SCHMIDBAUER LUMBER, INC. 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS (As Restated)
December 31, 2011

NOTE 1 – PLAN DESCRIPTION (AS RESTATED)

The following brief description of the Schmidbauer Lumber, Inc. 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information.

General Description

The Plan is a single-employer defined contribution plan covering substantially all employees of Schmidbauer Lumber, Inc., Schmidbauer Building Supply, LLC and Schmidbauer Power Company (the employers) who have completed 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The employers represent a controlled group under the Internal Revenue Code.

Contributions

Each year, at the discretion of the Board of Directors of the employers, a contribution may be made to the Trust Fund of the Plan. This contribution is allocated to all eligible participants based on participant compensation. Participants may elect to make pre-tax or Roth deferral contributions to the Plan up to limits determined by the Internal Revenue Service. The employer matches an amount equal to 100% of each participant's deferred contributions, not exceeding 4% of the participant's compensation. This funding requirement has been met. Eligible employees are allowed to make rollover contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and earnings and an allocation of the employer's contribution. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Elective deferrals made by participants and matching employer contributions are 100% vested at all times. Discretionary employer contributions become fully vested after three years of continuous service.

Forfeitures

Forfeitures result when employees terminate employment before account balances are fully vested. Forfeitures of profit sharing and matching contributions may be used to offset profit sharing and matching contributions, at the discretion of the employer, in the Plan year following the Plan year in which the forfeiture occurs. During 2011, forfeitures totaled $12,758. At December 31, 2011 and 2010, forfeited non-vested accounts totaled $18,587 and $7,657, respectively. The year 2011 employer contribution of $207,131 was partially funded by $1,763 of forfeitures.

Benefits

Upon retirement, termination of employment, death or disability, the value of a participant's vested benefits will be paid in a single lump sum distribution. Beginning in 2010, the Plan allowed hardship withdrawals under certain conditions and within limitations specified by the Plan.

Investment of Plan Assets

The Plan provides for participant-directed investment programs that allow participants to choose among various investment alternatives. The participant may select among the various available alternatives and periodically change that selection.

Plan Administration

The Administrative Committee, made up of members appointed by the employers, administers the Plan. Members of the Administrative Committee are not compensated for their services.

NOTE 2 – SUMMARY OF SIGNIFIGANT ACCOUNTING POLICIES (AS RESTATED)

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Fair Value Measurements

Purchases and sales of securities are recorded on a trade-date basis. The Plan measures investments at fair value, which is defined as “the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.” The fair value of collective investment funds is valued at the closing net asset value (NAV) per share of the underlying investments held by the fund less its liabilities.

Income Recognition

Net appreciation (depreciation) includes the plan’s gains and losses on investments bought and sold as well as held during the year. There was no other investment income earned by the plan’s investments during the year.

Expenses

Certain expenses of maintaining the plan are paid directly by the employers and are excluded from these financial statements. Fees related to the administration of distributions following termination, in-service distributions, hardship distributions, are charged directly to the participant's account and are included in distributions paid to participants in the statement of net assets available for benefits. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 3 – RESTATEMENT OF FINANCIAL STATEMENTS

The financial statements have been restated to amend disclosures originally reported and include disclosures otherwise omitted from the originally issued financial statements. See footnotes 1, 2, 4, 7, 8 and 9.

The financial statements were also restated to correct classification errors on the statements of net assets available for benefits and statement of changes in net assets available for benefits to comply with applicable standards. There was no impact to the total net assets available for benefits as a result of the restatements.

NOTE 4 – INVESTMENTS (AS RESTATED)

The Plan administrator has contracted with First Mercantile Trust (the "trustee") to hold and invest Plan assets under the direction of the participants. Investment information disclosed in the accompanying financial statements and supplemental schedule including investments held at December 31, 2011 and 2010, and net depreciation in fair value for the year ended December 31, 2011, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The following information in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to, as complete and accurate, by the trustee.

Investments	$ 16,224,659	$ 17,663,994

During 2011, the plan’s investments in collective funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $359,235.

Investment fees are netted against the appreciation or depreciation in the fair value of investments of the funds and are not separately stated.

NOTE 5 – PLAN TERMINATION

The employer has the right to discontinue contributions to the Plan and to terminate the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested.

NOTE 6 – TAX STATUS

The Company adopted a Prototype Standardized Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan is qualified under Section 401(a) of the Internal Revenue Code (the “Code”) and is exempt from federal income tax under provisions of Section 501(a) of the Code, and from applicable state tax, as state law conforms to the Code.

The open audit periods are 2008 through 2010. The Plan has analyzed the tax positions taken for filing with the Internal Revenue Service and the state of California. The Plan believes that income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the financial statements. Accordingly, the Plan has not recorded any reserves, or related accruals for interest and penalties for uncertain income tax positions at December 31, 2011.

NOTE 7 – FAIR VALUE MEASUREMENTS (AS RESTATED)

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Collective investment trust fund: Valued at daily asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the

investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The fair value hierarchy level under FASB ASC 820 for the Plan's collective investment funds, was classified as Level 1 in the originally issued financial statements. This disclosure has been corrected to report these investments as Level 2 in the restated financial statements.

Fair values of investments measured on a recurring basis at December 31, 2011, are as follows:

		Fair Value Measurements at 12/31/11		
	Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Collective Investment Funds:				
Index funds	$ 2,984,860	$ -	$ 2,984,860	$ -
Balanced funds	7,643,015	-	7,643,015	-
Fixed income funds	5,596,784	-	5,596,784	-
Total	$ 16,224,659	$ -	$ 16,224,659	$ -

Fair values of investments measured on a recurring basis at December 31, 2010, are as follows:

		Fair Value Measurements at 12/31/10		
	Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Collective Investment Funds:				
Index funds	$ 2,890,129	$ -	$ 2,890,129	$ -
Balanced funds	8,946,363	-	8,946,363	-
Fixed income funds	5,827,502	-	5,827,502	-
Total	$ 17,663,994	$ -	$ 17,663,994	$ -

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8 – RISKS AND UNCERTAINTIES (AS RESTATED)

Each investment fund is diversified through a portfolio containing a wide variety of investments that fit the particular investment strategy and targeted composition. Further diversification is available to participants through participation in more than one fund. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Credit risk is considered to be minimal. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near

term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE 9 – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS (AS RESTATED)

The Plan invests in collective investment funds managed by First Mercantile Trust, Co., the trustee as defined by the Plan and, therefore, transactions with First Mercantile Trust, Co. qualify as party in interest transactions. Premier Financial Group provides investment advisory services to the Plan and, therefore, transactions with Premier Financial Group qualify as party in interest transactions. Peery & Associates, Inc. is the third-party administrator of the Plan and, therefore, transactions with Peery & Associates, Inc. qualify as party in interest transactions. Fees incurred by the Plan for the investment management, investment advisory, and third party administrator services are included in the net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, fees related to the administration of distributions are charged directly to participant accounts. The Plan employers pay directly other fees related to the plan's operations.

NOTE 10 – SUBSEQUENT EVENTS

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through April 8, 2014, the date the financial statements were available to be issued.
