ACME Player Services, LLC 401(k) Plan

Notes to Financial Statements
December 31, 2013

1. Summary Plan Description and Significant Accounting Policies

The following description of the ACME Player Services, LLC 401(k) Plan (the "Plan") provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

General Plan Description

On February 1, 2010 Acme Player Services, LLC (the "Plan Sponsor" or "Company") established the ACME Player Services, LLC 401(k) Plan to provide employees with the means of deferring and saving compensation. The Plan is a defined contribution benefit plan established under Internal Revenue Code section 401.

The Plan's service provider is ADP Retirement Services and the appointed Trustee is State Street Bank and Trust Company.

Plan Eligibility and Contributions

On February 1, 2010, when the Plan was established, there was no minimum service requirement and all employees must be at least age 21 in order to participate in the Plan. Effective March 1, 2010, under the Plan agreement, all employees must also have completed six months of service in order to participate in the Plan. For Plan year 2013, participants may contribute up to $17,500 of their annual income into the Plan, subject to limitations related to discrimination testing. For participants over age of 50, an additional "catch-up" contribution of $5,500 is allowed. All participant contributions are vested when contributed.

Under the Plan agreement, the Company may make a discretionary matching contribution none of which were made in 2013 and 2012.

Generally, participant vesting in Company contributions and related earnings are as follows:

After 2 years of service	20%
After 3 years of service	40%
After 4 years of service	60%
After 5 years of service	80%
After 6 years of service	100%

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles.

Use of Estimates

These financial statements have been prepared in accordance with generally accepted accounting principles that require the use of estimates and assumptions by the Plan's management.

2. Administrator of the Trust-Certified Information

As of December 31, 2013 and 2012, the financial information included in the Plan's financial statements has been derived from information provided by State Street Bank and Trust Company. The Trustee certified these financial information as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

3. Investments

As of December 31, 2013 and 2012, the Plan's investments were held in a trust with State Street Bank and Trust Company. Employee contributions, within the trust, are used to purchase shares in mutual funds and common and collective trusts based upon participant directions. These transactions in some cases represent party in interest transactions as many of the funds purchased by the participants are funds offered by State Street Bank and Trust Company.

The investment options are pooled in separate mutual funds and common and collective trusts of State Street Bank and Trust Company. The assets of these pooled separate accounts are assets of State Street Bank and Trust Company; however, they are not commingled with State Street Bank and Trust Company's general assets. More complete information regarding the Plan's investment options may be found in the individual fund's prospectus.

All investments are stated at fair value (Note 13).

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

4. Plan Termination Option

Although it has not expressed any intent to do so, the Company may terminate the Plan at any time subject to the provisions of ERISA. Upon termination, all participant accounts become fully vested.

5. Administrative Fees

In 2013 and 2012, the Plan paid certain administrative expenses associated with the operations of the Plan in the amount of $2,978 and $2,224, respectively. All other expenses were paid by the Plan Sponsor.

6. Valuation of Investments

Individual account balances are measured in shares, which are multiplied by the daily unit value to arrive at the current market value. Gains or losses are calculated as the change in the daily unit value, multiplied by participation units. Realized gains or losses represent the difference between sales proceeds on sale of investments and the historical cost of the investment. Unrealized gains or losses represent the difference between the investment value at the beginning of the year, or cost if purchased during the year, and the daily unit value at year end.

All net investment gain or loss was derived from registered investment companies and mutual funds. Investment assets greater than 5% of plan assets as of December 31, 2013 and 2012 are as follows:

	2013	2012
BlackRock Global Allocation Fund, Inc.	$ 468,683	$ 374,013

During 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated and depreciated in value by $51,220 and $33,557, respectively, as follows.

	2013	2012
Mutual funds	$ 48,917	$ 32,169
Common/collective trusts	2,303	1,388
	$ 51,220	$ 33,557

7. Participant Loans

Under provisions of the Plan, participants who met the eligibility requirements to participate in the Plan may borrow from $500 up to 50% of the vested account balance. Outstanding loans must be repaid before a new loan can be made. The loans are secured by the balance in the participant's account and bear interest rate at the prime rate as published in The Wall Street Journal on the 14th of each month, plus two percentage points. Repayments of principal and interest are reinvested in accordance with current contribution investment instructions of the participant.

8. Tax Status

The prototype plan used by ADP Inc obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and Trustee believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or other taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2011.

9. Benefits Paid to Participants

In accordance with generally accepted accounting principles, benefits paid to participants are recorded when paid. There were no benefits payable to a participant incurred in 2013 and 2012 but not paid until 2014 and 2013, respectively.

10. Party in Interest

The Plan offers all its investments to participants through State Street Bank and Trust Company, which is a company that is related to the administrator of the trust of the Plan.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

12. Reconciliation of Financial Statements to Form 5500

The following is the reconciliation of the Statement of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits to the Form 5500 as of December 31, 2013:

13. Fair Value Measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013, and 2012.

Mutual funds: Valued at the quoted net asset value of shares held by the plan at year end.

Common/Collective trusts: Valued at unit values provided by investment managers, which are based on the fair value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value of reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of difference methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

13. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2013 and 2012:

	Fair Value Measurements at December 31, 2013

14. Benefit Responsive Investment

The Plan invests in benefit-responsive investment contract through its Stable Asset Fund. Contract value is the relevant measurement attribute for fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. However, investment contracts are reported in the financial statements at fair value. Therefore, the statement of net assets available for benefits is prepared on a fair value basis and then adjusted to the contract value. In 2013, the Invesco Stable Asset Fund had average crediting interest rate of 1.300% and average yield 1.219%. Certain events, such as premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the issuer. The plan administrator believes the occurrence of such events that also would limit the Plan's ability to transact at contract value with plan participants is not probable.

15. Subsequent Events

Subsequent events are events or transactions that occur after the Statements of Net Assets date but before financial statements are issued. The Plan recognizes in the financial statements the effect of all subsequent events that provide additional evidence about conditions that existed at the date of the Statement of Net Assets, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the Statement of Net Assets but arose after the said date and before financial statements are available to be issued.

Plan management has evaluated subsequent events through July 28, 2014 which is the date the financial statements are available to be issued.
