AIM MEDIA 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 1. DESCRIPTION OF PLAN

The following description of the Aim Media 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement and Plan amendments for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of Aim Media Texas Operating, LLC (Employer) who have 60 days of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The effective date of the Plan is June 18, 2012.

Contributions. For the Plan year 2013, under a salary reduction agreement, participants may contribute up to $16,500 of pretax annual compensation, as defined in the Plan. Participants who attain age 50 by the end of the plan year may make additional "catch-up" contributions of up to $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Employer will match 50% of employee contributions up to 6% of the participant's compensation. Contributions are by law subject to certain limitations. Any fee or expense paid, directly or indirectly, by the Company is not considered a contribution to the Plan.

Participant Accounts. Each participant's account is credited with the participant's contributions and allocations of (1) the Company's contribution and, (2) Plan earnings or losses and (3) forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's fully vested account.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after four years of credited service.

Investment Options. A participant has the right to direct the Trustee with respect to the investment or re-investment of the assets comprising the participant's individual account.

Participant loans. Participant loans are permitted. Participants are allowed to borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at reasonable rates. The principal and interest is paid ratably over 5 years or longer for the purchase of a primary residence through regularly scheduled payroll deductions.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may withdraw an amount equal to the value of the participant's vested interest in his or her account in one lump-sum payment in cash.

Benefits are recorded when paid.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Principal Financial Group issues to plan sponsors a variety of investment options from which participants may direct the investment of their retirement funds. Most of the investment options are mutual funds for which a quoted market price is available on an active market. Their fair values are based on the closing price reported in the active market where the securities are traded. One investment option is a collective investment trust for which its net asset value is based on the market value of its underlying investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 3. INVESTMENTS

Note 4. NET UNREALIZED GAIN OR LOSS ON INVESTMENTS
The net unrealized gain (loss) on investments was $135,765 in 2012 and $1,097,106 in 2013

Note 5. NOTES RECEIVABLE FROM PARTICIPANTS
Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Note 6. RELATED PARTY TRANSACTIONS

Most plan investments are managed by affiliates of the Principal Financial Group. Principal is the custodian of the Plan assets and, therefore, these transactions qualify as party-in-interest transactions. There were no fees paid or accrued by the Plan for investment management services for the years ended December 31, 2012 and 2013. However, fees of $6,802 and $8,380 were paid to the Principal for administrative services. The CPA firm of Salinas, Allen & Schmitt, LLP conducted the audit of the Plan's financial statements for the year 2012 and 2013 for which The plan sponsor paid audit fees of $8,500 and $7,500 respectively. These transactions also qualify as party-in-interest transactions. Other parties-in-interest include the plan sponsor, Aim Media Texas Operating, LLC., and the plan third party administrator.

Note 7. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. Fair value is a market-based measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information might be available. For other assets and liabilities, observable market transactions and market information might not be available. However, the objective of a fair value measurement is in both cases the same--to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions (that is, an exit price). The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 3 inputs were used in valuing the Plan assets.

Following is a description of the valuation methodologies used for Plan assets measured at fair value.

Level 1 Fair Value Measurements

These are mutual funds for which a quoted market price is available on an active market. Their fair values are based on the closing price reported in the active market where the individual securities are traded. Mutual funds trade within industry standard settlement periods (i.e. T+3).

Level 2 Fair Value Measurement

This is a collective investment trust ("CIT") for which the net asset value ("NAV") is based on the market value of its underlying investments. This fund contains synthetic investment contracts comprised of both underlying investment and contractual components which have observable level 1 or level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. Accounting Standards Codification ("ASC") 820 allows NAV per share to serve as a practical expedient to estimate the fair value of a CIT as long as certain requirements are met. It's Principal's assessment that this CIT meets those requirements. ASC 820 goes on to state that where NAV is allowed to be used as an estimate of fair value, if the reporting entity has the ability to redeem it's investment at NAV as of the measurement date, that investment shall be categorized as a Level 2 fair value measurement. If the investment cannot be redeemed at the measurement date but may be redeemable in the future, but at an uncertain date the investment shall be categorized as a Level 3 fair value measurement. This CIT can be redeemed at NAV as of the measurement date.

Note 9. INCOME TAX STATUS

The Internal Revenue Service has determined in a determination letter that the Prototype Plan described as a Volume Submitter Profit Sharing Plan with CODA submitted by the Principal Financial Group is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The IRS letter indicates that the letter is not a ruling as to whether an employer's plan qualifies under Code section 401 (a). However, an employer that adopts this plan may rely on this letter with respect to the qualification of its plan under Code section 401 (a). The letter also states that the terms of the plan must be followed in operation to remain qualified. The plan administrator believes they have followed the terms of their Plan and it remains a qualified plan.

The Plan's form 5500 is subject to examination by the IRS for the years ending December 31, 2012 and 2013.
