Each year, participants may contribute a percentage of pretax annual compensation, as defined by the plan, up to limits specified by the Internal Revenue Service.
The company matches 25% of employee contributions up to 4% of compensation.

Each participant's account is credited with the participant's allocation of (A) the employee's 401(k) deferral, (B) the companies' 401(k) matching contribution, (C) the companies' discretionary profit sharing contribution, and (D) plan earnings and losses.

Vesting

Vesting is based upon years of service. A participant is 100% vested in employer contributions after 6 years of credited service, or upon early or normal retirement age. Employee contributions are 100% vested.

Note 1 - Description of the Plan (continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their nonforfeitable account balance and are restricted to certain uses. The loans are secured by the nonforfeitable amount of the participant's account. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service, a participant will receive a lump sum amount equal to the participant's vested value of his account.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $108,805 and $87,194, respectively. These accounts will be used to reduce future employer contributions. Forfeited funds of $152,330 and $9,530 were used to reduce employer contributions at December 31, 2012 and 2011, respectively.

Note 2 - Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through October 4, 2013 which is the date the financial statements were available to be issued. No events have occurred which would have a material effect on the financial statements of the Plan as of that date.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Notes Receivable from Participants

Loans to participants are reported at the unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Note 2 - Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the plan are paid by the company.

Note 3 - Fair Value Measurements

The plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature established a fair value hierarchy that prioritizes levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and valuation techniques based on the available inputs to measure the fair value. When available, the plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the plan. There were no transfers between input levels for the years ended December 31, 2012 and 2011.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the plan at year-end.

Note 3 - Fair Value Measurements (continued)

	Fair Value	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets (Level 1)
December 31, 2012		
Mutual funds	$ 17,057,501	$ 17,057,501

Note 4 - Investment Gains and Losses

During the 12 months ended December 31, 2012 and 2011, the plan's investments (including investments bought, sold, and held during the year) appreciated (depreciated) in value as determined by quoted market prices, in an active market, by $1,887,191 and ($535,888), respectively as follows:

Note 6 - Investment Contract with Insurance Company

In 1998, the plan entered into an investment contract with Manulife Financial Corporation. In April 2004, Manulife Financial Corporation acquired John Hancock Financial Services, Inc. As a result of this acquisition, the Manufacturers Life Insurance Company (Manulife USA) has changed to the John Hancock Life Insurance Company (USA) (John Hancock USA) name. John Hancock maintains the contributions in a pooled account. The account is credited with actual earnings on the underlying investments and charged for plan withdrawals and investment expenses charged by John Hancock. Contract assets are reported at fair value. The fair value of the investment contract at December 31, 2012 and 2011 was $17,381,031 and $14,402,648, respectively.

Note 7 - Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodian of the plan:

	2012	2011
Investments, at fair value	$17,057,501	$14,143,599
Investment income (loss)	$1,903,211	($519,005)

Note 8 - Related Party Transactions

Certain plan investments are shares of mutual funds managed by John Hancock Life Insurance Company (USA). John Hancock Life Insurance Company (USA) is the custodian as defined by the plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 9 - Plan Termination

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 10 - Tax Status

The plan obtained its latest opinion letter on March 8, 2008 in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the opinion letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

The plan is no longer subject to U.S. federal tax authorities for the years ended before December 31, 2010 and by the state of California for years ended before December 31, 2009.

Note 11 - Risks and Uncertainties

The trust provides for various investment options in any combination of stocks, bonds, fixed-income securities, mutual funds and other investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net available for benefits.
