NOTE A - DESCRIPTION OF THE PLAN

The following description of ALPHA MECHANICAL PENSION PLAN & TRUST ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan, which was established in January 2000, is a defined contribution plan covering all eligible employees of Alpha Mechanical, Inc. and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the provisions of Internal Revenue Code Section 401(k). The Plan's trustee is Boris Barshak, President and principal shareholder of the Alpha Mechanical, Inc. The Plan is administered by Pension Benefits Unlimited, Inc. (Third Party Administrator). The Plan assets (investments in registered investment companies and in pooled separate accounts) are held by Lincoln National Life (Custodian).

Participation and Contributions: Deferral Participants: All regular, full time employees of the Company are eligible to participate in the Plan who attained age 21 after completing 6 months of service. Participation in the Plan commences on the first entry date (first day of month following satisfaction of eligibility requirements) following an employee's election to participate in the Plan. Participants may elect to make voluntary contributions up to 15% of their annual compensation (the total contribution not to exceed $17,000 for 2012, before catch up provisions (allowing up to $5,500 for 2012) and subject to nondiscrimination requirements) and aggregate contributions including profit sharing contributions of $50,000 before catch-up provisions. A participant may revoke a deferral election at any time. Modification of a deferral election will become effective as soon as administratively feasible.

Prevailing Wage Participants: All non-highly-compensated and non-key employees who perform services subject to the Service Contract Act, Davis-Bacon Act or similar federal, state or municipal prevailing wage statutes are eligible to receive a prevailing wage contribution. There is no age or service requirement. Such prevailing wage participants are eligible to participate in the Plan immediately upon commencing work on a prevailing wage job. The prevailing wage contribution is based on the hourly contribution rate for the employee's employment classification, as designed on the prevailing wage schedule for each prevailing wage job. Additionally, such prevailing wage participants may participate in the 401(k) salary deferral portion of the Plan with no minimum wage or service requirements.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at (WSJ prime plus 1% at the time of loan approval or modification of amount) 4.25%. Such rates are determined at the date of each loan and are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

NOTE A - DESCRIPTION OF THE PLAN, continued

Participant Accounts: Separate accounts are maintained within the Plan for each participant. These accounts are credited with different types of contributions as follows:

a. Elective Salary Deferral - this account is credited with the participant's salary deferral contributions, plus or minus any earnings and losses and reduced by any distributions;

b. Employer Non-Discretionary Contributions – this account is credited with qualifying non-elective contributions received from the employer in connection with benefits paid for work on prevailing wage jobs.

c. Employer Match - this account is credited with any matching contributions made in accordance with the rules of the Plan, plus or minus any earnings and losses and reduced by any distributions; and

d. Rollover - this account is credited with any rollover contributions the participant made to the Plan, plus or minus any earnings and losses and reduced by any distributions.

e. Discretionary Company Contributions – this account is credited with contributions made by the sponsor subject to meeting qualifying tests at the Plan level. These contributions are also subject to the vesting schedule.

Participant Deferrals: Under item a above, subject to eligibility, employees are able to defer portions of their salary in which they are fully vested. Deferrals are remitted to the plan shortly after the payroll date.

Employer Contributions: Discretionary Employer contributions to the Plan are allowed as in items c and e above. No employer matching contributions (item c) were made in 2012. Profit Sharing contributions (item e) are made at the discretion of the Company Prevailing wage (employer non-discretionary) contributions are made with regards to benefits on prevailing wage jobs. Such employer contributions are deposited to the Plan within 8-1/2 months following the Sponsor's fiscal year end.

Vesting: Participants are fully vested in prevailing wage contributions, salary deferral contributions and rollover accounts plus actual earnings on each. Participants are 25% vested for each year of credited service in the employer matching contribution portion of their account (if any) as well as any discretionary company contributions including actual earnings or losses thereon beginning their second year (and fully vested at the end of their fifth year).

Forfeitures: Forfeited balances of terminated participant's non-vested employer matching contribution accounts may be used to reduce future employer matching contributions or to pay for plan expenses. At December 31, 2012 and 2011, forfeited nonvested accounts totaled $877 and $0, respectively.

NOTE A - DESCRIPTION OF THE PLAN, continued

Payment of Benefits: Upon termination of service, a participant whose account balance is $5,000 or more may:

a. Elect to receive a lump sum amount equal to the value of his or her salary deferral account and vested employer matching contribution accounts; or

b. Elect to leave such funds on deposit in the Plan until the first day of April following the calendar year in which the participant reaches age 70-1/2.

An account balance of less than $5,000 may be distributed in a lump sum to the participant within a reasonable period of time upon termination of service without the consent of the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts at the time of distribution.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan maintains its books and financial records using the modified cash basis of accounting. Under this method, contributions and revenues are recognized when received, rather than when earned, and expenses and excess contributions are recorded when paid, rather than when incurred. Additionally, under this method, investments are reflected at their estimated fair value. See also note I regarding amounts receivable by the Plan, not remitted at December 31, 2012.

Investment contracts held by a defined-contribution plan are required to be reported at fair market value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes Receivable from Participants: Notes receivable from participants historically been classified as investments and measured at fair value in a plan's Statement of Net Assets Available for Benefits. In September 2010, the Financial Accounting Standards Board issued ASU No. 2010-25 Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans. ASU No. 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. As the financials are prepared on the modified-cash basis of accounting, only the unpaid balance is reflected in the accompanying financials.

Interest is recorded as a component of payments received. Loans are not placed on non-accrual status inasmuch as shortly after payments are ceased due to termination of employment, either a distribution is requested by the participant or a default is declared by the administrator resulting in the application of the loan balance as a distribution.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Use of Estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements as well as the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Distributions to Participants: Distributions to participants reduce net assets when paid.

Re-deposit of Un-cashed Distribution Payments: Un-cashed (stale) distribution checks are re-deposited into the Plan at which time total Plan assets are increased.

Operating Expenses: All expenses of maintaining the Plan are paid by the Plan and allocated to the individual participants. The expenses include $38,513 of fees to the custodian including asset, transaction and servicing fees.

Administrative Expenses: The administrative expenses of the Plan are charged to the participant accounts inside the Plan. Certain administrative costs are incurred by the Plan Sponsor and are later reimbursed by the Plan with such costs being allocated to participant accounts.

Concentrations: Periodically, the Plan has large balances on hand with its custodian in excess insured amounts. Additionally, substantially all of the investments of the plan are held by a single custodian. These concentrations have been considered by the Plan trustees and determined to be reasonable and without undue risk.

Additionally, all notes receivable from participants are due from persons who are employed by the Plan Sponsor.

NOTE C – FAIR VALUE MEASUREMENTS

NOTE C – FAIR VALUE MEASUREMENTS, continued

Generally accepted accounting principles establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. None of the investments were valued using market quotes for identical assets. Level 2 inputs were available and used for the accounts managed by Lincoln, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Other Observable Inputs as to Fair Value - The fair value of managed separate accounts is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements - The guaranteed investment contract with an insurance company and notes receivable from participants are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. The following table provides further details of the Level 3 fair value measurements.

	2012	2011

NOTE D - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a benefit-responsive investment contract with the Lincoln National Life Insurance Company (Lincoln). Lincoln maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Lincoln, as the guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value, as reported to the Plan by Lincoln, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal of a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 4% before expenses.

Certain events limit the Plan's ability to transact at contract value with Lincoln. Such events include the following: (a) a non-bona fide distribution such as a contract or plan termination, (b) an in-service withdrawal under age 59-1/2. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable. Additionally, market value adjustments, which are applied when more than 20% of an account is withdrawn for any reason (including death or disability, could limit the ability of the Plan to initiate/complete a transaction at contract value.

	2012
The approximate rates are as follows:	
Average gross rate based on actual earnings	3.11%
Average gross rate credited to participants	3.11%

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date without default from the investor.

NOTE E – PARTY-IN-INTEREST TRANSACTIONS

Certain investments of the Plan are shares of mutual funds managed by an affiliate of the Custodian. A $2,000 fee was paid to the Sponsor as reimbursement for estimated costs of internal staff services performed for the Plan. Such internal staff replaced contract personnel used in prior years which costs were charged to the Plan. The Company believes that such fees are reasonable and fair. The Custodian and the Sponsor are each a party-in-interest to the Plan; however, such transactions are permitted under ERISA.

The administrative expenses include $38,513 of fees to the custodian (a party-in-interest) including asset, transaction and servicing fees.

NOTE F – INVESTMENTS

Investments representing 5% or more of Plan Assets at December 31, 2012, with comparative balances in those investments in 2011:

	December 31, 2012	2011
Fed Gov Ultrashort Dur	$ 967,135	$ 1,712,237
Guranteed account	$ 313,371	$ 543,355
Franklin High Income Fund	$ 150,605	$ 45,404

Note: All investments are participant directed.
Unallocated balances aggregate $1,218

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $102,635 entirely in mutual funds.

NOTE G – SUMMARY OF INFORMATION CERTIFIED BY THE CUSTODIAN

The following is a summary of the Plan's financial information and data certified by the custodian for the year ended December 31, 2012 and 2011:

	2012	2011
Assets		
Investments at fair value	$ 2,173,712	$ 3,116,062
Investment Income		
Net realized and unrealized appreciation in fair value of investments	$ 118,576	$ 17,569

NOTE H – TAX STATUS

A favorable determination letter was received in 2008 on the volume submitter plan on which the Plan is based and currently operating.

The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

NOTE I – RECONCILIATION TO FORM 5500

The financial statements are reconciled to Form 5500 as follows:

	Per Financial Statements	Per Form 5500	Differences
Net Assets at December 31, 2011	$ 3,439,825	3,751,449	(311,624)
Total contributions	$ 694,556	596,992	97,564
Net Assets at December 31, 2012	$ 2,345,777	2,558,185	(212,408)

Form 5500 is prepared on the accrual basis, while the financial statements are prepared on the modified-cash basis. The difference in net assets at December 31, 2011 results from the accrual of unremitted contributions ($311,624), which were collected by the plan in 2012. Total accrued contributions at the end of 2012 aggregated $212,408. The net impact on employer contributions for 2012 approximates the difference between the two accrued amounts.

NOTE J – RISKS AND UNCERTAINTIES

The Plan invests in various investments securities all of which are fully participant-directed. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE K – PLAN TERMINATION

The Company anticipates that the Plan will continue without interruption but reserves the right to amend or discontinue the Plan at any time subject to the provisions of ERISA. In the event of termination of the Plan, the account of each participant shall be fully vested.

NOTE M – SUBSEQUENT EVENTS

In 2013, the Sponsor commenced a 50% match on the first 3% of employee deferrals into the 401(k) portion of the plan. These employer match amounts are subject to the Plan's vesting schedule.

In October 2013, the Plan remitted $51 representing remedies for untimely submission of employee deferrals and loan payments for 2012. A form 5330 will be filed before the end of 2013.

NOTE N – DATE OF MANAGEMENT'S REVIEW

Management has evaluated subsequent events through October 15, 2013, the date the financial statements were available to be issued.
