Interest crediting rates are reviewed on a semi-annual basis for resetting.
