Notes to Financial Statements

1. Description of the Plan

The following description of the Certified Aviation Services, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan providing benefits to all employees of Certified Aviation Services, LLC and Aero-Mark LLC (collectively the Company) who have completed three months of service and are not governed by a collective bargaining agreement under which retirement benefits were the subject of good-faith bargaining, are not nonresident aliens who received no earned income from the Company from U.S. sources, or are not project employees, per diem employees, or on-call employees. Employees may begin contributing to the Plan beginning on the first day of the calendar quarter coinciding with or next following the satisfaction of the eligibility requirements.

Contributions

Under the provisions of the Plan, each active participant may enter into a salary deferral agreement with the Company to defer amounts up to the maximum percentage allowable as determined by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company matching contribution and Company profit-sharing contribution to the Plan for a particular Plan year is determined by the Company annually at its sole discretion. The Company matching contribution is a percentage of the participants' elective deferrals. For the year ended December 31, 2013, the Company elected not to make a matching contribution or profit-sharing contribution to the Plan.

Participant Account

An account is maintained for each participant. The participant's account is credited with the participant's contributions, Company matching contributions, Company profit-sharing contributions, and participant's Plan earnings and losses.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in Company matching contributions and Company profit-sharing contributions is based on years of service. A year of service is given for each Plan year in which a participant performs 1,000 or more hours of service. After two years of service, a participant becomes 20 percent vested. Each service year thereafter will increase the participant's vesting by 20 percent, with 100 percent vesting after six years.

Investment Options

Participants direct employee and Company contributions to their accounts in investment options offered by the Plan. These investment options under Principal Life Insurance Company are comprised of guaranteed investment contracts and pooled separate accounts.

Certified Aviation Services, LLC 401(k) Plan

Notes to Financial Statements

1. Description of the Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts an amount equal to the lesser of $50,000 or 50 percent of the participant's vested account balance. At any time, a participant may only have one loan outstanding. The loan is secured by the vested balance in the participant's account and bears interest at a rate commensurate with local prevailing rates as determined periodically by the Plan Administrator. Interest rates are 5.25 percent. Principal and interest are paid ratably through payroll deductions. Any outstanding loan balance will become due and payable in its entirety upon occurrence of a distributable event.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, participants are entitled to a lump-sum distribution of the value of the vested interest in their accounts. Participants who terminate employment shall receive the value of the vested interest in their accounts as a lump-sum distribution.

Forfeited Accounts

At December 31, 2013, forfeited non-vested accounts totaled $258. There were no forfeited non-vested amounts at December 31, 2012. These funds are available to reduce future employer contributions.

2. Summary of Accounting Policies

The preparation of these financial statements requires Plan management to make estimates and assumptions. Those estimates and assumptions affect the reported amounts of net assets available for benefits, and net appreciation in fair value of investments, as well as disclosures of contingent assets and liabilities. Actual results could differ from those estimates. Plan management has considered events occurring through September 4, 2014 in its evaluation of the conditions on which estimates were based or for changes in conditions subsequent to the date of the statement of net assets available for benefits, which should be disclosed. The financial statements were available to be issued at this date.

Plan management also determines the accounting principles to be used in the preparation of financial statements. A description of the significant accounting policies employed in the preparation of these financial statements follows:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the custodian. See Note 5 for fair value measurements.

Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as investments held during the year.

2. Summary of Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in other expenses, if any. Investment related expenses are included in net appreciation in fair value of investments.

3. Information Certified by the Custodian (Unaudited)

At December 31, 2013 and 2012, the Plan's investments were held by the Custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian as complete and accurate in accordance with Section 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA).

	2013	2012
Investments		
Pooled separate accounts	$ 395,447	$ 274,140
Guaranteed investment contracts	4,022	2,172
	$ 399,469	$ 276,312
Notes receivable from participants	$ 12,461	$ –
Investment income		
Interest income	$ 5	
Net appreciation in fair value of investments	74,154	
	$ 74,159	
Interest income on notes receivable from participants	$ 636	

For the year ended December 31, 2013, the above amounts do not reflect adjustments for accrued but unpaid interest of $6 earned on the notes receivable from participants.

4. Investments (Unaudited)

The fair values of individual investments that represent five percent or more of the Plan's net assets as of December 31 are as follows:

	2013	2012
Principal LifeTime 2030 Separate Account	$ 80,408	$ 54,597
Principal MidCap S&P 400 Index Separate Account	54,902	41,071
Principal SmallCap S&P 600 Index Separate Account	43,242	28,245
Principal LargeCap S&P 500 Index Separate Account	42,074	30,077
Principal MidCap Value I Separate Account	37,861	27,992
Principal LifeTime 2040 Separate Account	25,125	16,903
Principal International I Separate Account	23,426	21,931

During the year ended December 31, 2013, the Plan's pooled separate account investments (including gains and losses on investments bought and sold, as well as investments held during the year) appreciated in value by $74,154.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the Accounting Standards Codification Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs, other than quoted prices, that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2013 and 2012.

- *Pooled separate accounts:* Valued at the net asset value (NAV) of the underlying assets held by the separate account.

- *Guaranteed investment contract:* Valued at contract value which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan Management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Balanced/Asset allocation	$ –	$ 155,183	$ –	$ 155,183
Small/Mid U.S. equity	–	147,698	–	147,698
Large U.S. equity	–	53,285	–	53,285

Total investments at fair value	$ –	$ 383,533	$ 15,936	$ 399,469

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Small/Mid U.S. equity	$ –	$ 108,518	$ –	$ 108,518
Balanced/Asset allocation	–	93,057	–	93,057

Guaranteed investment contract	–	–	2,172	2,172
Total investments at fair value	$ –	$ 264,806	$ 11,506	$ 276,312

5. Fair Value Measurements (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's level 3 investments for the year ended December 31, 2013.

	Pooled Separate Account	Guaranteed Investment Contracts
Balance, December 31, 2012	$ 9,334	$ 2,172
Purchases	4,092	2,445
Sales	(2,578)	(595)
Unrealized gains relating to instruments still held at the reporting date	1,066	–
Balance, December 31, 2013	$ 11,914	$ 4,022

The underlying investments of the pooled separate accounts range from stock and bonds to real estate holdings, as described below. Due to the nature of pooled separate accounts, there are no unfunded commitments or redemption restrictions. Each pooled separate account provides for daily redemption by the Plan with no advance notice requirements.

- *Balanced/Asset allocation accounts* consist of fixed income and equity investments and seek total return consisting of long-term growth of capital and current income.
- *International equity accounts* invest mainly in stocks or shares of ownership in companies with their principal place of business or office outside the United States. The objectives are long-term capital growth.
- *Large U.S. equity accounts* invest mainly in large well-established domestic securities, either directly or through mutual funds. The objectives are long-term capital growth.
- *Small/Mid U.S. equity accounts* invest mainly in stocks or shares of ownership in small to medium-sized U.S. companies. The objectives are long-term capital growth.
- *Fixed income accounts* invest mainly in a combination of bonds, or debt of a company or government entity, along with real estate investments. The objective is to provide higher return than short-term fixed income investments while carrying less overall risk than equities.

6. Related-Party and Party-in-Interest Transactions

The Plan invests in units of pooled separate accounts offered by Principal Life Insurance Company and two guaranteed investment contracts. Principal Life Insurance Company acts as Custodian for only those investments as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Fees incurred by the Plan for investment management services are included as a reduction of the return earned on each investment, as the fees are paid through revenue sharing, rather than paid as a direct payment. As described in Note 2, the Plan Sponsor directly pays any fees related to the Plan's operations.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company matching and profit-sharing contributions.

8. Tax Status

The Plan obtained an opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation to the Form 5500 of the net assets available for benefits per the financial statements at December 31:

	2013	2012
Net asset available for benefits for financial statements	$ 411,930	$ 276,614
Accrued interest on notes receivable from participants	6	–
Net assets available for Plan benefits per Form 5500	$ 411,936	$ 276,614

The following reconciles the change in net assets available for benefits per the financial statements to the net income per the Form 5500 for the year ended December 31, 2013:

Net increase per financial statements	$ 135,316
Accrued interest on notes receivable from participants not reported by the Plan	6
Net income per the Form 5500	$ 135,322
