1. Description of Plan

The following description of Campus Hollywood, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

a. **General.** The Plan is a single-employer defined contribution retirement plan covering all employees of the Campus Hollywood, Inc. and its subsidiaries (the "Company") who have completed at least one year of employment satisfying plan eligibility requirements, and who are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was formed on February 1, 2003. The Company absorbs all of the Plan administration expenses. In addition, the assets in the Plan are held in a common trust at an insurance company, which trust consists of unrelated plans pooled for investment purposes, at an insurance company. The common trust allows for participant-directed investment programs in such investments as stocks, bonds, short-term securities, and government securities. (See Note 4).

b. **Contributions.** Participants are permitted to make salary deferral contributions on a pre-tax basis not to exceed $17,000 for 2012, and an additional catch-up deferral of $5,500 is available to participants age 50 or older; and subject to certain limitations under the Code. In addition, the Plan permits participants to make certain tax-free transfers (rollovers) received from other tax-qualified plans, subject to Code regulations.

   The Company does not currently contribute to the Plan. Employer contributions, if made in the future are discretionary. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers pooled separate accounts as investment options for participants.

c. **Participant Accounts.** Each participant's account is credited with the participant's contribution and allocations of Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account

d. **Vesting.** Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Company's matching contributions if made in the future, are vested to the participant based upon the participant's years of continuous

1. Description of Plan (continued)

d. **Vesting (continued)**
service. A participant is 100% vested after six years of credited service. All rollovers from a qualified 401(k) plan are immediately 100% vested.

e. **Participant Loans.** Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum $50,000 or 50% of their account balance, reduced by the highest outstanding loan balance during the one-year period ending on the day before the loan is made. Participants are limited to one outstanding loan at a time. Maximum term of any loan is five years. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus two points at the time the loan is authorized. Principal and interest is paid ratably through monthly payroll deductions.

f. **Payment of Benefits.** Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. Distribution (including after-tax contributions) from the Plan can be rolled over to an eligible retirement plan. Participants may elect to have any distribution that is eligible for rollover treatment transferred directly to an eligible retirement plan (a "direct rollover" or "direct transfer").

g. **Operating Expenses.** All expenses of maintaining the Plan are paid by the Company.

h. **Forfeited Accounts.** Forfeited non-vested accounts are used to pay administrative expenses of the Plan or reduce future contributions. As of December 31, 2012 forfeiture balance available for paying administrative expenses was not significant.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared using the accrual basis of accounting. In 2011, the Plan's financial statements were prepared using the cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. This change in basis of accounting is retroactively applied to 2011 and any adjustment to beginning net assets available for benefits as of January 1, 2011 is not material to the financial statements. Presentation of pro-forma information is not necessary.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Income Taxes

In the normal course of business, the Plan is subject to examination by taxing authorities. Generally, the Plan is no longer subject to U.S. federal income tax examinations for years before 2009 or state income tax examinations for years before 2008.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values.

3. Fair Value Measurements (continued)

Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are observable either directly or indirectly and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 2 inputs because they generally provide fair values of the pooled separate accounts that are observable either directly or indirectly. No Level 1 inputs were available to the Plan. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

The majority of the Plan's assets are in pooled separate accounts, the investment options offered by Principal Life Insurance Company, the trustee of the Plan. These pooled separate accounts use Level 2 input fair value measurements. The value of a separate account is its market value less operating expenses accrued but not deducted, if any. If there is no readily available market, its value is the fair value of the underlying investments held in such separate account as determined by Principal Life using generally accepted accounting practices and applicable law. The operating expenses deductible from a separate account include, but are not limited to, custodial fees, transfer taxes, brokerage fees, processing fees and other taxes and fees associated with the operation of the separate account.

Level 3 Fair Value Measurements

Guaranteed interest contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined using an income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

3. Fair Value Measurements (continued)

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

		Fair Value Measurements Using	
	Fair Value	Inputs that are Observable Either Directly or Indirectly (Level 2)	Significant Unobservable Inputs (Level 3)

4. Information Certified by the Plan Trustee

The plan administrator obtained certification from Principal Life Insurance Company (plan trustee) that the following Plan information furnished by them and included in the accompanying financial statements and supplemental schedules is complete and accurate:

Investments as of December 31, 2012 and 2011

Investment transactions, investment income and related transactions for the year ended December 31, 2012.

5. Five-Percent Investments

The following table presents fair value of investments measured on a recurring basis. Investments that represents 5% or more of the Plan's net assets are as follows:

	December 31,	
	2012	2011
Principal Government & HQ Bond	$281,339	$ -
Principal Diversified International	51,820	46,606

Principal Bond Market Index	-	22,536
Principal Large Cap Growth II	-	15,550
Principal Mid Cap Growth III	-	15,703

5 Five-Percent Investments (continued)

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $36,551. All appreciation was related to pooled separate accounts.

6. Investment Contract with Insurance Company

The Plan has a guaranteed investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a pooled account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value, which approximated fair value as of December 31, 2012 and 2011. Contract value, at reported by Principal, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal of transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on an agreed-upon formula with the issuer.

7. Nonexempt (Prohibited) Transactions

During the Plan year ended December 31, 2012, certain participant contributions and loan repayments were remitted late as defined by DOL regulations by the Company to the Plan's trustee, Principal Life Insurance Company. Total late participant contributions and loan repayments for 2012 were $1,537. The related lost earnings in the amount of $9 have been accrued on the accompanying statement of net assets available for benefits. The Company is subject to excise taxes of 15% of the lost earnings.

8. Notes Receivable From Participants

The Plan document authorizes loans to participants on a uniform and nondiscriminatory basis that does not discriminate in favor of highly compensated employees. The notes must bear a reasonable rate of interest and must be at least $1,000 and not more than 50% of the participant account balance. As of December 31, 2012 and 2011, the balance

8. Notes Receivable From Participants (continued)

of notes receivable plus accrued interest from participants amounted to $7,988 and $2,863, respectively, which bore interest rates of 3.25% to 8.25%.

9. Related Party And Parties-In-Interest Transactions

Related parties in interest include Principal Life Insurance Company (the trustee), Automatic Data Processing, Inc. (a payroll service provider), and Campus Hollywood, Inc. (the Plan administrator and the Plan sponsor). Fees paid by the Plan for the investment management services amounted to $0 for the year ended December 31, 2012.

10. Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances.

11. Separated Participants With Vested Benefits

Upon termination, participants are entitled to withdraw or roll-over their vested amounts from the Plan. The vested portion of individual accounts of participants who have left the Company without taking their entitled distribution are held within the Plan until its termination or a claim for benefits is received by the participant. Benefits held within the Plan for participants who have not yet been paid totaled $7,429 as of December 31, 2012 and $9,410 as of December 31, 2011.

12. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 22, 2003 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC), and accordingly, the trust's net investment income is exempt from Federal income taxes. The Plan's tax year ended December 31, 2009 and subsequent remain subject to examination by the Internal Revenue Service.

13. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 to Form 5500:

Net assets available for benefits per the Financial statements	$ 617,392
Less: accrued lost earnings on late deposits	9
Net assets available for benefits per the Form 5500	$ 617,383

The accrued lost earnings on late deposits in the amount of $9 also reconcile total additions per the financial statements of $350,476 to the Form 5500 total income of $350,467 for the year ended December 31, 2012.

14. Subsequent Events

Change of Investment Trustee

Subsequent to December 31, 2012, the plan administrator changed its investment trustee from Principal Life Insurance Company to John Hancock Life Insurance Company.

Date of Management's Review

Subsequent events were evaluated through October 10, 2013, which is the date the financial statements were available to be issued

15. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
