Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2013, that the information provided to the Plan administrator by the trustee is complete and accurate.

The Adam Corporation/Group 401(k) Plan
Notes to Financial Statements
December 31, 2013 and 2012

1. Description of the Plan

The following description of The Adam Corporation/Group 401(k) Plan (the "Plan") provides only general information. An employee of the Company who has satisfied the eligibility requirements and entered the Plan, is a "Participant". A Participant should refer to the Plan Agreement or Summary Plan Document for a more complete description of the Plan's provisions relating to eligibility, vesting service, matching contributions, vesting schedule, in service withdrawals and Participant notes.

General
The Plan was created on April 1, 2005, to provide retirement benefits for eligible employees of The Adam Corporation/Group and subsidiaries and affiliates (collectively referred to as the "Corporation" and each entity individually referred to as the "Company".) The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contribution
A Participant may authorize the Company to make a salary reduction contribution by reducing the employee's salary and contributing to the Plan an amount subject to the limitations of the Internal Revenue Code ("IRC") and the actual deferral percentage tests defined in the Plan. Each year a Participant may contribute up to 100% of their pre-tax compensation, as defined in the Plan, up to the maximum annual deferral limitation amount allowed by IRC of pre-tax annual compensation. A Participant may also contribute amounts representing distributions from other qualified defined benefit or contribution plans ("rollovers"). A Participant over 50 years of age may also make catch up contributions in excess of the annual deferred limitation. For each Participant, annual Participant contributions shall not exceed the maximum deferral percentage computed in accordance with section 401(k) (3) of the IRC.

The Company contributes one dollar for each dollar contributed by the Participant, up to 6% of the Participant's salary.

An eligible Participant will automatically contribute 2% of their pre-tax compensation, as defined in the Plan, unless specifically elected by the Participant.

The Participant directs the investment of their and the Company contributions into various investment options offered by the Plan.

Eligibility
All employees, beginning on the first day of the month following 30 days of consecutive eligibility service, who are twenty-one, are eligible to participate in the Plan.

Participant Accounts
Frontier Trust Company (the "Trustee") maintains an account in the name of each Participant ("Individual Account") which reflects the total value of their vested accrued benefits ("Benefit"). Each Participant's Individual Account is comprised of the following sub accounts (a) Participant contributions, (b) Company contributions, (c) Participant rollover contributions, (d) Participant transfer contributions, and (e) Participant nondeductible contributions. The value of a Participant's Individual Account equals the fair market values of the assets less any applicable charges and penalties. The Benefit represents the accrued benefit, less the portion of the Company contribution that is not vested.

Vesting

A Participant is immediately vested in their contribution and actual earnings thereon, as well as, any rollover. If a Participant terminates employment due to death, disability or attains an age of 65, the Company contribution, as well as any earnings thereon, shall be 100% vested. If a Participant terminates employment due to any reason other than death or disability, vesting in the Company contribution portion of their accrued benefit is based on years of continuous service. A Participant is 100% vested in the Company contribution after five years of eligible service, as defined in the Plan.

Payment of Benefits

A Benefit becomes available to a Participant or Participant's beneficiary upon the earlier event of (1) termination of employment, (2) retirement of the Participant, or (3) death or disability of the Participant. The payment options related to these events are described in detail in the Plan Agreement and the payment of Benefit is recorded when paid.

The timing of the payment of a Benefit after a separation of employment is dependent upon the amount of vested benefits payable. If the value of the Benefit is $5,000 or less, the Company will direct the Benefit to be paid as soon as possible. If the Benefit balance is more than $5,000, the Participant's Individual Account will remain in the Plan until the Participant requests a payment in writing. A distribution is made based on the vested portion of the Participant's Individual Account at the time of the actual distribution.

A Benefit cannot be withdrawn as long as the Participant is employed by the Company except for "hardship" reasons or if the Participant remains employed after reaching the age of 70 ½.

Notes from Participants

A Participant may borrow from their Individual Account a minimum of $500 up to a maximum equal to the lesser of $50,000 or one-half of their vested Benefit with only one loan outstanding at any time. The loans are secured by the remaining balance in the Participant's Individual Account and bear interest of Prime plus 1%. Principal and interest is paid through monthly payroll deduction.

Forfeited Accounts

If a terminated Participant requests a distribution, the non-vested portion of the terminated Participant's benefit is immediately forfeited. If the terminated Participant has neither received a distribution nor has been deemed to receive a distribution and incurs five consecutive breaks in vesting service, the portion of the Participant's Individual Account which is not vested shall be forfeited. A one-year break-in-service is defined as any Plan year in which the Participant does not complete more than 500 hours of service. Any such forfeiture may be utilized to reduce future Company matching contributions. As of December 31, 2013 and 2012, forfeited non-vested accounts totaled $65,601 and $96,750, respectively. For the year ended December 31, 2013, Company matching contributions were reduced by $94,253 from forfeited non-vested accrued benefits.

Plan Termination

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, Participants will become 100% vested in the Corporation contribution and any earnings thereon.

Plan Administrator and Trustee

The general administration of the Plan is performed by the Corporation ("Plan Administrator"), which has broad powers regarding supervision and administration of the Plan. The Trustee is responsible for the administration, management and investment of the Plan, as directed by the Plan Administrator. The Trustee maintains Participant and Company contributions in a pooled account. The pooled account is credited with earnings on the underlying investments and charged for Benefits and distributions paid and administrative expenses of the Trustee. In addition, the Trustee makes all Benefits and distributions payments for the Plan to Participants and Participant beneficiaries, as well as, maintains the investments in the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accounting and financial reporting policies of the Plan conform to accounting principles generally accepted in the United States of America ("GAAP"). The accompanying supplemental schedule is in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Use of estimates and assumptions

In preparing the financial statements the Plan Administrator is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the statements of net assets available for benefits and the reported amounts of additions to and deductions from net assets in the statement of changes in net assets available for benefits. The actual realized results could differ from current estimates and assumptions.

Valuations

The investments and interest in collective trust have been recorded at the fair values as provided by the Trustee. The Plan relies upon the Trustee to determine the fair value of the investments by utilization of quoted market values when available or alternative approaches when market prices are not available, with such valuation techniques consistently applied. While the Plan Administrator believes the Trustee's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value.

Shares of mutual funds are valued daily at quoted market prices which represent the net assets value of shares held by the Plan as of the valuation date. Shares of the collective trust are not actively traded and the Company relies upon the Trustee for valuation. Participant notes are valued at their unpaid principal balances plus any accrued but unpaid interest.

Purchases and sales of securities are recorded on the trade date. Interest income is recorded as earned and dividends are recorded when received. Net appreciation in fair value of investments includes the Plan's gains and losses on investments purchased and sold during the year, as well as held as of year end.

Risk and uncertainties

The Plan invests in various investments, whose underlying securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the near-term could materially affect a Participant's account balance and the amounts reported in the statements of the Net Assets Available for Benefits.

Income Tax Status

The Plan has received an opinion letter from Internal Revenue Service dated March 31, 2008 stating that the Plan is qualified under Section 401(a) of the IRC and therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving this opinion letter, the Plan Administrator believes the Plan is currently being operated in compliance with the applicable provisions of the IRC.

GAAP requires an evaluation of uncertain tax positions taken by the Plan. The Plan Administrator has concluded that as of December 31, 2013, there are no uncertain tax positions taken by the Plan. The Plan is subject to routine examination for federal tax purposes for the years 2010 and forward.

Expenses

Expenses reflect expenditures for administration and operation of the Plan that are not otherwise paid by the Corporation.

Date of Management's Review

Subsequent events were evaluated through July 10, 2014 which is the date the financial statements were available to be issued.

4. Fair Value Measurements

The Plan's investments and interest in collective trust are reported at fair value in the Statements of Net Assets Available for Benefits. The fair value of an asset is the price that would be received to sell that asset in an orderly transaction occurring in the principal market (or most advantageous market in the absence of a principal market) for such asset.

The fair value measurement accounting standard establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

- Level 1 Inputs - Unadjusted quoted prices in active markets for identical assets that the reporting entity has the ability to access as of the measurement date.

- Level 2 Inputs - Inputs that are observable for the asset, either directly or indirectly, other than quoted prices included in Level 1. These inputs might include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the asset (such as interest rates, volatilities, prepayment speeds, credit risks, etc.) or inputs that are derived principally from or corroborated by market data by correlation or other means.

- Level 3 Inputs - Unobservable inputs for determining the fair values of assets that reflect assumptions that market participants would use in pricing the assets.

As of December 31, 2013 and 2012, investments and interest in collective trust are segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value are as follows:

	2013		2012

Investments:				
Large cap	$ 8,052,145	$ -	$ 6,121,429	$ -

	$18,856,296	$2,810,357	$15,648,379	$2,457,718

For the year ended December 31, 2013 the summary of changes in the fair value of the Plan's Level 3 assets are:

	2013
Beginning balance	$ 2,457,718
Gains, net	1,797
Purchases and sales, net	(2,459,515)
Ending balance	$ -

5. Adjustment from Fair Value to Contract Value of Interest in Collective Trust

The Plan invests in the Columbia Trust Stable Govt. I-15, which is a collective trust fund that holds fully benefit responsive investment contracts. As of December 31, 2013 the fair value of the Plan's interest in the collective trust as reported in the Statements of Net Assets Available for Benefits is $2,810,357. The adjustment from fair value to contract value in the collective trust relating to fully benefit responsive investment contracts as of December 31, 2013 and 2012 is $(21,858) and $(90,318), respectively. The adjustment from fair value to contract value represents the Plan's proportionate share of the collective trust's total adjustments, as reported in the December 31, 2013 and 2012 audited financial statements of the collective trust.

6. Party-in-Interest Transactions

Plan investments are managed by the Trustee. Transactions such as these qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction rules.
