INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Bauer's Intelligent Transportation, Inc. 401(k) Plan

We were engaged to audit the financial statements of Bauer's Intelligent Transportation, Inc. 401(k) (the "Plan") as of December 31, 2011 and 2010, and the supplemental schedules as of and for the year ended December 31, 2011, as listed in the table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note G, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplement schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the 2011 and 2010 financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with generally accepted auditing standards in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - PLAN DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following description of Bauer's Intelligent Transportation, Inc. 401(k) Plan (the Plan) is provided for general information only. Reference should be made to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution Plan sponsored by Bauer's Intelligent Transportation, Inc. (the "Plan Sponsor"), and is covering substantially all non-union employees who have completed at least three months of service during the Plan year and are age 21 or older. A participant who makes a deferral contribution during the Plan year shall only be entitled to receive matching employer contributions if the participant is employed by the employer on the last day of the Plan year and earns at least 501 hours of service during the Plan year. A participant will only be entitled to receive additional employer contributions if the participant is employed by the Plan sponsor at the last day of the year and earns at least 1,000 hours of service during the year. The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA), and was amended to comply with subsequent legislation. The Plan was established in 2008 and had amendments as of the date of this report.

Contributions - Participants may elect to make a contribution into the Plan of up to the lesser of 90% of eligible compensation or $16,500 in 2011 and 2010. In accordance with the Code, all participants who have reached the age of 50 are eligible to make an additional contribution of $5,500 for 2011 and 2010. Participants direct the investment of their contributions and employer matching contributions into various investment options offered by the Plan. Bauer's Intelligent Transportation, Inc. (the Plan's sponsor) makes matching additional employer contributions to the Plan, at the discretion of the Board of Directors. For the years ended December 31, 2011 and 2010, the Company made matching contributions of 3% of eligible wages. Effective January 1, 2012, the Plan Sponsor amended the Plan and elected to make safe harbor matching contributions to all participants in an amount equal to 100% of the first 3% of employees eligible compensation, and 50% of the next 2% of employees eligible compensation.

Participants' accounts and vesting - Employer's additional contributions are allocated to each eligible participant account based upon the participant's compensation received during the year to total compensation. Forfeiture is determined at the distribution of the entire vested portion of a participant's account. Forfeitures are used to reduce the Company's matching contribution. Earnings are allocated based upon the participant's account balance at the end of the preceding year adjusted for withdrawals during the year. For the years ended December 31, 2011 and 2010, forfeitures applied against the matching contributions were $2,110 and $0, respectively.

NOTE A - PLAN DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Participants' accounts and vesting (continued)

Participants' account balances attributable to employer matching and additional employer contributions vest at the rate of 20% per year after two years of service, and are fully vested at the earliest of six years of service, normal retirement (which is age sixty-five), or termination due to disability or death. Effective January 1, 2012, participants will be 100% vested in the safe harbor matching contributions. The vesting for nonelective employer contributions and matching employer contributions will occur at the rate of 25% per year after first year of service, with employer contributions fully vested at four years of service.

Distributions - Payments of benefits of a participant's account balance are made upon retirement or at age 65. In-service withdrawals are permitted at age 59 ½. Payments may be made in a lump-sum amount. The amount of the benefit is equal to the vested amount in the participants account. Benefits are recorded when paid.

Participant loans - Participants loans are permitted up to $1,000 and may have only one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at various rates, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through monthly payroll deductions. For the years ended December 31, 2011 and 2010, there were no outstanding loans.

Basis of accounting - The Plan prepares its financial statements on the accrual basis of accounting.

Use of estimates in preparing financial statements - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets available for benefits and changes therein. Actual results could differ from those estimates.

Investments - Mutual funds are stated at fair value based on quoted market prices. The related unrealized appreciation or depreciation of investments is recorded in the statements of changes in net assets available for benefits. Investment transactions are recorded on a trade-date basis. Unrealized gain and loss is determined based on the fair value of assets at the end of the Plan year. Interest income is recorded on the accrual basis.

NOTE A - PLAN DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments (continued) - The Plan invests in various investment securities, which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility.

Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of assets available for Plan benefits. There is significant evaluation by Congress and other agencies of regulatory and accounting issues surrounding employee benefit Plans. It is possible future changes in regulations may have a significant effect on the Plan operations and/or investments.

Expenses - All reasonable expenses necessary to operate and administer the Plan are shared by the Company and the Plan.

Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all expenses of the Trust will be paid, and participants' accounts will be revalued and become fully vested.

Subsequent events - Management has evaluated events and transaction for potential recognition or disclosure through June 11, 2012, which represents the date the financial statements were available to be issued.

NOTE B - FAIR VALUE MEASUREMENTS

At December 31, 2011 and 2010, the Plan's investments are reported at fair value in the accompanying statement of assets available for benefit, as follows:

Level 1:	2011	2010
Mutual funds	$ 104,341	$ 61,058
Money market fund	14,455	9,703
	$ 118,796	$ 70,761

NOTE B - FAIR VALUE MEASUREMENTS (continued)

The three-level hierarchy for fair value measurement is defined as follows:

Level 1 - Inputs to the valuation methodology are quoted prices in active markets for identical assets that the Plan has the ability to access at the measurement date.

Level 2 - Inputs to the valuation methodology are inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly. Fair value can be determined through the use of models or other valuation methodologies.

Level 3 - Inputs to the valuation methodology are unobservable inputs for the asset. Unobservable inputs are those that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset developed, based on the best information available.

At December 31, 2011 and 2010, the following is a description of the valuation methodologies used by the Plan for assets measured at fair value:

Level 1 Fair Value Measurements - The fair value of mutual funds is based on quoted net asset value ("NAV") of the shares held by the Plan at year-end. The fair value of common stock, corporate bonds and US government securities is based on the closing price reported on the active market on which the individual securities are traded.

As of December 31, 2011 and 2010, there were no level 2 and 3 inputs.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE C - INVESTMENTS

As of December 31, 2011 and 2010, the Plan's investments, as certified to be complete and accurate by the trustee, consist of the following. Investments that represent 5% or more of the Plan's assets are separately identified.

	2011	2010
Fidelity	$ 20,245	$ 13,881
Fidelity Value	6,728	4,863
Fidelity Government Income	3,411	8,195
Fidelity International Discovery	6,595	5,158
Fidelity Retirement Money Market	14,455	9,703
Fidelity Freedom 2040	18,885	15,757
PIMCO Total Return Admin	5,029	4,452
Columbia Small Cap Value II Z	7,029	4,887
Allianz NFJ Dividend Value Admi	12,992	-
Other Mutual Funds	23,427	3,865
Investments at quoted market price	$ 118,796	$ 70,761

NOTE D - EXCESS CONTRIBUTIONS REFUNDABLE

The excess contributions refundable, employee and employer, reflects the amounts refundable by the Plan to participants and the Plan sponsor, respectively, for contributions made in excess of the amounts allowed by the Internal Revenue Service.

NOTE E - RELATED PARTY

The Plan invests in mutual funds sponsored by the Plan’s trustee, Fidelity Investments, and therefore, these transactions qualify as party-in-interest transactions. Administrative fees related to the administration of the Plan are paid by the Plan. Other administrative fees are paid by the Plan sponsor on behalf of the Plan.

NOTE F - INCOME TAX STATUS

The Internal Revenue Service has ruled in its determination letter dated March 31, 2008, that the Plan qualified under Section 401(a) of the Internal Revenue Code, and, therefore, is not subject to tax under present income tax law. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE G - INFORMATION CERTIFIED BY TRUSTEE

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that was prepared by or derived from information prepared by Fidelity Management Trust Company, the trustee of the Plan, and furnished by the Plan administrator. The Plan administrator has obtained certifications from the trustees that such information is complete and accurate as of December 31, 2011 and 2010 and for the years then ended:

1. Statements of Assets Available for Benefits - Investments
2. Statements of Changes in Assets Available for Benefits - Investment Income
3. Note C - Investments
4. Supplemental Schedule - Schedule of Assets Held for Investment at End of Year.

NOTE H - LATE REMITTANCES OF PARTICIPANT CONTRIBUTIONS

During the year ended December 31, 2011, total participant contributions in the amount of $8,567 were deposited later than reasonably possible. In June 2012, the Company corrected the delinquent contribution issue outside the Voluntary Fiduciary Correction Program ("VFCP"). Lost earnings on the delinquent contributions amounted to $22, and were remitted to the Plan in June 2012. Delinquent participant contributions are reported on the Form 5500, Schedule H, Part IV, Line 4i (refer to Supplemental Schedule of Delinquent Participant Contributions).

(the Plan's sponsor) makes matching additional employer contributions to the Plan, at the discretion of the Board of Directors. For the years ended December 31, 2011 and 2010, the Company made matching contributions of 3% of eligible wages. Effective January 1, 2012, the Plan Sponsor amended the Plan and elected to make safe harbor matching contributions to all participants in an amount equal to 100% of the first 3% of employees eligible compensation, and 50% of the next 2% of employees eligible compensation.

Participants' accounts and vesting - Employer's additional contributions are allocated to each eligible participant account based upon the participant's compensation received during the year to total compensation. Forfeiture is determined at the distribution of the entire vested portion of a participant's account. Forfeitures are used to reduce the Company's matching contribution. Earnings are allocated based upon the participant's account balance at the end of the preceding year adjusted for withdrawals during the year. For the years ended December 31, 2011 and 2010, forfeitures applied against the matching contributions were $2,110 and $0, respectively.

NOTE A - PLAN DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Participants' accounts and vesting (continued)

Participants' account balances attributable to employer matching and additional employer contributions vest at the rate of 20% per year after two years of service, and are fully vested at the earliest of six years of service, normal retirement (which is age sixty-five), or termination due to disability or death. Effective January 1, 2012, participants will be 100% vested in the safe harbor matching contributions. The vesting for nonelective employer contributions and matching employer contributions will occur at the rate of 25% per year after first year of service, with employer contributions fully vested at four years of service.

Distributions - Payments of benefits of a participant's account balance are made upon retirement or at age 65. In-service withdrawals are permitted at age 59 ½. Payments may be made in a lump-sum amount. The amount of the benefit is equal to the vested amount in the participants account. Benefits are recorded when paid.

Participant loans - Participants loans are permitted up to $1,000 and may have only one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at various rates, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through monthly payroll deductions. For the years ended December 31, 2011 and 2010, there were no outstanding loans.

Basis of accounting - The Plan prepares its financial statements on the accrual basis of accounting.

Use of estimates in preparing financial statements - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets available for benefits and changes therein. Actual results could differ from those estimates.

Investments - Mutual funds are stated at fair value based on quoted market prices. The related unrealized appreciation or depreciation of investments is recorded in the statements of changes in net assets available for benefits. Investment transactions are recorded on a trade-date basis. Unrealized gain and loss is determined based on the fair value of assets at the end of the Plan year. Interest income is recorded on the accrual basis.

NOTE A - PLAN DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments (continued) - The Plan invests in various investment securities, which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility.

Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of assets available for Plan benefits. There is significant evaluation by Congress and other agencies of regulatory and accounting issues surrounding employee benefit Plans. It is possible future changes in regulations may have a significant effect on the Plan operations and/or investments.

Expenses - All reasonable expenses necessary to operate and administer the Plan are shared by the Company and the Plan.

Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all expenses of the Trust will be paid, and participants' accounts will be revalued and become fully vested.

Subsequent events - Management has evaluated events and transaction for potential recognition or disclosure through June 11, 2012, which represents the date the financial statements were available to be issued.

NOTE B - FAIR VALUE MEASUREMENTS

At December 31, 2011 and 2010, the Plan's investments are reported at fair value in the accompanying statement of assets available for benefit, as follows:

Level 1:	2011	2010
Mutual funds	$ 104,341	$ 61,058
Money market fund	14,455	9,703
	$ 118,796	$ 70,761

NOTE B - FAIR VALUE MEASUREMENTS (continued)

The three-level hierarchy for fair value measurement is defined as follows:

Level 1 - Inputs to the valuation methodology are quoted prices in active markets for identical assets that the Plan has the ability to access at the measurement date.

Level 2 - Inputs to the valuation methodology are inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly. Fair value can be determined through the use of models or other valuation methodologies.

Level 3 - Inputs to the valuation methodology are unobservable inputs for the asset. Unobservable inputs are those that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset developed, based on the best information available.

At December 31, 2011 and 2010, the following is a description of the valuation methodologies used by the Plan for assets measured at fair value:

Level 1 Fair Value Measurements - The fair value of mutual funds is based on quoted net asset value ("NAV") of the shares held by the Plan at year-end. The fair value of common stock, corporate bonds and US government securities is based on the closing price reported on the active market on which the individual securities are traded.

As of December 31, 2011 and 2010, there were no level 2 and 3 inputs.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE C - INVESTMENTS

As of December 31, 2011 and 2010, the Plan's investments, as certified to be complete and accurate by the trustee, consist of the following. Investments that represent 5% or more of the Plan's assets are separately identified.

	2011	2010
Fidelity	$ 20,245	$ 13,881
Fidelity Value	6,728	4,863
Fidelity Government Income	3,411	8,195
Fidelity International Discovery	6,595	5,158
Fidelity Retirement Money Market	14,455	9,703
Fidelity Freedom 2040	18,885	15,757
PIMCO Total Return Admin	5,029	4,452
Columbia Small Cap Value II Z	7,029	4,887
Allianz NFJ Dividend Value Admi	12,992	-
Other Mutual Funds	23,427	3,865
Investments at quoted market price	$ 118,796	$ 70,761

NOTE D - EXCESS CONTRIBUTIONS REFUNDABLE

The excess contributions refundable, employee and employer, reflects the amounts refundable by the Plan to participants and the Plan sponsor, respectively, for contributions made in excess of the amounts allowed by the Internal Revenue Service.

NOTE E - RELATED PARTY

The Plan invests in mutual funds sponsored by the Plan’s trustee, Fidelity Investments, and therefore, these transactions qualify as party-in-interest transactions. Administrative fees related to the administration of the Plan are paid by the Plan. Other administrative fees are paid by the Plan sponsor on behalf of the Plan.

NOTE F - INCOME TAX STATUS

The Internal Revenue Service has ruled in its determination letter dated March 31, 2008, that the Plan qualified under Section 401(a) of the Internal Revenue Code, and, therefore, is not subject to tax under present income tax law. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE G - INFORMATION CERTIFIED BY TRUSTEE

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that was prepared by or derived from information prepared by Fidelity Management Trust Company, the trustee of the Plan, and furnished by the Plan administrator. The Plan administrator has obtained certifications from the trustees that such information is complete and accurate as of December 31, 2011 and 2010 and for the years then ended:

1. Statements of Assets Available for Benefits - Investments
2. Statements of Changes in Assets Available for Benefits - Investment Income
3. Note C - Investments
4. Supplemental Schedule - Schedule of Assets Held for Investment at End of Year.

NOTE H - LATE REMITTANCES OF PARTICIPANT CONTRIBUTIONS

During the year ended December 31, 2011, total participant contributions in the amount of $8,567 were deposited later than reasonably possible. In June 2012, the Company corrected the delinquent contribution issue outside the Voluntary Fiduciary Correction Program ("VFCP"). Lost earnings on the delinquent contributions amounted to $22, and were remitted to the Plan in June 2012. Delinquent participant contributions are reported on the Form 5500, Schedule H, Part IV, Line 4i (refer to Supplemental Schedule of Delinquent Participant Contributions).
